Key Figures

As our firm continues to grow, we remain committed to driving forward our strategy of delivering sustainable returns through a focus on transformational investing, bespoke client solutions, and positive stakeholder impact.

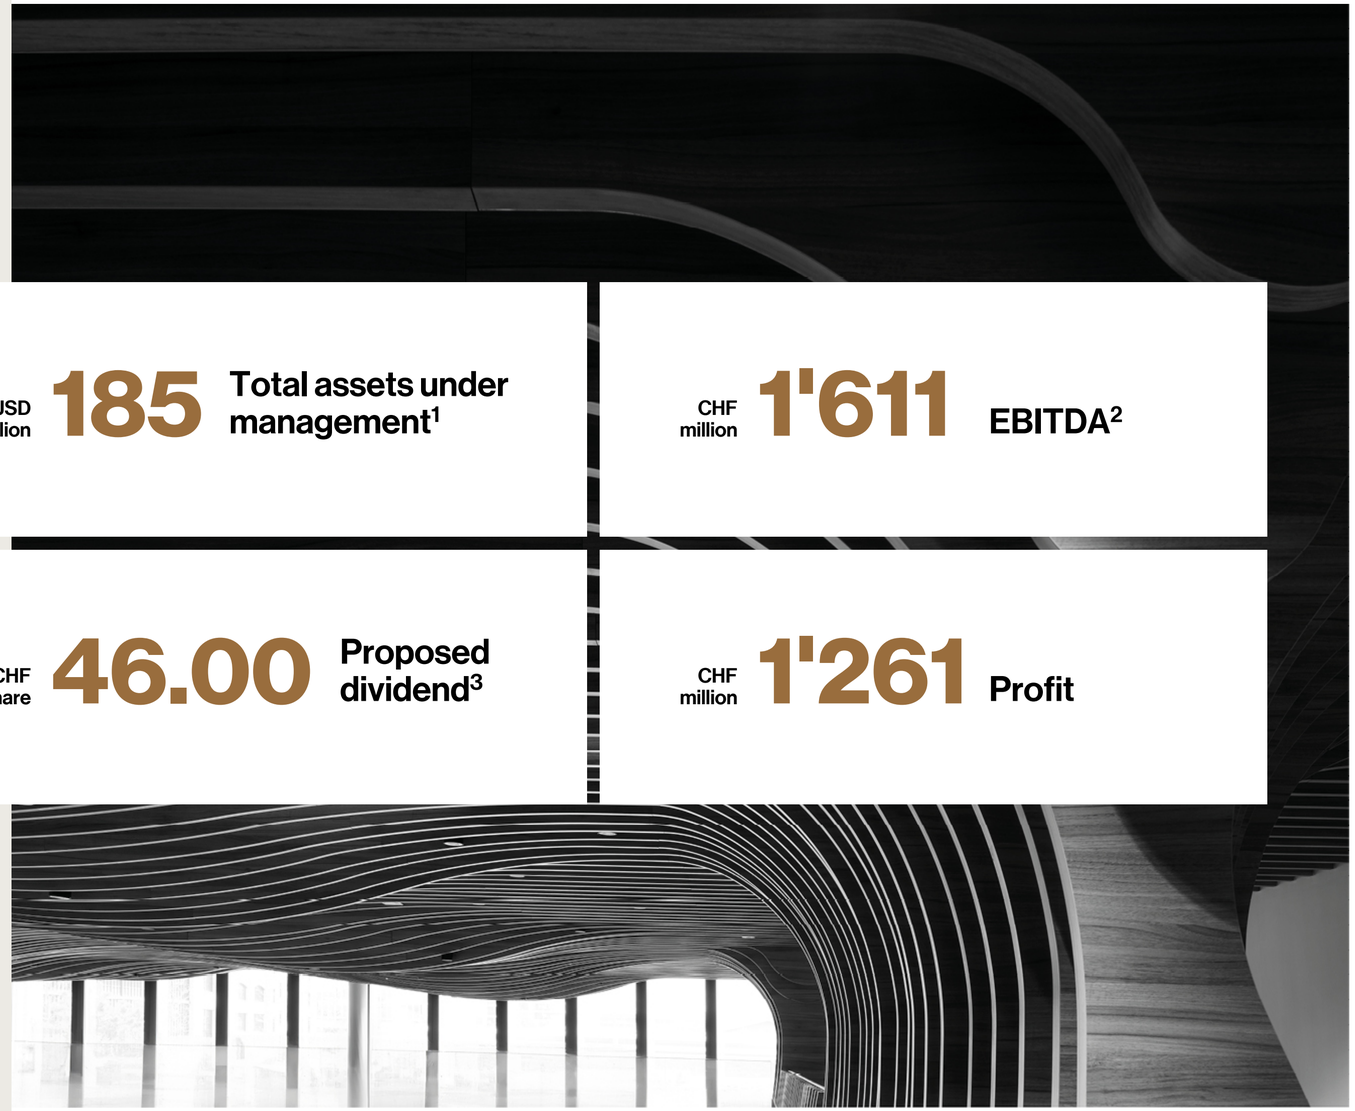

2025 was a transition year as the industry continued to navigate low activity levels and a changing macroeconomic landscape throughout the majority of the period. Despite this complex environment, we are pleased to report a solid set of financial results along with robust operational performance across the businesses and assets under our stewardship.

Message from the Chairman and the CEO

Steffen Meister Executive Chairman (left)
David Layton Chief Executive Officer (right)

Dear clients, business partners, shareholders, and colleagues,

We are delighted to provide an update on the progress that Partners Group made in 2025, a year in which we outpaced the broader private markets industry and proved our credentials as a highly differentiated, all-weather investment firm.

It was a year marked by macroeconomic uncertainty and geopolitical instability, creating a complex business environment for the private markets industry. Despite these headwinds, we delivered on our objectives, achieving double-digit growth across fundraising, investments, and realizations, and gaining market share from our peers.

Our ability to navigate an uncertain market environment resulted in strong client demand. Including the one-off underwritten contribution of USD 4 billion stemming from the acquisition of Empira Group, we were entrusted with new assets of USD 30 billion in 2025, bringing our total assets under management (AuM) to USD 185 billion as of 31 December 2025.

As a result of the continued solid performance of our portfolio of businesses and assets, our strong financial results, and our robust balance sheet, the Board of Directors will propose a dividend of CHF 46.00 per share at the upcoming Annual General Meeting in May 2026. This represents a CHF 4.00 per share increase from the previous year.

Record fundraising year, exceeding 2021 peak

We raised USD 26 billion in new client assets in 2025, a record in our 30-year history and an increase of 22% from the prior year. The evolving client demand dynamics within private markets play directly to our platform strengths as the leading provider of portfolio solutions in the space. Bespoke solutions – including tailored mandates and our evergreen platform – contributed 72% of inflows.

Our mandates business, which has seen a sixfold increase over the past ten years, remains a core pillar of our growth story. 2025 was a record fundraising year for mandates as both existing and new institutional clients increasingly shifted toward bespoke private markets

solutions. Delivering tailored solutions through a unique single-line approach to address the complex needs of a wide variety of clients is only possible with a sophisticated portfolio management platform such as ours. Today, mandates account for 37% of our total AuM.

Similarly, 2025 was a record year for our private wealth business, driven by the strength – and increasingly the breadth – of our evergreen platform. Over the past 20 years, we have launched more than 30 evergreen vehicles across both single- and multi-asset private markets strategies. While our largest and more mature funds have historically driven fundraising, this year the broader platform contributed the majority of our inflows, with several newer evergreen strategies making significant progress. For example, our recently launched next-generation infrastructure strategy surpassed USD 1 billion in AuM, and our newest asset-class strategy, private markets royalties, saw strong global demand.

Active year for transformational investing

In 2025, our investment volume increased by 26% year-over-year, and we originated USD 27 billion of new investments for clients. We benefited from a robust thematic pipeline, particularly within infrastructure, where the digitization-driven growth of energy transition platforms led to increased investment volumes.

In addition, our investment teams took advantage of dislocations caused by continued fundraising challenges across the industry, resulting in less competition and more attractive transaction dynamics in acquiring existing portfolios of assets.

Our transformational investing approach continued to deliver attractive outcomes for clients, as we again reported significant progress in our exit pipeline, with realizations up 47% year-over-year, approaching the high levels seen in 2021. This performance, which is meaningfully above the industry average, underscores the strength of our investment approach and our platform's ability to perform across cycles.

Notably, our shift toward direct investments continues to pay dividends. Direct asset realizations contributed 73% of total realizations and were up 54% year-over-year. On average, our largest direct asset exits were signed at a premium of over 10% to their valuations only six months prior.

Among several notable exits, one example is PCI Pharma Services, a leading global provider of outsourced pharmaceutical supply chain services – an asset with which we have been involved over several ownership cycles. Over eight years, PCI has evolved from a midsized platform into a global leader with over USD 1 billion in revenue. The transformational investment journey with PCI exemplifies our investment philosophy in action: deep industry research translated into a hands-on transformation process with a focus on long-term value creation.

Solid revenue development driven by performance fees

In terms of financials, USD AuM growth of 21% translated into average AuM growth in CHF of +8% year-over-year. Management fees increased by 12% before FX and grew broadly in line with average AuM in CHF, amounting to CHF 1,744 million. Performance fees increased by 60% to CHF 819 million, representing 32% of total revenues. In total, revenues rose by 20%. EBITDA increased proportionally with revenues, rising 19% year-on-year to CHF 1,611 million. Our EBITDA margin remained stable at 63%. Profit for the period amounted to CHF 1,261 million, up 12% year-on-year.

Strategically expanding our platform and distribution reach

Last March we held our first Capital Markets Day since going public in 2006, at which we presented our strategy to grow our assets under management to more than USD 450 billion over this next private markets cycle.

In this next phase, we believe that the ability to tailor multi-asset portfolio programs will be the key driver of allocations. Clients across the spectrum are increasingly demanding holistic and bespoke private markets portfolio solutions in place of single-strategy products. At the same time, an accelerated transformation of the economy driven by rapid technological advances will require a highly active approach to investing and a strong transformational investing skillset. This involves a deep thematic understanding of long-term secular trends to identify attractive assets for acquisition, and, over the course of a hold period, a hands-on active ownership approach in order to transform assets and unlock value.

For example, we have long highlighted that this economic shift would have widespread impact, disrupting sectors such as software services, while leading to heightened demand for essential infrastructure supporting the new economy. As a consequence, we limited our software exposure to less than half the industry average. Simultaneously, we were early adopters of leveraging technology, including AI, in order to strengthen operational models across our investment themes.

We have taken several steps this year to expand our investment platform and distribution reach to support our 2033 ambition. Partners Group has a proven track record of launching new investment strategies to extend our platform

and portfolio solution capabilities. In 2024 we launched our fifth asset class, Private Market Royalties, and over the past two years we have reached a first milestone with 1bn AuM. In addition, in early 2026, we formally launched a Special Opportunities strategy, after successfully pursuing it tactically in the past. This global strategy focuses on providing structured financing for founder-led or growth businesses, investing in highly attractive assets affected by constrained balance sheets, and offering liquidity solutions where traditional capital is unavailable. The strategy will benefit from the expected challenges of businesses in an era of economic transformation and the large wall of refinancings ahead of us.

Industry consolidation across both fundraising and investments will also be a defining feature of the next private markets cycle. To succeed in this changing environment, managers will need to identify scalable partnership opportunities as well as offering expanded solutions. Recognizing that traditional public market asset managers with large, established distribution channels are increasingly looking to add private markets to their product shelves, we have positioned our firm to be the private markets partner of choice for the world's leading financial services firms. In 2025, we announced several joint ventures focused on private markets program creation and distribution. These included a collaboration with Deutsche Bank on its first evergreen private markets fund; a partnership with PGIM, the global investment management business of Prudential Financial, Inc., to deliver a suite of multi-asset portfolio solutions; and a collaboration with Generali Investments on a private credit secondaries fund. In addition, our previously announced partnership with BlackRock has recently launched a first-of-its-kind private markets separately managed account on Morgan Stanley's wealth platforms. These partnerships have already resulted in a fundraising contribution of around USD 1 billion.

Outlook

Our strategy for the next private markets cycle is built around three foundational pillars: continuing to build our transformational investing platform; growing our market-leading bespoke mandate and evergreen fund businesses; and selectively adding high-performance investment strategies (either organically or inorganically) with complementary strengths to our existing platform.

Our 2025 financial results show that we are on track to deliver on our strategic objectives. In a year in which our industry continued to face headwinds, Partners Group laid important groundwork for future growth, and we look ahead to 2026 with confidence. We believe this will be reflected in continued demand for our private markets solutions, and we anticipate total new client assets in the range of USD 26 to 32 billion for the coming year.

As ever, we thank our employees for their dedication to building a leading private markets platform, and our clients, business partners, and shareholders for their continued trust in our firm.

Yours sincerely,

Steffen Meister
Executive Chairman

BluSky Restoration Contractors

Market environment

2025 was a period defined by mixed results and uncertainty for private markets, which continued a tempered recovery amid global headwinds. Against this backdrop, Partners Group gained market share. We increased fundraising, investment activity, and realizations by 22%, 26%, and 47% over the past year, respectively. Our ability to navigate this complex environment and deliver liquidity to our clients is a direct result of our transformational approach to investing and our hands-on value creation.

Partners Group's diversified and disciplined platform remains robust. We benefitted from our extensive thematic pipeline, allowing us to invest USD 27 billion into attractive companies and assets poised to perform across market cycles. Additionally, our entrepreneurial ownership strategy delivered solid outcomes for our clients. We realized USD 26 billion in 2025, comprised mostly of direct equity investments. Notably, across our largest realizations, we generated a premium at exit on average, highlighting the strength of our portfolio. We are business transformers, not merely capital providers, and have conviction in our ability to capitalize on secular growth drivers in private markets in 2026 and beyond.

We invested USD 27 billion into attractive transformative companies and assets

Our approach to building value

At Partners Group, we build differently by leveraging our thematic sourcing approach and our entrepreneurial governance model to drive transformational investing.

Our thematic sourcing, which involves extensive research to identify high-conviction ecosystems underpinned by secular growth tailwinds, is our foundation. Once we identify the theme, we seek to understand which business models are set to be the winners within these areas. Today more than ever, we follow a strict adherence to our thematic sourcing of investments, aiming to originate control investments through our thematic research. At the sourcing stage, we already begin building a value creation plan

which we will further refine with the portfolio company's management post-close.

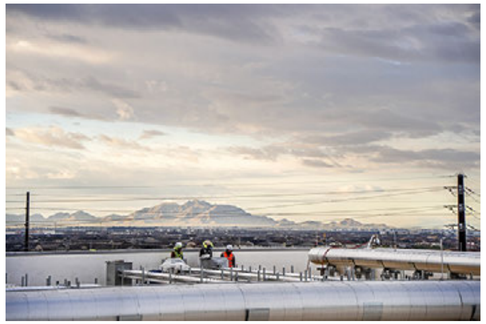

After we take control of a business, our culture is to run that business with the mindset of a founder and entrepreneur to drive fundamental value creation. This is our entrepreneurial governance model. The portfolio company's management, board, and the Partners Group investment team work collaboratively to implement this model, ensuring alignment of both the strategic and operational priorities of the portfolio company.

Finally, with our portfolio management capabilities, we are able to offer a truly diversified portfolio with vintage year, sector, and geographic diversification in any given macroeconomic backdrop. Together we believe our transformational investing approach and leading portfolio solutions capabilities will continue to deliver long-term sustainable returns for our clients.

Investments 2025[1]

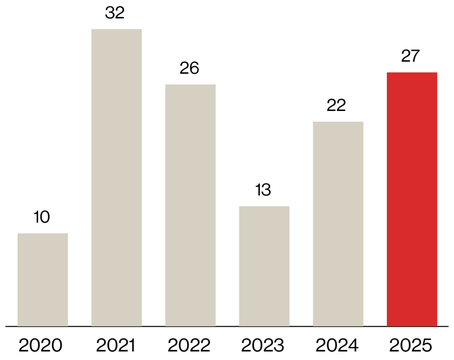

—

In 2025, we invested USD 27.3 billion (2024: USD 21.7 billion) of attractive investment opportunities into private businesses, assets, and portfolios, an increase of 26% versus 2024 levels. We deployed USD 17.8 billion into direct assets (65% of total investment volume), of which USD 12.7 billion was committed as equity and USD 5.1 billion to corporate direct lending.

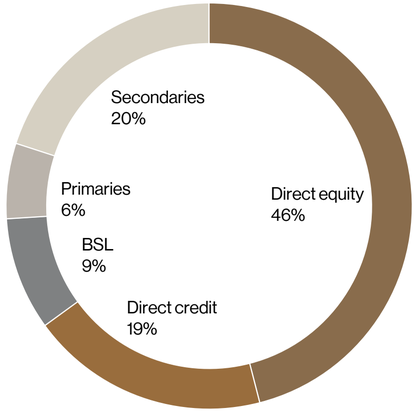

EdgeCore

Partners Group's private markets investments (in USD bn)

To complement our direct investments, we invested USD 9.6 billion into portfolio assets (35% of total investment volume). These portfolio assets include USD 5.3 billion of secondary investments, USD 1.7 billion of select primary commitments to other third-party private markets strategies, and USD 2.5 billion into broadly syndicated loans.

USD 27 billion private markets investments in 2025, shown by investment strategy[2]

In 2025 investments were diversified across geographies with North America accounting for USD 12.8 billion (47%) of all commitments and Europe USD 11.3 billion (41%). We invested the remaining USD 3.2 (12%) in Asia-Pacific and Rest of World.

Note: due to rounding, numbers might not add up.
Note: Diversification does not ensure a profit or protect against loss. There is no assurance that similar investments will be made. Investments selected represent illustrative examples in each of the Partners Group investment themes discussed. A full list of all investments in every asset class is available upon request. There is no assurance that the above stated investment strategies and value creation strategies will occur. Actual performance may vary. Past performance is not indicative of future results. For illustrative purposes only.
[1] All investments referenced herein were made on behalf of our clients. As of 31 December 2025. Figures include add-on investments and syndication partner investments as well as assets raised in the broadly syndicated loan business ("BSL") during the period, which includes collateralized loan obligations and net inflows into dedicated liquid loan investment vehicles, but exclude investments executed for short-term loans (cash management purposes). Prior to 2025, figures exclude syndication partner investments.
[2] As of 31 December 2025. Figures include add-on investments and syndication partner investments. Prior to 2024, figures exclude syndication partner investments. Direct equity investments include all direct private equity, direct infrastructure, and direct real estate investments (including direct secondary transactions where Partners Group has a controlling interest). Private Credit investments include direct lending investments ("direct credit") as well as assets raised in the liquid loans business ("BSL") during the period, which includes collateralized loan obligations and net inflows into dedicated liquid loan investment vehicles. Figures are rounded.

Portfolio performance

Our transformational investment strategy continues to deliver solid performance across our portfolio. The table below presents the Net Asset Value (NAV) development of our realized direct lead and joint lead transactions, net of fees, for the 5-year and 10-year periods ending on 31 December 2025, as well as since inception.

Net returns of realized direct portfolio

	5-year	10-year	Since inception
Private equity[3]	13.3%	19.7%	19.8%
Private credit[4]	7.0%	6.5%	6.7%
Infrastructure[5]	21.7%	20.1%	20.8%
Real estate[6]	1.7%	6.0%	9.3%
Royalties[7]	-	-	14.3%

Private equity

Amid a challenging geopolitical and macroeconomic environment, our direct portfolio achieved a 13.3% net return in the last five years, supported by the underlying operational performance. This result reflects our rigorous focus on long-term value creation to drive business transformation across our portfolio. In a challenging economic environment and an era of accelerating pace of change due to technology and AI, we are confident that proactive ownership and scaling through platform expansion are key drivers of outperformance.

We invested USD 11.2 billion in private equity

In private equity, we invested USD 11.2 billion into attractive well-positioned businesses and assets. Throughout the year, our team remained dedicated to mapping complex ecosystems to identify the most attractive themes driving growth in the real economy. By focusing on businesses with high transformative potential that reside in our domains of thematic expertise, we continue to execute on an investment pipeline capable of delivering sustainable, long-term growth.

One example is our investment into **Infinity Fincorp Solutions** ("Infinity"), a leading non-bank lender in India. Based in Mumbai, Infinity focuses on financial inclusion across India, providing essential capital to under-banked communities. The firm empowers small-scale entrepreneurs and local businesses to scale their operations. With a dedicated team of over 1,500 professionals and a physical footprint of more than 120 branches across eight states, Infinity specializes in delivering tailored secured lending products. At acquisition, the company oversaw approximately INR 12 billion (roughly USD 140 million) in AuM.

Partners Group has invested USD 2.5 billion in India since inception. We have high conviction in the country's non-bank lender market, which benefits from structural trends, such as India's GDP growth and increasing government support, and from thematic tailwinds, including the formalization of lending processes and rapid digitalization.

For the value creation strategy at Infinity, we will leverage our experience working with Aavas Financiers, a leading affordable housing finance provider in India that we acquired in 2016 and exited in 2025, to implement transformational value creation initiatives. These initiatives include accelerating the expansion of the branch network to reach new markets, investing in digital infrastructure to improve client experience, and implementing measures to enhance overall operational efficiency.

As a testament to our long-term value-creation mindset and to support the next phase of growth, Partners Group re-invested into **International Schools Partnership** ("ISP") in October 2025 and will remain a majority shareholder alongside OMERS, who acquired a minority stake in 2021, and CVC Capital Partners, who acquired a 20% stake in the company in 2025.

Partners Group and the ISP management team founded the company in 2013 and have since built it into one of the largest K-12 school platforms globally, educating over 110,000

Figures represent Private Credit investments, which are Partially Realized or Fully Realized, that Partners Group made on behalf of its clientele. All cash flows and valuations have been converted to USD using fixed exchange rates as of the report date. Gross figures are net of all underlying fund fees and carry (if any) but gross of fees to Partners Group. Model net returns assume Partners Group standard management and performance fees and is based on outstanding principal amount. The model net figures do not include the impact of other possible factors such as any taxes incurred by investors, organizational expenses typically incurred at the start of the investment program, search fee, admin fees, ongoing operating costs or expenses incurred by the investment program (e.g. audit, hedging) or cash drag. The performance presented reflects model performance and does not represent performance that any investor actually attained.

[5] Past performance is not indicative of future returns. Figures as of 31 December 2025. Sourced by Partners Group. Figures represent Infrastructure Directs investments, where Partners Group Role is Lead or Joint lead, which are Fully Realized, that Partners Group made on behalf of its clientele. Cross-over deals are partially included in the infra track record based on pro-rata allocation to PG Infra products. Infrastructure Primaries investments exclude no longer pursued strategies like single-country emerging market and small cap (less than USD 500m fund size) sector-focused early-stage development. Infrastructure Secondaries / Directs Joint-invest exclude transactions in which the majority of the underlying exposure supported the exploration, production, refining, transportation or storage of crude oil or refined products. All cash flows and valuations have been converted to USD using fixed exchange rates as of the report date. Gross figures are net of all underlying fund fees and carry (if any) but gross of fees to Partners Group. The model net figures do not include the impact of other possible factors such as any taxes incurred by investors, organizational expenses typically incurred at the start of the investment program, search fee, admin fees, ongoing operating costs or expenses incurred by the investment program (e.g. audit, hedging) or cash drag.

[6] Past performance is not indicative of future returns. There is no assurance that similar results will be achieved. Figures as of 2025-12-31. Sourced by Partners Group. Figures represent Partially Realized or Fully Realized direct real estate investments, which are under the real estate opportunities strategy, that Partners Group made on behalf of its clientele. All cash flows and valuations have been converted to USD using fixed exchange rates as of the report date. Model net returns assume 1.50% management fee, 20% performance fee, and 8% preferred return. The model net figures do not include the impact of other possible factors such as any taxes incurred by investors, organizational expenses typically incurred at the start of the investment program, search fee, admin fees, ongoing operating costs or expenses incurred by the investment program (e.g. audit, hedging) or cash drag. The performance presented reflects model performance and does not represent performance that any investor actually attained.

[7] The unlevered annualized direct royalty investment track record up until 31 December 2025 including the portfolio of direct royalty investments that was built within PG3 AG since 2019 and subsequently transferred over to Partners Group in July 2024. The net returns reflect model performance and are not returns investors have actually achieved. Partners Group Royalties employs a "hold-for-life" investment approach; accordingly, realized performance is not currently representative and is therefore not disclosed for the Royalties strategy.

students in 111 schools across 25 countries. During its ownership, Partners Group's transformational investing approach has focused on delivering quality education and improving teacher satisfaction through technology. For example, we built-out the company's digital infrastructure and created a proprietary online platform, the Learning Hub, for student and teacher development. As a result of our hands-on value creation, we grew EBITDA at a 45% CAGR since founding ISP, underscoring our ability to use technology as a transformational lever.

We maintain our conviction in ISP from thematic and financial standpoints and will continue to drive growth in the next cycle. In our next phase of ownership, we plan to expand the platform and further develop ISP's proprietary software to drive beneficial outcomes for students and teachers alike.

Private credit

Due to very low loss rate compared to the industry, private credit delivered a consistent performance of 7.0% net returns over the past five years (6.7% net returns since inception). The private credit market continues to expand, driven by growing institutional demand and the emergence of larger, more complex transactions. Despite this growth, the environment has become increasingly heterogeneous, and broad-based beta exposure is no longer sufficient to deliver consistent returns. In line with our long-standing approach, we apply private equity style underwriting and assess each opportunity from an owner's perspective rather than that of a purely financial investor. Accordingly, we have declined approximately 90% of prospective investments over the last five years. This disciplined process may extend the investment timeline, but it ensures that risks are appropriately evaluated, downside scenarios are fully understood, and value creation plans and business models are tested for realism and resilience. In the current market, we expect selectivity to be increasingly important, with greater dispersion in returns across managers and strategies.

USD 7.7 billion invested in credit throughout the year

We invested USD 7.7 billion into private credit and liquid loans in 2025. One example is the financing we provided to **Precera Medical** ("Precera"), a medtech contract development and manufacturing organization ("CDMO") based in France. The company specializes in manufacturing components for key original equipment manufacturers ("OEMs") across the orthopedic implants, robotic assisted surgery, and minimally invasive surgery industries. Partners Group has spent years mapping the CDMO ecosystem through our direct equity business. Due to this industry mapping, we were able to identify Precera as a high-quality company in an emerging specialty. Robotic assisted surgery is expected to continue growing at double digit rates driven by the rising incidence of age and obesity-related health issues, demand for minimally invasive procedures, and propensity for OEMs to outsource production.

Precera benefits from sticky customer relationships and high switching costs, which create a strong recurring revenue profile. The company has a track record of growth with key customers, including the two largest orthopedic implant OEMs, and has significantly increased revenue per customer over the past five years.

Infrastructure

Infrastructure has delivered consistent and strong performance, with 21.7% net realized returns over the past five years in line with our long-term performance of 20.8% net returns since inception. Infrastructure has solidified its position as a structural growth market, driven by an urgent and significant demand for reliable energy that intersects with rapid technological advancements.

Life Cycle Power

Amidst this growth, the investment environment has changed. We are operating in a new industry landscape for infrastructure, necessitating the development of next generation utilities. These platforms are essential to solving the energy supply challenges accelerated by technological demand and broader modernization cycles, which have collectively resulted in an estimated USD 9 trillion investment need.

Our strategy is centered on building next-generation platforms that unlock value through operational transformation. We believe that a superior governance model is the primary driver of successful platform evolution and focus on creating dedicated capex programs and management teams with proven operational excellence. By repositioning infrastructure assets to enhance long-term value creation, we continue to capture growth opportunities arising from the energy transition while maintaining the inherent downside mitigation of the asset class.

We invested USD 6.9 billion into new infrastructure assets

In 2025, we invested USD 6.9 billion into new infrastructure assets. One example was our investment into **Life Cycle Power** ("LCP"). Based in Houston, Texas, LCP provides mobile power solutions to a diverse range of clients, including utilities, energy companies, data centers, and large-scale industrial enterprises. The company manages an 897 MW mobile fleet, one of the largest in the US, which offers multi-fuel flexibility, including the use of natural gas. LCP differentiates its market position through a comprehensive "power-as-a-service" model, integrating equipment with essential services such as site engineering, permitting, maintenance, and fuel management under mid- to long-term lease structures.

LCP is well-positioned to capitalize on several structural tailwinds, most notably the rapid expansion of domestic industrial facilities and the surging power requirements of AI-driven data centers. Currently, the speed of data center development is outstripping utility infrastructure planning, resulting in significant delays for grid interconnection. This structural imbalance forces developers and tenants to seek immediate, alternative generation options, making LCP's mobile power solutions a vital bridge for new sites awaiting permanent grid access.

Partners Group intends to partner with LCP's experienced leadership team to establish the company as the leading provider of mobile power for industrial and data center customers nationwide. The strategic growth plan will focus on vertical expansion to scale LCP's footprint in the high-growth data center sector, contract optimization to increase the average contract length for key customers, and fleet investment to expand capacity.

Another example is our investment in **GreenSquare DC**, an Australian data center platform we entered in March 2025. The opportunity aligns with our deliberately selective, decade-long thematic focus on digital infrastructure. The platform builds and operates large-scale, sustainability focused facilities across key Australian cities, with an initial operating site and adjacent land bank in Sydney. We invested to build a globally diversified data center portfolio and will leverage our transformational strategy which has been honed through the development of leading data center assets in other key geographies including Europe, Asia, and the US.

Under our ownership, we will apply our tried-and-tested platform expansion approach to scale GreenSquare DC, supporting the management team in acquiring sites, building a pipeline of future opportunities, establishing customer and supplier relationships, and implementing operational capabilities.

Real estate

The real estate market is navigating a period of significant and ongoing disruption. Although the stabilization of interest rates has provided some relief, structural macroeconomic trends including demographic shifts, digitalization, and decarbonization are continuing to reshape patterns of occupier demand.

To remain at the forefront of these shifting trends, we rely on our thematic investing approach. For example, to benefit from hybrid work and the growing trend of younger generation renting rather than owning properties. Meanwhile, the rapid expansion of e-commerce is driving our investments in industrial properties across key markets. By aligning our portfolio with these high conviction trends, we are working to build resilient platforms despite broader market challenges.

In a rapidly shifting market, our real estate strategy prioritizes vertical integration and specialization to drive the development of unified business platforms. By transitioning from fragmented operations to these integrated models, we are able to unlock operational alpha and achieve superior efficiency across the entire real estate value chain. The adoption of AI and technology has also emerged as a critical value creation lever.

The Hoxton Poblenou Hotel, Barcelona

USD 1.0 billion invested into real estate amid challenging macroeconomic environment

In 2025, we invested USD 1.0 billion in new and existing real estate assets and platforms. In December 2025, for example, Partners Group acquired the **Hoxton Poblenou Hotel** ("The Hoxton") in Spain. The Hoxton is a 240-key, four-star hotel in Barcelona's vibrant 22@ District, an emerging technology hub close to the city center. We believe that the Barcelona hospitality market is uniquely positioned to benefit from several thematic tailwinds. This includes the continued growth of tourism, return of business travel, and long-standing restrictions on new hotel developments in the city center.

Partners Group will oversee the delivery of a transformational value creation plan focused on enhancing group bookings through technological system improvements. The hotel is also set to start realizing the full benefits of its inclusion in Accor's global distribution and loyalty system.

Partners Group invested into the Hoxton alongside Trinity Investments ("Trinity"), a vertically integrated hospitality investor specializing in value-add hotel and resort assets. The Hoxton is Partners Group's fourth investment with Trinity since we acquired a minority stake in the operator in 2023.

Vertical integration drives alpha for investors across all real estate asset sectors. Recognizing the importance of this value creation lever, Partners Group acquired Empira Group ("Empira"), a vertically integrated real estate investment manager headquartered in Switzerland, in January 2025. Founded in 2014, Empira's investment strategies span European residential, build-to-rent, transition-to-green, and real estate credit.

During the first year post-acquisition, Empira sourced and executed on a variety of opportunities across Europe and the US, continuing our efforts to build leading, vertically integrated real estate platforms. One example is our **German Residential Investment Platform**.

We believe that Germany is one of Europe's most attractive residential real estate markets from an investment perspective due to its chronic housing undersupply. The country faces an annual shortfall of over 171,000 housing units.[8] Furthermore, only 8% of pre-2000 buildings meet investment-grade energy standards, presenting a vast opportunity for value creation through modernization.

Empira applies a vertically integrated model to acquire and modernize under-rented, energy-inefficient residential assets in Germany. Properties with low energy ratings (D or E) are upgraded to B ratings through targeted green capex, such as insulation, heating systems, solar panels, and window replacements. These improvements not only align with ESG standards but also unlock regulated rent increases and generate higher returns for our investors.

Looking ahead, we intend to deepen our collaboration with Empira to scale this vertically integrated model across broader European markets. Combining our global platform with Empira's on-the-ground execution, we aim to replicate this success to deliver long-term value for our clients.

Private markets royalties

In 2025, we capitalized on several attractive market opportunities in the royalties space as we continued to build out our diversified royalties portfolio. Partners Group launched its royalties business in 2024 as the industry's first dedicated, scalable multi-sector strategy.

Our research estimates the total private markets royalties opportunity to exceed USD 2 trillion in size. To capitalize on this market opportunity, our royalties investments span multiple sectors such as music, entertainment, pharmaceuticals, sports, energy transition, and carbon reduction, providing low correlation to traditional financial markets. In addition to sector diversification, our team deploys capital through a sophisticated range of structures, from direct asset acquisitions such as the purchase of existing royalties, the creation of new royalties, and lending against royalties. This versatility is a testament to our advanced structuring abilities, and allows for control over payment terms while also offering potential upside driven by the underlying asset's performance.

As a leader in evergreen funds, we can use these perpetual structures to align the lifetime of our investments with the typically long duration of royalty assets. This structure enables us to underwrite assets on a hold-for-life basis, allowing us to achieve our base case returns without depending on an exit.

Over USD 1.0 billion AuM in royalties in two years

Partners Group invested USD 0.6 billion into royalties assets in 2025. One landmark transaction was our financing of global musician **The Weeknd**, where we provided a Royalty Backed Note.

The Weeknd is a world-renowned singer-songwriter and producer who has won four Grammy Awards and 20 Billboard Music Awards. The Weeknd has the highest number of monthly listeners on Spotify of any artist globally at around 120 million, as well as 29 tracks with over 1 billion streams each. The catalogue includes The Weeknd's most streamed song of all time ("Blinding Lights") and the fastest song to reach over 1 billion streams ("Timeless"). This diversified portfolio with continued potential streaming growth provides an attractive cash flow profile for the investment.

A Royalty Backed Note is a debt instrument secured against royalties that enables artists to monetize back catalogues whilst retaining full control over their work. This innovative transaction structure and partnership with Lyric Capital is evidence of our sophisticated structuring and sourcing capabilities, which allow us to execute on best-in-class and off-market opportunities.

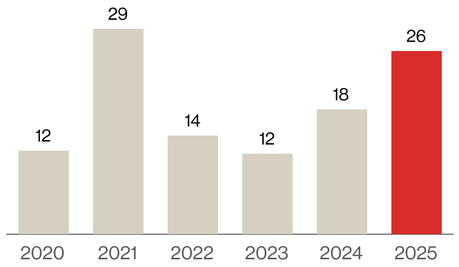

[8] JLL Research, 2025

Realizations in 2025

—

Our portfolio realizations in 2025 amounted to USD 26.0 billion (2024: USD 17.7 billion), marking a 47% increase compared to the previous year. This significant growth was primarily driven by our hands-on transformational value creation initiatives, which enabled us to achieve successful exits even in a challenging market.

Partners Group's portfolio realizations (in USD bn)

We provide further details on a selection of our 2025 exits below.

In October 2025, we sold a minority stake in **PCI Pharma Services** ("PCI"), a global contract manufacturing and development organization ("CDMO"). We originally acquired a majority interest in PCI in 2016 with the ambition of building a global leader in outsourced pharmaceutical services. Our initial thesis recognized the increasing trend among pharmaceutical companies to outsource non-core activities. We saw significant potential in PCI's ability to bridge the gap between drug development and commercialization.

Our ownership period was defined by a rigorous focus on capability expansion and geographic diversification. Partners Group repositioned PCI into higher growth, higher value markets, including a greater focus on patented molecules, augmenting clinical trial service capabilities, and expanding into development and manufacturing.

In 2020, we sold a majority of PCI to a consortium of investors, maintaining a minority stake. During this phase of ownership, PCI expanded into advanced drug delivery services, development and manufacturing of biologics, and sterile fill-finish services. Over the past decade, as a result of these value creation initiatives, PCI transformed from a regional commercial packaging organization into a global CDMO, providing a suite of integrated solutions that "follow the molecule" throughout the continuum of a therapy's full lifecycle.

Another realization in private equity was the full exit of our stake in **Apex Logistics** ("Apex"). Apex is headquartered in Singapore and offers logistics solutions centered on air and sea freight transportation, with warehousing and distribution as auxiliary services. We initially invested in the company in 2021, identifying it as a unique opportunity to back a leading player in the fast-growing cross-border e-commerce logistics market in the Asia-Pacific region. Our investment thesis was predicated on the secular growth of transpacific trade and the increasing demand for specialized, reliable air freight solutions for e-commerce platforms.

The financial performance during our ownership was strong with EBITDA growing by 151% over the course of our five-year hold. Today, Apex has 48 sites worldwide that serve over 20,000 customers in more than 70 countries. The transaction values Apex at an enterprise value of over USD 4 billion, cementing its status as one of the premier logistics providers in the Asian market. Following the sale of a majority stake in 2025 to a strategic investor, we remained an active partner to support the post-merger integration. We worked with the strategic partner on a shared vision to transform Apex into a global logistics platform, driving strategy and value creation with operational improvements regarding route optimization and the expansion of dedicated charter capacities.

Apex Logistics

On the infrastructure side, we agreed to the sale of **Greenlink Interconnector** ("Greenlink") in March 2025, which valued the asset at over EUR 1 billion. Greenlink is a 504 megawatt subsea electricity interconnector connecting Great Britain and Ireland. Partners Group acquired a controlling stake in Greenlink in 2019 before taking full ownership in 2021.

We developed the platform from the ground-up, leading it through financial close and construction to initial commercial operations, which we reached on time in early 2025. Greenlink is the first project-financed interconnector to be completed in Europe. The operational interconnector is a critical piece of energy infrastructure, providing a nominal capacity equivalent to powering 380,000 homes. The platform lies at the intersection of

grid stability and energy transition, two important thematic areas. It provides energy security for Ireland while facilitating the integration of renewable energy sources across the region.

In November 2025, we successfully listed **Esentia Energy Systems** ("Esentia") on the Mexican Stock Exchange (BMV) under the ticker “ESENTIA”, marking the largest IPO in Latin America that year. Esentia is a leading fully integrated natural gas pipeline network in Mexico. Our investment dates back to 2014 and was based on the need for infrastructure to connect the low-cost Waha basin in Texas with Mexico’s growing industrial and power generation markets.

Throughout our ownership, we worked with management to transform Esentia from a developer of individual pipeline assets into an integrated operator of critical energy infrastructure. Our value creation initiatives focused on network expansion and operational optimization, including the development of the El Encino–La Laguna pipeline. As a result, the system expanded from 508 kilometers to more than 2,000 kilometers, increasing total transport capacity by over 6x and strengthening the business through a portfolio of long-term take-or-pay contracts with tenors of 20–35 years.

Today, Esentia transports roughly 16% of Mexico’s daily natural gas demand. Following the IPO, we retained a majority controlling interest to continue supporting the company’s next phase of growth.

Annual General Meeting 2025, Partners Group campus | Baar-Zug, Switzerland

Fundraising environment

In a fundraising environment that remained challenged by limited liquidity, we were pleased to be able to deliver continued, solid AuM growth of 21% year-over-year. Industry-wide, global fundraising activity remained muted, down 4% from the previous year and 31% below the 2021 industry peak.[1] In contrast, Partners Group delivered 22% year-on year fundraising growth compared to 2024 and exceeded its prior 2021 peak. This outperformance highlights that during a period of constrained liquidity and longer client conversion periods, a disproportionate share of commitments continues to be allocated to well-established, diversified platforms such as Partners Group. Increasingly, fundraising is concentrating among larger firms that offer scale, stability, and a proven track record necessary to navigate a complex market environment across cycles. A significant driver of our resilience has been our ability to capture diversified pools of capital. With our bespoke solutions offering Partners Group is uniquely positioned to provide institutional-quality private markets access to a broader range of institutional and private wealth investors. As a provider of differentiated solutions across private markets asset classes, we have gained market share in an environment of lower overall fundraising activity. We also announced several strategic programs distributions with leading global financial institutions. By leveraging our solution-building capabilities and diversified capital pools, Partners Group remains well-positioned to continue this growth trajectory.

Partners Group AuM

[1] Fundraising across private equity, infrastructure, real estate and private credit; Preqin data.

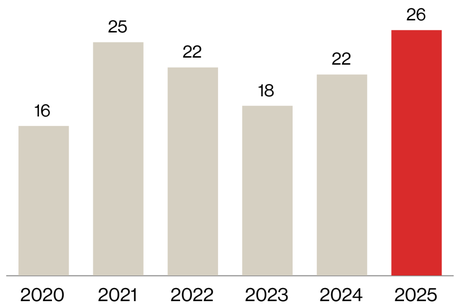

Clients

—

Robust client demand for our bespoke solutions highlighted the strength of our integrated platform as we delivered a record year for both mandate and private wealth fundraising.

Client demand resulted in total new commitments of USD 26.2 billion in 2025 (31 December 2024: 21.5 billion). With a one-off underwritten AuM contribution of USD 4.0 billion stemming from the acquisition of Empira Group, gross new assets stood at USD 30.2 billion in 2025. As a result, our total AuM increased 21% year-on-year to USD 184.9 billion as of 31 December 2025 (31 December 2024: USD 152.3 billion). Excluding FX and other[2] effects this translates into an increase of 14% over the period.

Partners Group fundraising (USD bn)

Beyond new commitments, AuM growth also benefited from other factors, such as the solid performance of Partners Group's private markets portfolios through programs that link AuM to NAV development, which contributed USD 7.6 billion.[3]

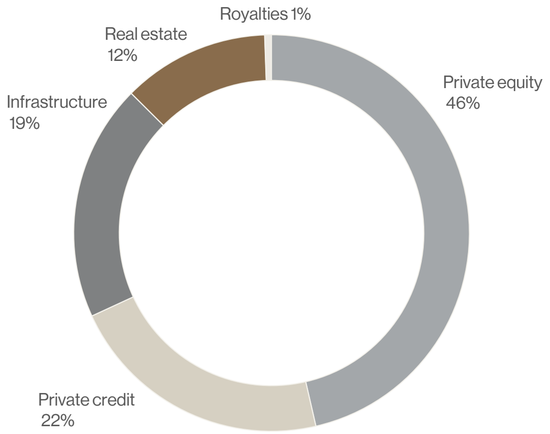

Offsetting this were tail downs from mature programs (USD -8.7 billion) and redemptions in evergreen strategies (USD -6.0 billion). Foreign exchange movements added USD 9.5 billion, mainly reflecting EUR appreciation against USD.

The breakdown of total AuM across asset classes as of 31 December 2025 is as follows: USD 85.8 billion in private equity, USD 40.2 billion in private credit, USD 35.7 billion in infrastructure, USD 22.2 billion in real estate, and USD 1.0 billion in royalties.

Annual General Meeting 2025, Partners Group campus | Baar-Zug, Switzerland

AuM by asset class (as of 31 December 2025)

Fundraising in 2025 was led by our equity asset classes, with **private equity** and **infrastructure** representing 53% of total new commitments (USD 13.9 billion). Private equity contributed USD 8.2 billion, while infrastructure added USD 5.6 billion, both supported by sustained institutional demand for mandates and strong private wealth appetite for evergreen solutions. A notable highlight were inflows into our infrastructure evergreen offering launched in 2024, which reached over USD 1 billion in assets under management in two years.

Private credit contributed USD 9.6 billion, representing 36% of total new commitments. Fundraising grew by 36% year-on-year, driven primarily by institutional demand for bespoke mandates.

AuM growth and client demand (USD bn)[4]

	AuM 2025	Last 5yr. CAGR	Gross client demand 2025
Private equity	85.8	10.6%	8.2
Private credit	40.2	10.1%	9.6
Infrastructure	35.7	17.9%	5.6
Real estate	22.2	5.7%	6.2[5]
Royalties	1.0	-	0.6
Total	**184.9**	**11.1%**	**30.2**

Real estate fundraising totaled USD 2.2 billion in 2025, representing 8% of annual commitments. This marks a 75% increase from the prior year supported by the cross-sell of Empira's fund offering. This positive momentum highlights the early catalytic impact of our inorganic strategic expansion through the integration of Empira.

Private markets royalties contributed USD 0.6 billion, accounting for 2% of total fundraising. Building on the successful build-out of the seed portfolio in 2024, our royalties offering continued to gain strong traction throughout the year. Demand broadened across both private wealth and institutional channels, reflecting growing confidence in the strategy's scalability and its ability to offer differentiated exposure within investors' private markets portfolios.

[2] Includes performance-related effects on programs that link AuM to NAV, changes in selected investment programs, and redemptions, which predominantly stem from evergreen programs.
[3] Partners Group reports fee-paying AuM. Most of the firm's evergreen programs base fees on NAV. The portfolio performance during the period impacts the NAV of these products and this translates to a corresponding change in firm-level AuM. Full-year AuM numbers for evergreen programs are typically based on 30 November 2025 NAV valuations.
[4] Due to rounding, numbers might not add up.
[5] Including USD 4.0bn of underwritten contribution from Empira Group acquisition.

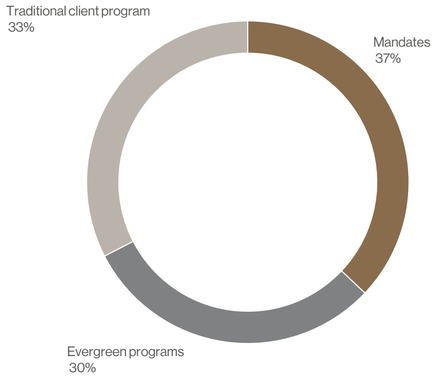

Client demand by product structure

Managing over 350 diverse private markets portfolios in different stages of their lifecycle across all private market asset classes is our strength and a key differentiator for our firm. Our ability to create and actively manage bespoke programs via mandates and evergreen programs that match different clients' targets remains unmatched in the industry. These bespoke solutions accounted for 72% of our 2025 fundraising. Over the last decade bespoke solutions constantly contributed more than 50% of fundraising rising to over 70% in the past three years.

In 2025, **mandates** reached a record year with USD 9.4 billion representing 36% of new client commitments. These relationships are typically long-term in nature and often expand over time as clients increase their allocations. Our differentiated portfolio management capabilities allow us to tailor investment content to each client's specific risk/return goals and investment pace, enabling us to deliver consistent results through varying market environments. Mandates represent 37% of Partners Group's total AuM (USD 68.5 billion).

Evergreen fundraising also reached a record level in 2025 with USD 9.4 billion, a 12% year-on-year growth, contributing 36% of total new commitments. These strategies offer enhanced liquidity and broaden access to private markets for private wealth clients, an area in which

AuM by program structure
(as of 31 December 2025)

Partners Group has been a global leader for more than two decades. Historically, evergreen fundraising has been highly concentrated, with the top three funds representing 77% of inflows in 2015 and 68% in 2020. As the platform expanded, investor demand has become increasingly diversified. In 2025, our three largest evergreen programs accounted for 41% of inflows, while the remaining programs contributed the majority (59%). Over the past 20 years, we have launched more than 30 evergreen vehicles, creating a broad and resilient evergreen offering. As of 31 December 2025, evergreen programs represent 30% of total AuM (USD 56.2 billion).

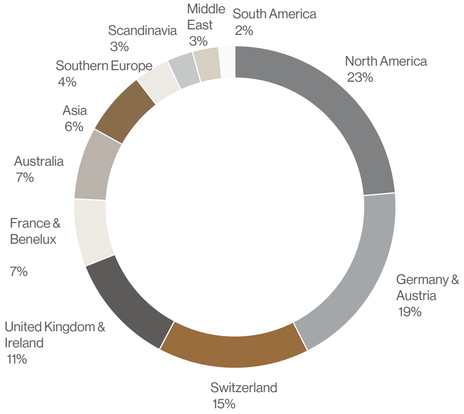

Alongside these bespoke solutions, we continue to offer **traditional** commingled funds with multiple investors. These vehicles, generally structured as limited partnerships with defined investment periods, have been the segment most affected by slower client conversion across the industry. Nevertheless, we experienced robust demand in 2025, with traditional private markets programs contributing 28% of total inflows (USD 7.5 billion), representing year-on-year growth of 57%. Overall, 33% of our AuM (USD 60.2 billion) is invested through these traditional programs.

Client demand by region and by type

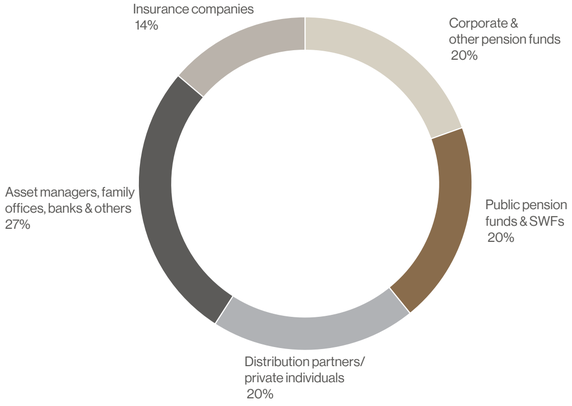

Across all three of our program structures, our client base remains broadly diversified and international, spanning a wide range of investor types.

The majority of our AuM stems from institutional clients such as corporate, public, and other pension funds, as well as sovereign wealth funds and insurance companies. These institutional investors often invest via bespoke solutions or traditional long term closed-ended private markets programs. We continue to see strong interest from distribution partners who represent private individuals and smaller institutional investors. These client groups increasingly recognize the benefits of private markets and aim to mirror the allocations of larger institutional investors in their own investment portfolios. Typically, these clients access private markets through open-ended programs with limited liquidity features (evergreen programs).

(as of 31 December 2025)

Example evolution of one client's portfolio NAV and asset allocation in an existing evergreen mandate[6]

—

Mandates are long-term strategic relationships which are ideal for clients with highly specific needs. At Partners Group, we can tailor each client's individual mandate to match their target asset allocation and return profile. Over time we can adapt the mandate's asset allocation in response to a changing market environment or investment goals. In the mandate below, the client chose to shift their allocation from a focus on private equity secondaries and real estate to direct private equity and infrastructure over a 10-year period.[7]

Our differentiated portfolio management capabilities allow us to build these dynamic mandates which, rather than being dependent on individual traditional funds for allocations, receive single-line asset allocations. Once an asset has been exited, we can plug in a new asset, thereby ensuring our clients' money is actively invested and working for them throughout the years and alleviating the effects of the J-curve. Below is one client's allocation.[8]

[6] Past performance is not indicative of future results. For illustrative purposes only. There is no assurance that similar results will be achieved in the future. Diversification does not ensure a profit or protection against loss. Investments in funds are speculative and will involve significant risks.
[7] Actual client mandate. NAV, asset allocation, and single-line investments as of 31 December 2025. Chart 1 illustrates the evolution of the client's mandate asset allocation from 31 December 2012 to 31 December 2025.
[8] Inside chart layer illustrates asset allocation across infrastructure, private equity, real estate, private credit and royalties. Outside chart layer illustrates single-line participations in direct, secondary and primary investments. Other clients may have similar or different allocations.

Outlook 2026

—

We expect the growth trajectory of private markets to remain robust, supported by strong and diversified opportunities across regions, asset classes, client types, and product structures.

For full-year 2026, the firm expects to raise between USD 26 to 32 billion, based on a large and visible fundraising pipeline across private wealth and insurance channels, as well as several strategic collaboration initiatives. Tail-down effects from more mature closed-ended programs are projected at USD -10 to -13 billion.

With our conviction in the long-term outlook for private markets, combined with our strong investment performance, proven track record, and continued commitment to client service excellence, we believe we are well-positioned to remain a partner of choice for global investors.

Ammega

Note: due to rounding, numbers might not add up.
[1] In this report, 2025 and 2024 total operating costs exclude depreciation & amortization.

Partners Group grew total AuM to USD 185 billion, representing a growth rate of 21% year-on-year. In our reporting currency, this growth translated into an average AuM growth in CHF of 8% year-on-year. Management fees increased by 12% on a constant-currency basis and 7% on a reported basis, amounting to CHF 1'744 million and developing broadly in line with average AuM in CHF. Performance fees increased 60% to CHF 819 million, representing 32% of total revenues. The marked increase resulted from an improvement in the exit environment in combination with strong value creation across our portfolio. Taken together, total revenues rose by 20% to CHF 2'563 million in 2025.

Over the same period, total operating costs[1] increased by 22% to CHF 953 million, primarily driven by performance fee-funded personal expenses and the integration of Empira Group. Performance fee-funded personal expenses increased 60% to CHF 298 million in line with performance fees up 60%. Altogether, EBITDA increased by 19% year-on-year to CHF 1'611 million. Our EBITDA margin was at 62.8%. Profit for the period amounted to CHF 1'261 million, increasing 12%.

For the financial year 2025, the Board proposes a dividend increase of 10% to CHF 46.00 per share based on the firm's strong revenue development and a confident growth outlook across all business lines.

[1] As of 2026, Partners Group will adopt IFRS 18 and report performance fees together with investment income as performance income. The guidance will therefore be for performance income to represent 25-40% of total revenues.
[2] Based on average AuM, calculated on a daily basis.
[3] Revenues from management services, net, including other operating income.
[4] Management fees and other revenues, net, and other operating income.
[5] Management Fee EBITDA is defined in the key definitions and alternative performance metrics section of the Annual Report 2025 (pages 36-38).
[6] Management Fee EBIT is defined in the key definitions and alternative performance metrics section of the Annual Report 2025 (pages 36-38).

Performance income[1] expected to account for **25-40%** of revenues for 2026

Management fee growth in line with average AuM growth

—

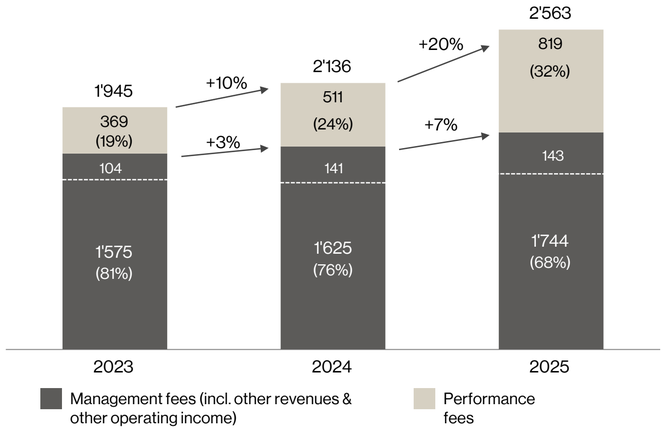

Management fees increased by 12% on a constant-currency basis and 7% on a reported basis, in line with average AuM in CHF (+8%), amounting to CHF 1'744 million (2024: CHF 1'625 million) or 68% of total revenues (2024: 76%). Other revenues & operating income increased by 2% to CHF 143 million (2024: CHF 141 million). Management fee growth was adversely impacted by a strengthening of the CHF against the USD and EUR[7].

Management fee margin stability due to pricing discipline

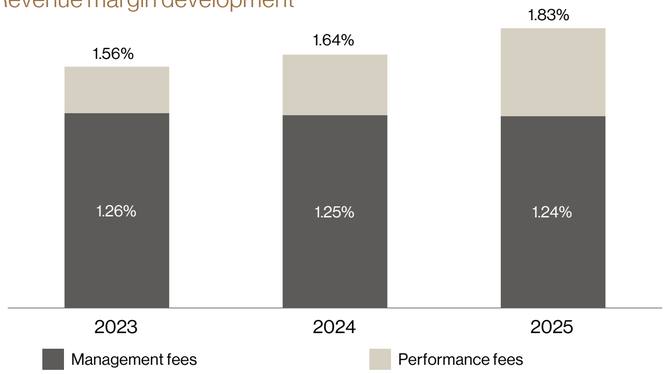

—

Since our IPO, our management fee margin has been stable between 1.18% and 1.33%, amounting to 1.24% in 2025. This confirms the value clients place in our solutions and allows us to benefit from pricing stability. In any given period, the management fee margin depends on our recurring management fee and the other operating income. The recurring management fee can vary slightly depending on the mix of assets raised across asset classes and products. The relatively higher 2025 performance fees brought the total revenue margin to 1.83% (2024: 1.64%).

Revenues[8] (in CHF million)

Revenue margin development[9]

We expect **Management fees** in CHF to grow in line with the **average AuM** in CHF

[7] Refers to average LTM FX rates.
[8] Revenues include management fees, net, and performance fees, net. Management fees include other revenues, net, and other operating income. Due to rounding, numbers might not add up.
[9] Calculated as revenues divided by average assets under management, on a daily basis.

Management fees derived from our three key private markets solutions

—

Today, we manage over 350 diverse private markets portfolios in different stages of their lifecycle across all private market asset classes contributing to our highly diversified management fees. These broadly fall under three main categories: first, mandates for institutions, which enable us to guide multi-asset class investment exposure aligned with long-term client goals and investment horizons; second, evergreen programs, which allow investors immediate, comprehensive private markets access from day one; and third, closed-ended limited partnerships.

- **Mandates** (37% of AuM) are long-term significant relationships between Partners Group and institutional investors. In these relationships, Partners Group manages an investment program tailored for the client's specific needs. Management fees are typically charged on investment exposure via long-term partnerships, which are often not limited to a specific contractual life and will continue or increase for a perpetual term, unless new investments are discontinued.
- **Evergreen programs** (30% of AuM) cater predominantly to wealth clients and smaller institutional investors and provide access to various private markets asset classes under the form of funds with limited liquidity. Management fees are typically charged on the fund's investment exposure.[10]
- **Traditional programs** (33% of AuM) are long-term closed-ended investment partnerships typically represented by our traditional flagship programs. For these programs, management fees are recurring as they are based on long-term client contracts, often with an initial term of 10-12 years for closed-ended equity offerings and 5-7 years for closed-ended credit offerings.

Performance fees remain highly diversified

—

Performance fees represented 32% of total revenues (2024: 24%), or CHF 819 million (2024: CHF 511 million).

Performance fees were driven by dozens of underlying direct assets and hundreds of portfolio assets across regions and sectors. Overall, more than 80 investment programs and mandates with portfolios diversified across vintage years contributed to performance fees in 2025.

Of our 350+ programs, over 80 contributed to performance fees in 2025

[10] Gating provisions are a standard feature of these evergreen programs in order to protect remaining investors as well as performance; net redemptions in these investment programs are typically limited to 20-25% p.a. of the prevailing net asset value, depending on the investment strategy and content of the program. When deemed in the best interest of the investment program, stricter gating rules can be enforced for select share classes for a period of up to two years.

Private equity performance fees +45% driven by strong realizations and value creation

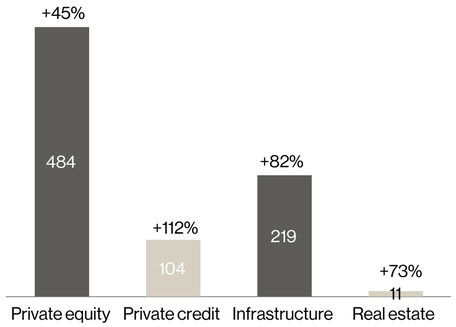

Across our asset classes, private equity contributed the largest amount of performance fees, increasing 45% year-on-year. The significant growth was primarily driven by our direct portfolio. Our transformational investing approach yielded strong results, enabling the exit of several large direct assets. Additionally, our value creation efforts led to an uplift of asset values in our evergreen programs during the latter half of the year, further contributing to the overall growth in performance fees.

Performance fees from private credit increased by 112% year-on-year. As credits in private markets are almost exclusively floating rate, this asset class continued to benefit from higher base rates as well as increased refinancing activity in 2025 which allowed us to realize value for our clients.

Infrastructure was the second largest contributor to performance fees in 2025 with an increase of 82% versus 2024. This growth was primarily driven by traditional programs and mandates where our direct infrastructure portfolio has begun to enter its realization phase, providing further support to the strong performance fee momentum.

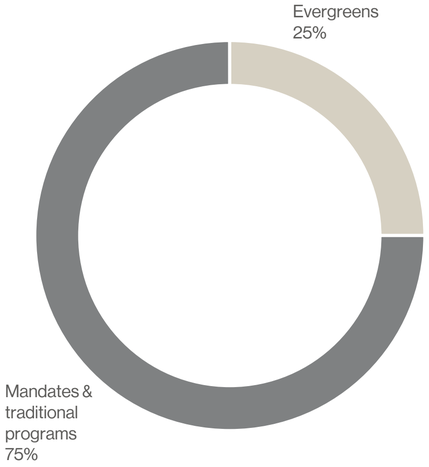

Real estate performance fees increased by 73% but remain at low levels as the sector is going through the most disruptive changes in decades driven by structural changes impacting occupier demand. The majority of the underlying programs are not currently in performance fee mode.

Performance fee development per asset class in 2025 (in CHF million, year-on-year in %)[11]

Evergreen programs, which recognize performance fees through a High Water Mark (HWM) mechanism, accounted for 25% of total performance fees in 2025. Performance fees were driven mainly by strong direct exits in our private equity and infrastructure portfolios across program types, supported by a more constructive realization environment. As a result, mandates and traditional programs captured the remaining 75% of performance fees, benefitting most from these successful realizations.

Performance fees by strategy in 2025

Our approach in recognizing performance fees

In closed-ended investment programs, performance fees are typically charged only once investments are realized and a pre-defined return hurdle rate has been exceeded. To further ensure a very low probability of reversing realized performance fees, we stress-test unrealized investments by applying significant discounts to net asset values ("NAVs") of single assets (typically 50% and up to 100%) to assess whether the hurdle rates will still be reached despite these hypothetical mark-downs. These stress tests are driven by a number of factors including macroeconomic circumstances, bottom-up asset analyses, and portfolio-level data. The performance fee recognition methodology for closed-ended programs as well as open-ended evergreen solutions is explained in detail on pages 32 to 34, as well as in note 1.1. of the notes to the consolidated financial statements.

[11] Compared to previous years, the firm refined the segment allocation of revenues related to its multi-segment investment programs, which is reflected in the variances.

EBIT in line with revenues[12,13]

In millions of Swiss francs	2025		2024

Performance fee-funded	(298)	+60%	(186)
Other operating expenses	(137)	+14%	(120)
EBITDA	**1'611**	**+19%**	**1'357**
EBITDA margin	62.8%		63.6%
Depreciation & amortization	(69)	+43%	(49)
EBIT	**1'541**	**+18%**	**1'309**
EBIT margin	60.1%		61.3%
Average FTEs	2'008	+10%	1'820
Period-end FTEs	2'027	+14%	1'775

Total costs

—

In 2025, total operating costs[14] increased by 22% to CHF 953 million (2024: CHF 778 million). The increase was mainly driven by higher variable performance fee-funded personnel expenses.

Personnel expenses

—

Personnel expenses increased by 24%, in line with revenues, and consist of both management fee- and performance fee-funded expenses. They represented 86% of total operating costs and amounted to CHF 816 million (2024: CHF 658 million).

1. **Management fee-funded personnel expenses** increased by 10% to CHF 517 million (2024: CHF 472 million). Over the same time period, the average number of FTEs increased by 10% standing at 2'008 (2024: 1'820 average FTEs) as of 31 December 2025 due to the integration of Empira Group and investment in personnel to support the continued growth of our platform and private wealth solutions.

2. **Performance fee-funded personnel expenses** increased 60% to CHF 298 million, in line with performance fee development of +60%. Performance fees and performance fee-funded expenses have a direct relationship to each other as we allocate up to 40% of all performance fees to our employees. As a result, these two elements move in tandem.

Other operating expenses

—

Other operating expenses increased 14% and amounted to CHF 137 million (2024: CHF 120 million), while management fees grew at 7% on a reported basis. The difference was mainly attributable to the integration of Empira.

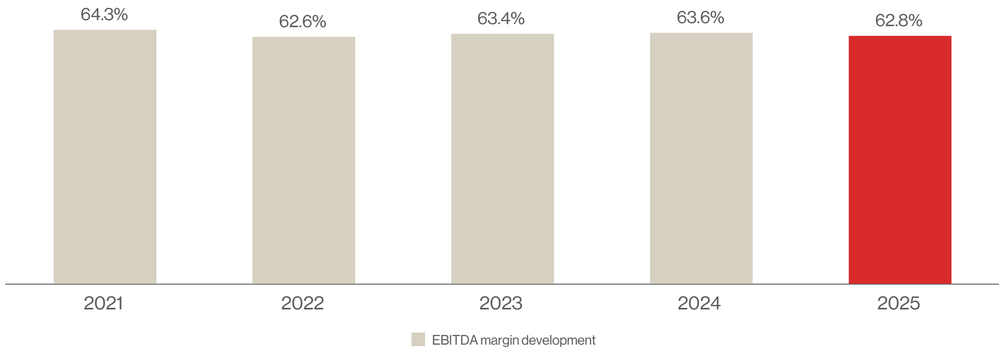

EBITDA margin stable at 63%

—

EBITDA increased by 19%, in line with revenues, amounting to CHF 1'611 million (2024: CHF 1'357 million) at an EBITDA margin of 62.8% (2024: 63.6%). The EBITDA margin was slightly impacted by FX and the integration of our acquisition of Empira Group.

Over the last five years, Partners Group's EBITDA margin has been stable at around 63%. Our approach to cost management remains unchanged and we will continue to apply an operating margin of approximately 60% for newly generated management fees (assuming stable foreign exchange rates) and performance fees.

EBITDA margin development

[12] Revenues include management fees and other revenues, net, performance fees, net, and other operating income. Management fee-funded personnel expenses exclude performance fee-funded personnel expenses. Performance fee-funded personnel expenses as defined in the key definitions and alternative performance metrics section of the Annual Report 2025 on pages 36-38.
[13] For 2024 onwards total operating cost excludes depreciation & amortization.
[14] See footnote 13.

Depreciation & amortization

—

Depreciation & amortization increased 43% to CHF 69 million (2024: CHF 49 million) mainly driven by Empira from newly recognized customer contracts and the new Partners Group campus.

EBIT margin stands at 60%

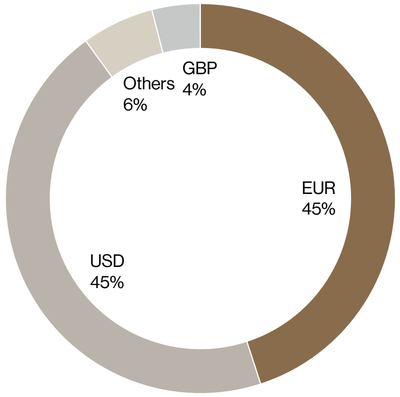

—

EBIT increased by 18%, amounting to CHF 1'541 million (2024: CHF 1'309 million) at an EBIT margin of 60.1% (2024: 61.3%).

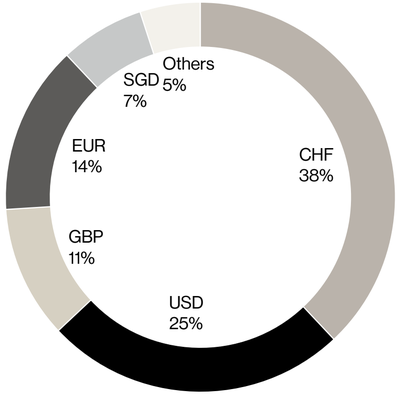

Rovensa

Currency split of management fees in 2025[15]

Currency split of costs in 2025[16]

Foreign exchange effects

—

In 2025, the appreciation of the CHF against many other currencies negatively impacted the firm's management fees. Today, 90% of Partners Group's management fees are generated from investment programs which are either denominated in USD or EUR. On a constant-currency basis our management fee growth amounted to 12% versus 7% on a reported basis.

Average FX rates development

FX rates (average)	2025	2024	Delta
1 EUR CHF	0.937	0.953	-2%
1 USD CHF	0.830	0.881	-6%
1 GBP CHF	1.094	1.125	-3%
1 SGD CHF	0.635	0.659	-4%

Total expenses, on the other hand, experienced a moderate positive impact. Performance fee revenues (32% of total revenues) and related costs are largely margin neutral with regards to FX movements. In aggregate, Partners Group's like-for-like foreign exchange impact on its EBITDA margin amounted to approximately -0.5 percentage points.

We will continue to steer the firm based on our targeted 40% cost-income ratio on newly generated management fees (assuming stable foreign exchange rates).

Financial result

—

The total financial result amounted to CHF -10 million (2024: CHF 61 million):

1. **Portfolio performance:** we saw an average net investment result of 5% for the period, or CHF 75 million (2024: CHF 112 million), stemming from our own investment programs in which we invest alongside our clients (see detailed description of balance sheet investments on page 30). For further information, see note 3.4. of the notes to the consolidated financial statements.

2. **Foreign exchange hedging and interest expenses:** the negative contribution of CHF-85 million (2024: CHF -51 million) was driven partly by foreign exchange effects, hedging, and partly by higher interest levels for renewed and additional bond issuances in 2023 and 2024 (see balance sheet section). We use hedging to limit our P&L exposure to different currencies for our treasury management and short-term financing services.

[15] Includes management fees and other revenues, net, and other operating income.
[16] Includes management fee-funded personnel expenses (excluding performance fee-funded expenses), other operating expenses as well as depreciation and amortization.

Taxes

—

The actual tax rate stood at 17.7% (2024: 17.7%) resulting in corporate taxes of CHF 270 million (2024: CHF 242 million). Our group corporate tax rate derives from various tax rates across the many jurisdictions worldwide where we have active business operations.

In summary, the firm's profit increased 12% CHF 1'261 million (2024: CHF 1'128 million), slightly below revenue development.

International Schools Partnership

Dividend payments

—

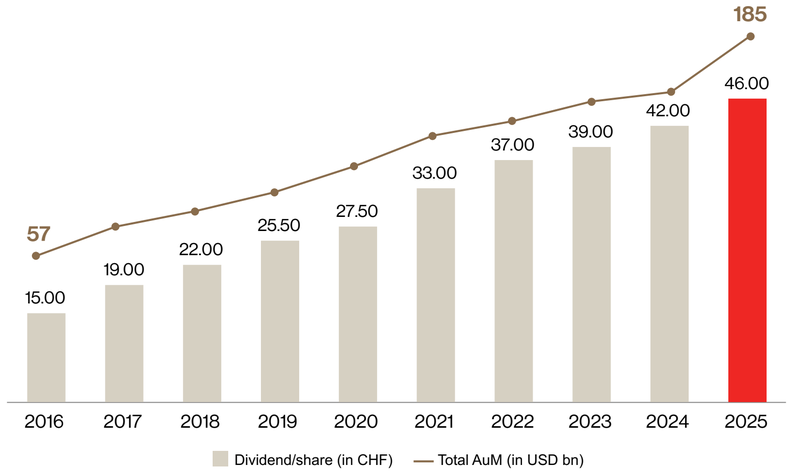

Since the IPO in 2006, Partners Group has distinguished itself as a leader in the domain of continuous dividend growth, as part of an exclusive group of companies that have consistently increased their dividends over this period. Partners Group will have generated a dividend growth of 16% p.a. since the IPO, assuming shareholders approve the proposed dividend by the Board.

Proposed dividend of CHF 46.00 per share

—

Based on the strong development of our business across asset classes and regions, our operating result, and the Board's confidence in the sustainability of this growth, Partners Group's Board of Directors will propose an increased dividend of CHF 46.00 per share[17] (2024: CHF 42.00 per share) to its shareholders at the Annual General Meeting on 20 May 2026. This proposal represents a dividend increase of 10% and a payout ratio of 95% (2024: 97%), on a diluted earnings per share basis.

Last 10-year dividend & AuM growth

Partners Group campus | Denver, USA

[17] The Board of Directors will propose that a dividend of CHF 46.00 per share be paid for the financial year 2025, subject to the approval of the Annual General Meeting of shareholders to be held on 20 May 2026.

Balance sheet

Our balance sheet remains strong. After a dividend payment of CHF 1'092 million in May 2025, we have an available liquidity of CHF 3'721 million as of 31 December 2025 (31 December 2024: CHF 2'720 million), represented by the sum of our cash & cash equivalents, our undrawn credit facilities, and our short-term loans. As such, we have sufficient liquidity to meet expected operational expenses and to service short-term financial obligations. We remain well within our targeted available liquidity level, which enables us to sustain the firm's operations in a financial crisis scenario and/or a depressed economic environment.

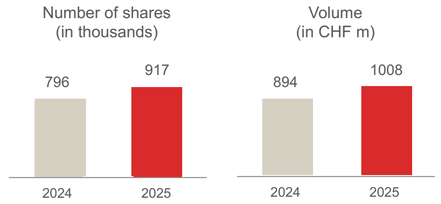

Available Liquidity

In millions of Swiss francs	2025
Cash & cash equivalents	329
Undrawn credit facilities	1'735
Cash liquidity	**2'064**
Short-term loans	1'657
Total available liquidity	**3'721**

As of 31 December 2025, the firm held a total of CHF 329 million in cash & cash equivalents. The short-term loans related to our treasury management services further complement our total cash & cash equivalents, strengthening our short-term liquidity.

At year-end 2025, 695 short-term loans (31 December 2024: 800) were outstanding with an average loan amount of CHF 2.4 million (31 December 2024: CHF 2.0 million), representing a total of CHF 1'657 million (31 December 2024: CHF 1'634 million). The duration of these loans typically amounts to one to three months. The majority of the loans are secured against unfunded commitments. In addition, each loan is assigned with a risk-specific capacity, which is measured against an overall risk capacity budget. These services allow for efficient use of capital within our investment programs by bridging capital drawdowns and distributions where beneficial for clients (e.g. netting cash flows to reduce the number of drawdowns and distributions).

Treasury shares

We maintained a robust balance sheet supported by disciplined capital allocation. As of 31 December 2025, we held over CHF 1 billion in treasury shares for financial flexibility and employee compensation purposes.

In March 2025, the firm refinanced and upsized its unsecured credit facility. The firm maintains one large committed credit facility, orchestrated by Swiss and international banks. The credit facility amounts to a total of CHF 2'791 million[18] as of 31 December 2025 (31 December 2024: CHF 1'512 million) and can be used for general corporate purposes. As of 31 December 2025, CHF 1'056 million were drawn from the credit facilities (31 December 2024: CHF 715 million).

As of 31 December 2025, we had CHF 1'330 million in corporate bonds outstanding (31 December 2024: CHF 1'330 million). The proceeds of the bonds that we have issued further strengthen the sustainability of our operations in more challenging financial markets.

Outstanding corporate bonds

Amount	Coupon	Issued	Maturity	ISIN
CHF 500 million	0.40%	June 2019	June 21, 2027	CH0419041287
CHF 150 million	2.25%	September 2023	September 26, 2028	CH1293714346
CHF 180 million	2.40%	September 2023	September 26, 2033	CH1293714353
CHF 200 million	1.90%	June 2024	June 7, 2030	CH1346742930
CHF 300 million	2.15%	June 2024	June 7, 2034	CH1346742948

Partners Group has five fixed-rate senior unsecured CHF-denominated corporate bonds outstanding.

Continued balance-sheet light approach

As of 31 December 2025, the investments we hold on our own balance sheet alongside clients amounted to a total of CHF 1'677 million (31 December 2024: CHF 1'459 million). The firm's balance sheet investments consist of three components as shown further below: financial investments/GP commitments, seed investments, and investments in associates and joint ventures.

Financial investments/GP commitments (i.e. our obligation to fund investments alongside clients) typically represent about 1% of assets invested in traditional investment programs and mandates and have an aggregated net asset

[18] The credit facility was issued in EUR in the amount of EUR 3'000 million. It was converted to CHF using 31 December 2025 FX rates.

value of CHF 1'123 million as of 31 December 2025 (31 December 2024: CHF 926 million).

Investments in associates and joint ventures amounted to CHF 22 million as of 31 December 2025 (31 December 2024: CHF 25 million), which mainly represent a minority stake in Trinity Real Estate Investments LLC, US, a property development and asset management company.

Partners Group also provides seed financing to certain early-stage investment programs managed by the firm. The balance sheet capacity of these investments is set by the firm's balance sheet risk management framework. The underlying assets of these investment programs are typically private markets assets valued at the net asset value; they amounted to (net) CHF 532 million as of 31 December 2025 (31 December 2024: CHF 508 million). The increase in seed financing was primarily driven by the launch of new evergreen programs.

Investments alongside clients from balance sheet[19]

In millions of Swiss francs	2025
Financial investments / GP commitment[20]	1'123
Investments in associates and JVs[21]	22
Seed investments[22]	532
Total investments alongside clients	**1'677**

In total, commitments by the firm's Board of Directors and employees amounted to approximately CHF 1.9 billion as of 31 December 2025 (31 December 2024: CHF 2.0 billion), of which CHF 1.5 billion (2024: CHF 1.6 billion) is committed to closed-ended programs and CHF 0.4 billion (2024: CHF 0.4 billion) to evergreen programs.

Financial outlook

1. **Management fees:** we expect total new client assets of USD 26 to 32 billion in 2026. We base our guidance on an expected normalization of the investment environment and continued strong interest in our bespoke solutions and flagship offerings. We expect tail-down effects stemming from the more mature closed-ended programs of USD 10 to 13 billion. Partners Group no longer includes redemptions from evergreen programs in its guidance as they are often netted out by performance effects in a normalized environment.[23] We expect that management fees in CHF will develop broadly in line with the average AuM in CHF.
2. **Performance income[24]**: we expect performance income to account for 25-40% of total revenues in 2026 and for the years thereafter. In 2026, we expect that performance income will be within the lower part of the range. We base this forward-looking expectation on the increasing proportion of our maturing portfolio that consists of direct investments, which entail a higher performance fee than primary and secondary investments.
3. **EBITDA margin[25]:** over the last five years, Partners Group's EBITDA margin has been stable at around 63%. Our approach to cost management remains unchanged and we will continue to apply an operating margin of approximately 60% for newly generated management fees (assuming stable foreign exchange rates) and performance fees.
4. **Tax rate:** the firm has applied the Pillar Two Model Rules as of 2024. The impact is reflected in the firm's effective tax rate and we therefore expect that the Group's effective tax rate will stabilize around 18% to 19%. However, due to several ongoing geopolitical discussions around this topic, a certain level of uncertainty remains and therefore changes may occur.

atNorth

[19] As of 31 December 2025.
[20] NAV excluding CHF 360 million (2024: CHF 316 million) of commitments that were not yet called but may be called over time, typically between one to five years following the subscription of the commitment.
[21] Investments in associates is described in note 4.2. of the notes to the 2025 consolidated financial statements.
[22] Seed investments presented in the annual report as assets and liabilities held for sale in note 3.1.3. of the notes to the 2025 consolidated financial statements.
[23] Net AuM impact of performance / other effects and redemptions between 2019-2025 (in USD billion): +0.5 in 2019, +0.2 in 2020, +3.7 in 2021, -2.3 in 2022, -1.3 in 2023, -2.5 in 2024 and +1.6 in 2025.
[24] As of 2026, Partners Group will adopt IFRS 18 and report performance fees together with investment income as performance income. The guidance will therefore be for performance income to represent 25-40% of total revenues.
[25] We shifted from EBIT to EBITDA to remove non-cash distortions from M&A-related amortization and past investment depreciation; for further explanation, please refer to the 2024 Annual Report.

IFRS 18 adoption

—

IFRS 18 is a mandatory change from IFRS requiring to split the income statement into operating, investing and financing. Amongst other changes, income from investments (FV changes) will be shown together with performance fees as part of performance income going forward and management fees will be shown as management income.

Performance fee recognition

—

In private markets, performance fees are designed to remunerate investment managers for the long-term value creation for their clients. They are a profit-sharing incentive for investment managers when their investment programs outperform a pre-agreed return hurdle, typically defined over the lifetime of such programs. In closed-ended investment programs, performance fees are typically only charged once investments are realized and a pre-defined return hurdle has been exceeded. As the value creation period lasts several years, performance fees often only start to be earned six to nine years after an investment program commences its investment activities, and only if such program is successful. In open-ended investment programs, performance fees are typically charged on Net Asset Value (NAV) development above a High Water Mark (HWM). As these programs are evergreen in nature, performance fee generation is typically not dependent on individual exits but rather linked to value creation / positive performance. These structures generally pay quarterly performance fees. The illustrative examples on the next pages show the performance fee model of a typical limited partnership program and open-ended evergreen solution.

Illustrative example of performance fee recognition in a closed-ended program

This illustrative example shows how distributions in private markets portfolios bring forward the maturity profile of an investment program and increase the likelihood that the required return hurdle will be reached. This example assumes an initial client commitment of 100 into a closed-ended investment program. It is agreed that the investment manager shall receive 20% of profits over time and that the return hurdle shall translate into distributions to the client of 140, i.e. at 140 cumulated distributions the investment manager is entitled to collect performance fees.

After a few years, the investment manager generates realizations in the portfolio and starts making distributions to the client. After 6-9 years, the cumulative distributions (dark gray triangle) received by the client exceed 140, i.e. the hurdle rate. In a first step, the investment manager is entitled to receive subsequent distributions above the return hurdle as performance fees, until the investment manager "catches up" on past performance in excess of the client investment ("catch-up" on 140-100 = 40, and 40 x 20% performance fees = 8).

In a second step, the investment manager and the client will share any additional distributions that stem from the sale of the remaining portfolio over time, according to the predefined performance-sharing mechanism. In our example, the client receives 80% of distributions and the investment manager receives 20%. The example assumes that the remaining NAV equals 60 and this entitles the investment manager to an additional performance fee of 12 (60 x 20%) should the portfolio be sold at the indicated value of 60.

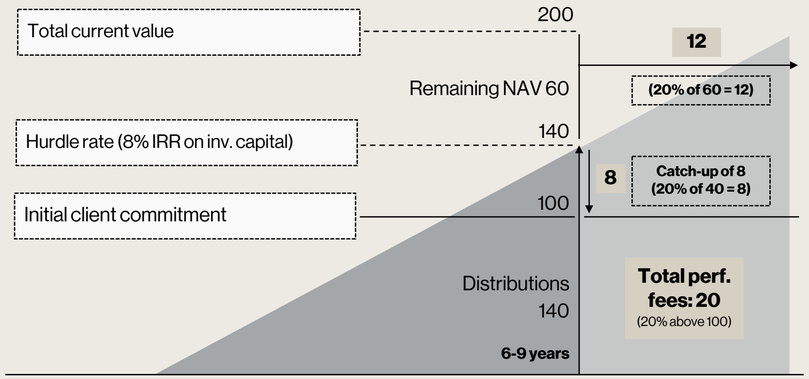

Total performance fees received by the manager are 20 (20% of 40 + 20% of 60 = 8 + 12) and clients receive 80% of profits (80% x (200 – 100)) or a total of 80.

The timing and amount of performance fee payments depend on several factors, including the pace of deployment, performance of investments, and pace of realizations (cash distributions). Partners Group recognizes performance fees of investment programs with a claw-back mechanism based on a three-step approach:

- **Step 1:** the total proceeds from realized underlying investments are determined and the corresponding costs of such realized as well as of fully written-off investments are deducted ("Net Proceeds").
- **Step 2:** the NAV of unrealized underlying investments is determined. The respective NAV will be written down to the extent that the probability of a future claw-back risk becomes minimal[1]. Then the corresponding costs of such unrealized investments are deducted, resulting in a "Write-Down NAV". This Write-Down NAV is added to the Net Proceeds.
- **Step 3:** performance fees are calculated for (1) and (2) by multiplying (1) and (2) by the applicable performance fee rate subject to exceedance of the hurdle rate. Where the hurdle rate is not exceeded, there will be no performance fees. The lower of such calculated performance fees is recognized.

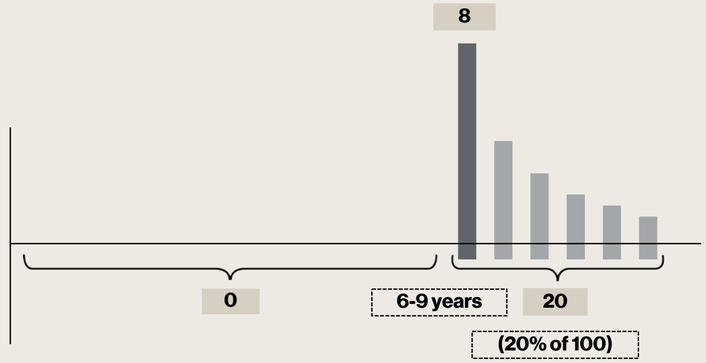

The illustrative example below explains the approach for performance fee recognition as described above.

Performance fee model in a closed-ended investment program

[1] As of 31 December 2025, the applied discount was 50% (31 December 2024: 50%), except for select programs where the discount is determined on the basis of a systematic approach and may be up to 100%.
Note: performance fees of performance fee-generating investment programs and mandates typically range between 5% to 20% over a hurdle of 4% to 8% IRR on invested capital, depending on the program and instruments. Past performance is not indicative of future results. For illustrative purposes only.

Performance fee recognition (realized)

Example: performance fee recognition in three different scenarios

This simplified example assumes that, with initial client commitments of 450, a fund made only two acquisitions: investment Y for 100 and investment Z for 350. Furthermore, it is assumed that the value of investment Y increases to 200 and the value of investment Z increases to 800 for Scenarios 1 and 2, and to 500 for Scenario 3.

The performance fee recognition under these three scenarios would be as follows:

Scenario 1: No realizations (hurdle rate met)
Investment Y increases to 200
Investment Z increases to 800
Remaining NAV 1'000

- **Step 1:** as there were no realized investments, we would not be entitled to a performance fee. Performance fees = 0.
- **Step 2:** NAV stress-test: 1'000 x 50% = 500; 500 (stress-tested NAV) – 450 (cost of investments Y and Z) = 50 (value gain); 50 (value gain) x 20% = 10 in performance fees.
- **Step 3:** as performance fees can only be recognized on the lower of realized investments (step 1: performance fee = 0) vis-à-vis the combination of realized and stress-tested unrealized investments (step 2: performance fee = 10), we would not recognize any performance fees.

Scenario 2: Investment Y realized (hurdle rate met)

Investment Y realized for 200
Investment Z increases to 800
Remaining NAV 800

- **Step 1:** as investment Y was realized for 200, we would be entitled to a performance fee as hurdle rate at asset level was met. 200 – 100 = 100 (value gain); 100 (value gain) x 20% = 20 performance fees.
- **Step 2:** stress test on remaining NAV: 800 (unrealized investment Y) x 50% = 400; 400 (stress-tested NAV) + 200 (realized investment Y) – 450 (cost of investment Y and Z) = 150 (value gain); 150 (value gain) x 20% = 30 performance fees (assuming the hurdle rate is met).
- **Step 3:** as performance fees can only be recognized on the lower of realized investments (step 1: performance fee = 20) vis-à-vis the combination of realized and stress-tested unrealized investments (step 2: performance fee = 30), we would recognize 20 performance fees.

Scenario 3: Investment Y realized (hurdle rate not met)

Investment Y realized for 200
Investment Z increases to 500
Remaining NAV 500

- **Step 1:** as investment Y was realized for 200, we would be entitled to a performance fee as the hurdle rate at asset level was met. 200 – 100 = 100 (value gain); 100 (value gain) x 20% = 20 performance fees.
- **Step 2:** stress test on remaining NAV: 500 (unrealized investment Y) x 50% = 250; 250 (stress-tested NAV) + 200 (realized investment Y) – 450 (cost of investment Y and Z) = 0 (value gain); as the stress test brings the overall return hurdle of the program below the pre-agreed threshold in this example, no performance fees can be recognized.
- **Step 3:** as the hurdle rate has not been met, we will not recognize any performance fees, despite there being realized investments.

Description of performance fee recognition in an open-ended program

In an evergreen structure, the fee is calculated as a percentage of the program's profits in excess of the accrued losses . The performance fee is typically calculated on a quarterly basis. The variables used to determine the claim on performance fees are defined as follows:

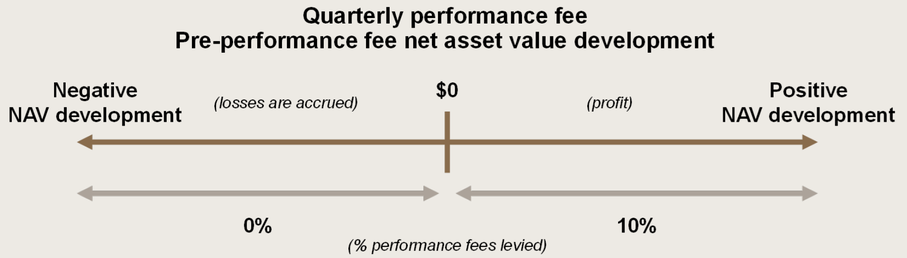

Net Asset Value (NAV) development: this is the increase in the program's value over a period, including changes in investment values, income, gains, losses, and expenses, but does not consider new assets raised or assets redeemed by investors. A positive NAV development is considered to be a profit; a negative NAV development is considered to be a loss and is accrued over time. NAV development is calculated as:

NAV development = opening NAV - ending NAV

High Water Mark (HWM): this mark starts at zero. It increases by the amount of any losses the fund has each quarter and decreases by the amount of any profits (but it can't go below zero).

The illustrative example on the right-hand side shows the performance fee mechanics of a typical evergreen structure over three quarters with different performance scenarios, excluding management fees.[26]

Illustrative example: performance fee calculation

[26] Management fees contribute to net income (loss); therefore, the High Water Mark (HWM) reflects also management fees and is included in the performance fee calculation.

Example: performance fee recognition over three quarters

This illustrative example demonstrates the calculation of performance fees over three quarters, highlighting how unrealized performance impacts the fee calculations based on the change in net asset value over time. We assume an opening net asset value of $1'000 in an evergreen structure. It is agreed that Partners Group shall receive 10% of performance exceeding the accrued losses:

Quarter 1: positive NAV development (HWM exceeded)

Opening net asset value is $1'000 and HWM is at 0 as there are no accrued losses.
$60 of unrealized positive NAV development (profit)
$50 of redemptions

- **Step 1:** as there was a positive performance (profit) of $60 and there were no accrued losses a performance fee of $6 is generated.
- Performance fee = 10% x (profits - accrued losses)
- = 10% x ($60 - $0)
- =$6
- **Step 2:** opening net asset value is $1'000 + $60 of unrealized positive NAV development (profit) - $50 of redemptions - $6 of performance fee = ending net asset value of $1'004.

Quarter 2: negative NAV development (HWM not exceeded)

Opening net asset value is $1'004 and HWM is at 0 as there are no accrued losses.
$31 of unrealized negative NAV development (loss)
$100 of subscriptions

- **Step 1:** as there was a negative NAV development (loss) of $31 and there were no accrued losses and a performance fee of $0 is generated.
- Performance fee = 10% x (profits - accrued losses)
- = 10% x ($0 - $31)
- =$0 (No performance fee for the quarter)
- **Step 2:** opening net asset value is $1'004 - $31 of unrealized negative NAV development (loss) + $100 of subscriptions - $0 of performance fee = ending net asset value of $1'073.

Quarter 3: positive NAV development (HWM exceeded)

Opening net asset value is $1'073 and HWM is at $31 as there are no accrued losses.
$51 of unrealized positive NAV development (profit)
$0 subscriptions and redemptions

- **Step 1:** as there was a positive NAV development (profit) of $51 and there were $31 accrued losses and a performance fee of $2 is generated.
- Performance fee = 10% x (profits - accrued losses)
- = 10% x ($51 - $31)
- =$2
- **Step 2:** opening net asset value is $1'073 + $51 of unrealized negative NAV development (loss) - $2 of performance fee = ending net asset value of $1'122.

Key definitions and **alternative performance metrics (APM)**

Partners Group campus | Baar-Zug, Switzerland

[27] Due to rounding, numbers might not add up.

Key definitions

Assets under Management ("AuM"): Partners Group publishes information on AuM, assets raised, tail-downs and other related information (combined "AuM Information") on a semi-annual basis.

AuM Information provides market participants with transparency on the status and development of Partners Group's recurring revenue basis for asset management, investment management, and advisory services ("AuM Services").

When calculating AuM information, Partners Group strives to mirror the recurring fee basis, including reserved amounts for commitments for the various programs and mandates; amounts can therefore be based on reasonable estimates and judgment where necessary, in particular where AuM Information reflects anticipated investment activities for the next six months. Where Partners Group renders AuM Services in a joint effort with similarly split responsibilities with third parties, AuM and assets raised are counted at 50%. AuM and assets raised are not counted where Partners Group is only providing administrative, transactional, or consultant services.

Alternative performance metrics (APM)[27]

Partners Group uses various financial and APM to measure its financial performance as part of its financial reporting. The APM used by Partners Group supplement the measures that are documented and published in accordance with International Financial Reporting Standards (IFRS). An APM is defined as a financial measure of historical or future financial performance, financial position, or cash flows not already defined or specified in the applicable financial reporting framework.

APM are mainly operational management metrics and undergo regular performance reviews in both internal and external reporting. The resulting findings are taken into account as part of a strategy review process. Please note that the comparability of APM within the industry can be limited due to different calculation methods.

Partners Group uses the following APM (alphabetical order):

Dividend payout ratio: is defined as the (proposed) dividend per share divided by diluted earnings per share.

Earnings before interest, tax, depreciation, and amortization (EBITDA): stands for the sum of revenues from management services, net, including other operating income and expenses before net finance income and expense, before taxes, and before depreciation and amortization.

EBITDA margin: is calculated as earnings before interest, tax, depreciation, and amortization (EBITDA) divided by revenues from management services, net, including other operating income. It is one of the key operational management metrics as it provides an indication of the profitability of the business.

In millions of Swiss francs	2025	2024
EBITDA	1'611	1'357
Revenues from management services, net, including other operating income	2'563	2'136
EBITDA margin	**62.8%**	**63.6%**

Earnings before interest and tax (EBIT): stands for the sum of revenues from management services, net, including other operating income and expenses before net finance income and expense and before income taxes.

EBIT margin: is calculated as earnings before interest and tax (EBIT) divided by revenues from management services, net, including other operating income.

Equity ratio: is calculated as equity attributable to owners of the firm, divided by total liabilities and equity.

Partners Group campus | Denver, USA

Management Fee EBITDA: is calculated as EBITDA (see EBITDA definition above) less recognized performance fee revenues adding back performance fee-funded expenses (see Performance fee-funded expenses definition below). Adjustments to the Management Fee EBITDA calculation may occur should accounting or other adjustments with an effect on the financials make the comparison between the start and end years inconsistent.

In millions of Swiss francs	2025	2024
EBITDA	1'611	1'357
Performance fee revenues	(819)	(511)
Performance fee-funded expenses	298	186
Management Fee EBITDA	**1'090**	**1'033**

Management Fee EBIT: is calculated as EBIT (see EBIT definition above) less recognized performance fee revenues adding back performance fee-funded expenses (see performance fee-funded expenses definition below). Adjustments to the Management Fee EBIT calculation may occur should accounting or other adjustments with an effect on the financials make the comparison between the start and end years inconsistent.

In millions of Swiss francs	2025	2024
EBIT	1'541	1'309
Performance fee revenues	(819)	(511)
Performance fee-funded expenses	298	186
Management Fee EBIT	**1'021**	**985**

Performance fee-funded expenses: include expenses for the firm's dedicated performance fee-funded compensation program (the Management Carry Program), performance fee-funded bonus expenses, related social security expenses, and social security expenses for the Management Performance Plan.

Total net debt / (net cash): is calculated as debt plus credit facilities drawn, minus cash and cash equivalents as well as short-term loans.

In millions of Swiss francs	2025	2024
Debt	1'330	1'330
Credit facilities drawn	1'056	715
Cash and cash equivalents	(329)	(289)
Short-term loans	(1'657)	(1'634)
Total net debt / (net cash)	**400**	**122**

Revenue margin: is calculated as revenues from management services, net, including other operating income, divided by average AuM (in CHF) calculated on a daily basis.

In millions of Swiss francs	2025	2024
Revenues from management services, net, including other operating income	2'563	2'136
Average AuM (in CHF bn) calculated on a daily basis	140	130
Revenue margin	**1.83%**	**1.64%**

Return on average shareholder's equity (RoE): is calculated as profit for the period, divided by average equity attributable to owners of the firm.

In millions of Swiss francs	2025	2024
Profit for the period	1'261	1'128
Average equity attributable to owners of the firm	2'301	2'421
Return on equity	**55%**	**47%**

General information

(a) Reporting entity

Partners Group Holding AG ("the Company") is a company domiciled in Switzerland whose shares are publicly traded on the SIX Swiss Exchange. The address of the Company's registered office is Unternehmer-Park 3, 6340 Baar-Zug, Switzerland.

The consolidated financial statements for the year ended 31 December 2025 comprise the Company and entities (including structured entities) controlled by the Company (its "subsidiaries", refer to further details in note 4.1.). Together, the Company and its subsidiaries are referred to as "the Group". The principal activity of the Group is to provide its clients with investment services in the private markets spectrum. Refer to note 1.2. for more details.

The consolidated financial statements were authorized for issue by the Board of Directors ("BoD") on 6 March 2026 and are subject to approval at the Annual General Meeting of shareholders on 20 May 2026.

(b) Basis of preparation

The statements present a true and fair view of the Group's financial position, results of operations and cash flows in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board (IASB) and comply with Swiss law. They are presented in Swiss francs, rounded to the nearest one hundred thousand. The figures referred to in text passages are actual figures presented in millions of Swiss francs unless otherwise stated. The statements are prepared on a historical cost basis, except for certain assets and liabilities which are stated at fair value.

Compared to last year's consolidated financial statements 2024, some notes and disclosures have been updated and improved. Comparative amounts have been re-presented accordingly.

(c) Changes in accounting policies

Standards, amendments and interpretations effective for the first time

The accounting policies applied for the period ending 31 December 2025 are consistent with those of the previous financial year except for the following new standards, amendments and interpretations that became effective for the Group for the first time for the financial year starting on 1 January 2025 but they do not have a significant effect on the Group's consolidated financial statements:

- Lack of Exchangeability - Amendments to IAS 21

Standards, amendments, and interpretations to existing standards that are not yet effective and might be relevant to the Group, but have not been early adopted

The following new and revised standards, amendments, and interpretations have been issued by the date the consolidated financial statements were authorized for issue but are not yet effective and are not adopted early in these consolidated financial statements. The expected impacts as disclosed in the table below reflect a first assessment by the Group's management.

Standard / Interpretation		Effective date	Planned adoption by the Group
New standards or interpretations			
IFRS 18 Presentation and Disclosure in Financial Statements	**	1 January 2027	Reporting year 2026 (early adoption)
Revisions and amendments of standards and interpretations			
Classification and Measurement of Financial Instruments – Amendments to IFRS 9 and IFRS 7	*	1 January 2026	Reporting year 2026
Contracts Referencing Nature-dependent Electricity – Amendments to IFRS 9 and IFRS 7	*	1 January 2026	Reporting year 2026
Annual Improvements to IFRS Accounting Standards – Volume 11 – Amendments to IFRS 1, IFRS 7 and its accompanying Guidance, IFRS 9, IFRS 10, and IAS 7	*	1 January 2026	Reporting year 2026

*** Not expected to have a significant impact on the Group's financial position or performance.**
**** The Group concluded that IFRS 18 will have a significant impact on the presentation of the statement of profit or loss and related disclosures.**

The Group plans to early adopt IFRS 18 Presentation and Disclosure in Financial Statements for the annual period beginning 1 January 2026. IFRS 18 replaces IAS 1 and primarily affects the presentation and disclosure of financial information. While IFRS 18 will not affect the Group's total profit or equity, it will impact the presentation of operating performance and related key performance indicators.

The adoption of IFRS 18 will result in changes to the structure of the Group's consolidated statement of profit or loss, including the introduction of defined subtotals such as operating profit and the reclassification of certain income and expenses within the operating, investing and financing categories.

As the Group invests in assets as a main business activity, it expects, in accordance with IFRS 18, to classify certain income and expenses arising from those assets within the operating category. This is expected to include, among others, income from short-term loans and changes in the fair value of financial investments.

IFRS 18 will also require the disclosure of management-defined performance measures in a single note to the financial statements, including reconciliations to the nearest IFRS-defined subtotals and disclosure of related income tax and non-controlling interest effects. Certain alternative performance measures currently used by management may qualify as management-defined performance measures upon adoption of IFRS 18.

IFRS 18 will be applied retrospectively upon adoption. Accordingly, the comparative information presented in the Group's 2026 Annual Report will be restated in accordance with IFRS 18.

The Group is currently updating its systems, processes and internal reporting to ensure compliance with the new standard.

(d) Critical accounting estimates and judgments

In preparing these consolidated financial statements, management has made judgments and estimates about the future that affect the application of the Group's accounting policies and the reported amounts. Estimates and judgments are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The following key judgment in applying accounting policies has been identified which is explained in more detail in the respective notes:

Key judgment	Notes
Control assessment and accounting for structured entities	3.1.3. Assets and liabilities held for sale 4.1.3. Involvement with structured entities

Accounting estimates are monetary amounts in financial statements that are subject to measurement uncertainty and will, by definition, rarely equal the related actual outcomes. The following estimates and assumptions that have a significant risk of causing a material adjustment to the assets, liabilities, income, and expenses reported within the next financial year were identified for the Group's consolidated financial statements. Refer to the respective notes for more details:

Key estimates	Notes
Revenue recognition	1.1. Revenue and other operating income
Determination of fair values	3.4. Fair value measurement

Other relevant areas with critical accounting estimates and judgments include goodwill impairment, loss allowances on financial assets, actuarial assumptions regarding defined benefit plans (IAS 19), business combinations, and uncertain tax positions in respect of the business model. These are, however, considered to be of less significance to the Group.

1. Performance

1.1. Revenue and other operating income

In millions of Swiss francs	Note	2025	2024
Management fees and other revenues		1'838.2	1'710.8
Revenue deductions related to management fees and other revenues		(195.7)	(203.0)
Management fees and other revenues, net		**1'642.5**	**1'507.8**
Performance fees		864.3	548.6
Revenue deductions related to performance fees		(45.6)	(38.1)
Performance fees, net		**818.7**	**510.5**
Revenues from management services, net		**2'461.2**	**2'018.3**
Compensation from short-term loans	3.5.1. (c)	93.6	103.5
Share of results of associates and joint ventures	4.2.	(0.0)	0.1
Other income		8.3	13.7
Other operating income		**101.9**	**117.3**
Total revenues from management services, net and other operating income		**2'563.1**	**2'135.6**

In 2025 there was one direct counterparty (2024: one) exceeding 10% of revenues from management services, net, totaling CHF 318.8 million (2024: CHF 278.7 million) with an exposure across the segments of private equity, private credit, and infrastructure (2024: private equity, private credit, and infrastructure).

Critical accounting estimate: Revenue recognition

Instances may arise where the Group must decide whether variable consideration should be recognized as revenue. These situations typically relate to performance fees, which are foreseeable, but have not yet been collected by the Group or are subject to claw-back risk. A "claw-back" ensures that investors in an investment program are returned any performance fees paid in excess of the originally agreed-upon percentage in case of a performance deterioration during the remaining life of the investment program.

Performance fees are calculated on the basis of the relevant limited partnership agreement or similar underlying agreements and depend on the return of investment programs. The entitlement of the Group to performance fees may change significantly in subsequent periods based on the fair valuation of the investment portfolios, whereby the fair valuation of investment portfolios itself is considered a critical accounting estimate (as detailed in note 3.4.). Performance fees are only recognized once it is highly probable that a significant reversal in the amount of cumulative revenue recognized will not occur in the assessment of the Group (see further explanations in accounting policy below).

Accounting policy: Revenue recognition

Revenue comprises the amount of consideration to which the Group expects to be entitled in exchange for transferring promised services to its customers, net of value-added tax and rebates and after eliminating intra-group sales. No revenue is recognized if there are significant uncertainties regarding the recovery of the consideration due. The Group is active in different operating segments (see note 1.2.). Within these, the Group earns income for its various activities, which are further explained and outlined below:

Nature of the underlying service	Performance obligations and recognition principles
Management fees and other revenues	
Management fees: The Group earns investment management fees for discretionary investment programs, typically based on long-term contracts. The fees are typically based on the commitment of investors into an investment structure or based on the investment exposure of investors in the investment structures. They are typically payable on a quarterly basis in advance.	The performance obligation of the Group in respect of management fees is to manage investment structures on an ongoing basis. Ongoing investment management fees are recognized over time, based on the specific contracts.
Organizational fees: In the process of structuring new products, the Group typically receives an initial fee for its services in connection with establishing investment programs and related legal and structuring work. These organizational fees are always one-off fees, which are typically received when investors are admitted to investment programs.	Organizational fees are recognized at the point in time when investors are admitted to the relevant investment programs, as the structuring of the investment programs represents a separate performance obligation for the Group.
Transaction fees: In relation to certain private markets transactions, the Group receives transaction fee income. These transaction fees are typically non-recurring.	The performance obligation of the Group in respect of transaction fees is satisfied by the execution of the private markets transaction. Revenue is recognized at the point in time when the execution of the transaction is completed.
Fees to investments: The Group charges fees to select underlying lead and joint lead investments for value-added services provided to them during the holding period of the relevant investment. These fees are charged on an ongoing basis.	The performance obligation of the Group in respect of fees to investments is to provide value-added services. Revenue recognition occurs over the time period these services are provided to investments.
Performance fees	
Performance fees are designed to remunerate the Group as an investment manager for the long-term value creation for its clients. Such fees are a profit-sharing incentive the Group is entitled to typically when investment programs outperform a pre-agreed return hurdle.	The performance obligation of the Group is to manage investment structures on an ongoing basis. The Group's recognition principles in respect of performance fees are further explained below, see Accounting policy: Performance fees - recognition constraint.

Nature of the underlying service	Performance obligations and recognition principles
Revenue deductions	
Revenue deductions mainly include fee rebates to third parties. Fees charged multiple times in multi-layer structures (e.g. through pooling vehicles) are typically waived and rebated.	Revenue deductions relate to the performance obligations of the rebated services. Rebates may be one-off or recurring, depending on individual agreements. Accordingly, they are recognized at a point in time or over time.
Other income	
Other operating income comprises income resulting from the ordinary course of business but that is not revenue from management services. This includes compensation from short-term loans and true-up compensation on management fees and organizational fees.	Compensation from short-term loans is recognized over the duration of the respective short-term loans. The Group recognizes other income to depict the transfer of promised services which can be at a point in time or over time.

Accounting policy: Performance fees - recognition constraint

Performance fees from investment programs with a claw-back are recognized so that they do not exceed the portion of performance fees from realized underlying investments and so that there is a sufficiently large cushion for any potential negative development on the remaining portfolio. As a result, there is a high probability that no significant amount of revenue recognized will be reversed in a claw-back situation.

Accordingly, the recognition of performance fees from investment programs with a claw-back is typically assessed based on a three-step approach once a pre-defined return hurdle has been exceeded:

(1) Total proceeds from realized underlying investments are determined, and the corresponding costs of such realized as well as of fully written-off investments are deducted ("Net Proceeds").

(2) Net asset value ("NAV") of unrealized underlying investments and, where applicable, other net assets (such as cash or receivables) held by the investment programs is determined. The respective NAV of unrealized investments will be written down (in a so-called "Write-Down Test") to the extent that the probability of a future claw-back risk becomes minimal. Then, the corresponding costs of such unrealized investments and, where applicable, other investment program level costs (such as operating expenses) are deducted, resulting in a "Write-Down NAV". This Write-Down NAV is added to the Net Proceeds.

(3) Performance fees are calculated for (1) and (2) by multiplying (1) and (2) by the applicable performance fee rate subject to exceedance of the hurdle rate. Where the hurdle rate is not exceeded, there are no performance fees. The lower of such calculated performance fees is recognized.

On a quarterly basis, the Write-Down Test is applied to all private markets investment programs with a claw-back. The discount applied in the Write-Down Test may vary from investment program to investment program and considers specific risk characteristics, including macroeconomic, (geo-) political, and investment program-specific risk factors. The discount applied in the Write-Down Test is regularly assessed by the Group and reviewed by the Board of Directors. As of 31 December 2025, the applied discount was 50% (31 December 2024: 50%), except for selected programs where the discount is determined on the basis of a systematic approach and may be up to 100%.

The Group updates its performance fee recognition on a quarterly basis to faithfully represent the circumstances present at that point in time. When the probability of no reversal of previously recognized performance fees is no longer considered highly probable, the Group recognizes the necessary reversals.

(a) Operating segments

The Group provides its clients with investment services in the private markets spectrum. These services comprise both structuring and investment advisory in relation to direct investments in operating companies or assets and investments in third-party-managed investment programs. As part of its management services, the Group offers diversified as well as more focused investment programs in relation to investment style, industry, and geography of the investments in private markets. Management has determined the following operating segments based on internal operations and the reporting provided to the Board of Directors ("BoD"), which has been identified as the chief operating decision-maker. Management believes that this is the most relevant way to report the results of its operating segments:

Private equity

Private equity refers to investments made in private – i.e. non-publicly traded – companies. On behalf of its clients, the Group focuses on investing directly into companies that have been identified via its thematic sourcing approach with the objective of transforming them through driving strategic initiatives and operational improvements. In addition, the Group invests in the private equity secondary market by acquiring portfolios of privately held companies and in the primary market through its comprehensive set of investment relationships.

Private credit

Private credit refers to debt financing for private companies. On behalf of its clients, the Group focuses on investment opportunities within sectors and industries that are undergoing transformational change, as identified by its thematic sourcing approach. The Group provides tailored financing solutions to companies that are looking for non-bank financing across the entire debt structure. These investments range from predominantly senior loans to subordinated financing solutions and also span across different regions.

Real estate

Real estate refers to investments made in private real estate assets. On behalf of its clients, the Group focuses on investing in real estate assets benefiting from transformative trends where it can deploy a value creation plan. The Group typically invests in either equity or debt instruments, across several sectors and regions. In addition, the Group invests in the real estate secondary market by acquiring portfolios of privately held assets and in the primary market through its comprehensive set of investment relationships.

Infrastructure

Infrastructure refers to investments made in private infrastructure assets. On behalf of its clients, the Group focuses on investing in essential infrastructure assets that have clear stakeholder impact which could be transformed through its entrepreneurial governance. The Group typically invests across the capital structure in either equity or debt instruments, as well as across sectors and regions based on its thematic sourcing approach.

Royalties

Royalties refers to investments made in private markets royalties. A royalty is a contractual payment to the owner of an asset by a third party for the right to the ongoing use of that asset. The asset owner typically receives a percentage of the gross or net revenue generated from the asset in question. The Group is leveraging its global platform to build a dedicated, scalable multi-sector royalty offering that invests in both well-established royalty sectors, such as intellectual property assets across the pharmaceuticals and entertainment industries, as well as emerging high-growth royalty sectors like energy transition, sports, and brands.

(b) General activities and allocation

The activities in all operating segments consist of:

- Strategic asset allocation and portfolio management
- Investment management, value creation and monitoring
- Risk management
- Reporting and portfolio administration
- Relationship management

The BoD assesses the performance of the operating segments based on gross segment results which are determined by the allocation of directly attributable revenues and expenses for the respective operating segment. Therefore, the gross results per operating segment do not include the allocation of

expenses that are not directly attributable to the operating segment. As the Group pursues a fully integrated investment approach, many professionals are engaged in assignments across several operating segments within the private markets asset classes. Thus, only the personnel expenses of professionals entirely dedicated to a single operating segment have been allocated to the respective operating segments. This has led to a large portion of personnel expenses being unallocated to any of the operating segments. The same applies to other operating expenses, where the majority is unallocated. Depreciation and amortization have not been allocated to the operating segments. All non-directly attributable elements of profit or loss are summarized in the column labelled 'Unallocated'. There were no intersegment transactions and, as such, no eliminations are necessary. No assets or liabilities are allocated to segments other than financial investments as detailed in note 3.5.2. (c) and assets recognized in relation to business combinations as detailed in note 5.2.

(c) Geographical information

The operating segments are managed globally with Switzerland as the headquarters. Local offices ensure access to clients and investment opportunities within their geographies. Investment management services are primarily provided out of Switzerland, while local offices such as Guernsey and Luxembourg serve as the Group's main fund hubs.

Revenues were invoiced and collected in the following countries:

In millions of Swiss francs	2025	2024
Switzerland[3]	165.4	21.1
Guernsey	625.8	597.9
Luxembourg	916.1	771.4
US	478.7	413.0
Others	275.2	214.9
Revenues from management services, net	**2'461.2**	**2'018.3**

The above-stated amounts do not correspond to the revenues reported to authorities in these countries as revenues are reallocated to the Group's operating entities based on the Group's transfer pricing policy, which complies with the OECD Transfer Pricing Guidelines.

Property, equipment and right-of-use assets were primarily located in Switzerland with CHF 321.0 million (2024: CHF 327.9 million) and in the United States with CHF 97.7 million (2024: CHF 110.0 million). Intangible assets relate materially to acquired client contracts and brands, which are primarily allocated to Switzerland, and contract cost, which are economically used across multiple geographies. As such, these intangible assets are primarily allocated to Switzerland, where the related activities are managed.

For information about major customers see note 1.1.

Accounting policy: Segment reporting

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components.

[3] Revenue deductions related to management fees, performance fees and other revenues are largely reimbursed by Swiss entities (2025: CHF 127.4 million; 2024: CHF 116.2 million).

1.3. Earnings per share

Earnings per share	Note	2025	2024
Profit for the period attributable to owners of the Company (in millions of Swiss francs)		1'260.7	1'127.7
Weighted average number of ordinary shares outstanding (in number of shares)	4.3.	25'924'629	25'983'451
Basic earnings per share (in Swiss francs)		**48.63**	**43.40**
Effect of options on issue (in number of shares)		96'927	194'585
Weighted average number of ordinary shares (diluted, in number of shares)		26'021'556	26'178'036
Diluted earnings per share (in Swiss francs)		**48.45**	**43.08**

In Swiss francs	2025	2024
Average fair value of one ordinary share during the period	1'120.33	1'216.40
Weighted average exercise price for options outstanding during the period	909.18	953.41

As of 31 December 2025, the Group had 1'214'590 options, restricted stock units ("RSUs") and non-vested shares outstanding (2024: 1'008'676) (see note 2.2.). The treasury shares necessary to cover the obligation for non-vested shares have already been placed in separate escrow accounts in the name of the employees. Thus, the number of treasury shares (see note 4.3.) is already net of non-vested shares outstanding.

The Group excluded 384'664 options in the above calculation of diluted earnings per share because they would be antidilutive for the period presented but could potentially dilute basic earnings per share in the future (2024: 23'218 options).

Grants 2021 (non-vested shares)		(1.7)	(3.4)
Grants 2022 (non-vested shares)		(4.4)	(6.7)
Grants 2023 (options and non-vested shares)		(6.9)	(10.3)
Grants 2024 (options and non-vested shares)		(10.2)	(12.3)
Grants 2025 (options, RSUs and non-vested shares)	2.2.2. & 2.2.3.	(14.3)	
Entry shares and RSUs	2.2.1.	(1.7)	(2.6)
Total expenses from options, RSUs and non-vested shares		**(40.0)**	**(37.6)**
Grants 2019 (MPP)			(0.3)
Grants 2020 (MPP)		(0.2)	(0.5)
Grants 2020 (MIP)		(0.3)	(0.4)
Grants 2021 (MPP)		(1.2)	(1.8)
Grants 2021 (MIP)		(0.4)	(0.7)
Grants 2022 (MPP)		(2.2)	(3.2)
Grants 2022 (MIP)		(0.8)	(0.9)
Grants 2023 (MPP)		(2.5)	(3.6)
Grants 2024 (MPP)		(6.2)	(6.2)
Grants 2025 (MPP and others)	2.2.4.	(8.8)	
Total expenses from participation rights		**(22.6)**	**(17.6)**
Total share-based payment expenses[4]		**(62.6)**	**(55.2)**

[4] Share-based payment expenses for non-executive members of the BoD of CHF 0.6 million (2024: CHF 0.7 million) are disclosed as a part of third-party services (see note 5.4.).

The number and weighted average exercise price of options, RSUs and non-vested shares developed as follows:

	2025		2024	
	Weighted average exercise price (in CHF)	Number of instruments	Weighted average exercise price (in CHF)	Number of instruments
Outstanding options as of 1 January	1'006.85	940'840	916.71	1'051'285
Forfeited	1'158.74	(17'283)	1'090.67	(15'394)
Exercised	851.22	(89'447)	829.84	(284'991)
Granted	965.30	312'998	1'246.96	189'940
Outstanding options as of 31 December	**1'005.36**	**1'147'108**	**1'006.85**	**940'840**
Non-vested shares and outstanding RSUs as of 1 January		67'836		81'945
Movements		(354)		(14'109)
Non-vested shares and outstanding RSUs as of 31 December		**67'482**		**67'836**
Outstanding instruments as of 31 December		**1'214'590**		**1'008'676**

Of the outstanding 1'214'590 options, RSUs and non-vested shares (31 December 2024: 1'008'676), 521'672 options were exercisable immediately (31 December 2024: 494'383). All other options, RSUs and non-vested shares are restricted until at least 31 October 2026.

The outstanding instruments are split by strike price and grant year as follows:

Numbers of instruments outstanding as of 31 December		2025	2024
Grant year	Strike price in CHF		
Options granted in 2015	446.00		1'032
Options granted in 2016	682.00	43'250	55'500
Options granted in 2016	593.00	2'022	2'022
Options granted in 2017	805.00	92'470	121'834
Options granted in 2017	810.00	21'700	26'700
Options granted in 2018	975.00	84'300	96'800
Options granted in 2018	800.00	14'900	16'270
Options granted in 2019	965.00	115'564	137'775
Options granted in 2019	807.60	16'140	20'890
Options granted in 2020	1'045.00	88'245	90'135
Options granted in 2023	1'055.00	51'675	54'080
Options granted in 2023	1'116.50	121'860	127'862
Options granted in 2024	1'238.00	54'702	59'084
Options granted in 2024	1'251.00	127'282	130'856
Options granted in 2025	1'050.50	94'234	
Options granted in 2025	928.60	218'764	
RSUs granted in 2025	n/a	2'960	
Non-vested shares granted in the last five years	n/a	64'522	67'836
Total instruments outstanding		**1'214'590**	**1'008'676**

The estimated fair value of options granted is based on the Black-Scholes model. The fair value of the shares and RSUs granted is based on the share price at the date of grant. The fair value of shares and options granted in 2025 and related assumptions were as follows:

	Non-vested options[5,6]	Non-vested options[6]	Non-vested options	Vested shares	Non-vested shares	Non-vested RSUs
Date of grant	24.09.2025	24.09.2025	25.11.2025	25.11.2025	25.11.2025	25.11.2025 & 22.12.2025
Fair value per option/RSU/share at measurement date (in CHF)	109.86		93.32	928.60	928.60	941.45
Share price (in CHF)	1'050.50		928.60	928.60	928.60	941.45

- recognized in personnel expenses related to the grant 2025	13.9
- recognized in third party services related to the grant 2025	0.6
- recognized in personnel expenses related to the grant 2024	0.6

The Group has a long history of granting equity incentives to its employees. These are awarded at year-end through options, shares, RSUs, and participation rights on the basis of the following plans:

2.2.1. Entry shares and RSUs

In 2025, the Group granted either shares or RSUs to employees of the Group who commenced employment with the Group during the year. The shares are subject to a vesting period of one year. In addition, the shares are subject to a maximum five-year selling restriction, which is waived if the employee resigns from the Group before the end of the restriction period. The RSUs follow a five-year cliff-vesting model. Unvested shares and RSUs are forfeited when a plan participant leaves the Group. During the period, the Group granted 1'382 (2024: 2'083) shares and 773 (2024: nil) RSUs, both net of forfeitures. A net total of CHF 1.7 million (2024: CHF 2.6 million) was recognized in profit or loss during the period.

2.2.2. Employee Participation Plan ("EPP")

The Employee Participation Plan ("EPP") aims to align employee interests with those of external shareholders. The 2025 plan was a share, RSU and a share-option plan for the Group's eligible employees. The allocation to departments, teams and individuals was dependent on their performance and contribution to the overall achievement of the Group's goals during the period.

The 2025 EPP typically follows a linear vesting model (except RSUs which follow a five-year cliff vesting model), with proportionate annual vesting over a five-year period following the awards and contingent upon the employee remaining with the Group during the respective service period. Information on EPP grants from prior years is presented in the Annual Report for the respective year.

2.2.3. Management Incentive Plan ("MIP")

In 2015, the Group introduced the MIP for senior members of management and members of management who have significantly contributed to the Group's success in the past and who have the potential to do so in the future. Until 2020, the MIP was a long-term option-only plan that was allocated in two tranches that followed a five-year and six-year cliff-vesting model, respectively. In 2021, the Group replaced the call option that focused entirely on the Partners Group Holding AG share price

[5] Under the 2024 MIP, the Group granted equity incentives equaling the initial fair value of CHF 9.5 million. The amount was allocated to the participants in two tranches in options, CHF 4.8 million in 2024 and CHF 4.1 million (net of forfeitures) in 2025. The 2025 allocation in the amount of CHF 4.1 million translates into 37'765 options. As the Group and the beneficiaries of the plan have a common understanding of the terms and conditions, and participants have begun rendering services in respect of both tranches, the Group started recognizing expenses for both tranches beginning in 2024.
[6] Under the 2025 MIP, the Group granted equity incentives equaling the fair value of CHF 12.4 million. The amount is allocated to the participants in two tranches, the first tranche in September 2025 in the amount of CHF 6.2 million. The 2025 allocation in the amount of CHF 6.2 million translates into 56'469 options. The second tranche in the amount of CHF 6.2 million will be allocated in fall 2026. As the Group and the beneficiaries of the plan have a common understanding of the terms and conditions, and participants have begun rendering services in respect of both tranches, the Group started recognizing expenses for both tranches beginning in 2025.

performance with participation rights on the development of the Management Fee EBIT as defined in the Key definitions and alternative performance metrics section starting on page 36 of the Annual Report 2025. In 2023, the MIP plan was amended to a long-term option-only plan. Information on MIP grants from prior years is presented in the Annual Report for the respective year.

For the year 2025, options were granted on 24 September 2025 and were allocated in two tranches that follow a five-year and six-year cliff-vesting model, respectively. Unvested MIP participation rights and options are forfeited when a plan participant leaves the Group.

2.2.4. Management Performance Plan ("MPP")

In 2017, the Group introduced the MPP for members of the Executive Team and executive members of the Board of Directors. The plan reinforces a strong alignment of interests with shareholders as well as clients. In 2021, the plan was amended by replacing the option-like component, which was entirely linked to the share price performance of Partners Group Holding AG, with participation rights which focus on the development of the Management Fee EBIT. Since 2025, these participation rights are linked to the development of the Management Fee EBITDA as defined in the Key definitions and alternative performance metrics section starting on page 36 of the Annual Report 2025. Information on MPP grants from prior years is presented in the annual report for the respective year.

The intrinsic value of the 2025 MPP is determined by assessing the growth of the Management Fee EBITDA. Plan participants may choose to lock in the intrinsic value of their MPP rights in year five, six, or seven. The 2025 MPP restricts payouts to a Management Fee EBITDA development above a target growth rate. Likewise, a cap growth rate is applied above which no further value creation can be achieved. The intrinsic value will be assessed on the basis of the Management Fee EBITDA in the fifth, sixth or seventh financial year after the grant, dependent on when the MPP recipients elect to lock in the intrinsic value of their MPP rights. For example, for the MPP allocated in 2025, the Management Fee EBITDA payout restriction is assessed based on the Management Fee EBITDA for 2030 if a plan participant locks in the intrinsic value after the fifth year. When the Management Fee EBITDA for 2030 is below CHF 1'203.8 million, equal to a 2.0% annual Management Fee EBITDA growth rate (the floor-strike Management Fee EBITDA), the intrinsic value will by default be fixed to zero and there will be no future payout of the plan; when the Management Fee EBITDA for 2030 is above CHF 2'193.0 million, equal to a 15.0% annual Management Fee EBITDA growth rate (the cap-strike Management Fee EBITDA), the intrinsic value by default cannot exceed 7.4 times the initial grant value. If the measurement period is extended to year six or seven, the Management Fee EBITDA payout restriction is assessed based on the Management Fee EBITDA for 2031 or 2032, respectively. The same floor and cap growth rates will apply if the intrinsic value is locked in after the sixth or seventh year. This results in a floor-strike Management Fee EBITDA of CHF 1'227.9 million and CHF 1'252.4 million, respectively, and in a cap-strike Management Fee EBITDA of CHF 2'521.9 million and CHF 2'900.2 million respectively, for years six and seven.

Once the intrinsic value has been determined, the MPP payout occurs as the performance fees of the underlying investment vintage materialize. To assess whether the payout is higher or lower than the intrinsic value, the investment return targets set at grant are compared against the actual achievement on an annual basis. If 100% of the targeted investment performance is achieved over a time period of 14 years, the intrinsic value locked in at either year five, six, or seven will be paid out at 100% in the form of Partners Group shares. The total payout can be higher than the originally targeted nominal amount in the case of investment performance above target returns, or lower than the originally anticipated nominal amount in the case of lower investment performance. In the worst-case scenario, the amount can be zero, irrespective of the intrinsic value (if investment performance does not translate into any performance fees). Any potential future entitlements to plan participants, based on performance fees received by the Group prior to the assessment of the intrinsic value, will be accrued and paid out in subsequent years. For further details regarding the MPP, refer to the compensation report in the Annual Report 2025.

MPP grants typically vest linearly over a period of five years. The linear vesting is subject to a minimum five-year tenure in the respective committee. Before that, the MPP has a five-year cliff vesting attached. Unvested MPP participation rights are forfeited when a plan participant leaves the Group.

In accordance with the option-like characteristics of the MPP, the allocation date fair value is calculated similarly to the valuation of a call spread (a set of two calls: buying a call right and selling a call right at the same time) on Management Fee EBITDA. The Black-Scholes model is used to value the option-like element of the contract. MPP participation rights are priced in consideration of both the floor-strike Management Fee EBITDA (floor/short call), which determines the price at which the Group sells the right to an MPP recipient, and the cap-strike Management Fee EBITDA (cap/long call), which determines the price at which the Group would buy the right from an MPP recipient, respectively. The difference between the calculated prices of these two participation rights is considered the net price of the instrument, which in turn is used to calculate the allocation date fair value.

Fair value of MPP granted in 2025 and related assumptions:

In millions of Swiss francs	Short-Call	Long-Call
Date of allocation	March 2026	March 2026
Management Fee EBITDA	1'090.3	1'090.3
Strike measured at year 5	1'203.8	2'193.0
Strike measured at year 6	1'227.9	2'521.9
Strike measured at year 7	1'252.4	2'900.2
Vesting conditions[7]	5 years	5 years
Expected volatility[8]	18.3%	18.3%
Expected term of execution	6 years	6 years
Expected dividend ratio	0.0%	0.0%
Risk-free interest rate (based on swap rates)	0.0%	0.0%
Total fair value of the 2025 participation right exercised year 5	**134.2**	

Grants in 2025 to	% of 2025 participation right	Vesting conditions[7]	In millions of CHF
2025 MPP recipients	18.0%	5 years	24.2

Amount recognized in profit or loss (in millions of CHF)	2025
MPP	6.5
Amounts recognized in profit or loss (in millions of CHF)	**6.5**

In 2025, the Group introduced an additional plan with characteristics similar to the MPP, targeting a select group of employees outside the Executive Team and Board of Directors. Under this plan, the Group granted equity incentives with an initial fair value of CHF 6.2 million, of which CHF 2.3 million was recognized in profit or loss during the period.

[7] Linear vesting for plan participants with a five- or more-year tenure in the respective committee, cliff vesting otherwise.
[8] The applied expected volatility is based on the volatility of the Management Fee EBITDA of the last 20 quarters.

Accounting policy: Share-based payment transactions

All of the Group's share-based payment plans qualify as equity-settled. The fair value at grant date of share-based payment awards granted to employees is recognized as personnel expense in the consolidated statement of profit or loss with a corresponding increase in equity, over the period until the employees unconditionally become entitled to the awards. The amount recognized as personnel expense is adjusted to reflect the number of awards for which the related service and non-market vesting conditions are expected to be met, such that the amount ultimately recognized as personnel expense is based on the number of awards that meet the related service and non-market performance conditions at the vesting date. For share-based payment awards without vesting conditions, the fair value at grant date of the share-based payment is measured and immediately expensed in profit or loss to reflect such conditions. There are no true-ups for differences between expected and actual outcomes.

Partners Group campus | Baar-Zug, Switzerland

2.3. Employee benefits - assets and liabilities

In millions of Swiss francs as of 31 December	2025	2024
Net defined benefit asset	23.9	14.3
Employee benefit assets	**23.9**	**14.3**
Net defined benefit liability	(3.5)	(0.6)
Accrued variable compensation	(236.4)	(229.5)
Management carry plan	(322.5)	(252.6)
Other employee benefit liabilities	(21.2)	(20.0)
Employee benefit liabilities	**(583.6)**	**(502.7)**
Current liabilities	(389.8)	(215.9)
Non-current liabilities	(193.8)	(286.8)
Employee benefit liabilities	**(583.6)**	**(502.7)**

2.3.1. Performance fee-related compensation

Each year, the Nomination & Compensation Committee ("NCC") and the BoD allocate up to 40% of recognized performance fees via the Performance Fee Compensation Pool to a group of eligible employees.

The pool is allocated to the individual employees via the Management Carry Plan ("MCP") (see (a) below) and the Management Performance Plan ("MPP") (see note 2.2.4.) with the remainder, i.e. the difference between the Performance Fee Compensation Pool and the MCP/MPP allocations, being allocated via the Performance Fee Bonus Pool (see (b) below).

In 2025, performance fees recognized in the consolidated statement of profit or loss amounted to CHF 818.7 million (2024: CHF 510.5 million), of which CHF 222.7 million (2024: CHF 127.9 million) had been pre-allocated via the MCP (including social security expenses) and CHF 29.0 million (2024: CHF 18.0 million) via the MPP. In addition, CHF 1.4 million were accrued (2024: CHF 1.6 million were accrued) for social security costs in relation to the MPP, and CHF 74.3 million (2024: CHF 56.7 million) were allocated via the Performance Fee Bonus Pool. In 2025, the payout amounted to CHF 206.8 million for these schemes (2024: CHF 178.5 million). Based on performance fees invoiced as of 31 December 2025, the Group expects a cash payout of CHF 278.3 million (2024: CHF 117.2 million) for these schemes in the first half of 2026.

(a) Management Carry Plan ("MCP") allocation

In 2011, Partners Group launched a dedicated performance fee-related compensation program, the MCP, whereby a percentage of the potential future performance fees from investments is allocated to eligible senior professionals. The MCP was designed as a long-term incentive plan which aligns the rewards for the Group's professionals with investment performance and the Group's overall financial success. It is discretionally granted to employees on an annual basis and is only paid out once the performance fees are collected by the Group. Payouts are made in cash. In 2024, the Group reintroduced the MCP for Executive Team members. For further details regarding the MCP compensation, refer to the compensation report in the Annual Report 2025.

(b) Performance Fee Bonus Pool allocation

The Performance Fee Bonus Pool, i.e. the difference between the Performance Fee Compensation Pool and the MCP/MPP allocations, is to be distributed among the employees. The part of the Performance Fee Bonus Pool that is not expected to be paid out before twelve months after the end of the annual reporting period in which the employees render the related services is presented as non-current liabilities.

Accounting policy: Performance fee-related compensation

The promise to allocate up to 40% of recognized performance fees represents a constructive obligation towards the eligible group of employees. The Group recognizes expenses related to the MCP in personnel expenses when the related performance fees become sufficiently visible. This is in the period in which performance fees are recognized in the consolidated statement of profit or loss, which is generally before the effective collection of such performance fees. At the same time, the obligation in relation to the Performance Fee Bonus Pool is recognized. The corresponding liabilities are recognized as employee benefit liabilities in the consolidated statement of financial position. The part of these liabilities that is not expected to be settled before twelve months after the end of the annual reporting period is considered in non-current liabilities.

2.3.2. Defined benefit plans

The pension plans in place for Swiss employees ("the Pension Funds") qualify as defined benefit plans. The Pension Funds provide benefits for retirement, disability, and surviving dependents that meet or exceed the minimum benefits required under the Federal Law on Occupational Retirement, Survivors' and Disability Insurance ("LOB" also referred to as "BVG"). The Pension Funds are responsible for capital investments and pursues an investment strategy with a prescribed investment policy.

The Group's main Swiss Pension Fund is administered by Gemini Sammelstiftung, Zurich, Switzerland, which is legally separate from the Group and is governed by a foundation board. In addition, there is a pension fund commission comprising two employee and two employer representatives. The duties of the foundation board, as well as the pension fund commission, are laid out in the LOB and the specific pension fund rules. They are required by law to act in the best interest of the participants and are responsible for setting certain policies (e.g. investment, contribution and indexation policies) for the Pension Fund. At least four times a year, the foundation board, as well as the pension fund commission, meet to analyze consequences and decide on adjustments in the investment strategy. Another Swiss Pension Fund is administered by Vita Sammelstiftung Zurich, Switzerland. It is also legally separate from the Group and governed in accordance with the LOB and the specific pension fund rules.

Pursuant to the LOB, additional employer and employee contributions may be imposed whenever a significant funding deficit arises in accordance with the LOB. The Pension Funds are exposed to actuarial risks, such as investment risk, longevity risk, disability risk, foreign currency risk, and interest rate risk.

In addition to the plans described beforehand, defined benefit plans for Swiss management provide retirement benefits and risk insurance for death and disability for components of remuneration in excess of the maximum insurable amount of salary.

The Group has additional immaterial non-Swiss post-employment benefit obligations arising from other defined benefit plans. As of 31 December 2025, these amount to CHF 0.9 million (31 December 2024: CHF 0.6 million).

Development of defined benefit asset/(obligation)

In millions of Swiss francs	2025	2024
Present value of benefit obligation as of 1 January	(123.9)	(110.2)
Change in scope of consolidation - additions	(9.1)	
Included in profit or loss		
Current service cost (employer)	(8.6)	(8.5)
Interest expense on benefit obligation	(1.2)	(1.7)
Past service cost, curtailments		0.1
Included in other comprehensive income		
Actuarial gains/(losses) on benefit obligation arising from:		
- change in demographic assumptions		
- change in financial assumptions	3.4	(7.8)
- experience gains/(losses)	(3.1)	(1.0)
Other		
Employee contributions	(6.0)	(5.7)
Benefit payments	7.1	10.9
Present value of benefit obligation as of 31 December	**(141.4)**	**(123.9)**

In millions of Swiss francs	2025	2024
Fair value of plan assets as of 1 January	137.6	121.4
Change in scope of consolidation - additions	6.4	
Included in profit or loss		
Interest income on plan assets	1.4	1.9
Administration cost	(0.2)	(0.2)
Included in other comprehensive income		
Actuarial gain/(loss) on plan assets	9.7	12.1
Other		
Employer contributions	8.0	7.6
Employee contributions	6.0	5.7
Benefit payments	(7.1)	(10.9)
Fair value of plan assets as of 31 December	**161.8**	**137.6**
Net defined benefit asset/(obligation) as of 31 December	**20.4**	**13.7**
Net defined benefit asset	23.9	14.3
Net defined benefit liability	(3.5)	(0.6)
Net defined benefit asset/(obligation) as of 31 December	**20.4**	**13.7**

The total expected employer contributions in 2026 for all plans are estimated to be CHF 9.4 million.

Asset allocation for the main Swiss Pension Fund

Asset allocation as of 31 December	2025	2024
Cash	3.0%	8.3%
Public debt	0.0%	0.1%
Public equity	38.6%	34.1%
Private markets	55.0%	53.8%
Alternatives/other	3.4%	3.7%
Total	**100.0%**	**100.0%**

Principal actuarial assumptions for the main Swiss Pension Fund

The calculation of the net defined benefit asset/(obligation) for the Group's main plan included the following principal actuarial assumptions:

Principal actuarial assumptions as of 31 December	2025	2024
Discount rate	1.3%	0.9%
Interest rate on retirement credits	1.8%	1.3%
Average future salary increases	2.0%	2.0%
Future pension increases	0.0%	0.0%
Mortality tables used	BVG 2020 (GT)	BVG 2020 (GT)
Mortality model used	BFS	BFS
Assumed average retirement age female	63	63
Assumed average retirement age male	63	63
Weighted average duration of defined benefit obligation (years)	12.0	12.6
Assumed life expectancy at retirement age female	24.9	24.8
Assumed life expectancy at retirement age male	23.1	23.1

Sensitivity analysis for the main Swiss Pension Fund

Reasonably possible changes as of the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the net defined benefit asset and current service cost by the amounts presented below:

In millions of Swiss francs	Impact on net defined benefit asset	Increase/(decrease) of current service cost (employer)
Decrease of discount rate (-0.5%)	(8.5)	0.7
Increase of discount rate (+0.5%)	7.5	(0.8)
Decrease of salary increase (-0.5%)	1.4	(0.2)
Increase of salary increase (+0.5%)	(1.5)	0.2
Shorter life expectancy (-1 year)	0.3	(0.0)
Longer life expectancy (+1 year)	(0.3)	0.0

Although the analysis above does not take into account the full distribution of expected cash flows under the main defined benefit plan, it does provide an approximation of the sensitivity of the assumptions presented.

Accounting policy: Pension schemes

Group companies operate various pension schemes. The schemes typically are funded through payments to insurance companies or trustee-administered funds, determined by periodic actuarial calculations. The Group has both defined benefit and defined contribution plans.

For defined contribution plans, the Group pays contributions to publicly or privately administered pension insurance plans on a mandatory, contractual, or voluntary basis. For such plans, the Group has no further payment obligations once the contributions have been paid. The contributions are recognized as personnel expenses in the consolidated statement of profit or loss when due.

A defined benefit plan is a pension plan that is not a defined contribution plan. Typically, defined benefit plans specify an amount of pension benefit that an employee will receive upon retirement, typically dependent on one or more factors such as age, years of service, and compensation. The Group's net obligation/asset in respect of defined benefit plans is calculated by estimating the discounted amount of future benefits that employees have earned and deducting the fair value of any plan assets. The defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. When the actuarial calculation results in a benefit to the Group, the recognized asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. An economic benefit is available to the Group if it is realizable during the life of the plan, or on settlement of the plan liabilities. The Group opted for the risk-sharing approach.

3. Financial instruments and financial risk management

3.1. Financial assets

As per reporting date, the Group's financial assets were classified into the following categories:

In millions of Swiss francs as of 31 December	Note	2025	2024
Financial assets at amortized cost			
Cash and cash equivalents	3.5.1. (b)	328.8	288.9
Fee receivables	3.1.1.	270.0	278.4
Other receivables	3.1.1.	115.0	49.3
Accrued revenue	3.1.1.	750.3	827.5
Short-term loans	3.5.1. (c)	1'656.9	1'634.2
Non-current accrued revenue	3.1.1.	325.4	384.2
Other financial assets		40.6	18.5
Total		**3'487.0**	**3'481.0**
Financial assets at fair value through profit or loss			
Derivative assets	3.4. (a)	6.0	5.4
Financial investments	3.1.2.	1'123.4	925.9
Assets held for sale	3.1.3.	789.9	534.6
Total		**1'919.3**	**1'465.9**
Total financial assets		**5'406.3**	**4'946.9**

Accounting policy: Financial assets

Financial assets other than trade receivables are initially recognized when the Group becomes a party to the contractual provisions of the instrument.

The Group classifies its financial assets in the following measurement categories:

- at amortized cost; or
- at fair value through profit or loss

None of the Group's financial assets are classified as financial asset at fair value through other comprehensive income.

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed as incurred.

Subsequent measurements of debt instruments depend on the Group's business model for managing the asset and the cash flow characteristics of the asset:

- Amortized cost: Assets that are held for collection of contractual cash flows, where those cash flows represent solely payments of principal and interest, are measured at amortized cost. A gain or loss on a debt instrument that is subsequently measured at amortized cost and is not part of a hedging relationship is recognized in profit or loss when the asset is derecognized, impaired, or when expected cash flows are revised, resulting in a change in the asset's carrying amount. Compensation from short-term loans is included in other operating income. Interest income from other financial assets is included in finance income using the effective interest rate method.
- Fair value through profit or loss: Assets that do not meet the criteria for amortized cost are measured at fair value through profit or loss. Changes in fair value are recognized in finance income and expense as net gains on fair value through profit or loss instruments, including any dividend and interest income. A gain or loss on a debt instrument that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognized on a net basis in profit or loss in the period in which it arises.

The Group assesses the recoverability of its financial assets that are measured at amortized cost on a regular basis. It calculates, on a forward-looking basis, the expected credit losses associated with such financial instruments.

Equity instruments are subsequently measured at fair value through profit or loss.

3.1.1. Trade and other receivables and accrued revenue

In millions of Swiss francs as of 31 December	2025	2024
Fee receivables	270.0	278.4
Other receivables	115.0	49.3
Accrued revenue	750.3	827.5
Trade and other receivables	**1'135.3**	**1'155.2**
Non-current accrued revenue	325.4	384.2
Total trade and other receivables and accrued revenue	**1'460.7**	**1'539.4**

Accounting policy: Trade and other receivables

Trade and other receivables are initially recognized when they are originated and measured at their transaction price, less impairment losses. The Group applies the IFRS 9 simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance.

Note 3.5.1. details the Group's credit risk assessment for trade and other receivables and accrued revenue.

3.1.2. Financial investments

The Group holds financial investments in various investment programs that it manages. These financial investments typically account for a stake of one percent in an investment program. Within the investment programs, the Group typically performs investment management activities for the benefit of external investors under a predetermined investment policy. In return, the Group receives a predetermined management fee and, where applicable, a performance fee for its services, which are presented as revenues from management services in the consolidated statement of profit or loss.

Movements in the Group's financial investments over the period were as follows:

In millions of Swiss francs	2025	2024
Balance as of 1 January	925.9	820.1
Additions	368.4	127.3
Distributions/disposals	(196.9)	(146.7)
Transfers from assets and liabilities held for sale[9]	63.7	13.2
Change in scope of consolidation - additions	0.1	
Change in fair value	34.2	73.8
Exchange differences	(72.0)	38.2
Balance as of 31 December	**1'123.4**	**925.9**

The Group's financial investments were split into the following operating segments:

In millions of Swiss francs as of 31 December	2025	2024
Private equity	574.1	449.4
Private credit	274.4	252.1
Real estate	76.1	79.3
Infrastructure	175.9	145.1
Royalties	22.9	
Total financial investments	**1'123.4**	**925.9**

[9] Reclassification of a former seed investment program that has been sufficiently diluted, such that the Group is no longer deemed to have control. Refer to Accounting policy: Assets and liabilities held for sale on page 69 for more details.

Accounting policy: Financial investments

Financial investments are measured at fair value through profit or loss. The fair values of financial investments not listed at a public security exchange typically represent stakes in investment programs. The fair value of these investment program interests is typically determined using the adjusted net asset value (NAV) method, reflecting the Group's share in the net assets of the respective programs. The underlying investments held within these investment programs are, in turn, valued in-line with fair value principles using appropriate valuation techniques as further described in note 3.4. (c). The fair values of quoted financial investments are based on current bid prices.

Refer to note 3.4. for further explanations on valuation techniques and critical accounting estimates.

3.1.3. Assets and liabilities held for sale

The Group provides seed financing to certain early-stage investment programs or structured entities that it manages. As of 31 December 2025, assets and liabilities of twelve (31 December 2024: thirteen) such investment programs were classified and presented as assets and liabilities held for sale. The assets and liabilities held for sale as of 31 December 2025 comprised private equity, real estate, private credit, infrastructure, and royalties-related assets and liabilities (31 December 2024: private equity, private credit, infrastructure, and royalties-related assets and liabilities).

In millions of Swiss francs as of 31 December	2025	2024
Assets held for sale	789.9	534.6
Liabilities held for sale	(258.2)	(26.6)
Assets and liabilities held for sale, net	**531.7**	**508.0**

Accounting policy: Assets and liabilities held for sale

The Group may invest seed capital into investment programs that the Group typically manages with the objective of providing initial scale and facilitating marketing of the investment programs to third-party investors. The decision to provide seed financing to an investment program is made by the responsible bodies defined in the Group's Rules of the Organization and of Operations ("ROO"). Investment programs deemed to be controlled under IFRS 10 are classified as held for sale and are presented in the separate line items assets held for sale and liabilities held for sale. These assets and liabilities held for sale are available for immediate sale and the Group is actively seeking to reduce its share in seed-financed investment programs. These investment programs typically call the seed financing to invest in assets that are comparable to the Group's investments in investment programs that it manages (see note 3.4.). In addition, the Group may, from time to time, establish other structured vehicles whose carrying amount will be recovered principally through a sale transaction rather than through continuing use, in line with IFRS 5. The underlying assets and liabilities of these investment programs and structured vehicles held for sale are typically financial assets and liabilities valued at their adjusted net asset values.

Assets and liabilities held for sale are measured at the lower of their carrying amount and fair value less costs to sell, whereby costs to sell are typically insignificant. In the case of a subsequent remeasurement, the carrying amounts of any assets and liabilities are remeasured in accordance with applicable IFRS Accounting Standards before the fair value less costs to sell of the disposal group is remeasured.

Investments or structured vehicles that are subsequently disposed of or diluted, such that the Group is no longer deemed to have control under IFRS 10, will subsequently be reclassified as investments at fair value through profit or loss and presented as financial investments in the consolidated statement of financial position.

Critical accounting judgment: Control assessment and accounting for structured entities

As further described in note 4.1, the Group assesses its involvement with structured entities (typically investment programs that it manages) to determine whether it has control over them.

For investment programs where the Group exercises control, which is typically the case for seed-financed investment programs, management applies judgment in determining whether the assets and liabilities meet the IFRS 5 criteria for classification as held for sale at the reporting date. In particular, this judgment focuses on whether the assets and liabilities are available for immediate sale in their present condition (subject only to terms that are usual and customary) and whether the sale is highly probable.

In assessing whether a sale is highly probable, in line with the Group's objective to reduce its share in seed-financed investment programs, management considers whether an active program to locate buyers has been initiated, whether the assets and liabilities are actively marketed at a price that is reasonable in relation to their current fair value, and whether completion is expected within the period required by the Standard.

The Group considered all relevant facts and circumstances and concluded that, for the current year (consistent with the prior year), all investment programs over which it has control meet the IFRS 5 criteria for classification as held for sale.

3.2. Financial liabilities

As per reporting date, the Group's financial liabilities were classified into the following categories:

In millions of Swiss francs as of 31 December	Note	2025	2024
Financial liabilities at amortized cost			
Trade payables	3.2.1.	43.2	65.2
Goods and services received not yet invoiced	3.2.1.	81.4	90.8
Accrued revenue deductions	3.2.1. & 3.2.3.	308.9	271.8
Deferred revenue	3.2.1. & 3.2.3.	35.5	12.4
Cash collateral for forward contracts	3.2.1.	0.9	
Lease liabilities	5.3.	100.4	99.4
Credit facilities drawn	3.5.3. (a)	1'056.0	715.0
Debt	3.2.2.	1'329.7	1'329.6
Other payables	3.2.1. & 3.2.3.	41.8	38.7
Total		**2'997.8**	**2'622.9**
Financial liabilities at fair value through profit or loss			
Liabilities held for sale	3.1.3.	258.2	26.6
Derivative liabilities	3.2.1.	4.3	10.8
Contingent consideration liability	3.2.1. & 3.2.3.	131.1	6.7
Other payables	3.2.3.	0.3	0.3
Total		**393.9**	**44.4**
Total financial liabilities		**3'391.7**	**2'667.3**

Accounting policy: Financial liabilities

Financial liabilities are initially recognized when the Group becomes a party to the contractual provisions of the instrument and are classified as measured at amortized cost or fair value through profit or loss. Financial liabilities at fair value through profit or loss are measured at fair value, and net gains and losses, including any interest expense, are recognized in profit or loss. Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expenses, foreign exchange gains and losses, and any gain or loss on derecognition is recognized in profit or loss.

3.2.1. Trade and other payables

In millions of Swiss francs as of 31 December	Note	2025	2024
Trade payables		43.2	65.2
Goods and services received not yet invoiced		81.4	90.8
Derivative liabilities		4.3	10.8
Accrued revenue deductions		239.3	181.4
Cash collateral for forward contracts		0.9	
Deferred revenue		11.7	
Lease liabilities	5.3.	15.6	14.6
Contingent consideration liability		25.0	4.5
Other current payables		29.4	38.6
Trade and other payables		**450.8**	**405.9**

3.2.2. Debt

In millions of Swiss francs	2025	2024
Balance as of 1 January	1'329.6	1'130.0
Additions	4.3	499.3
Repayments	(4.3)	(300.0)
Accreted interest	0.1	0.3
Balance as of 31 December	**1'329.7**	**1'329.6**

The Group issued the following outstanding corporate bonds denominated in Swiss francs and listed on the SIX Swiss Exchange:

ISIN	Date of issue	Fair value 31.12.2025	Fair value 31.12.2024	Face value in millions of CHF	Coupon in %	Year of maturity	Issue price in %	Redemption price in %
CH0419041287	21 June 2019	498.0	498.3	500.0	0.400%	2027	100.098%	100.000%
CH1293714346	26 September 2023	156.1	158.2	150.0	2.250%	2028	100.528%	100.000%
CH1293714353	26 September 2023	195.8	199.0	180.0	2.400%	2033	100.132%	100.000%
CH1346742930	7 June 2024	208.2	210.3	200.0	1.900%	2030	100.169%	100.000%
CH1346742948	7 June 2024	320.4	326.4	300.0	2.150%	2034	100.000%	100.000%

The Group repaid its corporate bond (ISIN CH0361532895) with an outstanding amount of CHF 300.0 million and a coupon of 0.15% at the due date of 7 June 2024. There was no gain or loss recorded on this redemption.

Accounting policy: Debt

The Group's debt is initially measured at fair value less any directly attributable transaction costs. Subsequent to initial recognition, these liabilities are measured at amortized cost using the effective interest method, with interest expense recognized in the consolidated income statement on the effective yield basis.

3.2.3. Other long-term liabilities

In millions of Swiss francs as of 31 December	2025	2024
Long-term accrued revenue deductions	69.6	90.4
Long-term deferred revenue	23.8	12.4
Contingent consideration liability	106.1	2.2
Other non-current payables	12.7	0.4
Other long-term liabilities	**212.2**	**105.4**

3.2.4. Commitments

As of 31 December 2025, the Group had capital commitment contracts of CHF 1'328.4 million (2024: CHF 1'310.9 million), of which CHF 359.9 million (2024: CHF 316.0 million) were not yet called by the relevant investment managers. Capital commitments are called over time, typically between one to five years following the subscription of the commitment. Capital commitments are not considered to be a financial liability as the commitments do not constitute an obligation to pay cash until the capital is called.

3.3. Finance income and expenses

In millions of Swiss francs	Note	2025	2024
Interest income calculated using the effective interest rate method		5.1	8.4
Net gains on fair value through profit or loss instruments	3.4.	75.6	112.5
Finance income		**80.7**	**120.9**
Interest expense calculated using the effective interest rate method		(44.8)	(28.0)
Share of results of associates and joint ventures	4.2.	(1.0)	(0.7)
Bank charges and other finance expenses		(8.5)	(5.2)
Net foreign exchange losses		(36.6)	(25.9)
Finance expense		**(90.9)**	**(59.8)**
Total net finance income and (expense)		**(10.2)**	**61.1**

3.4. Fair value measurement

(a) Overview

—

Fair value is the price that would be received for selling an asset or paid to transfer a liability in an orderly transaction between knowledgeable market participants at the measurement date in the principal, or in its absence, the most advantageous market to which the Group has access at that date. The fair value of a liability reflects its non-performance risk.

The Group measures fair values using the following fair value hierarchy, which is classified by the observability of inputs used in making the measurements:

- Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2 – inputs, other than quoted prices included within level 1, that are observable for assets or liabilities, either directly (i.e. as prices) or indirectly (i.e. derived from prices)
- Level 3 – inputs for assets or liabilities that are not based on observable market data (i.e. unobservable inputs)

The following table shows the fair value hierarchy of the Group's financial assets and liabilities measured at fair value:

				2025
In millions of Swiss francs as of 31 December	Level 1	Level 2	Level 3	Total
Derivative assets		6.0		6.0
Assets held for sale			789.9	789.9
Financial investments	0.0		1'123.4	1'123.4
Total	**—**	**6.0**	**1'913.3**	**1'919.3**
Derivative liabilities		4.3		4.3
Liabilities held for sale			258.2	258.2
Contingent consideration liability			131.1	131.1
Other payables			0.3	0.3
Total	**—**	**4.3**	**389.6**	**393.9**

			2024	
In millions of Swiss francs as of 31 December	Level 1	Level 2	Level 3	Total
Derivative assets		5.4		5.4
Assets held for sale			534.6	534.6
Financial investments	0.0		925.9	925.9
Total	**0.0**	**5.4**	**1'460.5**	**1'465.9**
Derivative liabilities		10.8		10.8
Liabilities held for sale			26.6	26.6
Contingent consideration liability			6.7	6.7
Other payables			0.3	0.3
Total	**—**	**10.8**	**33.6**	**44.4**

The carrying amounts for cash and cash equivalents, trade and other receivables, short-term loans, trade and other payables, and credit facilities drawn are expected to approximately equal the fair values given the short-term nature of these financial instruments. The carrying amounts for other financial assets and the remaining other long-term liabilities are expected to not materially differ from fair values, given the outstanding balances and expected settlement dates, except for the corporate bonds whose fair values are disclosed in note 3.2.2.

The following tables show the reconciliation of all level 3 financial instruments in 2025 and 2024:

		2025
In millions of Swiss francs	Financial assets	Financial liabilities
Balance as of 1 January	1'460.5	33.6
Additions	828.5	246.0
Distributions/disposals	(308.7)	(0.1)
Change in scope of consolidation - additions	0.1	125.0
Changes in fair value[10]	75.6	0.0
Exchange differences	(142.7)	(14.9)
Balance as of 31 December	**1'913.3**	**389.6**

		2024
In millions of Swiss francs	Financial assets	Financial liabilities
Balance as of 1 January	1'137.4	0.9
Additions	447.7	65.7
Distributions/disposals	(302.2)	(33.7)
Changes in fair value[10]	112.5	0.0
Exchange differences	65.1	0.7
Balance as of 31 December	**1'460.5**	**33.6**

For the period ending 31 December 2025, changes in fair value included unrealized gains of CHF 10.0 million (31 December 2024: unrealized gains of CHF 59.6 million) for recurring fair value measurements categorized within level 3 of the fair value hierarchy.

There were no transfers between levels.

[10] Presented in the line items finance income and finance expense in the consolidated statement of profit or loss.

(b) Financial investments and assets and liabilities held for sale

Financial investments (see note 3.1.2.) and assets and liabilities held for sale (see note 3.1.3.), disclosed as level 3 financial instruments, typically reflect the Group's own investments in investment programs that the Group manages. For these investment programs and their underlying investments, the determination of fair value requires a subjective assessment with varying degrees of judgment depending on liquidity, concentration, pricing assumptions, the current economic and competitive environment, and the risks affecting the specific investments. In such circumstances, valuation is determined based on management's judgment on the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The Group applies control processes to ensure that the fair value of its own investments reported in the consolidated financial statements, including those derived from pricing models, is in accordance with IFRS 13 and determined on a reasonable basis. Such controls include reviews of profit or loss statements of underlying investments at regular intervals, risk monitoring, and reviews of price verification procedures and models, which are used to estimate the fair value of these investments by senior management and personnel with relevant expertise who are independent of the trading and investment functions.

Control processes also include the review and approval of new underlying investments made on behalf of investors. The Group has several investment committees. The investment selections and recommendations follow a standardized process which includes several iterations in the Specialist Investment Committee as well as Global Investment Committee. Depending on the investment threshold, the Specialist Investment Committee or the Global Investment Committee signs the Investment Advice. The Global Portfolio Committee supports both committees with regards to the portfolio allocation into Partners Group's programs and mandates. These committees decide whether or not new investments will be advised to the manager of the investment program.

(c) Valuation techniques used to determine fair values of underlying investments

Financial investments typically reflect the Group's own investments in investment programs that the Group manages. These investment programs may invest across a broad range of underlying investments, including equity and debt instruments as well as other asset types, held either directly or indirectly. The following valuation techniques are applied to determine the fair values of such underlying investments in line with IFRS 13:

- market approach;
- income approach; and
- adjusted net asset value method

Securities traded on one or more securities exchanges are typically valued based on their respective market prices as of measurement date adjusted for potential restrictions on the transfer or sale of such investment.

The valuation techniques applied are described in further detail below.

Market approach

The market approach comprises valuation techniques such as market comparable companies and multiple techniques. A market comparable approach uses quoted market prices or dealer quotes for similar instruments to determine the fair value of a financial asset. A multiple approach can be used in the valuation of less liquid securities. Comparable companies and multiple techniques assume that the valuation of unquoted direct investments can be assessed by comparing performance measure multiples of similar quoted assets for which observable market prices are readily available. Comparable public companies based on industry, size, development stage, strategy, etc. have to be determined. Subsequently, the most appropriate performance measure for determining the valuation of the relevant direct investment is selected (these include but are not limited to enterprise value ("EV")/EBITDA ratios, price/earnings ratios for earnings, or price/book ratios for book values). Trading multiples for each comparable company identified are calculated by dividing the value of the comparable company by the defined performance measure. The relevant trading multiples might be subject to adjustment for general qualitative differences such as liquidity, growth rate, or quality of customer base between the valued direct investment and the comparable company set. The indicated fair value of the direct

investment is determined by applying the relevant adjusted trading multiple to the identified performance measure of the valued company.

Income approach

Within the income approach, primarily the discounted cash flow method and the capitalization model are applied. Expected cash flow amounts are discounted to a present value at a rate of expected return that represents the time value of money and reflects the relative risks of the direct investment. Direct investments into debt instruments can be valued by using the instrument's expected cash flows while direct investments into equity instruments can be valued by using the "cash flow to equity" method, or indirectly, by deriving the EV using the "cash flow to entity" method and subsequently subtracting the direct investment's net debt in order to determine the equity value of the relevant direct investment. Expected future cash flows based upon agreed investment terms or expected growth rates have to be determined. In addition, and based on the current market environment, an expected return of the respective direct investment is projected. The future cash flows are discounted to the present date in order to determine the current fair value.

Adjusted net asset value method

Indirect investments of investment programs managed by the Group are typically valued at the indirect investments' net asset values last reported by the indirect investments' general partners. When the reporting date of such net asset values does not coincide with the investment programs' reporting date, the net asset values are adjusted as a result of cash flows to/from an indirect investment between the date of the most recently available net asset valuation and the end of the reporting period of the investment program, and further information gathered during the ongoing investment monitoring process. This monitoring process includes, but is not limited to, binding bid offers, other market participant information on developments of portfolio companies held by indirect investments or syndicated transactions, which involve such companies.

(d) Unobservable input factors

Where available, market-observable assumptions and inputs are applied in the valuation techniques for indirect investments of investment programs managed by the Group. If such information is not available, inputs may be derived by reference to similar assets in active markets, from recent prices for comparable transactions, or from other observable market data. When measuring fair value, unobservable inputs are selected for use in valuation techniques based on a combination of historical experience, derivation of input levels from similar investment programs with observable price levels, and knowledge of current market conditions and valuation approaches.

Within valuation techniques, different unobservable input factors are typically used. Significant unobservable inputs include EV/EBITDA multiples, discount rates, capitalization rates, price/book ratios, price/earnings ratios, and EV/sales multiples. Original transaction prices, recent transactions in the same or similar instruments, and completed third-party transactions in comparable instruments are also considered, and the model is adjusted as deemed necessary. Further inputs consist of external valuation appraisals and third-party quotes. A significant portion of the investment programs' direct equity investments are measured using EV/EBITDA multiples, which show wide ranges.

The value of level 3 direct investments valued by using unobservable input factors is directly affected by a change in that factor. The change in valuation of level 3 direct investments may vary between different direct investments of the same category as a result of individual levels of debt financing within such an investment.

(e) Sensitivity of fair values

The fair values of the Group's financial investments and assets and liabilities held for sale, typically the Group's own investments in investment programs, are determined by the valuation of their underlying investment portfolios. A reasonably possible change in the fair values of these underlying investment portfolios would have the following effects on the Group's fair values:

In millions of Swiss francs as of 31 December	2025	2024
1% increase in the fair values of underlying investment portfolios	16.6	14.3

Although the Group believes that its estimates of fair values are appropriate, the use of different methodologies and different unobservable inputs, especially in the underlying investments of investment programs, could lead to different measurements of fair values for its financial investments, and assets and liabilities held for sale.

Critical accounting estimate: Determination of fair values

A significant portion of the Group's assets and, to a lesser extent, liabilities is carried at fair value. The fair value of some of these assets is based on quoted prices in active markets or observable market inputs.

In addition, the Group holds financial instruments for which no quoted prices are available, and which have little or no observable market inputs. For these financial instruments, the determination of fair value requires a subjective assessment with varying degrees of judgment which takes into consideration the liquidity, concentration, pricing assumptions, current economic and competitive environment, and the risks affecting the specific financial instrument. In such circumstances, valuation is determined based on management's judgment related to the assumptions that market participants would use in pricing assets or liabilities (including assumptions about risk). These financial instruments mainly include investments in the areas of private equity, private credit, real estate, infrastructure and royalties, and derivative assets or liabilities.

3.5. Financial risk management

The Board of Directors ("BoD") has the overall responsibility for the establishment and oversight of the Group's risk management framework. The BoD has formed the Risk & Audit Committee ("RAC"), which is responsible for developing and monitoring the Group's risk management policies. The RAC reports regularly to the BoD on its activities.

The Group's risk management policies have been established to identify and analyze the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to those limits. Management is required to adhere to detailed approval processes as defined by the Rules of the Organization and of Operations. Risk management policies and systems are reviewed regularly to reflect changes in market conditions as well as in the Group's activities. The Group, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The RAC oversees how management monitors compliance with the Group's risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the risks faced by the Group. The RAC is assisted in its oversight role by the Chief Risk Officer, the Chief Financial Officer as well as Group Internal Audit. Group Internal Audit undertakes both regular and ad hoc reviews of risk management controls and procedures and reports their findings directly to the RAC.

The RAC reviews and monitors the assessment of the risks to which the Group is exposed. In particular, the risk assessment covers financial, operational, regulatory, legal, and conduct risk. As a part of its assessment, the RAC takes into consideration the internal control system designed to monitor and reduce the risks of the Group.

The Group has exposure to credit risk, market risk, and liquidity risk arising from its holding of financial instruments.

3.5.1. Credit risk

The following sections present the Group's exposure to credit risk and how it is managed by the Group. Credit risk arises from the possibility that counterparties to transactions may fail to meet their obligations, causing financial losses to the Group. These counterparties mainly comprise banks, investment programs managed by the Group on behalf of its clients, and their underlying investments. In assessing the risks related to its counterparties, the Group considers both qualitative and quantitative indicators such as overdue status, historical default rates, proprietary internal risk rating, and financial information of the investment programs managed by the Group.

The assessment of loss allowances for financial assets is based on assumptions about the risk of default and expected loss rates. The Group uses judgment in making these assumptions and selecting the inputs to the impairment calculation, based on the Group's history and existing market conditions, as well as forward-looking estimates at the end of each reporting period. The Group regularly monitors significant changes in credit risk against defined risk limits and budgets in line with the Group's risk management policies. When there is no reasonable expectation of full recovery, financial assets are impaired or written off.

The Group's credit risk exposure arises from trade and other receivables, and accrued revenue, cash and cash equivalents, and loans. To manage credit risk, the Group periodically assesses counterparty credit risk, assigns credit limits on banks, diversifies its banking counterparties, monitors adherence to the risk-weighted maximum exposure on loans, and takes actions to mitigate credit risks where appropriate.

(a) Trade and other receivables and accrued revenue

The Group applies the IFRS 9 simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance for fee receivables. Under this approach, the lifetime expected credit loss is calculated based on historical default rates over the expected life of the receivables, current conditions and adjustments for forward-looking estimates.

The maximum exposure to credit risk resulting from financial activities, without considering netting agreements and without taking into account any collateral held or other credit enhancements, is equal to the carrying amounts as disclosed in note 3.1.

The majority of the Group's customers are investment programs that are managed by the Group on behalf of its clients. This gives the Group insights into the financial situations of such customers. Typically, receivables with such customers are backed by unfunded client commitments. These commitments can be drawn upon to settle outstanding receivables and are backed by the respective clients of the investment program. The underlying assets in the investment programs serve as an additional layer of security.

Measurement

To measure the expected credit losses, fee receivables are grouped based upon the number of days past due. Accrued revenue is a financial instrument which typically relates to not yet invoiced fees and has a similar risk characteristic as fee receivables. Due to its nature, accrued revenue is considered not yet due.

The Group's trade and other receivables balance as of 31 December 2025 is composed of more than 350 customers (31 December 2024: more than 350) of which the largest represents less than 10% (31 December 2024: less than 10%). The historic default rate over the past 5 years has been at 0.0% (2024: 0.0%) on the annual revenues. No material receivables overdue as of the reporting date were still open as of the publication of this report (31 December 2024: no material ones). Additionally, the Group is in direct discussion with the customers that have overdue outstanding amounts. Receivables and accruals are written off or reversed when there is no reasonable expectation of recovery. For the year ended 31 December 2025, the Group recorded CHF 0.3 million in expenses for such write-offs and reversals (2024: CHF 0.4 million). Based on its assessment as of 31 December 2025, the Group's expected credit losses are immaterial (31 December 2024: immaterial). Therefore, the Group has not recognized an allowance as of 31 December 2025 (31 December 2024: none recognized).

(b) Cash and cash equivalents

Cash and cash equivalents include cash on hand, call deposits, positions in money market funds, and other short-term highly liquid investments held with banks and financial counterparties and are measured at amortized cost. Bank overdrafts are shown in current liabilities in the consolidated statement of financial position. Cash and cash equivalents typically include balances with banks and financial counterparties that feature a strong credit rating and are cancellable on sight. They are typically accessible within a day and at the latest within 30 days. The Group calculates a 12-month expected credit loss as a simplification for all cash and cash equivalents.

Measurement

The Group diversifies its cash and cash equivalents across various financial counterparties to limit concentration of exposure with any one financial counterparty but is exposed to credit risk in the event of default of such financial counterparties. It therefore evaluates each counterparty with an internal proprietary risk scoring which is scaled from 0-10, with 10 being the highest quality / lowest risk. Based on this rating, the Group determines the expected credit loss on cash and cash equivalents and, as a further layer of protection, assigns a rating-based maximum exposure limit per counterparty.

On that basis, the expected credit loss on cash and cash equivalents as at 31 December 2025 was determined as follows:

In millions of Swiss francs as of 31 December					2025
Company internal proprietary risk scoring[11]	Link to international credit ratings[12]	Gross carrying amount	% Gross carrying amount	Weighted average expected credit loss rate	Expected credit loss
Scale 10-6: Low risk	A	328.8	100.0%	0.0%	0.0
Scale 5-3: Fair risk	B				
Scale 2-1: Doubtful	C				
Scale 0: Loss	D				
Total		**328.8**	**100.0%**		**0.0**

In millions of Swiss francs as of 31 December					2024
Company internal proprietary risk scoring[11]	Link to international credit ratings[12]	Gross carrying amount	% Gross carrying amount	Weighted average expected credit loss rate	Expected credit loss
Scale 10-6: Low risk	A	288.9	100.0%	0.0%	0.0
Scale 5-3: Fair risk	B				
Scale 2-1: Doubtful	C				
Scale 0: Loss	D				
Total		**288.9**	**100.0%**		**0.0**

Cash and cash equivalents amounted to CHF 328.8 million as of 31 December 2025 (31 December 2024: CHF 288.9 million). The risk-weighted average rating of the overall cash portfolio was "low risk" as of 31 December 2025 (31 December 2024: "low risk"). The largest exposure to a single financial counterparty represents 24% of cash and cash equivalents, with a rating of 10 (equivalent to A-1+ as per Standard & Poor's) as of 31 December 2025 (31 December 2024: 16% with a rating of 9, equivalent to A-1). The Group sets clear risk limits to minimize the negative impact that may arise from counterparty risk concentrations and possible counterparty defaults. These risk limits are regularly monitored and adherence to this risk framework is regularly reported to the RAC.

The Group considers that its cash and cash equivalents have a low credit risk based on its internal proprietary risk scoring. Based on its assessment as of 31 December 2025, the Group has not identified any material expected credit losses (31 December 2024: not material) and has not recognized an allowance (31 December 2024: none recognized).

(c) Loans

The Group's loans are mainly composed of short-term loans typically granted to investment programs that are managed by the Group on behalf of its clients. This gives the Group insights into the financial situation of such borrowers. The majority of the Group's short-term loans typically mature within one to three months. In addition, most of the loans are backed by the unfunded commitments of the investment programs' clients, which can be drawn upon to repay related loans. The underlying assets in the investment programs serve as an additional layer of security. To manage default risks, the Group ensures that loans to investment programs are classified according to their characteristics and corresponding risk weights and measured against a risk budget. The monitoring of the risk budget forms part of the management reporting. The loan approval process is supported by a risk policy framework and pre-defined approval authorities. During the loan approval process, rigorous qualitative and quantitative checks are applied to ensure a high quality of the Group's loan portfolio.

The Group classifies its short-term loans into four categories (bridge loans, credit facility loans, NAV loans, pre-financing loans) based on the underlying characteristics of the loans that are described in the table below. These characteristics, including the available information about the borrower, determine the credit risk weights that in turn form the basis for the loan exposures and the calculation of the expected credit loss, if any.

[11] Internal proprietary risk scoring based on several observable parameters such as credit risk ratings, credit default swap levels, stock price, capital ratio, and return on assets.
[12] For illustrative purposes, this column links the Company's internal proprietary risk scoring to internationally recognized credit scale short-term issue credit ratings (such as Standard & Poor's).

Risk weight per loan

Loan type	Risk weight	Characteristics
Bridge loans	Low	Loans to investment programs that are typically backed by unfunded client commitments. Investment programs have a low risk of default and a strong capacity to meet contractual cash flows.
Credit facility loans	Low	Loans to investment programs that are backed by the underlying investment portfolio, and hence are of limited size compared to the overall investment portfolio and therefore typically have a low loan-to-value ratio.
NAV loans	Low	Loans to fully operational products. These are typically not backed by unfunded client commitments. Their loan-to-value ratio is limited to low levels. The NAV of the product defines the loan capacity. Total of all loans outstanding (per product) typically remains within 30% of the NAV.
Pre-financing loans	Fair	Loans to investment vehicles in an early stage with typically limited or no client commitments to pre-finance upcoming investments. As there are typically limited or no client commitments, these loans could be exposed to the value development of the acquired investments in an adverse scenario. Therefore, these loans are typically subject to higher risk weights and higher loan-to-value ratios than bridge loans and credit facility loans.

Measurement

The Group reassesses the credit risks of its loans on a regular basis by calculating expected credit losses. The Group hereby applies the general approach as required by IFRS 9. Under this approach, the 12-month expected credit loss is calculated based on historical default rates, current conditions and adjustments for forward-looking estimates so long as the credit risk has not increased significantly relative to the credit risk at the date of initial recognition (stage 1, "credit risk in line with original expectations"). Otherwise, the Group switches to lifetime expected credit losses (stage 2, "lifetime ECL not credit impaired", or stage 3 "lifetime ECL credit impaired"). Stage 2 consists of loans for which a significant increase in credit risk has occurred compared to original expectations.

A significant increase in credit risk is typically presumed if compensation on short-term loans and/or principal repayments are past due for more than 30 days and/or there is no reasonable expectation for full recovery. Over the past years, the Group has not experienced any material credit losses.

The following tables provide information about the exposure to credit risks and expected credit loss related to short-term loans at 31 December 2025 and 2024:

In millions of Swiss francs as of 31 December **2025**

Loan types	Internal risk weight	Nominal carrying amounts Stage 1	Nominal carrying amounts Stage 2	Nominal carrying amounts Stage 3	Expected credit loss [13]
Bridging loans	Low	1'355.5			1.1
Credit facility loans	Low	109.6			0.0
NAV loans	Low	175.3			0.4
Pre-financing loans	Fair	16.5			0.1
Total		**1'656.9**	**—**	**—**	**1.6**

In millions of Swiss francs as of 31 December 2024

Loan types	Internal risk weight	Nominal carrying amounts Stage 1	Nominal carrying amounts Stage 2	Nominal carrying amounts Stage 3	Expected credit loss [13]
Bridging loans	Low	1'585.6			1.3
Credit facility loans	Low	4.7			0.0
NAV loans	Low	42.2			0.5
Pre-financing loans	Fair	1.7			0.1
Total		**1'634.2**	**—**	**—**	**1.9**

As of 31 December 2025, the number of outstanding short-term loans was 695 (31 December 2024: 800) and the average amount per outstanding loan was CHF 2.4 million (2024: CHF 2.0 million). All short-term loans were in stage 1 and no transfers between the different stages were identified. There was no indication of significant credit risk increases relative to the credit risks at the date of initial recognition. No counterparty represented more than 10% (31 December 2024: not more than 10%) of the overall loan portfolio. In 2025, the Group received arm's length compensation on short-term loans of CHF 93.6 million (2024: CHF 103.5 million) for the granting of short-term loans as part of its maintenance of investment programs, and hence as part of its operating activities.

[13] The expected credit loss at stage 1 is the product of the loss expected in a stress scenario times the likelihood of such stress scenario to materialize within 12 months after the period-end date.

Based on its assessment as of 31 December 2025, the Group has not identified any material expected credit losses in relation to its short-term loans and has not recognized any allowance for credit losses (31 December 2024: none).

3.5.2. Market risk

Market risk is the risk that changes in market prices, such as foreign currency exchange rates, interest rates, and prices, will affect the Group's income or the value of its holdings of financial instruments.

(a) Foreign currency risk

The Group is exposed to transactional foreign currency risk mainly resulting from exposures in US dollars (USD), Euros (EUR), British pounds (GBP), and Singapore dollars (SGD). Under its revised hedging and exposure policy framework related to foreign currency risk, the Group applies economic hedging strategies to mitigate foreign currency risk arising from transactions denominated in currencies other than Swiss francs and from the translation of net investments in foreign operations. In addition, the Group's risk management framework entails a maximum foreign exchange exposure limit on the Group's equity.

In 2025, the Group discontinued its tail risk foreign exchange hedge approach. For 2026, and in line with its framework, the Group limits its foreign currency exposures on the balance sheet to a target level. Accordingly, the Group's net currency risk related to its financial position after hedging is limited to the line items listed in the foreign currency exposure sensitivity table further below.

The Group applied the following currency exchange rates against the Swiss franc:

2025

Currency	Closing rate	% change against 2024	Average rate	% change against 2024
USD	0.7923	-12.5%	0.8305	-5.7%
EUR	0.9304	-0.8%	0.9369	-1.6%
GBP	1.0654	-6.1%	1.0936	-2.8%
SGD	0.6162	-7.2%	0.6352	-3.6%

2024

Currency	Closing rate	% change against 2023	Average rate	% change against 2023
USD	0.9060	+7.7%	0.8806	-2.0%
EUR	0.9382	+0.9%	0.9525	-1.9%
GBP	1.1347	+5.8%	1.1251	+0.7%
SGD	0.6642	+4.1%	0.6589	-1.5%

Sensitivity

The Group's foreign currency exposure at the end of the reporting period on the unhedged positions, expressed in CHF, was as follows:

In millions of Swiss francs as of 31 December	2025					2024				
Foreign currency exposure	USD CHF	EUR CHF	GBP CHF	SGD CHF	Others CHF	USD CHF	EUR CHF	GBP CHF	SGD CHF	Others CHF
Cash and cash equivalents	1.2	15.8	3.2	0.4	6.7	17.1	6.6	5.1	0.7	5.1
Trade and other receivables	91.7	164.8	35.0	0.2	9.8	309.6	129.6	45.1	2.5	19.5
Non-current accrued revenue	4.7	83.6	30.6			18.0	58.3	7.8		
Other financial assets		7.6					7.6			
Trade and other payables	(58.5)	(137.6)	(18.7)	(0.2)	(9.9)	(53.7)	(79.9)	(9.8)	(0.1)	(10.3)
Credit facilities drawn		(73.7)								
Other short-term and long-term liabilities	(231.2)	(25.1)	(7.4)		(0.1)	(13.7)	(32.0)	(2.8)		
Net intercompany positions	766.4	438.5	(138.7)	(111.0)	(60.8)	156.6	228.8	(93.2)	(111.6)	(36.5)
Net exposure	**574.3**	**473.9**	**(96.0)**	**(110.6)**	**(54.3)**	**433.9**	**319.0**	**(47.8)**	**(108.5)**	**(22.2)**
Sensitivity on net exposure	USD CHF	EUR CHF	GBP CHF	SGD CHF	Others CHF	USD CHF	EUR CHF	GBP CHF	SGD CHF	Others CHF
5% appreciation to CHF[14]	28.7	23.7	(4.8)	(5.5)	(2.7)	21.7	16.0	(2.4)	(5.4)	(1.1)
Impact on profit before tax	**28.7**	**23.7**	**(4.8)**	**(5.5)**	**(2.7)**	**21.7**	**16.0**	**(2.4)**	**(5.4)**	**(1.1)**

[14] Other assumptions remain unchanged and a depreciation to CHF of 5% would have the converse effect.

Accounting policy: Foreign currency translation

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the functional currency).

Transactions in foreign currencies are translated at the foreign currency exchange rates at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated at each balance sheet date to the functional currency at the foreign currency exchange rate of that date. Foreign exchange differences arising on translation of such foreign-denominated monetary assets and liabilities are recognized in profit or loss. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction. Non-monetary assets and liabilities denominated in foreign currencies that are stated at fair value are translated to the functional currency at the applicable foreign currency exchange rate on the date the fair value is determined.

Assets and liabilities of foreign operations are translated to Swiss francs at foreign currency exchange rates applicable at the balance sheet date. Revenues and expenses as well as cash flows of foreign operations are translated to Swiss francs at the average rate of the period. Resulting foreign currency translation differences are recognized in other comprehensive income and presented in cumulative translation adjustments in equity.

When the disposal or partial disposal of a foreign operation results in losing control or significant influence over an entity (i.e. the foreign operation) the cumulative amount in cumulative translation adjustments (related to the specific foreign operation) is reclassified to profit or loss as part of the gain or loss on disposal.

(b) Interest rate risk

The Group's income and operating cash flows are substantially independent from changes in market interest rates. The Group is mainly exposed to interest rate risk with respect to loans typically granted to investment programs, its cash and cash equivalents held at banks, and its short-term borrowings under its credit facilities. Due to the short-term nature of most of these items and the relatively low sensitivity to interest rates, the Group currently does not actively manage its interest rate risk. At the reporting date, the interest rate profile of the Group's interest-bearing financial instruments was:

In millions of Swiss francs	2025	2024
Variable rate instruments		
Financial assets		
Cash and cash equivalents	311.9	288.9
Short-term loans	1'656.7	1'633.9
Other financial assets	12.7	10.3
Total	**1'981.3**	**1'933.1**
Financial liabilities		
Cash collateral for forward contracts	(0.9)	
Credit facilities drawn	(1'056.0)	(715.0)
Total	**(1'056.9)**	**(715.0)**
Total variable rate instruments	**924.4**	**1'218.1**

In millions of Swiss francs	2025	2024
Fixed rate instruments		
Financial assets		
Cash and cash equivalents	16.9	
Short-term loans	0.2	0.3
Other financial assets	27.9	8.2
Total	**45.0**	**8.5**
Financial liabilities		
Lease liabilities	(100.4)	(99.4)
Debt	(1'329.7)	(1'329.6)
Total	**(1'430.1)**	**(1'429.0)**
Total fixed rate instruments	**(1'385.1)**	**(1'420.5)**

Cash flow sensitivity analysis for variable rate instruments

A change of 100 basis points in interest rates on the balances at the reporting date would have increased/(decreased) annual profit or loss before tax by the amounts shown below. This analysis assumes that all other variables, particularly foreign currency exchange rates, remain constant.

In millions of Swiss francs	2025		2024	
	100bp increase	100bp decrease	100bp increase	100bp decrease
Impact on profit before tax	**9.2**	**(9.2)**	**12.2**	**(12.2)**

The Group does not designate any fixed rate financial assets or liabilities as at fair value through profit or loss. Therefore, changes in market interest rates do not affect profit or loss.

(c) Price risk

The Group is exposed to market price risk (other than interest rate and foreign currency risk) mainly because of its interest in investment programs which are classified at fair value through profit or loss.

Most of the Group's investments are entered into under investment management contracts whereby the Group invests alongside third-party investors in the Group's investment programs invested in underlying private equity, private credit, real estate, infrastructure, or royalty investments. These investments typically qualify, in accordance with IAS 32, as either equity instruments or debt instruments. Typically, instruments qualifying as debt instruments contain embedded derivative assets or liabilities whose fair value is derived from the adjusted net asset value of the underlying investment programs, which, in turn, is based upon the value of the underlying assets held within each of the investment programs.

In assessing the market risk associated with the Group's investments, a volatility ratio was applied to each of its investments classified as financial investments or assets and liabilities held for sale. The Group used long-term data to determine the volatility for each asset class.

In millions of Swiss francs	2025		2024	
	Carrying amount	Volatility	Carrying amount	Volatility
Financial investments				
Private equity	574.1	18.0%	449.4	18.0%
Private credit	274.4	8.0%	252.1	8.0%
Real estate	76.1	15.0%	79.3	15.0%
Infrastructure	175.9	12.0%	145.1	12.0%
Royalties	22.9	9.0%		
Assets and liabilities held for sale				
Assets and liabilities held for sale	531.7	14.5%	508.0	14.8%
Total	**1'655.1**		**1'433.9**	

Based upon the applied long-term volatility for the individual asset classes, the Group was exposed to the following price risk on profit or loss as per reporting date:

In millions of Swiss francs	2025	2024
Financial investments		
Private equity	103.3	80.9
Private credit	22.0	20.2
Real estate	11.4	11.9
Infrastructure	21.1	17.4
Royalties	2.1	
Assets and liabilities held for sale		
Assets and liabilities held for sale	77.1	75.2
Impact on profit before tax	**237.0**	**205.6**

3.5.3. Liquidity risk

The Group's approach to managing liquidity risk is to ensure that it has sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation. The Group's long-term contracts with clients mitigate its exposure to liquidity risk.

In order to assess the development of its liquidity, the Group performs a cash flow forecasting which is integrated into the budgeting and reporting process and assists in monitoring cash flow requirements.

Cash flow forecasting is performed at group level. Typically, the Group ensures that it has sufficient cash on hand to meet expected operational expenses as well as the servicing of financial obligations. Surplus cash held by the Group's subsidiaries, over and above the balance required for working capital management, is transferred to the Company to the extent permitted by regulatory and legal provisions. In addition, the BoD and the Executive Team formally monitor the liquidity available on a quarterly basis. The available liquidity targeted should allow the Group to sustain its operations with minimal disruptions in a financial crisis scenario and/or a depressed economic environment. The Group typically holds its cash in current accounts or invests it in time deposits, money market deposits or similar instruments deemed to have appropriate maturities or sufficient liquidity to provide headroom as determined by the aforementioned cash flow forecasts. Cash and cash equivalents are typically accessible within a day and at the latest within 30 days.

(a) Financing arrangements

The Group maintains the following lines of credit:

As per reporting date, the Group maintains an unsecured syndicated credit facility of EUR 3'000.0 million (CHF 2'791.2 million) with a syndicate of international and Swiss banks (31 December 2024: two unsecured syndicated credit facilities of CHF 562.0 million with a syndicate of Swiss banks and CHF 585.0 million with a syndicate of Swiss and international banks). This credit facility can be used for general corporate purposes with a primary focus on working capital financing. Interest rates are variable and determined by the relevant short-term interest rate plus a margin. The facility is not subject to any covenants (31 December 2024: facilities were subject to covenants, particularly regarding financial indebtedness, which have been met throughout the prior year).

Additionally, the Group has uncommitted bilateral credit facilities amounting to a total of CHF 70.0 million that can be used for current account overdrafts or for fixed advances (31 December 2024: CHF 365.0 million). Interest is set at a margin above prevailing short-term market rates. None of these facilities are subject to covenants (31 December 2024: Some of these facilities were subject to covenants, particularly regarding financial indebtedness, which have been met throughout the prior year).

As of 31 December 2025, CHF 1'056.0 million of these facilities were drawn (31 December 2024: CHF 715.0 million).

In millions of Swiss francs	2025	2024
Balance as of 1 January	715.0	240.0
Repayment of credit facilities	(9'192.0)	(1'545.0)
Drawdown from credit facilities	9'545.8	2'020.0
Exchange differences	(12.8)	
Balance as of 31 December	**1'056.0**	**715.0**

(b) Maturity of financial liabilities and commitments

The following table discloses the financial liabilities and commitments with their contractual maturities:

In millions of Swiss francs as of 31 December		2025							2024						
	Note	Carrying amount	Total (un-discounted)	6 months or less	6-12 months	13-24 months	25-60 months	More than 60 months	Carrying amount	Total (un-discounted)	6 months or less	6-12 months	13-24 months	25-60 months	More than 60 months

4. Partners Group and related parties

4.1. Subsidiaries

4.1.1. Changes in scope of consolidation

The Group added the following entities to its scope of consolidation during the financial year 2025:

Name	Date	Principal activity
Partners Group Sangam Gamma Gsy LP	9 December 2025	Investment manager
Partners Group Sangam Ganga Gsy LP	9 December 2025	Investment manager
Partners Group SBSI LLC	21 November 2025	Investment manager
igb Schweiz AG	13 November 2025	Operating company
PG Professional Service S.à r.l.	9 July 2025	Operating company
Partners Group CLO Advisers GP LLC	30 May 2025	Investment manager
Empira AG	7 January 2025	Operating company
Empira Management GmbH	7 January 2025	Operating company
Empira Financial Services AG	7 January 2025	Operating company
Comood GmbH	7 January 2025	Operating company
Empira Asset Management GmbH	7 January 2025	Operating company
Empira Investment Solutions GmbH	7 January 2025	Operating company
igb-Ingenieurgesellschaft Burgert mbH	7 January 2025	Operating company
EAG Lux S.à r.l.	7 January 2025	Operating company
Empira Investment Solutions S.A.	7 January 2025	Operating company
Empira Investment Solutions (UK) Limited	7 January 2025	Operating company
Empira Group, LLC	7 January 2025	Operating company
Empira General Partner S.à r.l.	7 January 2025	Investment manager
Empira General Partner II S.à r.l.	7 January 2025	Investment manager
Empira General Partner III S.à r.l.	7 January 2025	Investment manager
Empira General Partner 4 S.à r.l.	7 January 2025	Investment manager

The Group added the following entities to its scope of consolidation during the financial year 2024:

Name	Date	Principal activity
Partners Group Middle East Limited	6 November 2024	Operating company
Partners Group IBCP US Mgmt GP, LLC	1 August 2024	Special purpose vehicle
Partners Group Royalties Management S.à r.l.	1 July 2024	Investment manager
Partners Group Operator Sub-Holdings (Luxembourg) S.à r.l.	12 April 2024	Special purpose vehicle
PG Trinity Holding LLC	9 April 2024	Special purpose vehicle
Partners Group US Operator Investment Holdings LLC	5 April 2024	Investment administrator
Partners Group Cayman Management VI Limited	11 March 2024	Investment manager
Partners Group Finance IBCP (USD), LLC	16 January 2024	Special purpose vehicle

The Group removed the following entities from its scope of consolidation during the financial year 2025 (2024: none):

Name	Date	Principal activity
Partners Group Client Access 10 MP Management Limited (in liquidation)	28 August 2025	Investment manager

4.1.2. Subsidiaries within scope of consolidation

Details of the Group's operating subsidiaries as of the reporting date are set out below:

Place of incorporation and operation					
Name of the subsidiary	Registered office	Country of incorporation	Share Capital in thousands 31 December 2025	Interest % 31 December 2025	Interest % 31 December 2024
Partners Group AG	Baar-Zug	Switzerland	CHF 200	100%	100%
Partners Group Private Markets (Australia) Pty Ltd	Sydney	Australia	AUD 200	100%	100%

Manager to investment vehicles	UK	1	1
Carry vehicles	USA	2	2
Financing/treasury	USA	1	
Holding of land and property	USA	1	1
Investment services	USA	2	2
Management services to investment programs	USA	2	2
Manager to investment vehicles	USA	5	4

Accounting policy: Basis of consolidation

The Company controls an investee (entity) if and only if the Company has all of the following:

- power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee);
- exposure, or rights, to variable returns from its involvement with the investee; and
- ability to use its power over the investee to affect its returns

The Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

When the Company holds less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Company considers all relevant facts and circumstances in assessing whether or not the Company's voting rights in an investee are sufficient to give it power, including:

- the size of the Company's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- potential voting rights held by the Company, other vote holders or other parties;
- rights arising from other contractual arrangements; and
- any additional facts and circumstances that indicate that the Company has, or does not have, the current ability to direct the relevant activities at the time when decisions need to be made, including voting patterns at previous shareholder meetings

Also see Critical accounting judgment: Control assessment and accounting for investment programs in note 4.1.3. for more details on how the Group assesses its involvement with the investment programs that it manages.

4.1.3. Involvement with structured entities

Structured entities are entities that have been designed so that voting or similar rights are not the dominant factor in deciding who controls the entity, such as when any voting rights relate to administrative tasks only and the relevant activities are directed by means of contractual arrangements. Such entities often have restricted activities and narrow and well-defined objectives.

(a) Consolidated structured entities

The Group provides seed financing to certain early stage investment programs that the Group manages. The decision to provide seed financing to an investment program is made by responsible bodies as defined in the Group's Rules of the Organization and of Operations. For further details see note 3.1.3.

(b) Unconsolidated structured entities

The fair value of financial investments, as presented in note 3.1.2., represents the Group's participation in unconsolidated structured entities which typically consist of investment programs managed by the Group.

Critical accounting judgment: Control assessment and accounting for structured entities

The Group assesses its involvement with structured entities (typically investment programs that it manages) to determine whether it has control over them (see accounting policy: Basis for consolidation in note 4.1.2.). In accordance with IFRS 10, the Group assesses its power over structured entities, its exposure or rights to variable returns, and its ability to use its power to affect its returns. The assessment determines whether the Group acts as an agent on behalf of the investors in structured entities and within delegated decision-making rights or as a principal.

In its assessment, the Group focuses on its exposure to the total economic interest in the structured entities. This exposure consists of a combination of the stake the Group holds in a structured entity and the Group's remuneration for the services it provides to the investee. IFRS 10 does not provide clear-cut thresholds for determining whether or not a structured entity is controlled.

The Group took all available facts and circumstances into consideration and concluded for this year (same as last year) that it acts as an agent for all structured entities. Exceptions are investment programs financed with seed capital (refer to note 3.1.3.). For further details on the investment programs and their carrying amounts refer to note 3.1.2.

4.2. Investments in associates and joint ventures

The Group accounted for investments in associates and joint ventures as of 31 December 2025 as summarized below:

In millions of Swiss francs as of 31 December	Principal activity	2025 Carrying value	2025 Ownership	2024 Carrying value	2024 Ownership
Pearl Holding Limited, Guernsey ("Pearl")	Private equity investments	2.8	28.2%	4.6	28.2%
LGT Private Equity Advisers AG, Liechtenstein ("LGT")	Asset management	0.3	40.0%	0.3	40.0%
Citivale Group Holdings Limited, UK ("Citivale")	Property development and asset management	5.8	30.2%	6.4	30.2%
Trinity Real Estate Investments LLC, US ("Trinity")	Property development and asset management	12.6	10.0% [15]	14.1	10.0%
ES Assekuranzmakler GmbH & Co. KG, Germany	Insurance broker	0.1	50.0%

Investments in associates and joint ventures		**22.2**		**25.4**	

In millions of Swiss francs	Note	2025	2024
Balance as of 1 January		25.4	9.9
Purchase of investments in associates and joint ventures			19.6
Change in scope of consolidation - additions	4.5.	1.1	
Redemption of shares		(1.0)	(4.3)
Share of results (finance income and expenses)	3.3.	(1.0)	(0.7)
Share of results (other operating income)	1.1.	(0.0)	0.1
Exchange differences		(2.3)	0.8
Balance as of 31 December		**22.2**	**25.4**

As part of the acquisition of the Empira Group on 7 January 2025, as further detailed in note 4.5. , the Group acquired the following entities: ES Assekuranzmakler GmbH & Co. KG, Pangaea Life Capital Partners AG, and the BE REAL Group.

Citivale and Trinity were acquired as of 11 January 2024 and 12 April 2024, respectively, to strengthen the Group's real estate business.

[15] The Group has determined it has significant influence over Trinity because it has meaningful representation on governing bodies of the associate. In addition, there is interchange of managerial personnel between the Group and Trinity, and the Group provides essential technical information to Trinity.
[16] BE REAL Group comprises BE REAL S.à r.l. and its subsidiary BE REAL Berlin S.à r.l. Based on the relevant contractual arrangements, the Group has determined that it exercises joint control over these entities. As the contractual arrangements confer rights to the net assets to the parties, the investment is classified as a joint venture and is accounted for using the equity method.

Share of results of associates and joint ventures

The share of profit from LGT, Citivale, Trinity, ES Assekuranzmakler GmbH & Co. KG and Pangaea Life Capital Partners AG is recorded as other operating income (see note 1.1.) as the Group assesses their operations comparable to management services. In contrast, the share of profit from Pearl, BE REAL S.à r.l. and BE REAL Berlin S.à r.l. is recorded as net finance income and expense (see note 3.3.) as the Group assesses the income arising from these entities as comparable to fair value movements.

Accounting policy: Associates and joint ventures

An associate is an entity over which the Group has significant influence. A joint venture is an arrangement over which the Group exercises joint control and has rights to its share of the arrangement's net assets. Significant influence is the power to participate in financial and operating policy decisions without having control, while joint control exists when decisions require unanimous consent of the parties sharing control. The Group accounts for its interest in associates and joint ventures using the equity method.

The Group assesses each associate and joint venture individually to determine the appropriate presentation of its share of results. When the underlying activities are comparable to management service revenues, the share of results is presented within operating income. If the share of results is mainly driven by distributions and changes in fair value of the underlying investments, comparable to changes in fair value of financial investments, the share of results is presented as finance income and expense in the consolidated statement of profit or loss.

4.3. Equity

In effective number of shares	2025	2024
Issued as of 1 January	26'700'000	26'700'000
Issued during the period		
Issued as of 31 December - fully paid in	**26'700'000**	**26'700'000**

The issued share capital of the Company comprises 26'700'000 registered shares (31 December 2024: 26'700'000) at a nominal value of CHF 0.01 per share. The shareholders are entitled to receive dividends, as declared from time to time, and are entitled to one vote per share at the Company's shareholder meetings.

(a) Legal reserves

Legal reserves comprise the reserves which are to be maintained due to the legal requirements as indicated in the Swiss Code of Obligations. The Group's legal reserves amount to CHF 218'100 as of 31 December 2025 (31 December 2024: CHF 218'100), consisting of CHF 217'100 (31 December 2024: CHF 217'100) for legal reserves from capital contributions and of CHF 1'000 (31 December 2024: CHF 1'000) for other legal reserves.

(b) Treasury shares

Treasury shares are recognized at cost and presented separately within equity. At the reporting date, the Group held 916'865 (2024: 795'965) of the Company's issued shares. The Group holds treasury shares for financial flexibility and employee compensation purposes.

(c) Cumulative translation adjustments

Cumulative translation adjustments comprise all foreign exchange differences arising from the translation of the financial statements of foreign operations included in the consolidated financial statements.

(d) Dividends

The Company pays an annual dividend following the approval of the appropriation of available earnings by the owners of the Company at the annual general meeting, typically held in May. The Company paid a dividend of CHF 42.00 per share on 27 May 2025 (28 May 2024: CHF 39.00). As the Company's treasury shares are not eligible for a dividend payment, the dividend distribution of CHF 1'121.4 million approved in May 2025 (May 2024: CHF 1'041.3 million) was not fully distributed, i.e. a total of CHF 1'091.9 million was paid out (May 2024: CHF 1'018.0 million). After the reporting date, the BoD proposes a dividend distribution of CHF1'228.2 million (CHF 46.00 per share).

(e) Capital management

The BoD's objective is to maintain a strong capital base in order to maintain investor, creditor and market confidence and to sustain the future development of the business. The BoD also monitors the level of dividend distributions to shareholders.

The Company and some of its subsidiaries are subject to minimum capital requirements prescribed by external parties (e.g. banks or regulators) and are regulated by relevant authorities in the corresponding countries. The capital requirements may depend on fixed costs, expenditures, key financial ratios, net assets, and assets under management. All these capital requirements have been met during 2025 and 2024.

Capital band

At the annual general meeting of shareholders on 22 May 2024, Partners Group's owners introduced a capital band (Kapitalband). Under the capital band, the Board of Directors is authorized to increase the share capital of the Company up to the amount of CHF 293'700. The Board of Directors is authorized within the capital band to increase the share capital until 22 May 2029 once or several times and in any amounts up to the upper limit. The capital increase(s) may be effected by issuing up to 2'670'000 fully paid-in registered shares with a par value of CHF 0.01 per share. If the share capital is increased from conditional capital (see below), the upper limit of the capital band increases accordingly. Capital reductions are not allowed under the capital band.

Conditional capital

The Company has conditional capital of up to a maximum amount of CHF 40’050. The Company's share capital will be increased as a result of exercised options and granting of shares through the issuance of up to 4'005'000 fully paid-in registered shares with a par value of CHF 0.01 per share, if sourced from the conditional capital. The conditional capital is exclusively reserved for share-based incentive plans of the Group.

(f) Outstanding shares

The computation of the weighted average number of ordinary shares outstanding during the period is based on the following figures:

			2025
In effective number of shares	Shares issued	Treasury shares	Shares outstanding
Balance as of 1 January	26'700'000	795'965	25'904'035

4.4. Related party transactions

The Group has related party relationships with its key management personnel and entities controlled by them, its investments in associates and joint ventures (see note 4.2.) as well as with its pension funds (see note 2.3.2.).

(a) Key management personnel and entities controlled by them

The Group is managed by the Board of Directors ("BoD") and the Executive Team of the Company. The total personnel expenses for the executive board members as well as the Executive Team of the Company are included in personnel expenses (see note 2.1.) and for non-executive board members in third-party service expenses (see note 5.4.) and amount to:

In millions of Swiss francs	**2025**	2024
Board of Directors		
Short-term employment benefits	2.6	2.7
Other compensation	0.2	0.1
Share-based payment expenses	9.1	7.7
Other long-term benefits (MCP)	2.5	0.5
Post-employment benefits	0.1	0.2
Total	**14.5**	**11.2**
Executive Team		
Short-term employment benefits	11.2	11.0
Other compensation	0.6	0.5
Share-based payment expenses	21.4	18.1
Other long-term benefits (MCP)	9.7	5.8
Post-employment benefits	0.8	0.7
Total	**43.7**	**36.1**
Total Board of Directors and Executive Team	**58.2**	**47.3**

At the relevant reporting date, the BoD and the Executive Team were holding the following number of options, non-vested shares, and unrestricted shares:

Options and non-vested shares

In effective number of options and non-vested shares as of 31 December	**2025**	2024
Members of the Executive Team (options and non-vested shares)	217'230	148'703
Total	**217'230**	**148'703**

[18] The group is based on a shareholders' agreement with Alfred Gantner acting as representative of the group.

Share ownership (unrestricted)

In effective number of shares as of 31 December	2025	2024
Board members	4'404'936	4'393'820
Members of the Executive Team	58'569	33'856
Total	**4'463'505**	**4'427'676**

For further information in accordance with Art. 734d of the Swiss Code of Obligations, refer to note 2.12. and note 3.7. of the compensation report in the Annual Report 2025.

The Group aligns the interests of clients with those of the Group's employees by offering all employees preferential terms to invest alongside the Group's investment programs via a global employee commitment plan. In line with standard industry practice, investments in closed-ended programs charge no management fees and no performance fees, and investments in evergreen programs come at a reduced management fee and performance fee. In total, commitments by the Group's BoD and employees amounted to approximately CHF 1.9 billion as of 31 December 2025 (31 December 2024: CHF 2.0 billion), of which CHF 1.5 billion (2024: CHF 1.6 billion) is committed to closed-ended programs and CHF 0.4 billion (2024: CHF 0.4 billion) to evergreen programs.

Transactions with entities controlled by key management personnel of the Group

During the reporting period, the Group capitalized placement fees of CHF 14.0 million to a related party (2024: none). The transaction was conducted on an arm's-length basis.

The Group earned management fee income of CHF 3.4 million from services provided to a related party (2024: none), on arm's-length terms.

Effective November 2024, the Group commenced leasing out premises to an entity controlled by key management personnel under a rental agreement with a minimum lease term of five years. The rental income recognized during the reporting period amounted to CHF 0.6 million (2024: 0.1 million).

In addition, in 2024, the Group acquired the royalty business from an entity controlled by key management personnel. Refer to note 4.5. (b) for more details on the business combination.

These transactions were conducted on terms equivalent to those that prevail in arm's length transactions.

(b) Transactions with other related parties

In 2025, associates and joint ventures purchased services from the Group in the amount of CHF 0.6 million (2024: CHF 0.8 million).

As of 31 December 2025, loans to employees of the Group amounted to CHF 14.2 million (2024: CHF 12.6 million) and were included in other financial assets. The loans to related parties of the Group bear interest at market-related interest rates.

The Group purchased treasury shares at arm's length from its shareholders employed by the Group as follows:

In effective number of shares	2025	2024
Purchase of treasury shares from shareholders employed by the Group	19'240	16'730
Average purchase price per share (in Swiss francs)	1'293.67	1'277.28

4.5. Acquisitions

(a) Empira Group

The Group closed the acquisition of a 100% stake in Empira AG and its subsidiaries ("Empira Group") on 7 January 2025. Control was obtained through a share purchase agreement, resulting in the Group acquiring all issued shares of Empira Group. Empira Group is a vertically integrated real estate investment manager and developer and enhances the Group's vertical depth in sectors like residential and transition to green assets with a focus on the DACH region.

For the year ending 31 December 2025, Empira contributed revenues of CHF 89.3 million and a net profit of CHF 1.4 million to the Group, including acquisition-related effects. Had the acquisition been completed as of 1 January 2025, Empira's revenue and profit would not have materially differed from the reported figures.

The trade and other receivables acquired comprise gross contractual amounts due of CHF 44.3 million, of which CHF 0.0 million were expected to be uncollectible at the acquisition date.

The Group incurred acquisition-related costs of CHF 0.4 million relating to external legal fees and due diligence costs. These costs were recognized in the consolidated financial statements of the financial year ending on 31 December 2024 in profit or loss as other operating expenses.

The goodwill recognized on the acquisition is mainly attributable to the skills and technical talent of the acquired business' workforce and the benefits from extending the Group's existing real estate operations.

As part of the share purchase agreement, a contingent consideration has been agreed. The Group expects to make additional payments to the previous owners of Empira. Settlement of the expected payments will be fully in treasury shares of the Group (i.e. no new shares are expected to be issued). The contingent consideration to be paid will be determined based on the EBITDA generated by the Empira Group in each of the years 2025, 2026 and 2027, and might result in payments between CHF 0.0 million and CHF 125.0 million. As at the acquisition date, the fair value of the contingent consideration was estimated to be CHF 125.0 million based on the most recent business plan of the company acquired. The financial statements present the contingent consideration as CHF 25 million in trade and other payables and CHF 100.0 million in other long-term liabilities.

The details of the business combination are outlined in the following table:

In millions of Swiss francs	2025
Cash and cash equivalents	16.4
Trade and other receivables	44.3
Property, equipment, and right-of-use assets	33.0
Intangible assets	2.7
Investments in associates and joint ventures	1.1
Other current and non-current assets	17.3
Trade and other payables	(39.8)
Income tax liabilities	(14.2)
Other current- and non-current liabilities	(30.3)
Fair value of customer contracts and brands identified as part of the business combination	81.7
Net identifiable assets acquired at fair value	**112.2**
Goodwill	191.8
Total purchase consideration	**304.0**
- of which paid in cash	111.6
- of which paid in shares of the Group	67.4
- contingent consideration liability	125.0
Cash acquired	(16.4)
Net cash outflow on acquisition	**95.2**

(b) Royalty business

As of 1 July 2024, the Group acquired the royalty business from a related party (see note 4.4.). This transaction involved the purchase of a 100% stake of a Luxembourg-based investment management entity. In addition, the Group replaced the seller as the investment manager of the acquired funds, and selected key employees transitioned to the Group. The acquired set constitutes a business.

The acquisition of the royalty business has enabled the Group to make royalties available to the Group's investors through the firm's range of bespoke solutions and the launch of dedicated royalties vehicles. The Group is currently building up its tailored mandate solutions for existing and new institutional clients and its structured private wealth products. Royalties represent the fifth asset class on the Group's private markets platform and constitute a new operating segment.

In 2024, the royalty business contributed revenue of CHF 0.9 million. If the acquisition had occurred on 1 January 2024, management estimated that consolidated revenue for the year would have been CHF 1.6 million.

Net assets and goodwill acquired were as follows:

In millions of Swiss francs	2024
Intangible assets	10.8
Other identifiable assets and liabilities	0.0
Net assets acquired at fair value	**10.8**
Deferred revenue	(12.4)
Goodwill	15.5
Total purchase consideration paid in cash	**13.9**
Cash acquired	0.0
Net cash outflow on acquisition	**13.9**

The goodwill is mainly attributable to the benefits to be achieved from integrating the royalty business into the Group's existing private markets platform and to the skills and technical talent of the acquired business' workforce.

The Group incurred acquisition-related costs of CHF 0.4 million, which were recognized in the consolidated statement of profit or loss as other operating expenses during the period 2024.

The acquisition of the royalty business was accompanied by a linked transaction where the Group committed to providing complimentary management services to the seller. This resulted in the recognition of deferred revenue amounting to CHF 12.4 million, reflecting the fair value of the future services expected to be rendered.

Resilient Infrastructure Group

Accounting policy: Property, equipment, and right-of-use assets

Asset class	Useful life	Nature and policy
Buildings	10-60 years	Property and equipment are stated at cost less accumulated depreciation and impairment losses. Costs include expenses that are directly attributable to the acquisition of the items. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the costs of the item can be measured reliably. All other repairs and maintenance costs are charged to profit or loss in the financial period in which they are incurred. Major renovations are depreciated over the remaining estimated useful life of the related asset or to the date of the next major renovation. Depreciation is calculated using the straight-line method.
Office furniture	5-15 years	
Interior fittings	5-30 years	
Equipment and IT fittings	3-5 years	
Land	Indefinite	Land is stated at cost.
Right-of-use assets	Typically the lease period	Refer to note 5.3. for policies relating to lease accounting. Depreciation is calculated using the straight-line method.
Construction in progress	Not yet depreciated	Construction in progress is stated at cost and transferred to the respective class when available for use.

Accounting policy: Intangible assets and goodwill

Intangible asset class	Useful life	Nature and policy
Goodwill	Indefinite	Goodwill represents the future economic benefit arising from other assets acquired in a business combination that are not individually identified and separately recognized. It is measured at cost less any accumulated impairment losses. Goodwill is allocated to cash generating units and is not amortized but tested at least annually for impairment. In case the Goodwill is negative, a gain on a bargain purchase is recognized immediately in net finance income and expense in the consolidated statement of profit or loss. Refer to details below on the Group's approach to impairment testing for Goodwill.
Acquired client contracts	3-10 years	Client contracts which the Group acquired and which are recognized as intangible assets are carried at cost less accumulated amortization and impairment losses. Amortization is calculated using the straight-line method.
Software	3-5 years	Acquired software licenses are capitalized on the basis of the costs incurred to acquire and bring to use the specific software. Software recognized as an asset is carried at cost less accumulated amortization and impairment losses. Amortization is calculated using the straight-line method. Software-as-a-Service ("SaaS") contracts are only classified as intangible assets when the recognition criteria are fulfilled; otherwise, a SaaS is classified as a service contract, for which costs are expensed as incurred.
Contract costs	4-5 years	The Group may make payments in order to secure investment management revenue contracts. These amounts paid are considered a cost to obtain a contract and are amortized using the straight-line method, which is consistent with the transfer to the customer of the services to which the asset relates. Amortization is calculated using the straight-line method.

Accounting policy: Intangible assets and goodwill

Intangible asset class	Useful life	Nature and policy
Other intangible assets	3-10 years	Other intangible assets not attributable to above asset classes are capitalized at cost and amortized using the straight-line method.

Subsequent expenditure on capitalized intangible assets is capitalized only when it increases future economic benefits embodied in the intangible asset to which it relates. All other subsequent expenditure is expensed in profit or loss as incurred. Amortization is recognized in profit or loss on a straight-line basis over the estimated useful life of intangible assets unless such life is indefinite.

Impairment testing for CGUs containing goodwill

The carrying amount of goodwill as of 31 December 2025 of CHF 232.1 million (2024: CHF 44.7 million) has been allocated to the following cash generating units ("CGU"), which represent the lowest level within the Group at which goodwill is monitored for internal management purposes:

- Goodwill of CHF 189.5 million (2024: none) relating to the acquisition of Empira Group has been allocated to the real estate segment (for further information see note 4.5.). In addition, goodwill of CHF 14.1 million (2024: CHF 16.1 million) is allocated to the real estate segment in connection with the acquisition of Partners Group Real Estate LLC in 2007, which was merged into Partners Group (USA) Inc. on 1 January 2012.
- Goodwill of CHF 15.5 million (2024: CHF 15.5 million) relating to the acquisition of the royalty business in 2024 has been allocated to the royalties segment (for further information see note 4.5.).
- Goodwill of CHF 13.0 million (2024: CHF 13.1 million) relating to the acquisition of Partners Group (Italy) SGR S.p.A. in 2013, which was merged into Partners Group (UK) Limited in 2016 and into Partners Group (Luxembourg) S.A. in 2019, has been allocated to the private equity segment.

Impairment tests for the real estate, private equity, and royalties CGUs did not result in the recognition of any impairment losses. The recoverable amounts were determined using a value-in-use approach. The value-in-use was calculated using forecasted free cash flows for 2026, extrapolated into perpetuity with a zero percent growth rate and discounted at a rate of 8.7%. In all cases, the recoverable amounts significantly exceeded the carrying amounts, including goodwill.

No further indicators were identified which could lead to an impairment and accordingly, no impairment was recognized in 2025 (2024: none).

Accounting policy: Impairment testing on non-financial assets

The carrying amounts of the Group's non-financial assets, other than deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For goodwill that has an indefinite useful life or other intangible assets that are not yet available for use, the recoverable amount is estimated annually.

The recoverable amount of an asset or cash-generating unit ("CGU") is the greater of its value-in-use and its fair value less costs to sell. In assessing the value-in-use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use, which are largely independent of the cash inflows of other assets or groups of assets (CGU). For the purpose of goodwill impairment testing, CGUs, to which goodwill has been allocated, are aggregated so that the level at which impairment is tested reflects the lowest level at which goodwill is monitored for internal reporting purposes. Goodwill acquired in a business combination is allocated to groups of CGUs that are expected to benefit from the synergies of the combination.

An impairment loss is recognized if the carrying amount of an asset or its CGU exceeds its estimated recoverable amount. Impairment losses are recognized in profit or loss. Impairment losses recognized in respect of CGUs are allocated first to reduce the carrying amount of any goodwill allocated to the units, and then to reduce the carrying amounts of the other assets in the unit (group of units) on a pro rata basis. An impairment loss in respect of goodwill is not reversed.

In respect of other assets, impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

5.3. Leases

In millions of Swiss francs	2025	2024
Lease liabilities as of 1 January	99.4	105.0
Additions	9.0	3.0
Change in scope of consolidation - additions	24.4	
Removals	(4.5)	(0.0)
Accreted interest	3.6	2.3
Lease payments	(23.6)	(16.1)
Exchange differences	(7.9)	5.2
Lease liabilities as of 31 December	**100.4**	**99.4**
Current liabilities	15.6	14.6
Non-current liabilities	84.8	84.8
Lease liabilities as of 31 December	**100.4**	**99.4**

For right-of-use-assets, see to note 5.1.

Accounting policy: Leases

The Group, as a lessee, identified leases mainly relating to rental contracts for its offices (including parking). A right-of-use asset and its corresponding lease liability are recognized at the lease commencement date. It is measured at cost and depreciated from commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term of the respective lease contract, i.e. typically the lease period. Subsequently, the right-of-use asset is measured at cost less any accumulated depreciation and impairment losses and adjusted for certain remeasurements of the lease liability. Right-of-use assets are presented in the statement of financial position as Property, equipment, and right-of-use assets; refer to note 5.1. for more information. The Group has elected not to recognize right-of-use assets and lease liabilities for leases of low-value assets.

5.4. Other operating expenses

In millions of Swiss francs	2025	2024
Third-party services	(34.6)	(35.1)
Property-related costs	(9.6)	(7.7)
Administrative expenses	(59.5)	(52.0)
Travel and representation expenses	(33.1)	(25.0)
Other operating expenses	**(136.8)**	**(119.8)**

5.5. Income taxes

5.5.1. Income tax expenses

In millions of Swiss francs	Note	2025	2024
Current tax expenses			
Current income taxes		(253.5)	(185.8)
Pillar Two income taxes		(23.4)	(18.0)
Total current tax expenses		**(276.9)**	**(203.8)**
Deferred tax (expenses)/income			
Deferred tax (expenses)/income, net relating to the origination and reversal of temporary differences	5.5.2.	6.5	(38.4)
Total deferred tax (expenses)/income		**6.5**	**(38.4)**
Income tax expenses		**(270.4)**	**(242.2)**

The differences between the expected tax expenses computed at the weighted average expected Group tax rate and the effective income tax expenses were as follows:

In millions of Swiss francs	2025	2024
Profit before tax	1'531.1	1'369.9
Weighted average expected Group tax rate[19]	16.46%	18.07%
Expected tax expenses	(252.0)	(247.6)
Non-tax-deductible expenses and non-taxable income	(8.1)	8.1
Applicable tax rates differing from expected rate	0.1	2.5
Non-refundable withholding taxes	(8.0)	(10.0)
Adjustments for current taxes of prior periods	(1.5)	5.6
Other impacts	(0.9)	(0.8)
Income tax expenses	**(270.4)**	**(242.2)**

The Group is in scope of the OECD base erosion and profit shifting ("BEPS") Pillar Two rule set and is impacted by new local tax legislation in countries where it has a taxable presence.

The Group has applied the International Tax Reform - Pillar Two Model Rules (Amendments to IAS 12) issued by the IASB. Pillar Two legislation has been enacted and/or implemented in several jurisdictions in which the Group operates. The impact is reflected in the Group's effective tax rate.

[19] The Group calculated a weighted average tax rate, taking into account statutory tax rates of the Company and its subsidiaries in their specific jurisdictions, and their contribution to total profit before tax.

5.5.2. Deferred tax assets and liabilities

(a) Development of deferred tax assets and liabilities

Deferred tax assets and liabilities are recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The following table shows the development of deferred tax assets and deferred tax liabilities.

In millions of Swiss francs as of 31 December	2025	2024
Deferred tax assets	65.3	63.9
Deferred tax liabilities	(28.4)	(9.5)

Financial investments

Taxable temporary differences arise between the tax bases of financial investments and their carrying amounts in the consolidated financial statements (fair values with regard to the application of IFRS 9).

Other non-current assets

Taxable temporary differences arise between the tax bases of property, equipment, and right-of-use assets as well as intangible assets and their carrying amounts in the consolidated financial statements.

Defined benefit plans

The Group recognizes deferred tax assets or liabilities as a result of applying IAS 19 (for further information see note 2.3.2.).

Share-based payment transactions

Taxable temporary differences arise (in accordance with IAS 12.68A) from the recognition of share-based payment expenses (see note 2.2.) in the applicable accounting period in accordance with IFRS 2, while the tax deductions in relation to these expenses materialize in a different period; e.g. only when the options, RSUs and shares are exercised or vested. Typically, the measurement of tax deductions is based on the share price at the date of exercise or vesting, or on the Management Fee EBIT for the financial year of vesting.

Accrued variable compensation & MCP

Taxable temporary differences arise between the tax bases of remuneration-related accruals and provisions and their carrying amounts in the consolidated financial statements.

Others

As of 31 December 2025, the Group has undistributed earnings of CHF 90.7 million (31 December 2024: CHF 94.2 million) which, if paid out as dividends, would be subject to tax in the hands of the recipient. For CHF 67.6 million (31 December 2024: CHF 75.6 million) of this temporary difference, deferred tax liabilities amounting to CHF 3.4 million were recognized (31 December 2024: CHF 3.8 million). For the remaining temporary difference of CHF 23.1 million (31 December 2024: CHF 18.6 million), no further deferred tax liabilities were recognized as the Group controls the dividend policy of the respective subsidiaries, i.e. the Group controls the timing of reversal of the related taxable temporary differences, and considers it probable that the temporary difference will not reverse in the foreseeable future. A full reversal of all remaining temporary differences would result in estimated additional income tax expenses of CHF 1.9 million (31 December 2024: CHF 1.5 million).

Accounting policy: Income tax expenses

Income tax expenses for the period comprise current and deferred tax expenses. Income tax expense is recognized in profit or loss except to the extent that it relates to items recognized directly in equity.

Current income tax relates to the expected taxes payable on the taxable income for the period, using tax rates enacted or substantially enacted at the reporting date, and any adjustments to taxes payable in respect of previous periods.

Deferred income tax is recognized, using the balance sheet liability method, on temporary differences between the tax basis of assets and liabilities and their carrying amounts included in the consolidated financial statements. The following temporary differences are not considered in accounting for deferred taxes: the initial recognition of goodwill, the initial recognition of assets or liabilities that affect neither accounting nor taxable profit, and differences relating to investments in subsidiaries to the extent that their reversal is not probable in the foreseeable future. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted as of the reporting date and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

Deferred income tax assets are recognized to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized.

5.6. Subsequent events

No events took place between 31 December 2025 and 6 March 2026 that would require material adjustments to the amounts recognized or further disclosures in these consolidated financial statements.

Report of the auditors on the consolidated financial statements

Report of the statutory auditor to the General Meeting of Partners Group Holding AG, Baar

Report on the audit of the consolidated financial statements

Opinion

We have audited the consolidated financial statements of Partners Group Holding AG and its subsidiaries (the Group), which comprise the consolidated statement of profit or loss and the consolidated statement of comprehensive income for the year ended 31 December 2025, the consolidated statement of financial position as at 31 December 2025, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information.

In our opinion, the consolidated financial statements (pages 39 to 104) give a true and fair view of the consolidated financial position of the Group as at 31 December 2025 and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with IFRS Accounting Standards and comply with Swiss law.

Basis for opinion

We conducted our audit in accordance with Swiss law, International Standards on Auditing (ISA) and Swiss Standards on Auditing (SA-CH). Our responsibilities under those provisions and standards are further described in the 'Auditor's responsibilities for the audit of the consolidated financial statements' section of our report. We are independent of the Group in accordance with the provisions of Swiss law and the requirements of the Swiss audit profession that are relevant to audits of the financial statements of public interest entities, as well as the International Code of Ethics for Professional Accountants (including International Independence Standards) issued by the International Ethics Standards Board for Accountants (IESBA Code), as applicable to audits of financial statements of public interest entities. We have also fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

PricewaterhouseCoopers AG, Birchstrasse 160, 8050 Zürich

PricewaterhouseCoopers AG is a member of the global PricewaterhouseCoopers network of firms, each of which is a separate and independent legal entity.

Our audit approach

Overview

Overall group materiality: CHF 46 million

The entities addressed by our full scope audit work as well as specific scope audit or specified procedures contribute to 80% of the Group's revenue and 74% of total assets. As key audit matters the following areas of focus have been identified:

Recognition of revenues from management services, net

Valuation of financial investments and assets held of sale

Materiality

The scope of our audit was influenced by our application of materiality. Our audit opinion aims to provide reasonable assurance that the consolidated financial statements are free from material misstatement. Misstatements may arise due to fraud or error. They are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the consolidated financial statements.

Based on our professional judgement, we determined certain quantitative thresholds for materiality, including the overall Group materiality for the consolidated financial statements as a whole as set out in the table below. These, together with qualitative considerations, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures and to evaluate the effect of misstatements, both individually and in aggregate, on the consolidated financial statements as a whole.

Overall group materiality	CHF 46 million
Benchmark applied	Profit before tax
Rationale for the materiality benchmark applied	We chose profit before tax as the benchmark because, in our view, it is the benchmark against which the performance of the Group is most commonly measured, and it is a generally accepted benchmark.

Audit scope

We designed our audit by determining materiality and assessing the risks of material misstatement in the consolidated financial statements. In particular, we considered where subjective judgements were made; for example, in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain. As in all of our audits, we also addressed the risk of management override of internal controls, including among other matters consideration of whether there was evidence of bias that represented a risk of material misstatement due to fraud.

We tailored the scope of our audit in order to perform sufficient work to enable us to provide an opinion on the consolidated financial statements as a whole, taking into account the structure of the Group, the accounting processes and controls, and the industry in which the Group operates.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Recognition of revenues from management services, net

Key audit matter	How our audit addressed the key audit matter
For the year ended on 31 December 2025, revenues from management services, net amounted to Swiss francs 2'461.2 million, which primarily includes management fees and performance fees. These constitute a significant portion of the Group's total revenues and have a material impact on the Group's financial results. Management fees are recognized in accordance with the agreed contractual terms. While the calculation of most of the management fees revenues is largely automated, certain calculations are performed manually. Performance fees are inherently more complex and require significant judgment from management. The recognition of performance fees depends on various methodologies applied, key parameters including fee rates, hurdle rates, high-water marks, NAVs, cash flows, and the valuation of the underlying private markets investment portfolio. Management's assessment involves estimating the likelihood of future clawbacks of previously recognized performance fees and determining whether the conditions for recognizing such fees have been satisfied. Given the significance of revenues from management services, coupled with the complexity and volume of the underlying agreements and judgment involved, particularly	As part of our audit procedures, we obtained an understanding of and evaluated managements' revenue recognition accounting policies, processes and controls related to the calculation of revenues from management services. This included performing walkthrough procedures, assessing the proper application of revenue recognition accounting policies and testing of the design and operating effectiveness of relevant key controls. For management fees, we tested on a sample basis the key parameters of contractual terms, including management fee rates and commitment or net asset value (NAV), used to calculate management fees. For management fees calculated through automated processes, we evaluated the reliability of the system and independently reperformed management fee calculations. For manually calculated management fees, we reperformed manual recalculations on a sample basis to verify their accuracy. For performance fees, we assessed on a sample basis the accuracy of the underlying calculations to

in relation to performance fees, this area was identified as a key audit matter.

Further information about the accounting policies, judgments, and estimates relating to revenues from management services is included in note 1.1 to the consolidated financial statements.

ensure they were in accordance with the terms of the relevant management agreements. We have also tested on a sample basis the key parameters and the appropriateness of any reversal risks considered.

For performance fees calculated through automated processes, we evaluated the reliability of the system and independently reperformed a performance fee calculation in accordance with each methodology. For manually calculated performance fees, we independently recalculated selected performance fees in accordance with the respective methodologies.

We perform analytical procedures on the performance fees accrued within the underlying products and the performance fees recognised at the Group level to ensure that variations in the underlying products are consistent with the recognition at the Group level.

We performed a reconciliation of management fees and performance fees amounts reported between the calculation system, billing system, and accounting system to ensure accuracy and consistency.

Valuation of financial investments and assets held of sale

Key audit matter	How our audit addressed the key audit matter
As at 31 December 2025, the Group's financial investments amounted to Swiss francs 1'123.4 million and assets held for sale, amounted to Swiss francs 789.9 million, together representing a significant portion of the Group's total assets. The portfolio predominantly consists of investments in products composed of other net assets and investment programs for which there are no active market prices and limited or no observable inputs, which introduces inherent estimation uncertainty. Fair values of these investment programs are determined by applying valuation techniques that are consistent with international financial reporting standards, primarily the market approach, the income approach, and the adjusted net asset value method. These valuation techniques require management to exercise significant judgment in estimating key inputs	As part of our audit procedures, we obtained an understanding of the Group's valuation accounting policies, governance framework, and the processes and key controls related to the valuation and accounting of financial investments and assets held for sale. We carried out walkthroughs, assessed the application of the valuation accounting policies and tested the design and operating effectiveness of these controls. With the support of valuation experts and specialist, we conducted an independent assessment of the valuation techniques as well as the assumptions and methodologies applied by management to evaluate their appropriateness and consistency with the relevant valuation standards. We also verified the mathematical accuracy of all valuation models selected in our sample.

such as earnings multiples, discount rates, liquidity discounts, and valuation multiples and in the application of assumptions and methodologies that can materially influence the reported values of financial investments and assets held for sale.

Given the significance of the financial investments and assets held for sale and the judgments involved in their valuation, we identified this as a key audit matter.

Further disclosures on the accounting policies, valuation techniques, and management's judgments related to financial investments are included in notes 3.1.2, 3.1.3 and 3.4 to the consolidated financial statements.

We evaluated the reliability of the key inputs by comparing them to externally available data, historical trends, and relevant industry benchmarks. Furthermore, we performed procedures, on a sample basis, on the other net assets to assess the appropriateness of their valuation. We have also compared the prior-period net asset value (NAV) of the products on a sample basis with the prior-period audited NAV.

Finally, we reconciled the Group's proportionate holdings in financial investments and assets held for sale with the transaction records maintained for each investor.

Other matter

The consolidated financial statements for the year ended 31 December 2024 were audited by another statutory auditor who expressed an unmodified opinion on those consolidated financial statements on 7 March 2025.

Other information

The Board of Directors is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements, the consolidated financial statements, the compensation report and our auditor's reports thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Board of Directors' responsibilities for the consolidated financial statements

The Board of Directors is responsible for the preparation of consolidated financial statements, that give a true and fair view in accordance with IFRS Accounting Standards and the provisions of Swiss law, and for such internal control as the Board of Directors determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the Board of Directors is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and

using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Swiss law, ISA and SA-CH will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Swiss law, ISA and SA-CH, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made.
- Conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Group as a basis for forming an opinion on the consolidated financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Board of Directors or its relevant committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Board of Directors or its relevant committee with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them regarding all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Board of Directors or its relevant committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on other legal and regulatory requirements

In accordance with article 728a para. 1 item 3 CO and PS-CH 890, we confirm the existence of an internal control system that has been designed, pursuant to the instructions of the Board of Directors, for the preparation of the consolidated financial statements.

We recommend that the consolidated financial statements submitted to you be approved.

Notes to the financial statements of Partners Group Holding AG

1. Accounting principles

The financial statements have been established in accordance with the accounting, presentation and valuation principles of the Swiss Code of Obligations. In accordance with Article 961d of the Swiss Code of Obligations, the Company has dispensed with the additional disclosure requirements pursuant to Article 961, as it is included in publicly available consolidated financial statements.

Partners Group Holding AG ("the Company") is domiciled in Switzerland. The address of the Company's registered office is Unternehmer-Park 3, 6340 Baar, Switzerland.

Receivables and liabilities

Receivables from and liabilities to subsidiaries are denominated in the local currency of the respective subsidiary. They are translated at the closing exchange rate at the balance sheet date. Receivables and liabilities are offset and presented on a net basis per counterparty only where the legal requirements for set-off under Art. 120 et seq. of the Swiss Code of Obligations are fulfilled; otherwise, they are recognized gross.

Participations

The Company applies the group valuation principle for the valuation of all its participations (see note 6.). Under this approach, participations are valued at cost less impairment.

Treasury shares

Treasury shares are recognized at acquisition cost, deducted from equity at the time of acquisition and presented separately within equity. In case of a disposal of treasury shares, the gain or loss is recognized in the statement of profit or loss as other finance income or finance expense. The treasury shares are valued at historic price.

2. Dividend income

The Company has elected to recognize CHF 1'063.1 million (2024: CHF 820.0 million) of dividend income related to the 2025 available earnings of its subsidiary Partners Group AG in 2025. As this dividend will not be paid until 2026, this amount has been recorded as accrued income. The dividend has been formally approved by the Annual General Meeting of Partners Group AG.

3. Other finance income

In millions of Swiss francs	2025	2024
Interest income	24.9	31.8
Foreign exchange gains	161.9	40.8

CH1346742948	7 June 2024	300.0	2.150%	2034	100.000%	100.000%

[21] The company is indirectly held by Partners Group Holding AG.
[22] The company was acquired on 7 January 2025.
[23] The company was incorporated on 30 May 2025.
[24] The company was incorporated on 21 November 2025.
[25] For associated companies refer to note 4.2 of the consolidated financial statements in the Annual Report 2025.

8. Other current liabilities

In millions of Swiss francs as of 31 December	2025	2024
Other accrued expenses	12.0	12.7
Tax liabilities	41.7	0.2
Other liabilities	27.8	2.4
Total other current liabilities	**81.5**	**15.3**

The Company has recognized a tax liability relating to Pillar II minimum tax obligations applicable to its subsidiary entities. This liability reflects the Company's assessment of additional taxes that may be payable under the OECD Pillar II global minimum tax framework.

9. Provisions

In millions of Swiss francs as of 31 December	2025	2024
Provisions for compensation to board members		
Option grants	1.7	2.8
Management carry program	0.2	0.6
Social security expenses on management carry program	0.0	0.1
Total provisions	**1.9**	**3.5**

10. Treasury shares

	Number of shares	Weighted average price in Swiss francs	Total value in millions of Swiss francs
Balance as of 1 January 2024	719'717	1'066.14	767.4
Purchase of treasury shares	416'954	1'197.49	499.3
Disposal of treasury shares	(340'706)	1'094.20	(372.8)
Balance as of 31 December 2024	**795'965**	**1'123.04**	**893.9**
Balance as of 1 January 2025	795'965	1'123.04	893.9
Purchase of treasury shares	316'605	1'053.68	333.6
Disposal of treasury shares	(195'705)	1'122.10	(219.6)
Balance as of 31 December 2025	**916'865**	**1'099.29**	**1'007.9**

The Company had 1'214'590 (31 December 2024: 1'008'676) outstanding employee options, restricted stock units ("RSUs") and non-vested shares (see also note 2.2. of the consolidated financial statements in the Annual Report 2025). The treasury shares necessary to cover the granted non-vested shares have already been put aside in separate escrow accounts in the name of the employees. Thus, the number of treasury shares is already net of non-vested shares outstanding.

11. Share and option grants to members of the Board of Directors and the Executive Team

	2025			2024		
	Number of instruments	Weighted average price in Swiss francs	Total value in millions of Swiss francs	Number of instruments	Weighted average price in Swiss francs	Total value in millions of Swiss francs
Board of Directors						
Shares	593	928.60	0.6	592	1'251.00	0.7

Shares	6'775	928.60	6.3	4'400	1'251.00	5.5
Options	75'301	96.12	7.2	55'555	149.65	8.3

12. Commitments and contingent liabilities

Credit facilities

The Company has entered into the following credit facilities, which may give rise to contingent liabilities.

As per reporting date, the Company and certain subsidiaries maintain an unsecured syndicated credit facility of EUR 3'000.0 million (CHF 2'791.2 million) with a syndicate of international and Swiss banks (31 December 2024: two unsecured syndicated credit facilities of CHF 562.0 million with a syndicate of Swiss banks and CHF 585.0 million with a syndicate of Swiss and international banks). This credit facility can be used for general corporate purposes with a primary focus on working capital financing. Interest rates are variable and determined by the relevant short-term interest rate plus a margin. The facility is not subject to any covenants (31 December 2024: facilities were subject to covenants, particularly regarding financial indebtedness, which have been met throughout the prior year).

Additionally, the Company and certain subsidiaries have uncommitted bilateral credit facilities amounting to a total of CHF 70.0 million that can be used for current account overdrafts or for fixed advances (31 December 2024: CHF 365.0 million). Interest is set at a margin above prevailing short-term market rates. None of these facilities are subject to covenants (31 December 2024: Some of these facilities were subject to covenants, particularly regarding financial indebtedness, which have been met throughout the prior year).

The amounts drawn by subsidiaries are guaranteed by the Company.

As of 31 December 2025, CHF 1'056.0 million were drawn (31 December 2024: CHF 715.0 million).

Other guarantees

In millions of Swiss francs as of 31 December	2025	2024
Other guarantees for subsidiaries	3.1	3.3

The guarantees for subsidiaries relate to guarantees issued by the Company in connection with office lease (rent) obligations of its subsidiaries.

13. Shareholders above 5%

As of 31 December 2025, the Company had received notification of five significant shareholders whose voting rights exceed 5%.

Shareholders above 5% as of 31 December	2025	2024
Dr. Marcel Erni	5.03%	5.02%
Alfred Gantner together with family members[26]	5.03%	5.02%
Urs Wietlisbach	5.08%	5.08%
BlackRock Inc.	5.02%	5.02%
UBS Fund Management (Switzerland) AG	5.01%	5.01%

[26] The group is based on a shareholders' agreement with Alfred Gantner acting as representative of the group.

14. Full-time employees

The Company did not have any employees in the reporting year or in the previous year.

15. Subsequent events

No events took place between 31 December 2025 and 6 March 2026 that would require material adjustments to the amounts recognized or further disclosures in these statutory financial statements.

Report of **the auditors on the financial statements** of Partners Group Holding AG

pwc

Report of the statutory auditor to the General Meeting of Partners Group Holding AG, Baar

Report on the audit of the financial statements

Opinion

We have audited the financial statements of Partners Group Holding AG (the Company), which comprise the statement of profit or loss for the year ended 31 December 2025, the statement of financial position as at 31 December 2025, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the financial statements (pages 109 to 123) comply with Swiss law and the Company's articles of incorporation.

Basis for opinion

We conducted our audit in accordance with Swiss law and Swiss Standards on Auditing (SA-CH). Our responsibilities under those provisions and standards are further described in the 'Auditor's responsibilities for the audit of the financial statements' section of our report. We are independent of the Company in accordance with the provisions of Swiss law and the requirements of the Swiss audit profession that are relevant to audits of the financial statements of public interest entities. We have also fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Our audit approach

Materiality

The scope of our audit was influenced by our application of materiality. Our audit opinion aims to provide reasonable assurance that the financial statements are free from material misstatement. Misstatements may arise due to fraud or error. They are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

Based on our professional judgement, we determined certain quantitative thresholds for materiality, including the overall materiality for the financial statements as a whole as set out in the table below. These, together with qualitative considerations, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures and to evaluate the effect of misstatements, both individually and in aggregate, on the financial statements as a whole.

PricewaterhouseCoopers AG, Birchstrasse 160, 8050 Zürich

www.pwc.ch

PricewaterhouseCoopers AG is a member of the global PricewaterhouseCoopers network of firms, each of which is a separate and independent legal entity.

Overall materiality	Swiss francs 24 million
Benchmark applied	Total assets
Rationale for the materiality benchmark applied	We chose total assets as the benchmark because, in our view, it is the benchmark against which the performance of the Company, which has limited operating activities and which mainly holds participations in subsidiaries and interest-bearing liabilities, is commonly measured, and it is a generally accepted benchmark for holding companies.

Audit scope

We designed our audit by determining materiality and assessing the risks of material misstatement in the financial statements. In particular, we considered where subjective judgements were made; for example, in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain. As in all of our audits, we also addressed the risk of management override of internal controls, including among other matters consideration of whether there was evidence of bias that represented a risk of material misstatement due to fraud.

We tailored the scope of our audit in order to perform sufficient work to enable us to provide an opinion on the financial statements as a whole, taking into account the structure of the Company, the accounting processes and controls, and the industry in which the Company operates.

Key audit matters

We have determined that there are no key audit matters to communicate in our report.

Other matter

The financial statements for the year ended 31 December 2024 were audited by another statutory auditor who expressed an unmodified opinion on those financial statements on 7 March 2025.

Other information

The Board of Directors is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements, the consolidated financial statements, the compensation report and our auditor's reports thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Board of Directors' responsibilities for the financial statements

The Board of Directors is responsible for the preparation of financial statements in accordance with the provisions of Swiss law and the Company's articles of incorporation, and for such internal control as the Board of Directors determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Swiss law and SA-CH will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Swiss law and SA-CH, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made.
- Conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

We communicate with the Board of Directors or its relevant committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Board of Directors or its relevant committee with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them regarding all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Board of Directors or its relevant committee, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on other legal and regulatory requirements

In accordance with article 728a para. 1 item 3 CO and PS-CH 890, we confirm the existence of an internal control system that has been designed, pursuant to the instructions of the Board of Directors, for the preparation of the financial statements.

Based on our audit according to article 728a para. 1 item 2 CO, we confirm that the Board of Directors' proposal complies with Swiss law and the Company's articles of incorporation. We recommend that the financial statements submitted to you be approved.

Compensation Report

Flora Zhao member of the Board of Directors and Chairwoman of the Nomination & Compensation Committee

Dear clients, business partners, and fellow shareholders

The 2025 Annual General Meeting (AGM) of Shareholders demonstrated strong support for our Compensation Report 2024, with an 87% approval rate. This positive outcome underscores our commitment to transparent and fair compensation practices. This year's compensation demonstrates our pledge to maintaining a stable and predictable framework, ensuring continuity and comparability for our shareholders. We continue to prioritize annual engagement with our stewardship teams and value these conversations for the insights they provide.

2025 performance

The year 2025 reconfirmed the firm's resilience and its ability to thrive in a challenging macroeconomic environment. The Executive Team orchestrated significant advancements in platform expansion, capitalizing on opportunities to drive strategic diversification across geographic regions, asset classes, client segments, and product offerings. In this context several new partnerships with leading financial services firms were established this year, positioning Partners Group as a trusted investment advisor delivering private markets expertise and access. I would like to take the opportunity to thank management and employees for their efforts in delivering strong results.

Executive compensation

The total base compensation for the Executive Team remained stable, reflecting our commitment to compensation that is tied to individual function and contribution. Our equity-based LTI pool declined by 4% compared to the previous year because of our quantitative and qualitative assessment (detailed in section 1.3.2.).

Our framework promotes a culture where leadership, shareholders, and investors collaborate as partners in building lasting value. In this context, the Nomination and Compensation Committee (NCC) periodically conducts internal evaluations of the total Executive Team compensation. The last evaluation took place in 2024 when we performed an extensive review of the executive compensation framework. As a result, we introduced an additional long-term incentive

element in the form of ExMCP which remains subject to stringent and ambitious performance hurdles, with maximum payouts only attainable through exceptional investment performance. These rigorous conditions ensure that the plan's rewards are genuinely at risk, including the possibility of zero payout for underperformance. Additionally, to avoid excessive payouts, the ExMCP is capped at 1.20x the grant value.

Metrics are calibrated to balance financial targets with strategic initiatives, ensuring decisions today support tomorrow's competitive advantage. Regular reviews by the Board guarantee these incentives adapt to evolving market conditions while maintaining fidelity to our long-term vision.

In 2025, there have been no further modifications to the remuneration framework which was applied consistent with the prior year.

Commitment to transparency

In response to concerns previously raised by stakeholders, we have delivered on our commitments. Specifically, we have introduced payout caps to mitigate excessive compensation outcomes and enhanced the level of compensation disclosure. In addition, we now provide transparency on CEO realized pay over several years, complementing the required disclosure of granted amounts for the performance year under review.

As I conclude my fourth term serving as Chairwoman of the Nomination and Compensation Committee (NCC), I deeply appreciate the discussions we have shared and remain committed to collaborating closely to uphold Partners Group's role as a dependable and trusted partner for all shareholders and stakeholders.

On behalf of the NCC, I would like to thank you for your continued trust and support.

Yours sincerely,

Flora Zhao
Chairwoman of the Nomination & Compensation Committee

Partners Group campus | Baar-Zug, Switzerland

1. Pay for performance and compensation governance

Our compensation philosophy is based on our firm's values. We are committed to driving forward our strategy of delivering sustainable returns through a focus on transformational investing, bespoke client solutions, and positive stakeholder impact. At the same time, we strive for attractive financial returns and a premium valuation to honor the long-term trust of our shareholders.

1.1. Principles

When making compensation decisions, the NCC follows three guiding principles which apply to all employees:

- **Compensation follows contribution:** we have a unique business model and operate as one global firm, albeit with differentiated business lines and functions. The main drivers for the variable compensation elements in the firm's compensation framework are related to individual and team results, as well as to the firm's overall achievements.
- **Equal opportunity and non-discrimination:** we are an equal opportunity employer and do not discriminate against employees on the basis of age, gender, race, nationality, or any other basis that is inconsistent with our guiding values. The firm commits to a "pay for performance" and "fair pay" policy and systematically conducts equal pay analyses across our main departments and regions assured by a third party.
- **Compensation is not a substitute:** compensation is an important pillar of governance and leadership. It is, however, no substitute for a caring culture, for non-material ways of recognizing individual achievements, and for helping in the development of the firm's human capital.

1.2. Pay for performance

We fundamentally believe that our compensation system should reflect our emphasis on long-term value creation for clients and shareholders. The NCC follows the general corporate governance principle of "comply or explain" when Partners Group's compensation philosophy and principles deviate from what are considered so called "best practices". As our firm continues to grow, we remain committed to delivering sustainable performance across economic cycles while focusing on what truly sets us apart:

- **Transformational investing:** as an investment firm, we seek to generate attractive returns by capitalizing on thematic growth trends and transforming attractive businesses and assets into market leaders.
- **Bespoke client solutions:** as a client-centric organization, we provide tailored access to private markets and seek to enhance returns through our portfolio management capabilities.
- **Stakeholder impact:** as a responsible investor, we realize potential in private markets and seek to create sustainable returns with a lasting, positive impact for all of our stakeholders.

1.3. Compensation framework of the Executive Team

The NCC continues to separate the Executive Team's compensation into two types: total base compensation and LTI, which includes an equity-based and a performance fee-based plan. While there are no targets set for the proportion of variable LTI relative to fixed base compensation, our framework is designed to ensure strong alignment with performance.

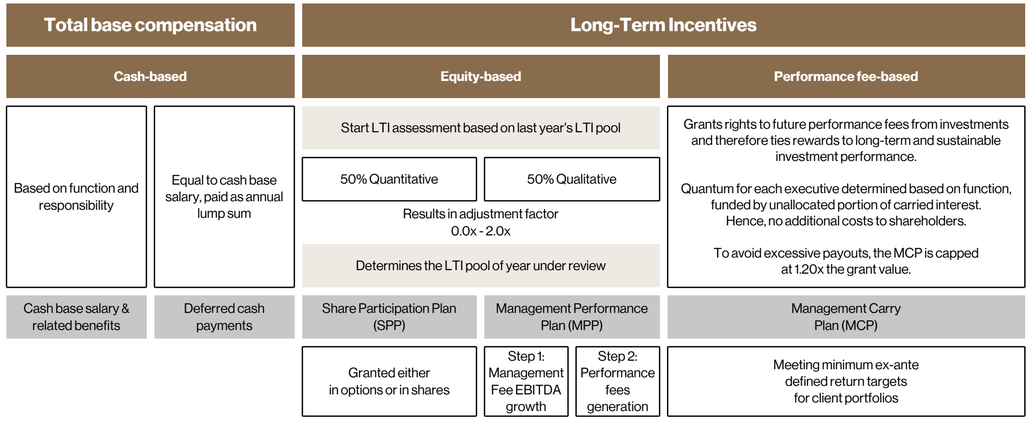

Every year, the proposed LTI awards are submitted for retrospective approval by shareholders at the AGM. Under this approach, the variable-to-fixed compensation ratio typically falls within a range of 2x to 6x.

1.3.1. Total base compensation

The total base compensation represents a stable compensation component. It is comprised of the cash base salary and the deferred cash payment. Cash base salaries, and by extension deferred cash payments, for Executive Team members are set dependent on an individual's function.

- **Cash base salary and related benefits:** cash base salaries are paid on a monthly basis and are reviewed annually. The primary purpose of benefits, such as pension and insurance plans, is to establish a level of security for

Exhibit 1: Total compensation

employees and their dependents with regard to the major economic risks of sickness, accident, disability, death, and retirement. The level and scope of pension and insurance benefits provided are country-specific and influenced by local market practice and regulations.

- **Deferred cash payment:** the fixed deferred cash payment is awarded at year-end to Executive Team members. It is not considered a variable short-term incentive and is intended to be stable and predictable. The deferred cash payment is set at 100% of the cash base salary. The NCC has the flexibility to adjust the deferred cash payment downwards (not upwards) in the rare case that the firm or an individual Executive Team member severely underperforms in the year under review. As of 31 December 2025, no adjustments have occurred.

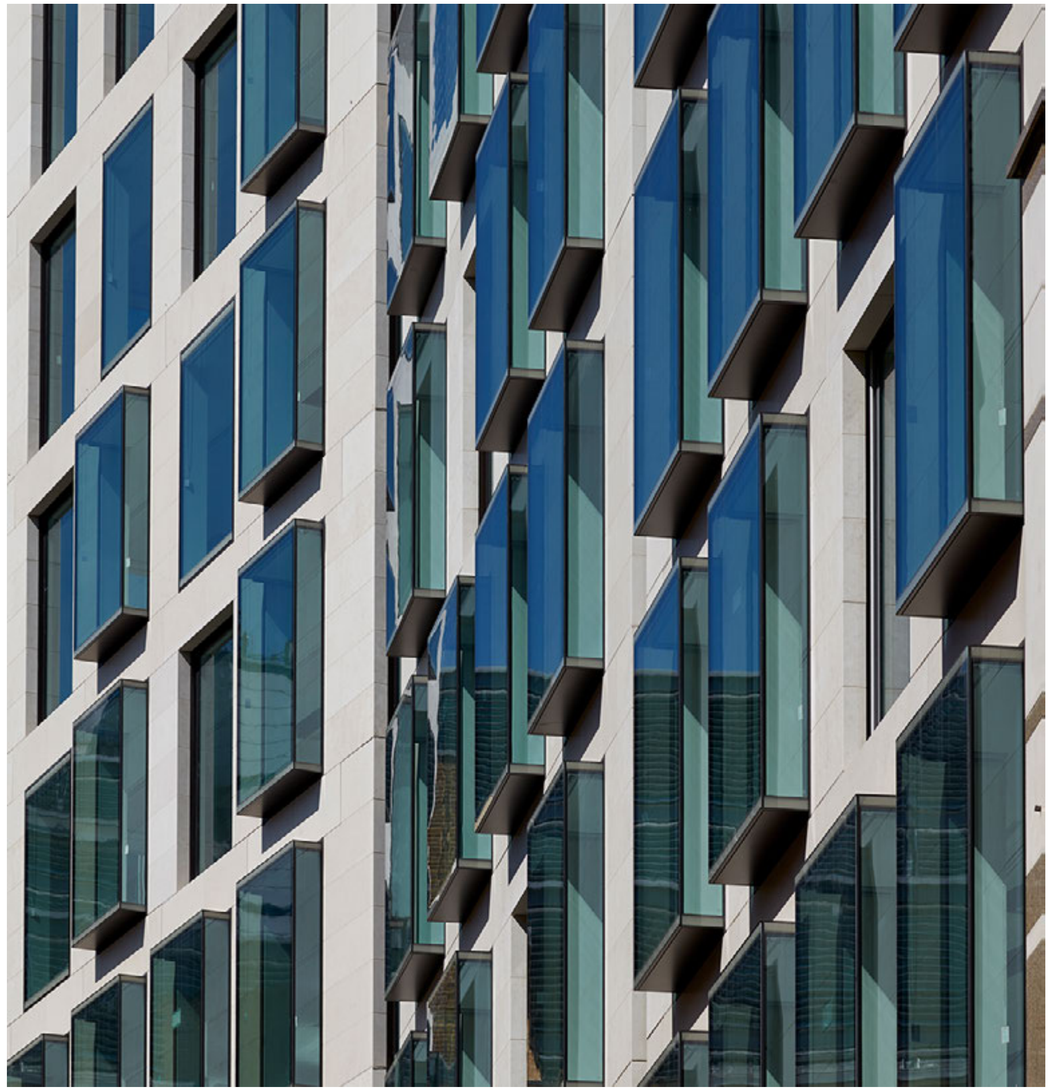

1.3.2. Equity-based LTI

At Partners Group, we promote entrepreneurship and long-term thinking through our equity-based LTI program. We base the calculation of the compensation factor for this year's LTI pool on two types of targets. Exhibit 2 provides more details on those targets.

- **Quantitative targets:** measure the company's financials and investment development.
- **Qualitative targets:** evaluate progress on strategic goals (six key areas) and Environmental, Social, and Governance (ESG) objectives.

The compensation factor is multiplied by the previous year's LTI pool to determine the current year's pool. There is no floor to the compensation factor and it is capped at 2.0 times the previous year's pool. A factor of 1.0 means the LTI pool stays the same as last year (adjusted for team changes). A factor below 1.0 indicates underperformance, while those above 1.0 show outperformance. In extreme cases, a factor of 0.0 would result in no LTI pool for the year.[1]

Once the value of this equity-based LTI pool of the current year is determined, it is split equally across SPP and MPP.

80 Fenchurch

[1] In such cases of significant underperformance, the subsequent year's reference LTI pool would consequently also be zero. Should this occur, the NCC would reference an LTI pool in a year which is most comparable to the year under review, the NCC would disclose the reason and the LTI reference pool chosen.

Exhibit 2: Executive Team-level objectives for equity-based LTI

Quantitative	50%	Investment platform	• Achieve sustainable expansion and scale of investment capacity • Create long-term value in portfolio assets
	50%	Financials	• Focus on continuous growth through client satisfaction and therefore assets under management (AuM) advancement • Balance cost growth vs revenue growth
Qualitative	80%	Transformational investing	• Deepen and expand thematic market insight in future growth sectors and expand pipeline of target assets • Drive institutional entrepreneurship at scale with portfolio asset boards at the center of vision, strategy, and accountability
		Expand the investment platform	• Mid-market leadership for private equity and infrastructure solutions • Platform building and expanding growth capital strategies across direct equity and infrastructure • Build our private credit business, initiate strategic ancillary investment strategies, grow our thematic real estate platforms and jump-start our cross-sector royalties
		Differentiate with bespoke solutions	• Further build out our leading position as a global provider of bespoke private market programs and tailored mandates for large institutional investors • Expand offering of bespoke evergreen solutions for small institutional investors and private individuals
		Develop new markets	• Expand across regions, including in the US, Asia, and Middle East, in order to reach new clients and increase local presence • Release new private markets solutions, such as evergreen solutions for global royalty investments and ancillary solutions in credit • Respond to evolving client needs, for example through strategic distribution partnerships and customized multi-asset portfolio solutions for individual and institutional investors
		Organize for effectiveness	• Leverage technology to allow for scale and improved efficiency across the platform • Further realize efficiencies of scale across our services organization by leveraging external service providers and systems to build effectiveness
		Live the PG way	• Take ownership and work with an entrepreneurial mindset to reduce complexity, come with solutions, and ultimately deliver better results for all stakeholders • Attract, retain, and develop diverse talent to realize full potential of private markets, encouraging employee engagement with a culture of innovation
	20%	ESG	• Corporate level - create a positive and lasting impact for all stakeholders • Portfolio asset level - build better and more sustainable assets and businesses

Partners Group's six strategic focus areas

Exhibit 3: Key characteristics of SPP, MPP and MCP

	SPP	MPP	MCP
Instrument	Equity incentive scheme (single-component)[2]	Equity incentive scheme (multi-component)	Performance fee-based cash incentive scheme
Philosophy	Promotes ownership mentality and drives operational performance of the firm	Promotes profitable earnings growth and investment performance	Promotes investment performance
Performance condition	Dependent on instrument chosen: • Yes, if options are selected (payouts only achievable through share price appreciation) • No, if shares are selected	Yes, payouts only achievable through 1. minimum growth of Management Fee EBITDA achievement over a period of up to seven years and 2. generation of performance fees[3]	Yes, payouts only achievable if return thresholds are reached. Not meeting the thresholds of some funds gradually reduces target payouts. If return thresholds are not met, payouts are zero
Vesting[4]	Vests in years three (34%), four (33%) and five (33%), and is contingent on continued employment. It is subject to a minimum five-year tenure in the respective committee. Options can only be exercised once vested	Vests linearly over a five-year period, subject to a minimum five-year tenure in the respective committee	Vests linearly over a five-year period, subject to a minimum five-year tenure in the respective committee
Payout	In Partners Group Holding AG (PGHN) shares or cash, dependent on conversion approach	In PGHN shares, between years six and fourteen	In cash, typically between year five and twelve; payouts are capped at 1.20x the grant value.
Dilution	None. Share will be delivered out of current treasury pool. Partners Group is well covered.	None. Share will be delivered out of current treasury pool. Partners Group is well covered.	None. Performance fee revenues will match performance fee-related costs, all is cash-based.

[2] SPP allows recipients a choice between receiving their SPP allocation in the form of PGHN shares or alternatively as PGHN options. Disclosure on allocations can be found in the footnotes to Exhibit 17.
[3] MPP recipients can elect to exercise their MPP right in years five, six, or seven.
[4] For further information on vesting with regards to retirement please refer to section 2.6. of the Compensation Report.

1.3.2.1. SPP

SPP encourages the Executive Team to create shareholder value through a rising share price. It not only fosters an ownership mentality but also incentivizes Executive Team members to drive the operational performance of the firm and protect its reputation. Executive Team members have the choice of receiving their SPP in the form of either PGHN share options (with strike set "at the money") or PGHN shares, or a mix of PGHN share options and shares. Disclosure on allocations can be found in the footnotes to Exhibit 17.

1.3.2.2. MPP

MPP reinforces an alignment of interests with clients and stakeholders through two independent conditions. Achieving only one condition while not the other results in no payout. The MPP granted in 2025 follows the same principles as MPP granted in 2024.

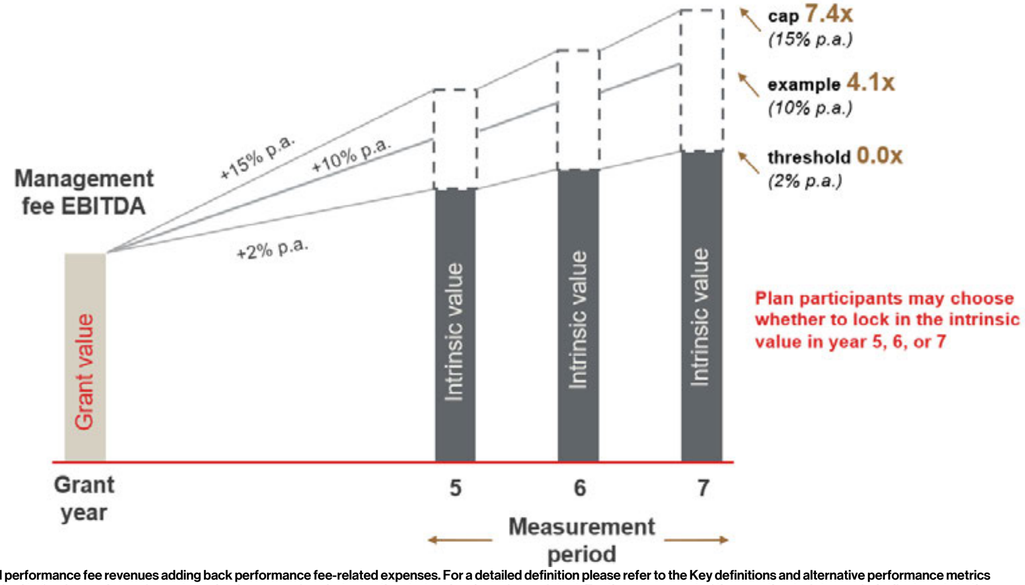

- The **first condition** focuses on achieving profitable earnings growth over a time horizon of up to seven years. We measure the achievements through the growth rate of the firm's Management Fee EBITDA.[5] If the growth rate exceeds a defined threshold, plan participants can expect a future payout. If the growth rate falls below the threshold, no payout will occur. Plan participants are therefore encouraged to meet the minimum growth rate to lock in an intrinsic value of their LTI. This intrinsic value can only be realized through the second condition.
- The **second condition** unlocks the intrinsic value determined under the first condition. It focuses on generating sustainable investment returns over a time horizon of up to 14 years and derives from active value creation as well as the realization of investment opportunities in underlying client portfolios. The achievements are measured through realized performance fees stemming from a reference vintage year that is benchmarked against the firm's base case assumptions in the year when the LTI was granted. This comparison (actual performance fees realized vs. base case assumption) results in a factor that can be greater or less than one. For example, client portfolios that generate greater than expected returns have a factor greater than one. The reverse holds true: if returns for clients fall below certain return thresholds, then the factor decreases below one. In the worst-case scenario of insufficient value creation, the factor equals zero. In this case, the MPP component will not provide any payouts to recipients.

Condition 1: profitable earnings growth equals Management Fee EBITDA growth

To become eligible for a potential payout, the firm's Management Fee EBITDA must grow at a defined minimum rate over the measurement period (five to seven years)[6]. This rate is set with both a floor rate, below which the payout will be zero, and a cap rate, thus limiting the upside potential. The floor and cap growth rates will be disclosed each year by the NCC. For the 2025 MPP, the minimum annual growth rate did not change compared to last year and was set at 2% p.a. The cap was calibrated at an annual growth rate of 15%, resulting in a maximum payout factor of 7.4x (2024: 6.0x and 12%) as shown in Exhibit 4.[7]

Example: a Management Fee EBITDA growth rate of 10% p.a. after the assessment period results in a factor of the initial grant value of 4.1x. If the initial grant value in 2025 was CHF 1.0 million, then the intrinsic value of the MPP would be CHF 4.1 million. In any case, the intrinsic value of the 2025 MPP participation right cannot exceed 7.4x of the grant fair value which is

Exhibit 4: Minimum Management Fee EBITDA growth of 2% required for MPP value creation

[5] The Management Fee EBITDA is an alternative performance metric and is calculated as total EBITDA defined by the International Financial Reporting Standards (IFRS) less recognized performance fee revenues adding back performance fee-related expenses. For a detailed definition please refer to the Key definitions and alternative performance metrics section of the annual report 2025 starting on page 34. Adjustments to the Management Fee EBITDA calculation may occur should accounting or other adjustments , including but not limited to foreign exchange impacts, make the comparison between the start and end year inconsistent. For the assessment of the growth rate, inter-period adjustments to the Management Fee EBITDA will be performed to account for foreign exchange effects.
[6] MPP recipients can elect to exercise their MPP right in years five, six, or seven.
[7] The change to the cap imposes a moderately higher stretch for grants in 2025.

applicable for growth rates of 15% or higher (the cap).

Condition 2: Performance fee component

The generation of attractive returns on behalf of our clients by capitalizing on thematic growth trends and building attractive businesses into market leaders remains a key growth driver. The NCC therefore integrated this element into the LTI consideration for Executive Team members via the firm's performance fee generation.

Executive Team members can influence the intrinsic value, which was determined in condition 1, in terms of magnitude and timing of the payout in condition 2. Both depend on the returns generated in client portfolios over the long term and are compared against the firm's ex-ante defined model return targets from the year when the LTI was granted. The difference results in a factor that impacts the intrinsic value either to the positive or to the negative.

Magnitude

The magnitude of the payout depends on the actual performance fees generated from the respective reference investment vintage.[8] To assess whether the payout is higher or lower than the intrinsic value, the return targets set at grant are compared against the actual achievement on an annual basis. If 100% of the targeted performance is achieved, the intrinsic value from condition 1 will be paid out at 100% in the form of Partners Group shares (number "1" in Exhibit 5). The total payout can be higher than the originally targeted nominal amount in the case of investment performance above target returns (number "2" in Exhibit 5), or lower than the originally anticipated nominal amount in the case of lower investment performance (number "3" in Exhibit 5). In the worst-case scenario, the amount can be zero, irrespective of the intrinsic value determined under condition 1.

Exhibit 5: Actual MPP payout based on underlying investment performance

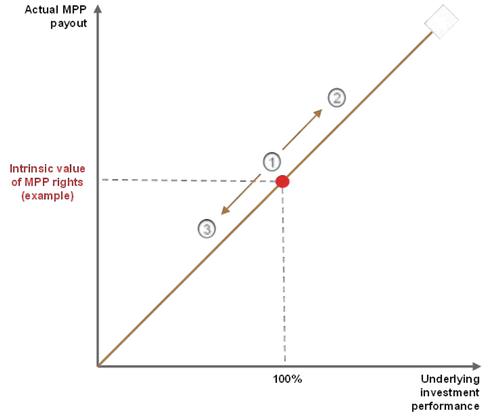

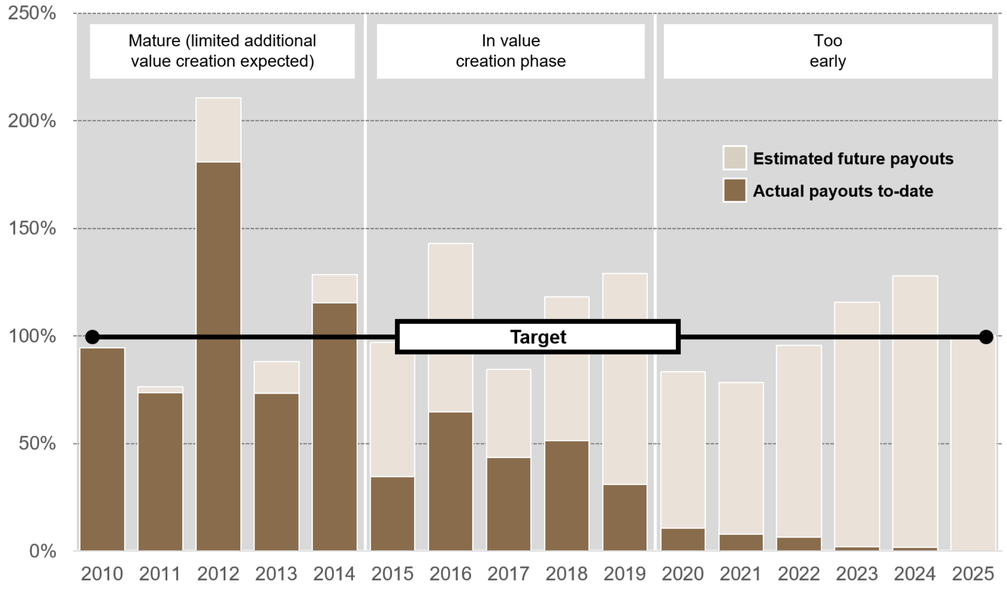

Exhibit 6 shows actual payouts for Partners Group's globally diversified carry plans over a period from 2010 to 2025 as of 31 December 2025. Expected future payouts of each vintage pool are based on the most recent available performance assessment of assets and/or funds defining these vintage pools as of 30 September 2025.

Exhibit 6: Actual performance fee payouts, relevant for MPP (and also MCP) vintages

[8] Investment period is defined as Q4 of the prior year until Q3 of the respective financial year under review.

Timing

—

MPP payout occurs as performance fees of investment vintage materialize (see Exhibit 7). The payout of the intrinsic value typically spans over a period of 14 years, starting in year 6. The timing of the payouts is dependent on the time that the performance fees are earned and recognized.[9] Any potential future entitlements to plan participants, based on performance fees received by the firm prior to the assessment of condition 2, will be accrued and paid out in subsequent years.[10]

Payouts of previous MPP programs

—

The LTI consideration of previous years in the form of MPP has resulted in payouts in Partners Group shares for the Executive Team and the Executive Board Members. Partners Group issued no additional shares for the payout of these programs as all required shares were already bought in advance from the market. Since the IPO in 2006, Partners Group has not diluted its share capital.

Any MPP plan that achieves its performance condition is expected to pay out in the sixth year after grant. This means that in 2026, we expect the first payout for MPP 2020 and continue to expect payments for MPP from earlier years. We summarized all share distributions since the launch of MPP until 31 December 2025.

Exhibit 7: MPP payout occurs as performance fees of investment vintage materialize

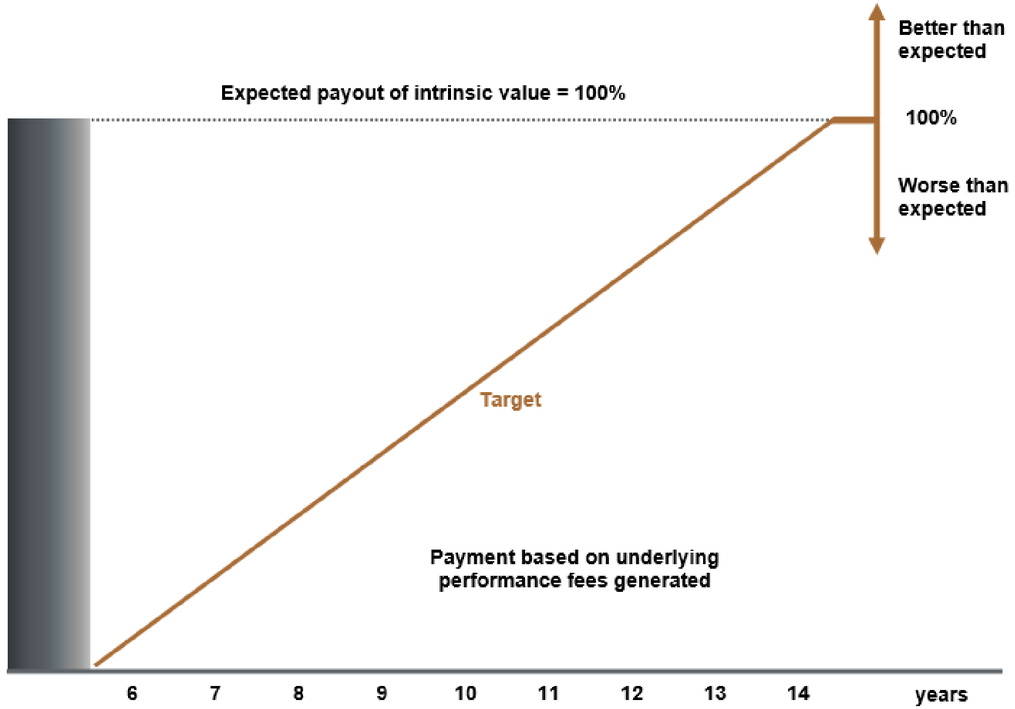

Exhibit 8: Actual MPP distributions

Program	# of Partners Group shares distributed to participants
MPP 2017	21'720
MPP 2018	46'385
MPP 2019	29'826
MPP 2020	Zero payout today; payouts only commence in the sixth year after grant
MPP 2021	
MPP 2022	
MPP 2023	
MPP 2024	
MPP2025	

In section 2.3.1, we provide enhanced transparency regarding David Layton's realized compensation as CEO of Partners Group over the past three years. This comprehensive overview presents the total annual payout, including base salary, deferred cash payments, and all vested and/or paid deferred performance awards. Realized pay represents the culmination of awards granted and approved by shareholders since the implementation of the MPP in 2017. This approach provides a more accurate picture of the CEO's actual earnings, as opposed to potential or projected compensation.

1.3.3. Performance fee-based LTI

The NCC conducts internal reviews of the total Executive Team compensation on a periodic basis. In its last review in 2024, the NCC emphasized that retaining Executive Team members to support the firm's future growth in the next private markets cycle is crucial (Compensation Report 2024).

This coming cycle will be pivotal for the industry, separating those managers who will emerge as leading global platforms from those which will remain local or regional players with limited breadth remains pivotal for the industry.

Following the review in 2024, the NCC reintroduced the MCP as an additional performance fee-based LTI for Executive Team members at Partners Group who had only been eligible for the two equity-based LTI programs between 2017 and 2024.

[9] The plan participants are paid out annually in a number of PGHN shares in the value of the payout. The price of the share is calculated based on the VWAP (volume-weighted average price) during the month prior to the payment date.
[10] In case performance fees are received while the MPP plan still assesses its first performance condition (between year one and year five, six, or seven), then performance fees will be accrued and paid out at a later point in time.

We would like to emphasize that previous concerns by shareholders about the MCP have been acknowledged, and suitable features have been implemented to address them. Specifically, a cap on payouts to limit potential remuneration has been put in place and transparency in payout disclosure was significantly improved . These changes aim to alleviate the concerns raised by stakeholders and enhance the overall structure of our compensation programs.

The MCP, in alignment with industry standards, grants participants rights to future performance fees from investments made in the year under review. It therefore directly ties rewards to long-term investment performance. The NCC believes that the MCP for Executive Team members further aligns our compensation structure with prevailing industry standards. Even with an MCP element, the average total compensation of the CEO or an Executive Team member at Partners Group continues to fall below the peer group's median. The MCP also aims to reward the Executive Team and Executive Board members for their client- and investment-related work, ensuring a 1:1 alignment with investment performance and by extension client returns.

The NCC follows a dual approach to evaluate our global competitiveness with regards to compensation. It looks at listed private market managers globally and also periodically reviews the compensation data for different US mid-market private markets managers. The last such review took place in 2024.

How MCP works

Annually, MCP participants are granted rights to a percentage of future performance fees from investments made in a given year. Payouts occur after investments are realized and a pre-defined minimum return hurdle is met. Up to 40% of performance fees are distributed to employees. The remainder goes to the firm and its shareholders. The payout process typically spans over 8-12 years from the grant date.

Performance fees are derived from investment outcomes, which are variable and cannot be predicted over the extended performance period. If the minimum return hurdle is not met, MCP payouts may be zero. In all scenarios, Partners Group's clients remain the primary beneficiaries of generated returns, followed by shareholders who receive the majority of performance fees through dividends.

Exhibit 9 illustrates performance targets for private equity and infrastructure asset classes, as the two major contributors to Partners Group's performance fees. There are 20 MCP sub-buckets across all asset classes in the global MCP Pool. No payout occurs if minimum return hurdles are not met or if realizations fall below investment costs.

To generate payouts, investments must yield surplus returns and distributions exceeding 1.0x of the invested capital. As outlined in Exhibit 9, for direct strategies, we typically target net

Money-Over-Invested-Capital (MOIC) multiples of greater than 2.0x. These targets usually correspond to a net IRR between 14-16% to achieve a payout level of 100%. It is worth noting that private credit strategies, while having lower net IRR and MOIC targets, have a substantially lower contribution to overall performance fee revenues due to their lower performance fee.

ExMCP: composition & quantum

The ExMCP remains unchanged versus the prior year. It continues to combine three regular MCP plans from vintages 2022, 2023, and 2024 ("MCP Pool 2022-2024"). Partners Group allocates up to 40% of its performance fees to employees, with the NCC and Board determining annually the use of unallocated portions for different employee considerations. The ExMCP is funded from the unallocated portion of these MCP pools. This means that the additional MCP will come at no additional cost to shareholders and the firm will stay within its operating income target of ~60%. Furthermore, the ExMCP is considered subject to performance conditions. Underperformance may generate zero payout.

The total notional value of ExMCP is expected to be USD 100 million and granted to the Executive Team in three tranches over three years (USD 33.3 million per annum), subject to annual general meeting of shareholders (AGM) approval in the respective years and the recipients continued employment at Partners Group.

Cap

In the case of strong outperformance of underlying client portfolios, the actual payout can be higher than initially anticipated. To avoid excessive payouts above target, the ExMCP payout is capped at 1.20x of the grant value.

This cap will be applied to the full additional MCP grant and not per tranche. Thus, given that the MCP consists of three separate vintage year pools, individual years may exceed the cap as long as the combined vintage pool payout across all three years does not exceed the cap.

- **Floor:** 0% of grant value (e.g. USD 0)
- **Target:** 100% of grant value (e.g. USD 100)
- **Cap:** 120% of grant value (e.g. USD 120)

At the Annual General Meeting, shareholders will be asked to approve the maximum potential payout of the second tranche of ExMCP. The approval will cover the capped amount which is greater than the initial grant value . No floor has been established for the ExMCP program and

payouts can be 0% in cases of severe underperformance.

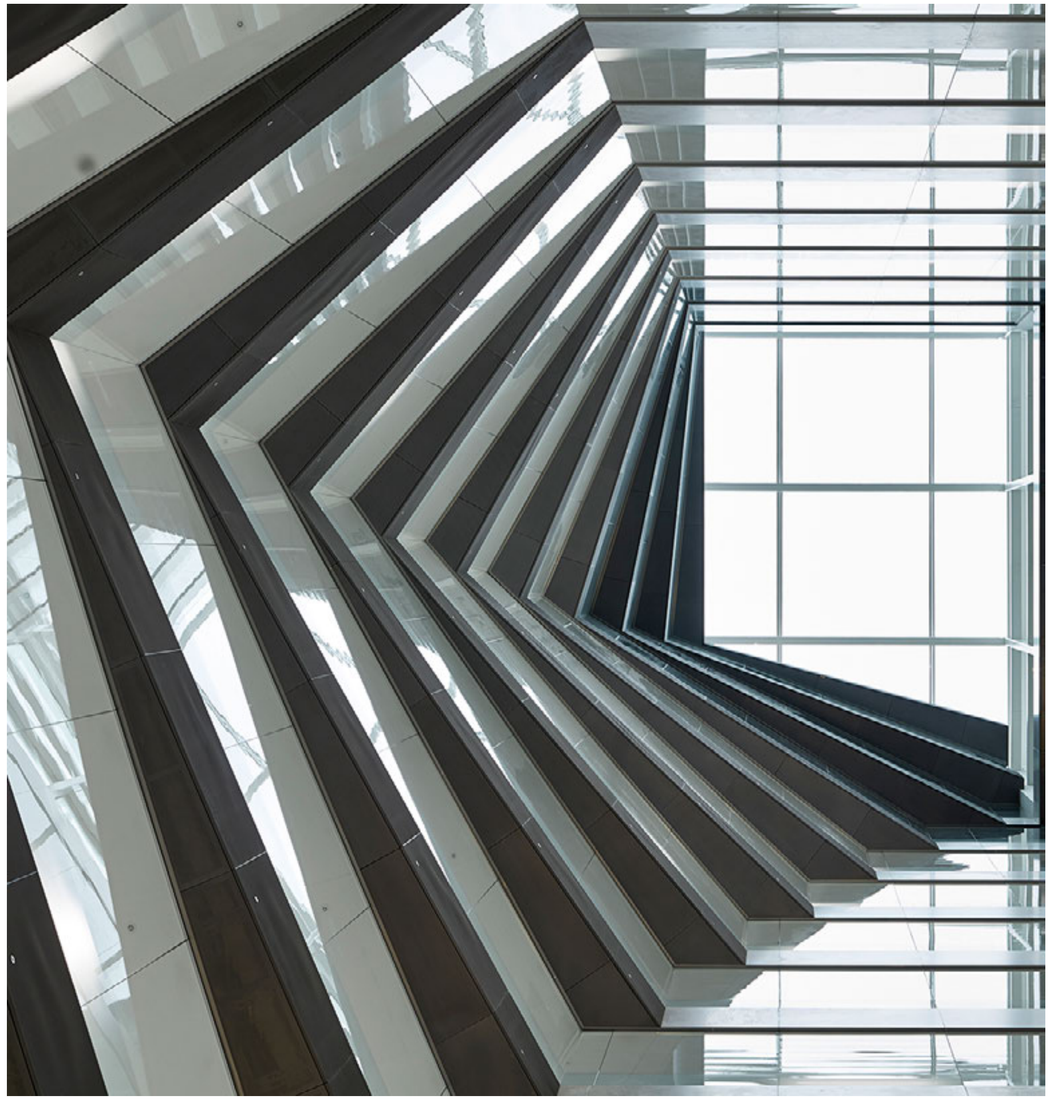

Performance conditions

Performance conditions of ExMCP are congruent to other MCP plans granted across the organization. Return hurdles for eligible funds and assets are established individually based on their respective risk profiles. Overall, there are dozens of categories determining return targets:

Traditional closed-ended programs and mandates: closed-ended programs and mandates that contain investments belonging to the 2022-2024 MCP Pools need to achieve the applicable minimum return hurdle rate which has been pre-agreed with clients. Minimum return hurdles for equity strategies are typically set at between a net Internal Rate of Return (IRR) of 6-8% and between a net IRR of 4-6% for credit strategies.

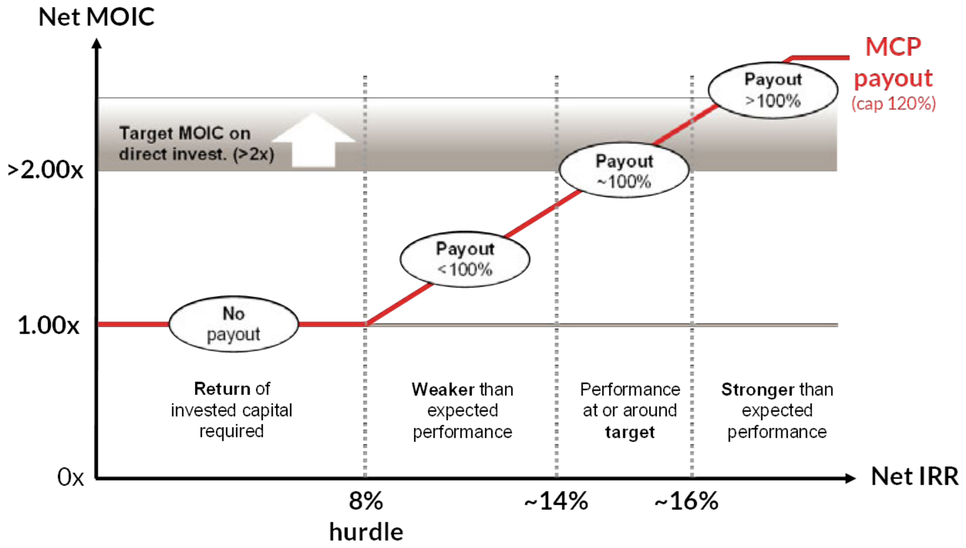

Evergreen programs: most of Partners Group's evergreen programs charge performance fees based on a high-water mark subject to an annual hurdle of 0-5%. If not, conditions outlined above for traditional closed-ended funds apply. As such, evergreen programs that contain investments belonging to the 2022-2024 MCP Pool need to achieve a positive value creation net of management fees (positive NAV development) above such hurdles.

Not meeting the thresholds in traditional programs, mandates as well as evergreen programs will gradually reduce the target payouts of the 2022-2024 MCP Pools. If none of the eligible funds meet their return hurdles, performance fee payouts are zero. To generate payouts, investments must yield surplus returns and distributions exceeding 1.0x of the invested capital.

80 Fenchurch St, Office asset located in London

Exhibit 9: illustrative example of MCP payout schedule for direct private equity & infrastructure programs

Vesting

The ExMCP is being granted to the Executive Team in three tranches over three years, subject to AGM approval in the respective years and the recipients continued employment at Partners Group. Each tranche has a 5-year linear vesting schedule. This linear vesting schedule is subject to a minimum five-year tenure in the Executive Team.

LTI of executive members of the Board

In conjunction with the 2024 review of the Executive Team, the NCC also reviewed the compensation of executive members of the Board, where a similar gap was identified. In contrast to the Executive Team, the Executive Board Members are mandated to represent shareholder interests and are responsible for the firm's sustainable growth strategy. As such, rather than providing MCP benefits, the NCC maintained the equity-based LTI component with increased allocations.

1.4. Equal pay analysis

Partners Group is an equal opportunity employer and complies with all applicable fair employment practice laws. In order to provide equal employment and advancement opportunities to all individuals, Partners Group commits to making all employment decisions based on merit, qualifications, and abilities.

On an annual basis, the human resources team performs an equal pay analysis, which has shown no pay inequalities in recent years. Similar to the previous year, the 2025 analysis will continue to be performed consistently using the assessment methodology of the EDGE certified Foundation. The results of the analysis will be published in our 2025 Sustainability Report which will be issued in April 2026. In addition, Partners Group complied with its legal obligation to perform a separate Swiss equal pay analysis under the requirements of the Gender Equality Act and Ordinance and was awarded the "We Pay Fair" certificate from the Center of Diversity and Inclusion of the University of St. Gallen. The 2025 results will be independently audited and also published in our 2025 Corporate Sustainability Report.

1.5. Non-financial income / benefits disclosed according to Art. 732 - 735d of the Code of Obligations

Art. 735 of the Code of Obligations requires Board Members of listed companies to disclose all benefits directly or indirectly provided to the Executive Team and the Board of Directors, even if not related to compensation. As such, in relation to our firm-wide Employee Commitment Plan (ECP), we disclose any preferred terms granted to members of the Executive Team and the Board for select investments in Partners Group programs.

The firm has a history of investing in its own investment programs alongside its clients (typically around 1% of the program's size) with its balance sheet.[11] This aligns the interests of clients with those of the firm and its employees. For select direct investment programs, in line with the expectations of our institutional clients, the size of such investments increases beyond the typical 1% of the program's size.

Given our strong liquidity position, Partners Group could also fully fund these investments alongside clients from its balance sheet. However, the Board decided to overweight the firm's lean balance sheet approach versus a more pronounced usage of the balance sheet for investment purposes and therefore favored a

[11] The firm does not generally earn any revenues on its own investments alongside clients as any fees levied are rebated.

strategy that requires more employees to meet additional investment expectations from clients. The view of our Board also reflects the opinion of external shareholders who place a higher value on a lean balance sheet strategy.

Therefore, Partners Group's Board has introduced the ECP to increase incentives for employees to provide more substantial commitments and also align an even greater number of employees with clients. In line with industry practice, Partners Group offers its employees (including the Executive Team and the Board of Directors) similar preferential terms and conditions to invest in its private markets programs, offering such investments at no or lowered management fees and performance fees.

According to Art. 735 of the Code of Obligations, these waived fees are subject to approval by shareholders. The NCC discloses in this report all such waived fees granted to the Executive Team and members of the Board of Directors for investments made alongside investors in the firm's closed-ended investment programs (see Exhibit 17 for the Executive Team and Exhibit 21 for the Board of Directors). The respective revenues not generated due to the fees waived for independent Board members are deemed immaterial and are therefore not influencing their independent judgment.

1.6. Bonus-malus system

The Board of Directors (with the board of directors of any of Partners Group's legal subsidiaries, where required) may decide (i) to reduce or fully forfeit unvested parts of the performance entitlements, shares or options and/or (ii) not to (fully) pay amounts or deliver securities for vested performance entitlements, share or options allocated under the global long-term compensation plan, and/or (iii) to recover all or part of the amounts or securities that have been paid or delivered in the past in connection with vested performance entitlements, shares or options ("claw-back") where the Board determines, in its own reasonable discretion, that the personal conduct of a Participant is hostile to Partners Group Holding AG or any of its subsidiaries, fraudulent or in material breach of applicable laws, regulations or internal policies and procedures (“misconduct”). For purposes of this paragraph, material breach occurs where a conduct poses a risk of serious legal, financial, or reputational harm to Partners Group Holding AG or any of its subsidiaries. Neither in 2025 nor in prior years, the Board had to take actions in this respect.

1.7. Compensation governance

1.7.1. Legal framework

The Swiss Code of Obligations as well as the Directive on Information relating to Corporate Governance issued by SIX Exchange Regulation AG require listed companies to disclose information about the compensation of members of the Board and Executive Team, their equity participation in the firm, any loans made to them, and their relevant mandates outside the issuer. This annual report fulfills that requirement. In addition, this annual report takes into account the principles of the Swiss Code of Best Practice for Corporate Governance of the Swiss Business Federation (economiesuisse).

1.7.2. Compensation decision-making authorities

Compensation allocation is an important and demanding governance and leadership task. As such, Partners Group's Board assigns the NCC the task of carrying out a systematic process on an annual basis. The NCC has combined responsibilities for "nomination for promotion" and "compensation" proposals, as both are integral and closely interlinked. The nomination process ensures that the assessment and nomination of individuals are based on their contribution to the firm's success and on their potential for development, while the compensation process ensures the respective adjustments to compensation based on functions, responsibilities, and performance. Giving one committee responsibility for both the nomination and compensation processes ensures a seamless transition between a professional's development and compensation.

Exhibit 10: Approval authorities

Compensation pools	Budget/proposal	Timing	Approval	Timing
Board of Directors, Executive Team	NCC	Q4	Shareholders' AGM	May (following year)
Group-level budget	NCC	Q3	Board of Directors ratifies	Q4
Department-level budget	Chairman and CEO	Q3	NCC approves	Q4

Individual compensation	Proposal	Timing	Approval	Timing
Chairman of the Board of Directors	NCC	Q4	Board of Directors approves	Q4
Members of the Board of Directors	NCC			
CEO	NCC and Chairman			
Executive Team	Chairman and CEO	Q4	NCC approves, Board of Directors ratifies	Q4
Senior Members of Management	Executive Team			
Members of Management and other professionals	Department Heads		Executive Team approves	

The NCC fulfills the duties set out for it in the firm's Articles of Association[12] and generally acts in advisory / preparatory capacity. In addition to nominations, it supports the Board in shaping the Company's compensation principles and system, assessing benchmarks, preparing the compensation report and preparing the motions submitted to shareholders. In particular, the Committee oversees the firm's compensation structure to ensure adherence to Partners Group's strategy and culture and to recognize best practices. The approval authorities are displayed in detail in Exhibit 10.

1.7.3. Committee members

As of 31 December 2025, the members of the NCC were Flora Zhao (Chairwoman), Anne Lester, and Gaëlle Olivier. All NCC members are independent Board members according to the independence criteria outlined in our Corporate Governance Report (section 3.1.). The members were elected by shareholders for a one-year term with the possibility of re-election.

1.7.4. Committee meetings and decisions taken

During the year, members of the NCC interact with the Chairman, the CEO, and other members of the Executive Team on a regular basis. Throughout 2025, formal and informal meetings were held with a large group of the firm's senior leaders to discuss compensation budgets, department bonus allocation plans, promotion criteria, and other compensation-related topics. During discussions pertaining to their own remuneration, executive members are not present in the meeting. The NCC has not retained an external advisor but in assessing pay equity, the Board relies on independent external appraisals. The full Board is informed after each NCC meeting.

Typically, the NCC interacts via several informal meetings throughout the year and holds two decision meetings in the second half of the year:

- In its **first decision meeting** (Q3), the NCC proposes the budget allocations for short-term total cash compensation and equity-based as well as performance fee-based LTI for all employees. During the meeting, the Committee defines guidelines for the allocation of the various compensation pools.
- In its **second decision meeting** (Q4), the NCC approves the compensation proposal for the Executive Team and proposes the compensation for the CEO and Board members. Compensation approval authorities are outlined in Exhibit 10. Partner and Senior Members of Management-level promotions and compensation are ratified individually.

Partners Group campus | Baar-Zug, Switzerland

2. Executive Team compensation

The NCC strives for consistency in its approach to compensation and continues to separate the compensation into two types: total base compensation and long-term incentives.

2.1. Total base compensation

The total base compensation represents a stable compensation component. It is comprised of the cash base salary and the deferred cash payment. Cash base salaries, and by extension deferred cash payments, for Executive Team members are set dependent on an individual's function. We outlined the NCC's approach to the total base compensation for the CEO and Executive Team members in Exhibit 11.

Partners Group has committed to a three-year freeze on total base compensation for the entire Executive Team, in light of the addition of the performance fee-based LTI for the next three years. This policy will remain in effect unless an Executive Team member undergoes a meaningful change in role or a new member joins with substantially increased responsibilities.

Cash base salary and pension benefits: the total cash base salary received by the Executive Team amounted to CHF 5.6 million (2024: CHF 5.5 million). The year on year difference arises from changes to the ExTe and currency effects .

[13] Management Fee EBITDA Q3 2025 Last Twelve Months (LTM).

Deferred cash payment: the total deferred cash payments received by the Executive Team amounted to CHF 5.5 million (2024: CHF 5.5 million). The increase in total deferred cash payments was directly linked to the increase in total cash base salaries.

2.2. LTI grant determination

2.2.1. Equity-based LTI

Based on the overall performance assessment of the firm's two equally weighted quantitative and qualitative measures, the NCC suggested to adjust the overall equity-based LTI pool in 2025 by -4% to 0.96x last year's pool. Exhibit 12 shows the calculation for this year's equity-based LTI pool. The Executive Team was granted nominal equity-based LTI amounting to CHF 27.0 million in 2025 (2024: CHF 28.2 million). Half of the value was granted in SPP and half in MPP. Exhibit 17 shows the total full-year compensation of the Executive Team in greater detail.

2.2.1.1 Quantitative measures (50% weighting)

The 2025 performance evaluation based on the two quantitative input components resulted in a compensation factor of 0.69x. The assessment was based on the financial performance and the investment development outlined in greater detail below.

Financial performance (50% weighting)

—

Assessment: we assess financial performance based on the year-on-year change in Management Fee EBIT.

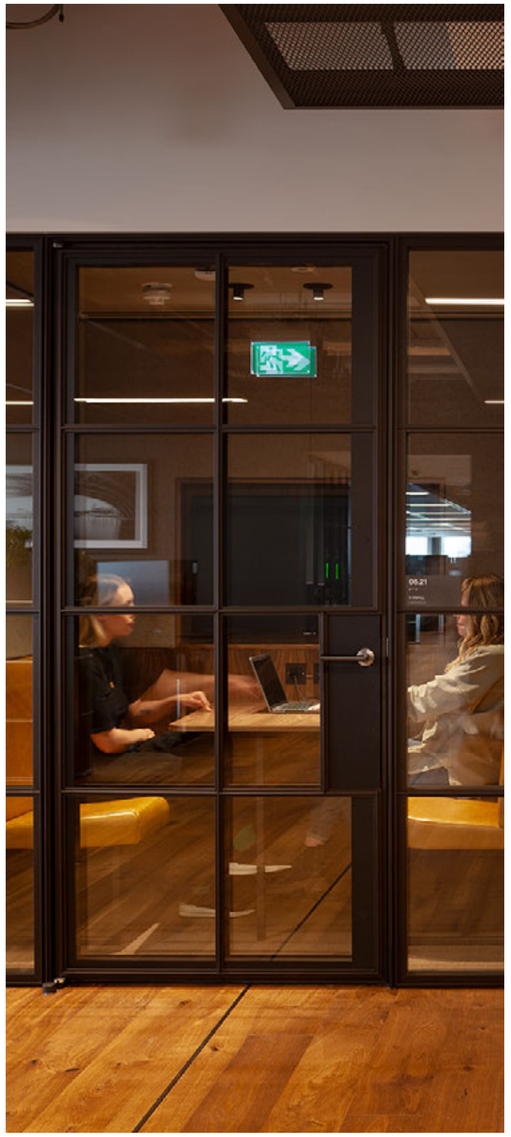

Result: the preliminary Management Fee EBITDA[13] considered by the NCC in November had increased by 3% (target 10%). The financial performance was therefore below target.

Investment development (50% weighting)

—

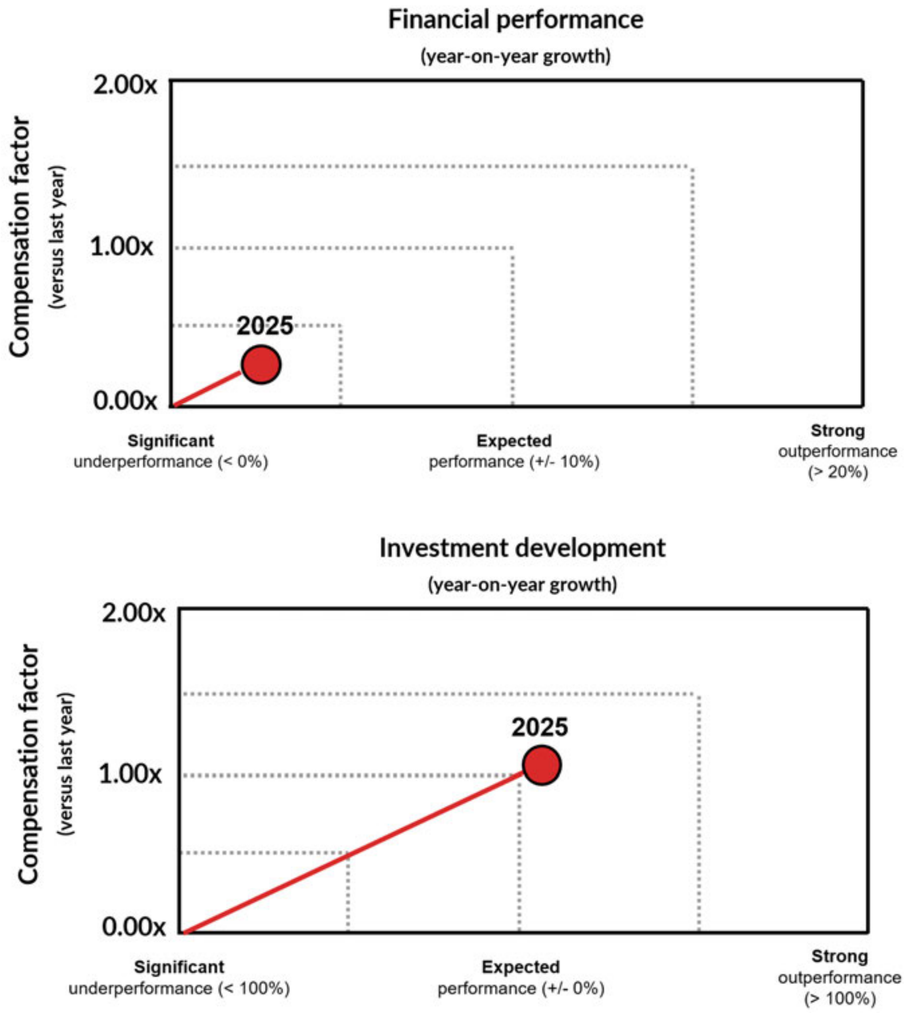

Assessment: we assess investment development based on the year-on-year change in the performance fee-weighted investment volume (based on standardized model return targets as defined on the investment date, adjusted for non-ordinary effects).

Result: the performance fee-weighted investment volume increased by 5% compared to the prior year (target: equal to prior year). The investment development therefore marginally outperformed expectations.

Partners Group office I London, UK

Exhibit 13: Quantitative assessment 2025

2.2.1.2 Qualitative measures (50% weighting)

The 2025 performance of the Executive Team, based on qualitative measures, resulted in a performance factor of 1.23x (2024: 1.23x). The assessment is outlined in greater detail below. It considered whether the firm made progress on its six strategic focus areas (80% weighting of 1.29x factor) as well as ESG targets (20% weighting on 1.00x factor).

Strategy implementation (80% weighting)

—

Assessment: the NCC assessed the implementation of key strategic initiatives as well as continued business and operational excellence across the firm's platform and businesses. In 2025, the focus was on furthering the progress of the six strategic focus areas.

Result: taken together, the Executive Team exceeded expectations, resulting in a performance factor of 1.29x (2024: 1.29x). The individual result was as follows:

Transformational investing (1.25x)

- The Transformational Ownership Review meeting confirmed well-defined business strategies and systematic value creation initiative reviews.
- Realizations increased by 47% compared to the previous year, driven by successful exits of private equity and infrastructure portfolio companies, demonstrating the health of the realized portfolio.

Expand the Investment Platform (1.5x)

- Cross-sector royalties strategy scaled to over USD 1 billion in AuM, with new investments spanning pharma, entertainment, and energy transition assets, among others.
- The firm further expanded its investment capabilities through two strategic initiatives: the launch of a private credit secondaries strategy in partnership with Generali Investments and the development of a special opportunities strategy, which was launched in January 2026.
- Continued development of M&A pipeline of best-in-class managers creating complementary investment content that enhances shareholder value and is culturally aligned.

Differentiate with bespoke solutions (1.50x)

- Strong growth of bespoke solutions and continued development of evergreen programs, contributing to a record year across both, evergreen and mandate fundraising.
- The firm partnered with additional distribution partners to democratize private markets for wealthy individuals and advisors, addressing the allocation gap between institutional and private wealth investors.

- In addition, the firm successfully launched several new strategic partnerships including with Deutsche Bank in Germany and PGIM in the US.

Develop new markets (1.00x)

- The firm expanded its global presence in the Middle East, Asia and North America by opening new offices in Abu Dhabi, Hong Kong, Miami and Montreal, bringing its total to 25 offices worldwide and building a tangible pipeline of business opportunities in these markets.

Organize for effectiveness (1.25x)

- The firm continued enhancing efficiency and scalability by leveraging external service providers and systems to improve effectiveness across its service organization.
- The firm exhibited robust cost discipline, keeping organic headcount stable and ensuring leveraging external service providers coupled with stringent performance management measures.

Live the PG Way (1.25x)

- The Executive Team adhered to The PG Way principles leading to successful initiatives such as streamlining operational effectiveness and and continuing strategic outsourcing of non-core services.

ESG targets (20% weighting)

Assessment: Partners Group has a strong commitment to sustainability. Creating a lasting positive impact is one of the core principles of the firm's approach and thus it is crucial for it to be one of the factors in the Executive Team's overall performance assessment. In 2025, the Executive Team was assessed on its achievements and progress on the key targets set for 2025, based on the Sustainability Report 2024.

Result: the Executive Team executed on projects to meet and progress on material sustainability topics throughout the year. For example, the Executive Team supported the development of a new Sustainability Data Architecture to address regulatory compliance through a data-driven approach and ensure readiness for current and upcoming regulations. The NCC assessed the Executive Team to be in line with expectations, resulting in a performance factor of 1.00x (2024: 1.00x). Additional details are highlighted below.

- **Environmental focus:** at a **corporate level**, Partners Group aims to achieve net zero for the firm's Scope 1, Scope 2, and Scope 3[14] greenhouse gas (GHG) emissions by 2030. At the **portfolio level**, the firm has committed to achieving net zero by 2050, in line with the Net Zero Investment Framework . In order to evaluate whether the firm is on track to achieve these long-term goals, the following achievements were considered for 2025:[15]

  - Developed interim targets by 2030 for Private Equity, Infrastructure (Direct & Partnerships) and Private Credit as part of our NZIF commitment
  - 74 of portfolio companies across our Private Equity, Infrastructure, Private Credit and Royalties portfolio have a GHG reduction strategy aligned to the Paris Agreement
  - 50% of our controlled portfolio companies have a GHG reduction strategy in place
  - Disclosure of our first portfolio footprint (financed emissions)
  - Our campus is a model of environmentally conscious design, minimizing environmental impact while integrating energy efficiency and biodiversity

In 2025, the Executive Team was evaluated as being on track to continue to achieve the firm's 2030 net zero emissions, and separately the net zero emission goals for portfolio assets based on the above achievements.

- **Social focus:** at the **corporate and portfolio level** the firm is committed to promoting an inclusive and holistic approach to our workforce, recognizing that a variety of perspectives enhances performance. Initiatives include employee networks and working groups dedicated to fostering an inclusive workplace. Partners Group emphasizes employee development and engagement,offering development programs through PG Academy or external partners that foster the personal and professional development of all our employees. Leadership development and coaching programs have been a focal point to build agile leaders and meet our dynamic business demands. The Executive Team had the following targets and achievements during the year:

  - More than 30% of our Board Members were diverse, and more than 60% of new companies had at least one diverse board appointment
  - Verified equal pay for equal work with no material deviations globally; achieved in 2025 for financial year 2024
  - Ensure 25 or more women are Partners, Managing Directors, or Board Members by 2025

In 2025, the Executive Team continued to advance our people and inclusion priorities across both the corporate platform and our portfolio. We remain committed to the “25 by 2025” ambition (more than 25 women in leadership positions), but maintaining and building on that level has been slower than anticipated compared to prior years due to a combination of internal and external factors. This remains a key strategic priority for the firm.

- **Governance focus:** as business builders, Partners Group manages both its business and its investment portfolio like founders and entrepreneurs. The firm drives value creation through its transformational ownership

[14] Corporate level Scope 3 emissions exclude Scope 3 emissions from "category 15: investments" (GHG Protocol), which are addressed at the portfolio level.
[15] Content is based on our 2025 progress while data reflects 2024 actuals due to the sustainability reporting time lag

approach across its portfolio companies, of which sustainability is a core pillar to build resilient and competitive businesses.

At corporate level, the firm performed a review of its Double Materiality Assessment to ensure topic validity and to re-evaluate the relevance of how sustainability factors affect both financial performance and have a broader societal and environmental impact. This approach has informed and shaped our Sustainability Strategy and helps manage risks and opportunities in operations and investments.

At the portfolio level, the firm manages material sustainability topics with the investment portfolio with an entrepreneurial mindset, emphasizing strong governance and collaboration:

- Conduct a Double Materiality Assessment and ensure operationalization of materiality-based approach to sustainability at the firm and the portfolio
- Advance the preparation for current and future changes to sustainability regulations and reporting standards
- Educating key internal stakeholders on sustainability regulations and material topics
- Drive cyber resilience to ensure appropriate incidence response plan in case of cyber attack occurrence
- 92% Portfolio Companies that have an incident response plan to manage cyber and data incidents

The Executive Team made substantial progress on the above targets and was determined to have met expectations.

2.2.2 Performance fee-based LTI

The NCC reintroduced MCP for the Executive Team with the new ExMCP Plan 2024. This award complements the existing equity-based LTI and allows our LTI mix to be better in line with peers across the industry, in terms of quantum and proportion of LTI relative to cash compensation (more details in section 1.3.3).

In line with 2024, a notional allocation of USD 33 million MCP , with payments capped at 1.20x, has been granted to Executive Team members was made in 2025. The firm's CEO was again granted USD 10 million. The NCC plans to grant a similar MCP program for the fiscal year 2026, subject to AGM approval and the recipients continued employment at Partners Group.

Partners Group campus | Baar-Zug, Switzerland

2.3. Compensation disclosures

2.3.1. Executive Team member compensation & highest paid

The total compensation of the Executive Team can be found in Exhibit 17. The highest-paid Executive Team member in 2025 was the firm's CEO, David Layton.

2.3.2. CEO compensation

David Layton, Partner and CEO of Partners Group, receives his total base compensation in USD. For the purpose of the below his compensation is expressed in CHF.[16] His full-year 2025 total base compensation amounted to CHF 1.66 million (2024: CHF 1.76 million using 2024 exchange rate and reported in our 2024 Compensation Report), of which CHF 0.83 million represents his base salary and CHF 0.83 million represents the deferred cash payment. The NCC maintained his total base compensation at the same level as prior year. The total base compensation including other compensation, such as pension benefits and social security payments, amounted to CHF 0.214 million (2024: CHF 0.288 million).

David Layton's equity-based LTI grant decreased by 4% to 0.96x the previous year's LTI grant, thus amounting to CHF 5.75 million in 2025 (2024: CHF 6.0 million), in line with the average LTI pool decrease of -4%. David Layton received 50% of the LTI value in SPP and 50% in MPP.

David Layton's performance fee-based LTI was set based on benchmarking data as well as budget available. A detailed description of the ExMCP 2025 allocation is made in section 1.3.3. In 2025, David Layton was granted ExMCP amounting to a notional value of CHF 8.3 million (CHF 8.8 million in 2024). ExMCP is an entirely performance-based LTI which settles once the pre-agreed returns have been realized for investors [17].

In Exhibit 14, we provide transparency on David Layton's realized compensation over the past four years. This comprehensive overview presents the total annual payout, including base salary, deferred cash payments, and all vested and/or paid performance awards. Realized pay represents the culmination of actual, tangible compensation received by the executive from awards granted and approved by shareholders since the implementation of the MPP in 2017. Awards received before 2017 were not considered. SPP values represent the value of shares/options at vesting date and MPP values represent the value of shares at payout date.

Exhibit 14: Total realized vs. awarded compensation for David Layton

In thousands of Swiss francs (gross)						**Realized**
For the year	Cash base salary	Deferred cash payment	Realized equity-based SPP (LTI)	Realized equity-based MPP (LTI)	Realized performance fee-based MCP (LTI)	Realized in respective years relating to past awards (since 2017)
2025	830	830	2'064	5'718	571	**10'014**
2024	882	881	2'251	10'305	0	**14'320**
2023	899	899	1'381	3'701	0	**6'879**
2022	859	859	1'242	0	0	**2'960**

2.4. Compensation ratios and limits

We have set compensation caps by limiting the granted LTI nominal value to 8.0x[18] of the total base compensation of an Executive Team member and 10x for the CEO. This would include both the equity-based LTI and the performance fee-based LTI. It also reflects the compensation structure that we see in our industry which significantly overweight LTI considerations. For 2025, the ratio between the Executive Team members' equity-based LTI compared to their total base compensation ranged from 1.0x to 6.8x, excluding the CEO who has a ratio of 8.5x. This range therefore falls below the new compensation cap for the LTI and does not exceed 8x the total base compensation of an Executive Team member, and 10x for the CEO.

2.5. Minimum shareholding guidelines

In 2021, the NCC introduced minimum shareholding guidelines for all Executive Team members. The minimum shareholding requirement is based on a multiple of the Executive Team member's cash base salary. The CEO must hold a minimum of 6.0x the cash base salary and Executive Team members must hold a minimum of 3.0x their respective cash base salary in Partners Group shares. Members have a 5-year period to become compliant with this requirement, starting from 2021 or the year of their appointment, whichever is later. Once achieved, the shares must be held throughout their tenure on the Executive Team. The minimum shareholding requirement encompasses shares granted under the firm's LTI plans as well as shares privately purchased

[16] In order to illustrate the USD based compensation in CHF, the compensation was converted into CHF with the average exchange rate USD/CHF for the year 2025. Source: Bloomberg.
[17] Realized performance fee-based MCP payments tracks actual carry returns and can be reversed in case of forfeiture.
[18] These ratios exclude any other benefits (social security and pension contributions) and show the varying compensation levels amongst individuals based on their function, achievements, and responsibility.

by Executive Team members outside of these plans.

Exhibit 15: Minimum shareholding guidelines

Function	Multiple of base salary	Cash base salary (in thousands)	Minimum shareholding requirement (in thousands)
CEO	6.0x	USD 1'000	USD 6'000
Executive Team	3.0x	Example: CHF 500	Example: CHF 1'500

Of the Executive Team's ten members, six members were found to be compliant with the minimum shareholding guidelines. Joris Gröflin and Michael Marquardt were not compliant yet. They have 5 years from their year of appointment to become compliant. Compliance with the minimum shareholding guidelines will be evaluated and reported on an annual basis. The shareholdings of Executive Team members as of 31 December 2025 are shown in Exhibit 16.

2.6. Vesting on retirement for Executive Team and executive members of the Board

At the time of retirement, all LTI, including past grants, for Executive Team members as well as executive Board members received during their membership in the respective committee (Executive Team or Board) shall be deemed to have fully vested and become unblocked, provided that the linear vesting phase has commenced, typically after a 5-year tenure in the respective committee. The vesting relief is subject to the following: the employee is considered a good leaver, agrees to sign a non-compete agreement and will have no new principal employment in the private markets industry. The NCC may use its discretion to make further adjustments to the rules outlined above on a case-by-case basis in order to achieve an optimal outcome for the business and the employee nearing retirement.

2.7. Executive Team loans (audited)

Executive Team members may apply for loans and fixed advances, subject to an internal review and approval process. As of 31 December 2025, no loans were outstanding to either current or former Executive Team members or to a related party of a current or former Executive Team member (2024: no loans were outstanding).

2.8. Employee contracts (audited)

In the event of an Executive Team member's departure, their compensation is governed by standard terms without special provisions, such as severance payments, "golden parachutes," or accelerated vesting periods for stock, options (SPP), MPP, or MCP (with the exception of accelerated vesting in case of retirement). Individual settlements will always be subject to the review and approval of the NCC.

For avoidance of doubt, no exceptions were granted to current or former Executive Team members and in accordance with Swiss corporate law, no advance payments to new joiners or transaction-related payments were made in 2025. Also, the Company's plan rules do not include change-in-control provisions.

2.9. Approved budgets of predecessor compensation programs and their payouts (2014 - 2017)

In 2010, Partners Group launched a dedicated performance fee-related compensation program, the MCP, whereby a percentage of the potential future performance fees from investments is allocated to senior professionals as well as the Executive Team. The MCP was designed as a long-term incentive plan which aligns the rewards for the firm's professionals with investment performance and the firm's overall financial success.

For the years 2014 until 2017, under the Ordinance against Excessive Compensation in listed joint stock companies (OaEC) issued by the Swiss Federal council, shareholders expressed a binding vote on the MCP budgets of the Board of Directors and Executive Team. As of 31 December 2025, the actual payout to current and former Executive Team members or to executive members of the Board of Directors has not exceeded the approved budgets for the years 2014 through 2017.

2.10. Composition of Executive Team as of 31 December 2025

Partners Group reviews its organizational structure on an ongoing basis and implements adjustments whenever necessary to support and enable the continued successful growth of its investment platform for the benefit of the firm's clients and shareholders, while ensuring continuity and stability in its core leadership team.

There were no changes to the composition of the Executive Team during 2025. However, the Company announced in December 2025 that Sarah Brewer and Andreas Knecht will step down from the Executive Team at the end of the year and that Ana Campos (Head of Human Resources) and Anette Waygood (Co-Head of Compliance & Legal) will be added to the team effective 1 January 2026.

2.11. External Board mandates (audited)

Information on the roles assumed by Executive Team members in other companies can be found starting on page 177 in the Corporate Governance Report (in the Annual Report 2025).

The information takes into account the requirements of the SIX directive on corporate governance and those of the Swiss Code of Obligations (Art. 734e CO).

2.12. Share and option holdings by members of the Executive Team (audited)

All share and option holdings of Executive Team members below are as of 31 December 2025 and include holdings from related parties.[19]

Exhibit 16: Share and option holdings by the Executive Team (31 December 2025 and 31 December 2024) (audited)

The year-over-year variance reflects the performance-based adjustment to the Long-term Incentive amounts.

[20] Other compensation includes payments by Partners Group for pension and other benefits such as social security payments.
[21] At the AGM in May 2024, shareholders approved a revised maximum total short-term cash compensation budget of CHF 13.50 million for the Executive Team for the fiscal year 2025. The budget includes cash base salary, pensions, other benefits, as well as a deferred cash payment and excluded social security payments. The actual compensation, excluding social security
[22] In 2025, SPP recipients were given the choice between receiving their SPP grant in the form of shares or options, or a mix of shares and options. Of the total 2025 SPP grant of CHF 13'525 thousand, in the form of 75'301 options and 6'775 shares . For further information please refer to note 2.2. of the notes to the consolidated financial statements.
[23] The valuation of MPP is outlined in the notes to the consolidated financial statement for the year 2025 (note 2.2.4. of the notes to the consolidated financial statements).
[24] Figures above are presented for illustrative purposes only to increase transparency. Actual values depend on the future performance of the investments attributable to the investment year 2025. The carry pool allocation above assumed an expected payout range from CHF 0 to CHF 35.9 million (cap at 1.20x) and used CHF 29.9 million as a base scenario for illustrative purposes. Amounts disclosed average exchange rate USD/CHF for the year 2025. The values used in the table represent the ExMCP 2024 allocation in 2024 which is a performance fee-related compensation program, whereby a percentage of the potential future performance fees from investments is allocated to the Executive Team (see note 1.3.3 for more details).
[25] Figures above exclude non-financial income (waived fees) for investments made alongside investors in Partners Group's investment programs under the firm's Employee Commitment Program (see section 1.5. of this report). Including these accrued but not yet paid items the total compensation for the entire Executive Team amounts to CHF 67'554 thousand, including CHF 157 thousand of waived fees. The total compensation of David Layton amounts to CHF 15'956 thousand, including CHF 26 thousand of waived fees.
[26] Executive Team member's cash base salary, deferred cash payments, and other compensation are prorated for their time on the Executive Team. LTIs are shown for the full year.

3. Board of Directors compensation

Partners Group's Board of Directors is entrusted with the ultimate responsibility for Partners Group's strategy and development. The Board applies the same "entrepreneurial governance" approach to its own firm as Partners Group applies to its portfolio companies.

The Board consists of four executive Board members - the Executive Chairman and the three founders - and four independent Board members. None of the directors of the Board have line management functions. Through the Board's committees, Board members contribute to investment as well as client-related activities and corporate development initiatives. The Chairman also oversees the Executive Team in leading the execution of the strategy.

The Executive Chairman typically invests three to five days a week towards his mandate. The founders dedicate approximately two to three days a week to Partners Group's Board activities. Independent Board members usually devote one to two days a week to their Board mandates. The substantial time commitment of Partners Group's Board is the foundation of a successful governance geared towards enabling proactive value creation. The Board sets the compensation for its members at a level that reflects individual responsibility, contribution, and time allocated to their Board mandates.

3.1. Compensation guidelines

The compensation of the executive members of the Board of Directors was set as follows: the cash base salary is fixed at CHF 0.30 million p.a. LTI allocation changes for the executive members of the Board follow those of the Executive Team and decreased by -4% to 0.96x of the amount granted in 2024. In addition, executive members of the Board were granted an additional CHF 5 million equity-based LTI award following the 2024 compensation review of executives, as explained in section 1.3.3.

At Board committee level, each executive member of the Board of Directors has additional responsibilities through his or her membership in the respective sub-committees (a detailed explanation can be found in the Corporate Governance Report). Due to their significant shareholding in the firm, executive members of the Board were granted 100% of their LTI in MPP.

For the compensation of independent Board members, the NCC applied the module-based compensation framework as outlined in Exhibit 19. The compensation is fundamentally determined by the delegated individual mandates and committee appointments, the time allocation a Board member dedicates to their respective duties, and any additional contribution made by the members to the firm's business through their committee mandates. Independent Board members are each paid 50% in cash and 50% in blocked shares[27] delivered in one installment during the respective Board period. Independent Board members do not receive LTI or pension benefits.

Partners Group campus | Baar-Zug, Switzerland

[27] Blocked shares have a five-year selling restriction as long as Independent Board members serve on the Board of Partners Group Holding AG. Should they not be re-elected the selling restriction will be reduced to one year.

Exhibit 19: Compensation framework: independent Board members

	Description	Compensation (in CHF)
Board membership	Regular Board work, including offsites; client AGM and other Board-related work	**Member:** 100'000
RAC	Chair: official RAC meetings and several other, mainly internal meetings and travel, including the preparation of meeting materials; regular calls; and Partners Group team interaction Member: additional Board meetings, including preparation of meeting materials; other additional meetings; regular calls; and team interaction	**Chair:** +150'000 **Member:** +100'000
NCC, OOC[28]	Additional Board meetings, including the preparation of meeting materials; other additional meetings; regular calls; and team interaction	**Chair:** +100'000 **Member:** +50'000
IOC, COC	Additional Board meetings, including the preparation of meeting materials; other additional meetings; regular calls; and team interaction	**Chair:** chaired by executive member **Member:** +100'000
CRT	Additional Board meetings, including the preparation of meeting materials; other additional meetings; regular calls; and team interaction	**Chair:** chaired by executive member **Member:** +50'000
Larger subsidiary PG Board	Board meetings, including standard board work, offsites; and other Board-related work	**Member:** +50'000
Ad hoc Board committee work	As required, additional Board committee work may be performed on an ad hoc basis. These specially created committees focus on value creation and other PG-related initiatives. These ad hoc committees will be disclosed in the Corporate Governance Report should they be formed in the year under review.	Dependent on time allocation. Guideline: for each additional around 10% time allocation +100'000
Waived fees	Consistent with industry standards, independent Board members may also invest into Partners Group's investment programs on a no-management fee and no-performance fee basis. Waived fees claimed are shown further in the full-year 2024 Board compensation table.	

RAC: Risk & Audit Committee, NCC: Nomination & Compensation Committee, OOC: Operations Oversight Committee, IOC: Investment Oversight Committee, COC: Client Oversight Committee, CRT: Crisis Response Team

[28] The Operations Oversight Committee (OOC) is led by an Independent Board member.

3.2. Executive Chairman of the Board

The Chairman's role requires a substantial time commitment and significant involvement. Under the leadership of the Executive Chairman, Steffen Meister, the Board shapes the strategy of the firm and exercises ultimate supervision over management, among other duties. As chair of the Investment Oversight Committee, the Executive Chairman drives forward investment strategy and oversight. He is also actively involved in the advancement of client-related projects as a member of the Client Oversight Committee. At the core, he is responsible for the growth of the next generation of leaders, together with the Executive Team, to whom he acts as a coach and sounding board. The Executive Chairman takes an active role in representing the firm vis-à-vis regulators, key shareholders, investors, and other important external stakeholders.

The Executive Chairman is paid an annual base Board fee of CHF 0.3 million (2024: CHF 0.3 million). His equity-based LTI compensation factor is aligned with the Executive Team (0.96x). The total MPP grant amounts to CHF 3.56 million (2024: CHF 3.64 million), including a CHF1.67 million supplementary grant as explained in section 1.3.3 of the 2024 compensation report. This brings his total compensation to CHF3.91 million (2024: CHF 4.0 million), including pension benefits as outlined in Exhibit 21.

3.3. Executive members of the Board

There are three additional executive members of the Board of Directors, Dr. Marcel Erni, Alfred Gantner, and Urs Wietlisbach, who are the founding partners of the firm. Each of them plays an important role in supporting the firm's investment and client strategy via their respective Board committees (see Corporate Governance Report). None of the executive members of the Board mentioned above have line management functions.

The NCC assesses their contribution to each Board-level committee throughout the year. Dr. Marcel Erni, Alfred Gantner and Urs Wietlisbach were each awarded an annual base Board fee of CHF 0.3 million (2024: CHF 0.3 million). With regard to their equity-based LTI allocation, each member was awarded an MPP grant of CHF 2.37 million (2024: CHF 2.42 million). This is aligned with the same compensation factor (0.96x) as the overall Executive Team and the Executive Chairman of the Board and includes CHF 1.11 million MPP as explained in section 1.3.3 of the 2024 compensation report. This brings the total compensation of Dr. Marcel Erni, Alfred Gantner and Urs Wietlisbach to CHF 2.72 million (2024: CHF2.8million) each, including pension benefits, as outlined in Exhibit 21.

3.4. Independent members of the Board

The independent Board members who focused on Board- and committee-related mandates at Partners Group are Dr. Urban Angehrn, Anne Lester, Gaëlle Olivier, and Flora Zhao.

Independent Board members spend a significant amount of time contributing to several strategic board-level initiatives. They have many formal and informal interactions with management and employees across the firm on an extensive range of matters and projects (e.g. vital strategic growth projects, key client-related matters, legal, compliance, audit, promotion considerations, leadership development, operational excellence, etc.). Select independent Board Members hold board seats in Partners Group's lead/joint-lead portfolio companies (see detailed overview in Partners Group's Corporate Governance Report 2025).

In 2025 following election of Dr. Urban Angehrn, the Board consisted of four executive and four independent members. Partners Group's Board remains committed to best practices in corporate governance to have at least half of its members considered independent.

Independent Board members were compensated in accordance with their Board roles and time commitment to their respective mandates.

- Dr. Urban Angehrn was paid an annual base Board fee of CHF 0.10 million. He additionally received CHF 0.10 million for being a member of the Risk & Audit Committee, CHF 0.05 million for being a member of the Operations Oversight Committee, CHF 0.075 million for his work performed on an ad hoc basis, shaping PG's insurance strategy. This brings his total compensation to CHF 0.325 million, excluding other compensation such as social security costs in relation to his board fees.
- Anne Lester was paid an annual base Board fee of CHF 0.10 million. She additionally received CHF 0.10 million for being a member of the Risk & Audit Committee, CHF 0.10 million for being a member of the Client Oversight Committee, CHF 0.05 million for her work on the US local Board and CHF 0.05 million for being a member of the NCC. This brings her total compensation to CHF 0.40 million, excluding other compensation such as social security costs in relation to her board fees.
- Gaëlle Olivier was paid a base Board fee of CHF 0.10 million. She additionally received CHF 0.15 million for being the chair of the Risk & Audit Committee , CHF 0.10 million for being the chair of the Operations Oversight Committee, CHF 0.05 million for her work on the UK local Board and CHF 0.05 million for being a member of the NCC. This brings her total compensation to CHF 0.45 million, excluding other compensation such as social security costs in relation to her board fees.
- Flora Zhao was paid an annual base Board fee of CHF 0.10 million. She additionally received CHF 0.10 million for chairing the NCC, and CHF 0.10 million for being a member of the Investment Oversight Committee. In addition, Ms. Zhao received CHF 0.05 million for her role on the Singapore Board. This brings her total compensation to CHF 0.35 million, excluding other compensation such as social security costs in relation to her board fees.

3.5. Loans to the Board (audited)

Members of the Board may apply for loans and fixed advances, subject to an internal review and approval process. Loans are made on substantially the same terms as those granted to other employees. As of 31 December 2025, no loans were outstanding to either current or former Board members or to a related party of a current or former Board member (31 December 2024: no loans were outstanding).

3.6. Board contracts (audited)

Contracts with members of the Board do not have special provisions, such as severance payments, "golden parachutes", reduced stock and/or options and MPP vesting periods etc. in place in case of the departure of a Board member. Partners Group did not make any such payments to current members of the Board in 2024 and 2025.

3.7. Share and option holdings by members of the Board of Directors (audited)

All share and option holdings of individual members of the Board of Directors and holdings from related parties[29] mentioned below are as of 31 December 2025.

Partners Group office I London, UK

[29] "Related parties" are (i) their spouse or equivalent, (ii) their children (under 18 years of age), (iii) any legal entities that they own or otherwise control, and (iv) any legal or natural person who is acting as their fiduciary.

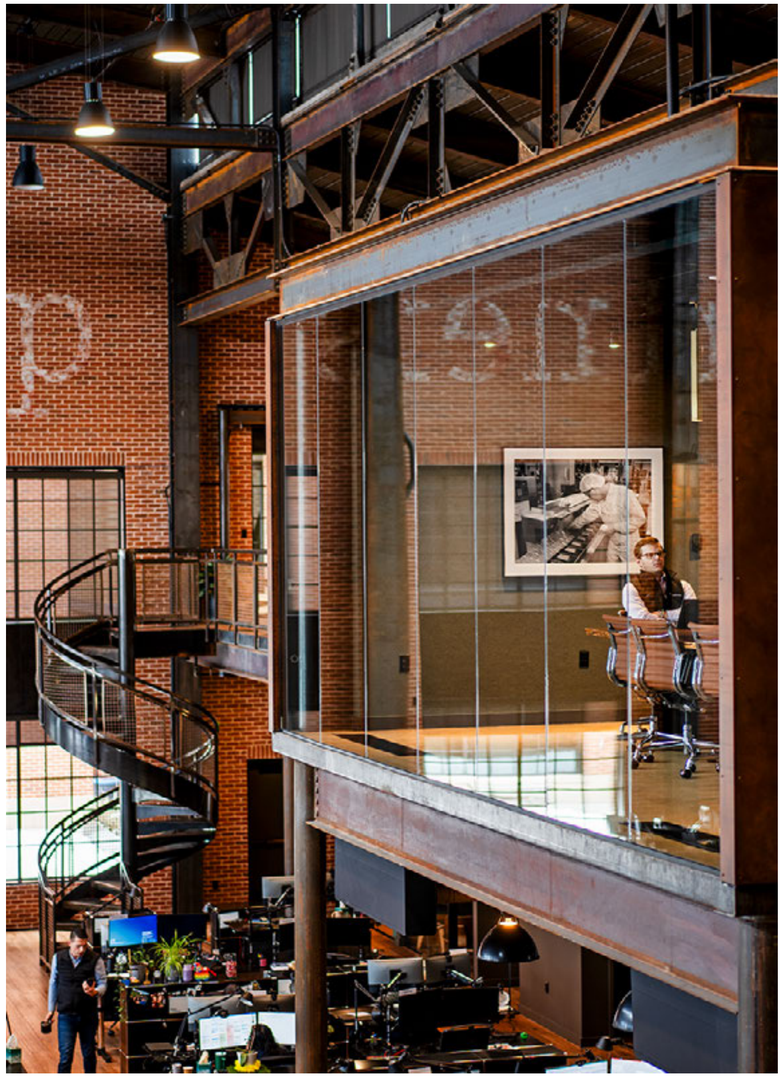

Exhibit 20: Share and option holdings by members of the Board of Directors

Board of Directors	2025				2024

Total Board of Directors	**4'404'936**		**2'239**		**4'393'820**		**2'212**	

3.8. External Board mandates (audited)

Information on the roles assumed by Board of Directors in other companies can be found in the respective CVs starting on page 163 in the corporate governance report (in this annual report 2025) .

The information takes into account the requirements of the SIX directive on corporate governance and those of the Swiss Code of Obligations (Art. 734e CO).

Partners Group campus | Denver, USA

[30] The group is based on a shareholders' agreement with Alfred Gantner acting as representative of the group. Further details on the group members can be found on the SIX Exchange Regulation webpage: https://www.ser-ag.com/en/resources/notifications-market-participants/significant-shareholders.html#/shareholder-details/TBNCU00018

3.9. Board compensation (audited)

Exhibit 21: Board compensation for the full year 2025 (audited)

In thousands of Swiss francs (gross)	2025					
	Cash	Shares	Other[31]	Subtotal cash and share compensation[32]	MPP[33]	Total[34]
Steffen Meister, Executive Chairman	300	0	52	352	3'556	3'908
Dr. Urban Angehrn, Independent Board Member[35]	163	163	16	341	0	341
Dr. Marcel Erni, Executive Board Member	300	0	51	351	2'369	2'720
Alfred Gantner, Executive Board Member	300	0	52	352	2'369	2'721
Anne Lester, Independent Board Member	200	163	54	417	0	417
Gaëlle Olivier, Independent Board Member	225	226	0	451	0	451
Urs Wietlisbach, Executive Board Member	300	0	51	351	2'369	2'720

Total Board of Directors	**1'963**	**726**	**296**	**2'984**	**10'663**	**13'647**

The year-over-year variance reflects reassignments of committee roles, addition of a new member and a performance-based adjustment of the MPP amounts.

Exhibit 22: Board compensation for the full year 2024 (audited)

In thousands of Swiss francs (gross)	2024					
	Cash	Shares	Other	Subtotal cash and share compensation[36]	MPP[37]	Total[38]
Steffen Meister, Executive Chairman	300	0	50	350	3'636	3'987
Dr. Marcel Erni, Executive Board Member	300	0	52	352	2'421	2'773
Alfred Gantner, Executive Board Member	300	0	53	353	2'421	2'773
Anne Lester, Independent Board Member	200	163	41	403	0	403
Gaëlle Olivier, Independent Board Member	225	225	0	450	0	450
Urs Wietlisbach, Executive Board Member	300	0	53	353	2'421	2'773
Flora Zhao, Independent Board Member	225	225	29	479	0	479
Total Board of Directors	**1'850**	**613**	**277**	**2'740**	**10'898**	**13'638**

[31] Other compensation: includes payments by Partners Group for pension and other benefits. In particular, the following Board members received pension benefits: Dr. Marcel Erni, Alfred Gantner, Steffen Meister, and Urs Wietlisbach. The other compensation to the remaining independent members of the Board exclusively represents social security or source tax-related costs on their board fees. Depending on country of residence, board members can be exempt from social security payments in Switzerland.

[32] At the AGM in May 2025, shareholders approved the maximum total short-term cash compensation budget of CHF 3.50 million for the Board of Directors until the next ordinary annual shareholders' meeting in 2026. The budget includes cash base salary, shares in the value of the respective fees, pensions and other benefits and excludes social security payments. The actual compensation received in 2025 was in aggregate below the approved compensation budget.

[33] The valuation of MPP is outlined in the notes to the consolidated financial statement for the year 2025 (note 2.2.4. of the notes to the consolidated financial statements). The MPP value is inclusive of the additional MPP following the executive compensation review described under section 1.3.3 of the 2024 compensation report. For Steffen Meister, an additional CHF 1.67 million and for Dr Marcel Erni, Alfred Gantner and Urs Wietlisbach all three received an additional CHF 1.11 million of MPP each, on top of the MPP calculated with the same compensation factor used for equity-based LTI of the Executive Team.

[34] Figures above exclude non-financial income (waived fees) for investments made alongside investors in Partners Group's investment programs under the firm's Employee Commitment Program (see section 1.5. of this report). Including these accrued but not yet paid items. The total compensation for the entire Board of Directors amounts to CHF 28'954 thousand, including CHF 15'307 thousand for waived fees. For those who had waived fees, the total technical non-financial income stemming from waived fees received by the Board of Directors are listed below:

- Steffen Meister: CHF 84 thousand
- Dr. Marcel Erni: CHF 3'458 thousand
- Alfred Gantner: CHF 6'055 thousand
- Anne Lester: CHF 1 thousand
- Gaëlle Olivier: CHF 4 thousand
- Urs Wietlisbach: CHF 5'706 thousand

[35] Board member effective from the Annual General Meeting of shareholders on 21 May 2025.

[36] At the AGM in May 2024, shareholders approved the maximum total short-term cash compensation budget of CHF 3.50 million for the Board of Directors until the next ordinary annual shareholders' meeting in 2025.

[37] The valuation of MPP is outlined in the notes to the consolidated financial statement for the year 2024 (note 2.2.4. of the notes to the consolidated financial statements).

[38] Figures above exclude non-financial income (waived fees) for investments made alongside investors in Partners Group's investment programs under the firm's Employee Commitment Program (see section 1.5. of this report). Including these accrued but not yet paid items. The total compensation for the entire Board of Directors amounts to CHF 30'544 thousand, including CHF 16'632 thousand for waived fees. For those who had waived fees, the total technical non-financial income stemming from waived fees received by the Board of Directors are listed below:

- Steffen Meister: CHF 97 thousand
- Dr. Marcel Erni: CHF 4'079 thousand
- Alfred Gantner: CHF6'123 thousand
- Anne Lester: CHF 1 thousand
- Gaëlle Olivier: CHF 10 thousand
- Urs Wietlisbach: CHF 6'316 thousand

Report of the statutory auditor to the General Meeting of Partners Group Holding AG, Baar

Opinion

We have audited the compensation report of Partners Group Holding AG (the Company) for the year ended 31 December 2025. The audit was limited to the information pursuant to article 734a-734f of the Swiss Code of Obligations (CO) contained in sections 2.7. to 2.8. and 2.11. to 2.13. as well as sections 3.5. to 3.9. of the compensation report.

In our opinion, the information pursuant to article 734a-734f CO in the compensation report complies with Swiss law and the Company's articles of incorporation.

Basis for opinion

We conducted our audit in accordance with Swiss law and Swiss Standards on Auditing (SA-CH). Our responsibilities under those provisions and standards are further described in the 'Auditor's responsibilities for the audit of the compensation report' section of our report. We are independent of the Company in accordance with the provisions of Swiss law and the requirements of the Swiss audit profession, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

The Board of Directors is responsible for the other information. The other information comprises the information included in the annual report, but does not include the tables marked 'audited' in the compensation report, the consolidated financial statements, the stand-alone financial statements of the company and our auditor's reports thereon.

Our opinion on the compensation report does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the compensation report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the audited financial information in the compensation report or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Other matter

The compensation report for the year ended 31 December 2024 was audited by another statutory auditor who expressed an unmodified opinion on this compensation report on 7 March 2025.

Board of Directors' responsibilities for the compensation report

The Board of Directors is responsible for the preparation of a compensation report in accordance with the provisions of Swiss law and the Company's articles of incorporation, and for such internal control as the Board

PricewaterhouseCoopers AG, Birchstrasse 160, 8050 Zürich

of Directors determines is necessary to enable the preparation of a compensation report that is free from material misstatement, whether due to fraud or error. It is also charged with structuring the remuneration principles and specifying the individual remuneration components.

Auditor's responsibilities for the audit of the compensation report

Our objectives are to obtain reasonable assurance about whether the information pursuant to article 734a-734f CO is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Swiss law and SA-CH will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this compensation report.

As part of an audit in accordance with Swiss law and SA-CH, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement in the compensation report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made.

We communicate with the Board of Directors or its relevant committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Board of Directors or its relevant committee with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

Corporate **Governance** Report

Partners Group is committed to effective corporate governance for the benefit of its shareholders, clients, employees, and other stakeholders with the core principles of entrepreneurial governance, accountability, and transparency. Partners Group has entities in various jurisdictions regulated by, including but not limited to, the Swiss Financial Market Supervisory Authority, the US Securities and Exchange Commission, the United Kingdom Financial Conduct Authority, the Monetary Authority of Singapore, the Luxembourg Commission de Surveillance du Secteur Financier, and the German Bundesanstalt für Finanzdienstleistungsaufsicht. Partners Group's governance ensures compliance with all rules and regulations issued by the regulators in the jurisdictions in which each of its entities operates. Partners Group writes its Corporate Governance Report according to the 'Directive on Information relating to Corporate Governance' (including its annex) issued by SIX Exchange Regulation AG and also takes into account the 'Swiss Code of Best Practice for Corporate Governance' issued by economiesuisse.

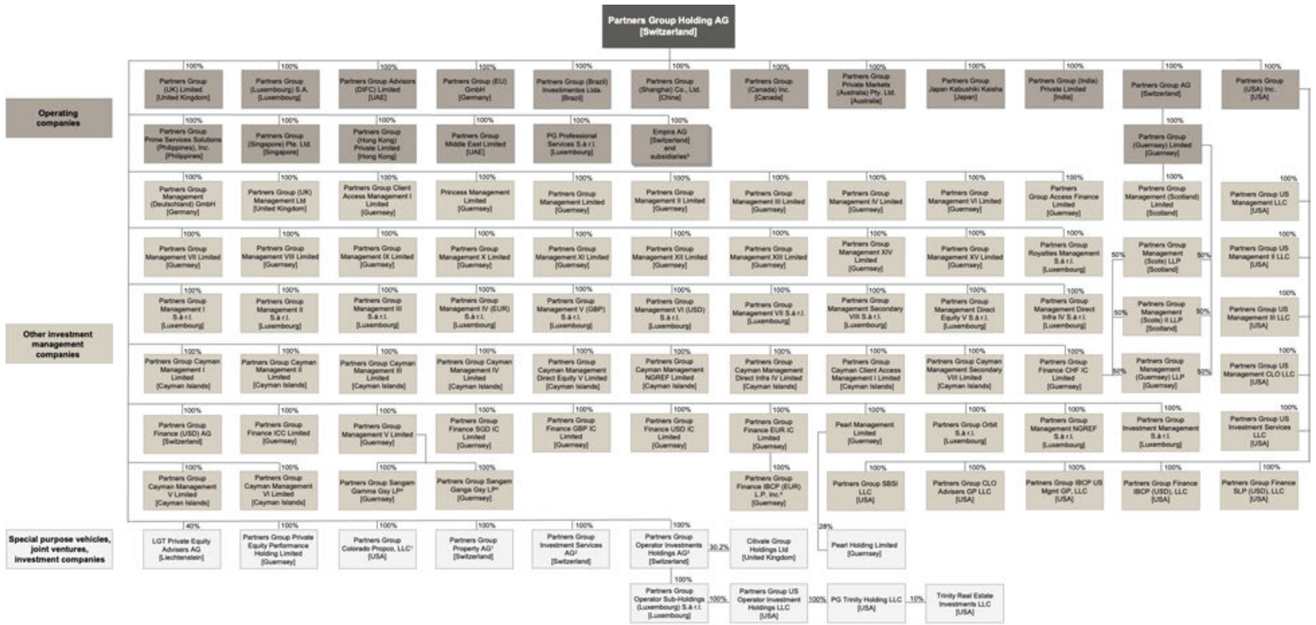

Any references and weblinks to the articles of association of Partners Group Holding AG in this Corporate Governance Report are to the English version of the articles of association. Please note that the official, binding version of the articles of association of Partners Group Holding AG is in German only and the English version is an unofficial translation thereof. The official German version is also available on the website of Partners Group under www.partnersgroup.com/articlesofassociation_DE.

The Corporate Governance Report contains information on the following:

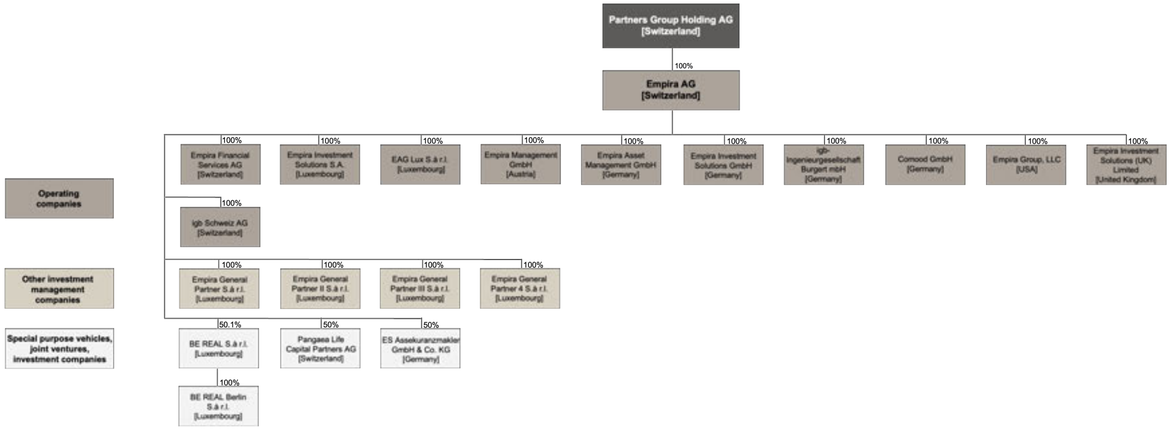

1. Group structure and shareholders
2. Capital structure
3. Board of Directors
4. Executive Team
5. Compensation, shareholdings, and loans
6. Shareholders' participation rights
7. Changes of control and defense measures
8. Auditors
9. Information policy
10. Quiet periods
11. Non-applicability/negative disclosure

In this Corporate Governance Report, references to 'Partners Group,' the 'firm,' the 'company,' the 'entity,' 'we,' 'us,' and 'our' are to Partners Group Holding AG together with its consolidated subsidiaries, unless the context requires otherwise. Furthermore, the board of directors of Partners Group Holding AG shall be referred to as the 'Board' or 'Board of Directors'.

Partners Group legal group structure

Empira Group legal group structure

1 Formed for the purpose of purchasing, construction, maintenance or management of land and property (non-investment related)

2 Formed for the purpose of providing invoice handling, cash management, cost recharging and other related administrative services

3 Formed for the purpose of purchasing and holding predominantly minority investments in real estate operating companies

4 Managed by Partners Group (Guernsey) Limited, its General Partner

Source: Empira, as of 5 December 2025

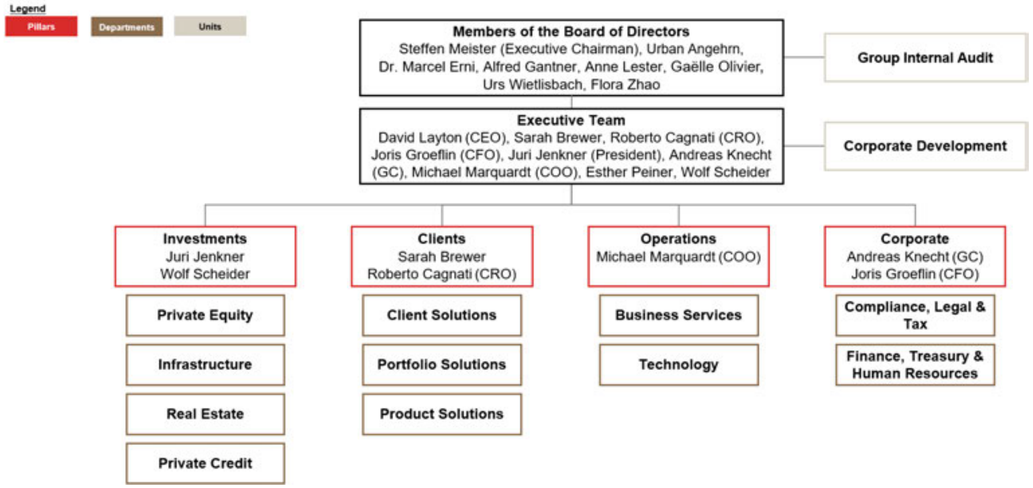

1. Group structure and shareholders

1.1. Group structure

1.1.1. Description

Partners Group operates through majority or wholly owned direct or indirect subsidiaries in Switzerland, the United States, Luxembourg, Germany, the United Kingdom, Guernsey, Singapore, and other jurisdictions. The chart on the previous page provides an overview of the legal group structure as of 31 December 2025, whereas the chart on this page provides an illustration of the operational group structure as of 31 December 2025. For more details on segment reporting please refer to note 1.2. (Segment information) to the consolidated financial statements for the years ended 31 December 2025 and 2024 in the Annual Report 2025.

Operational group structure (as of 31 December 2025)[1]

1.1.2. Listed companies belonging to the Group

Partners Group Holding AG is a stock corporation incorporated under Swiss law with its registered office and headquarters at Unternehmer-Park 3, 6340 Baar-Zug. The shares of Partners Group are listed pursuant to the International Reporting Standard on the SIX Swiss Exchange under the valor number 2460882 and ISIN CH0024608827. The market capitalization of the company as of 31 December 2025 was CHF 26.2 billion. All other group companies are privately held.

1.1.3. Non-listed companies belonging to the Group

For detailed information on the non-listed subsidiaries of Partners Group Holding AG as of 31 December 2025, including names, country of incorporation, registered office, share capital, and ownership interests, please see note 6 (Participations) to the financial statements of Partners Group Holding AG in the Annual Report 2025.

1.2. Significant shareholders

Partners Group Holding AG has the following significant shareholders within the meaning of Art. 120 para. 1 of the Financial Market Infrastructure Act holding over 3% of the shares and voting rights of Partners Group Holding AG as of 31 December 2025.

Significant shareholders (in %; as of 31 December 2025):

Urs Wietlisbach, Schindellegi, Switzerland	5.08%
Dr. Marcel Erni, Zug, Switzerland	5.03%
Alfred Gantner, Meggen, Switzerland, together with family members[2]	5.03%
BlackRock, Inc., New York (NY), USA (Mother Company)	5.02%
UBS Fund Management (Switzerland) AG	5.01%
The Capital Group Companies, Inc.	3.01%

As of 31 December 2025, Partners Group held 916'865 treasury shares, corresponding to 3.43% of the total share capital.

[1] Details on the organizational changes to senior management from 1 January 2025 can be found on page 179.
[2] The group is based on a shareholders' agreement with Alfred Gantner acting as representative of the group. Further details on the group members can be found on the SIX Exchange Regulation webpage: https://www.ser-ag.com/en/resources/notifications-market-participants/significant-shareholders.html#/shareholder-details/TBNCU00018

All disclosure notifications according to Art. 120 et seqq. of the Financial Market Infrastructure Act, pertaining to shareholdings in Partners Group Holding AG, can be found on the SIX Exchange Regulation homepage: https://www.ser-ag.com/en/resources/notifications-market-participants/significant-shareholders.html#/.

1.3. Cross-shareholdings

Partners Group has no cross-shareholdings of 5% or more with another company or group of companies.

2. Capital structure

2.1. Capital

As of 31 December 2025, the issued nominal share capital of Partners Group Holding AG amounts to CHF 267'000, divided into 26'700'000 fully paid-in registered shares with a nominal value of CHF 0.01 each.

2.2. Capital band and conditional share capital

At the annual general meeting of shareholders ('Annual General Meeting') on 22 May 2024, Partners Group's shareholders introduced a capital band (*Kapitalband*). Under the capital band, the Board of Directors of the company is authorized to increase the share capital of the company up to the amount of CHF 293'700 (the upper limit). Capital reductions are not allowed under the capital band.

The Board of Directors is authorized to increase the share capital within the capital band until 22 May 2029 once or several times and in any amounts up to the upper limit of CHF 293'700. The capital increase(s) may be effected by issuing up to 2'670'000 fully paid-in registered shares with a par value of CHF 0.01 per share. If the share capital is increased from conditional capital (see below), the upper limit of the capital band increases accordingly. For further details on the capital band (incl. the terms and conditions of the capital increase and the restriction or withdrawal of pre-emptive subscription rights) please refer to Art. 3b of the articles of association (available at www.partnersgroup.com/articlesofassociation).

As of 31 December 2025, the following conditional share capital (*bedingtes Kapital*) is available to Partners Group's Board of Directors: a maximum amount of CHF 40'050 through the issuance of no more than 4'005'000 registered shares, with restricted transferability, that are to be fully paid in and that have a nominal value of CHF 0.01 each.

The right to subscribe to new shares as part of the conditional share capital increase is granted to members of the Board of Directors and employees of Partners Group through the exercise of option rights (the 'Beneficiaries'). Subscription and preemptive rights of shareholders are excluded for this conditional capital increase in favor of the Beneficiaries. The Board of Directors will determine all details of the terms of issue, such as the amount of issue, date of dividend entitlement, and kind of contribution, and will establish the related equity investment plan. The acquisition of the registered shares by exercising the option rights and the further transfer of the shares are subject to the transfer restrictions set forth in section 2.6 (Limitation on transferability, and nominee registration) below. See also Art. 3a of the articles of association (available at www.partnersgroup.com/articlesofassociation).

2.3. Changes in capital

No changes in share capital have occurred during the last three years.

2.4. Shares and participation certificates

Partners Group has issued 26'700'000 fully paid-in registered shares with a nominal value of CHF 0.01 each in accordance with our articles of association (available at www.partnersgroup.com/articlesofassociation). The shares have been issued in the form of intermediated securities (*Bucheffekten*). Shareholders do not have the right to ask for printing, emission, or delivery of share certificates. Shareholders may, however, request at any time that Partners Group issues an attestation of their stock holding.

All shares have equal rights. With the exception of the treasury shares held by the company, each share carries one vote at shareholders' meetings. Voting rights and certain other non-economic rights attached to the shares, including the right to call and to attend shareholders' meetings, may be exercised only after a shareholder has been registered in the share register of Partners Group as a shareholder with voting rights. Each share is entitled to dividend payments, the amount of which is determined based on the nominal value of each such share. For details regarding shareholders' subscription rights (and exclusion of subscription rights) please refer to Art. 8 of our articles of association (available at www.partnersgroup.com/articlesofassociation).

Partners Group has not issued (non-voting) participation certificates (*Partizipationsscheine*).

2.5. Dividend-right certificates

Partners Group has not issued any dividend-right certificates (*Genussscheine*).

2.6. Limitation on transferability, and nominee registration

Transferees of shares will, upon request, be recorded in the share register as shareholders with voting rights if they declare explicitly that (i) they have purchased these shares in their own name and for their own account, (ii) no agreements exist regarding the redemption or the return of these shares, and (iii) they bear the economic risk associated with the shares. The Board of Directors may grant exceptions to this rule in relation to the trading of shares, for example the recording of persons holding shares in the name of third parties ('Nominees'). Nominees may be entered in the share register with voting rights for a maximum of 5% of the total nominal share capital entered in the commercial register and may be allowed to exceed this limit if they disclose the names, addresses and shareholdings of the persons on account of whom they are holding 0.5% or more of the share capital entered in the commercial register. The Board of Directors concludes agreements with such Nominees in relation to disclosure requirements, representation of shares, and exercise of voting rights.

In addition, the Board of Directors may decline a request for registration as shareholder with voting rights in the share register or the establishment of a usufruct if the transferee would have at its disposal more than 10% of the total nominal share capital of Partners Group Holding AG. If shares have been acquired due to inheritance or matrimonial property law, the transferee may not be declined.

If the registration of a transferee has been made based on false representations of the transferee, it may be deleted from the share register once the transferee has been provided with the opportunity to be heard.

Amendments to the applicable transfer restrictions regime require shareholder approval with a quorum of at least two-thirds of the represented votes and the absolute majority of the represented nominal share capital.

During the financial year 2025, no exceptions to the limitations on transferability and nominee registration were granted.

For more details, please see Art. 6 of our articles of association (available at www.partnersgroup.com/articlesofassociation).

2.7. Bonds, convertible bonds, and options

A summary of all bonds outstanding as of 31 December 2025 is listed below.

In June 2019, Partners Group issued a corporate bond, raising CHF 500 million through a fixed-rate senior unsecured CHF-denominated issue. The bond was issued with an eight-year tenure, a coupon of 0.40%, and mature on 21 June 2027 (ISIN: CH0419041287).

In September 2023, Partners Group issued two corporate bonds. The firm raised CHF 150 million through a fixed-rate senior unsecured CHF-denominated bond with a five-year tenure, a coupon of 2.25%, and maturing on 26 September 2028 (ISIN: CH1293714346). Furthermore, the firm raised CHF 180 million through a fixed-rate senior unsecured CHF-denominated bond with a ten-year tenure, a coupon of 2.40%, and maturing on 26 September 2033 (ISIN: CH1293714353).

In June 2024, Partners Group issued two corporate bonds. The firm raised CHF 200 million through a fixed-rate senior unsecured bond (Tranche A) with a six-year tenure, a coupon of 1.9%, and maturing on 7 June 2030 (ISIN: CH1346742930). Additionally, the firm raised CHF 300 million through another fixed-rate senior unsecured bond (Tranche B) with a ten-year tenure, a coupon of 2.15%, and maturing on 7 June 2034 (ISIN: CH1346742948).

The net proceeds from these bonds will be used for general corporate purposes. The bonds are issued in denominations of CHF 5,000 each and are classified as senior unsecured debt without the right to request physical delivery or conversion into certificated securities. Please see note 3.2.2. of the consolidated financial statements in the Annual Report 2025 for comprehensive information on the bonds issued by the firm.

Since 30 June 2000, Partners Group has established regular share and option programs that entitle management personnel and a large number of employees to purchase and/or hold shares in the entity. The options can be settled either by the issuance of shares out of conditional share capital or by the delivery of existing shares (treasury shares). Please see note 2.2. of the consolidated financial statements in the Annual Report 2025 for comprehensive information on the share and option program of the firm.

Partners Group currently has no convertible bonds outstanding.

3. Board of Directors

Partners Group's Board Governance

Partners Group's Board of Directors ('the Board') is entrusted with the ultimate responsibility for Partners Group's strategy and development. The Board applies the same 'entrepreneurial governance' approach to its own firm as Partners Group applies to its portfolio companies.

Partners Group defines the 'entrepreneurial governance' approach by the concept that governance must be based on strategy and the objective of creating and sustaining a winning

business model. Boards and management teams must be set up from the outset to achieve this strategy and vision. The ability of each Board member, individually and as part of a combined team, to actively contribute to defining and driving forward strategy and achieving business objectives is a critically defining element of 'entrepreneurial governance'.

As of 31 December 2025, the Board consists of eight members: four executive Board members — the Executive Chairman and the three founders — and four independent Board members. All members were elected at the Annual General Meeting 2025 for a one-year tenure with the possibility of re-election. None of the Board members have line management functions. Through the Board's committees, Board members contribute to investment- as well as client-related activities and operationally focused initiatives. The Executive Chairman also oversees the Executive Team in leading the operations and in executing the strategy.

The Executive Chairman typically invests 3-5 days a week towards his mandate. The founders dedicate approximately 2-3 days a week to Partners Group's Board activities. Independent Board members devote 1-2 days a week to their Board mandates. The substantial time commitment of Partners Group's Board is the foundation of a successful governance model geared towards enabling proactive value creation.

3.1. Members of the Board of Directors

All members of the Board of Directors of Partners Group Holding AG are also members of the Board of Directors of Partners Group AG, a 100% subsidiary of Partners Group Holding AG. Select members of the Board of Directors of Partners Group Holding AG are also members of the Board of Directors of other operating entities of the group.

The following provides information on the independence criteria for members of the Board of Directors and on the professional background and education of each such member, including other significant activities in governing and supervisory bodies of important financial organizations, institutions, and foundations under private and public law, permanent management and consultancy functions for important Swiss and foreign interest groups, official functions, and political posts.

Independence statement for members of the Board

—

Best practice in corporate governance calls for the independence of selected Board members as an important element of its quality and integrity. However, codes of best practice, regulators, and proxy advisors tend to use different criteria and no globally accepted standard has yet emerged. Having reviewed a series of possible criteria from different sources, ranging from financial market authorities, various stock exchanges and codes of best practice to foundations and independent asset managers with a focus on sustainable corporate development, Partners Group recognizes differences in the definition of Board member independence. Partners Group follows the general corporate governance principle of 'comply or explain' and therefore applies the following criteria to evaluate the independence of its Board members.

First and foremost, when searching for an external independent member of the Board, Partners Group looks for accomplished, distinctive, and competent personalities who are respected based on their achievements. Moreover, they are selected based on their ability to contribute relevant professional skills, commit substantial capacity and add to the diversity of the Board in terms of background and unbiased perspectives. In our view, these selection criteria represent the essence of true independence.

In addition, Partners Group applies several formal criteria for Board member independence. Independent members of the Board may not:

- have a line management function (i.e. positions with substantial decision-making authority) for Partners Group, or any of its affiliates, currently or in the three years prior to their appointment;
- be employed or otherwise affiliated with our statutory auditors, currently or in the three years prior to their appointment;
- once appointed to the Board, have an overall tenure of more than ten years.

Partners Group also applies the following additional criteria to independent Board members, whereby the materiality of such criteria is evaluated on a case-by-case basis:

- limited financial dependence on Partners Group in terms of employment, income, and shareholding relative to their individual overall situation; and
- no material direct or indirect business relationship with Partners Group or any of its affiliates (except as an investor in Partners Group products).

As a result of this evaluation process (which is reviewed annually) we consider the following current Board members as independent: Dr. Urban Angehrn, Anne Lester, Gaëlle Olivier (Lead Independent Director), and Flora Zhao. The total number of independent Board members amounted to four as of 31 December 2025.

None of the independent Board members, nor any of their close family members, have ever been members of the senior executive management of Partners Group, nor of any of its subsidiaries, nor do they have any significant business connections with either Partners Group or one of its subsidiaries. None of the

independent Board members exercise any official functions or hold a political post, nor do they have any permanent management/ consultancy functions for significant domestic and foreign interest groups.

Lead Independent Director

Gaëlle Olivier, as Chairwoman of the Risk & Audit Committee assumed the Lead Independent Director role since the Annual General Meeting 2025 after having held the position ad-interim in the previous year.

Organizational changes to the Board of Directors

On 27 February 2025, Partners Group announced the nomination of Dr. Urban Angehrn for election as a new independent member of its Board of Directors of Partners Group Holding AG. The nomination was proposed and Dr. Urban Angehrn elected at the Annual General Meeting of shareholders on 21 May 2025. Through his Board committee assignments, Dr.Angehrn contributes to Partners Group's strategic Board-level initiatives with a focus on insurance-related growth initiatives, portfolio and risk management, digitization and corporate operations. For further details on Dr. Urban Angehrn (professional background, education, and mandates), please refer to page 162.

She is the Chairwoman of the Nomination & Compensation Committee and a member of the Investment Oversight Committee. Flora Zhao was also a member of the Risk & Audit Committee until May 2025. She has over 30 years of executive experience with global Fortune 500 companies across the energy infrastructure value chain in Asia. Previously, she was President of Gas Asia at BP where she was responsible for the gas and liquefied natural gas business in the eastern hemisphere from 2010 to 2018. Prior to that, Flora was a Managing Director at AES Corporation, a NYSE-listed global power company comprising power generation, distribution, and alternative energy businesses. She began her career at the Construction Bank of China. Flora Zhao holds a Bachelor's degree in Engineering from Zhejiang University, China and a Master's degree in Construction Management from the University of Maryland, College Park, USA. She also completed the Senior Executive Program at the University of Virginia, Darden School of Business, USA.

- **External mandates (audited):** Temasek International Pte Ltd (Senior Advisor), Pavilion Energy Ltd (Director)[12]
- **Partners Group-related mandates (incl. portfolio companies):** Partners Group's Singapore entity (Member of Board), Partners Group's Shanghai entity (Supervisor), *Frontier (Chairwoman), Digital Halo (Member of Board)*

New mandates

[9] Until March 2025.
[10] Until September 2025.
[11] Until May 2025.
[12] Until March 2025.

3.2. Other activities and vested interests

Please see note 3.1 above.

3.3. Number of permitted activities

In accordance with Art. 626 para. 2 item 1 of the Swiss Code of Obligations and Art. 25 of the articles of association (available at www.partnersgroup.com/articlesofassociation), each Board member may assume a maximum of nine additional mandates in companies that pursue an economic purpose, which includes a maximum of three additional mandates in listed companies. The following mandates are exempt from this limitation: mandates in legal entities controlled by Partners Group Holding AG; mandates that are carried out on behalf of, or as directed by, the company or any of its controlled companies in legal entities that are not part of the group, whereby each Board member may hold a maximum of ten such mandates; mandates in associations, non-profit organizations, foundations, trusts, and employee pension foundations, whereby each Board member may hold a maximum of ten such mandates; and mandates in legal entities serving the sole purpose of managing their own private assets, whereby each Board member may hold a maximum of ten such mandates.

3.4. Elections and terms of office, succession planning, qualifications, and diversity

Elections and terms of office

The Board of Directors must consist of at least three members. All members, including the Chairman of the Board of Directors, are to be elected individually at the shareholders' meeting, for a term of one year in accordance with the Swiss Code of Obligations. Re-election is possible. The tenure for independent Board members is limited to a maximum of ten years.

There are no rules in the articles of association (available at www.partnersgroup.com/articlesofassociation) that differ from the statutory legal provisions with regard to the appointment of the Chairman, the members of the Nomination & Compensation Committee, and the independent proxy.

Succession planning

Succession planning is of significant importance to the Board of Directors. The Nomination & Compensation Committee supports the Chairman of the Board in the review and assessment of newly appointed directors. The Nomination & Compensation Committee together with the Chairman of the Board will oversee the development of a diverse succession pipeline for the Board. They regularly analyze its composition to confirm that its members' qualifications, skills, and experience correspond to the Board's needs and requirements. The Board of Directors initiates the evaluation of potential new Board members in a timely manner with the aim of continuing to ensure its members have the desired qualifications and experience, as well as to further diversify and renew its composition.

The Board of Directors nominates candidates for Board membership for election at the Annual General Meeting, ensuring that the Board retains an adequate size and well-balanced composition. All Board appointments and succession plans are based on merit and objective criteria, in the context of the skills, experience, independence, and knowledge which the Board requires to be effective.

Partners Group campus | Baar-Zug, Switzerland

Qualifications

The Board of Directors needs to secure the necessary qualifications, skills, and diversity to perform all required responsibilities. The Board must assemble among its members the balance of managerial expertise and knowledge from different fields required for the fulfillment of its oversight responsibility as well as for sound, independent decision-making in line with the needs of the business. The Board defines the

selection criteria against which candidates for Board membership are assessed. The requirements that potential Board members have to meet in terms of knowledge in various key areas and the industry are constantly increasing. The Board design leans towards the strategic value drivers and needs of the organization.

Membership on the Board of Directors requires skills or knowledge of matters such as private markets know-how, investment management, risk management, and/or operational experience (through line or general management roles that include profit or loss responsibility) as well as leadership and decision-making experience in large, complex institutions or having had broad international exposure.

Diversity of perspectives and experience

A central pillar of our diversity policy is our conviction that diversity of perspectives and experience will ultimately lead to better results by the Board of Directors. As we have spelled out in our diversity policy, Partners Group recognizes and embraces the benefits of having a Board that is adequately staffed with diverse and accretive skills to drive strategy and support value creation initiatives. A truly diverse Board will include and make good use of differences in the technical know-how, regional and industry experience, social and ethnic background, race, gender, as well as other distinctions between

Partners Group campus | Baar-Zug, Switzerland

directors, such as cognitive and personal strengths (the 'PG Board Diversity').

Partners Group's Board Diversity Policy is available to download on the website at www.partnersgroup.com/policiesanddirectives.

The Nomination & Compensation Committee will discuss and agree annually on measurable objectives for achieving the PG Board Diversity mentioned above and recommend them to the Board for adoption. At any given time, the Board may seek to improve one or more aspects of the objectives of the PG Board Diversity.

Based on the PG Board Diversity objectives, the Board has established a target of ensuring that the proportion of newly elected independent directors is composed of at least 50% of under-represented groups on a three-year rolling-basis. While this target is maintained going forward, the Board recognizes that periods of change in the Board composition may result in temporary periods when this balance is not achieved.

3.5. Internal organizational structure

The Board of Directors has adopted written internal organizational regulations for the management of the company and of its subsidiaries pursuant to Art. 716b of the Swiss Code of Obligations, the rules of the SIX Exchange Regulation, the company's articles of association (available at www.partnersgroup.com/articlesofassociation), and the Swiss Federal Act on Collective Investment Schemes.

The Board of Directors has ultimate responsibility for the strategy and development of Partners Group. Please see page 163 and 164 for the Board composition as well as section 3.1. (Members of the Board of Directors) for information on the allocation of tasks within the Board of Directors.

The Board of Directors meets as often as business requires, but no less than four times a year as set forth in the company's Rules of Organization and of Operations (the 'ROO'; *Organisationsreglement*); in 2025, five formal meetings were held (2024: five), which lasted approximately four and a half hours on average, except for one meeting that lasted about 20 minutes. The meetings of the Board of Directors were also attended by relevant participants who hold key functions or responsibilities within the company, such as members of the Executive Team. The formal meetings were complemented by regular informal interactions with management and employees across the firm as well as some matters decided via circular resolutions.

The Board of Directors can deliberate only when the majority of its members are present.

Resolutions are adopted with the majority of the votes of the members present. In the event of a tie, the Chairman casts the deciding vote. Resolutions by circular letter require the absolute majority of all members of the Board of Directors unless higher quorums are provided by applicable provisions.

The Board of Directors has established further committees to promulgate and monitor related directives and policies:

- Risk & Audit Committee;
- Nomination & Compensation Committee;
- Client Oversight Committee;
- Operations Oversight Committee;
- Investment Oversight Committee.

Each committee advises the Board of Directors on the matters specified below, often with the assistance of the Executive Team and others involved in the management of Partners Group. The members and Chairs of these committees are determined by the Board of Directors, apart from the members of the Nomination & Compensation Committee, who are elected individually at the Annual General Meeting for a term of one year in accordance with the Swiss Code of Obligations. Please see the table at the end of this section for the composition of these committees.

Meetings can be called by each committee member or by the Chair. In order for resolutions or motions to be validly taken or made, the majority of the committee members must attend the meeting (in person or, if need be, via phone/video conference). All resolutions or motions must be passed unanimously, otherwise the business activities will be re-assigned to the Board. Quorums and motions may also be passed by circular resolutions.

Risk & Audit Committee ('RAC')

The RAC is in charge of ensuring the diligent performance of internal and external auditing as well as financial controlling, in addition to performing other tasks related to risk management such as (i) finance risk oversight, (ii) operational risk oversight, and (iii) regulatory, legal and conduct risk oversight. In particular, the RAC (i) approves internal audit's organization and tasks, (ii) orders the performance of specific audits, (iii) oversees the quality of the internal and external auditing, (iv) ensures the execution of the external audit, (v) makes recommendations to the Board of Directors regarding the nomination of external auditors to be appointed by the shareholders, (vi) approves the Company's half-year financial statements, the Group's consolidated half-year financial statements and the corresponding financial results releases, (vii) monitors the financial review processes, and (viii) ensures the review of the management and internal control processes. Furthermore, the RAC oversees the company's information security strategy. At least once a year, the RAC is informed by senior management on information security and cyber security topics within and outside the firm. The role of the RAC is primarily supervisory and its decision-making authority is limited to those areas which are ancillary to its supervisory role (see also section 3.7.1.2). Subject to limitations provided under the law and the articles of association(available at www.partnersgroup.com/articlesofassociation), the RAC is presided over by an independent Board member.

Until 21 May 2025, the members of the committee were Gaëlle Olivier (Chairwoman), Anne Lester, and Flora Zhao. As of the Annual General Meeting in 2025, the members of the RAC are Gaëlle Olivier (Chairwoman), Dr. Urban Angehrn, and Anne Lester. The RAC held five formal meetings in 2025 (2024: five), which lasted approximately three to three and a half hours on average, except for one meeting that lasted about 20 minutes. The firm's external auditors attended all five meetings. The meetings of the RAC may also be attended by other (non-voting) participants, such as other members of the Board of Directors or relevant non-members of the Board of Directors who hold key functions or responsibilities within the firm. The formal meetings were complemented by regular and considerable informal interactions with management and employees across the firm on regulatory, legal, conduct, and audit-related matters or projects.

Nomination & Compensation Committee ('NCC')

The NCC advises and supports the Board of Directors in particular with regard to the determination of the compensation system and principles. The NCC also supports the Chairman with regard to the nomination of members of the Board of Directors and the promotion of executive officers of the company or its controlled companies, as applicable. It assesses the compensation proposals for the company or its controlled companies with regard to compliance with the determined principles. It also prepares the Compensation Report (to be approved by the Board of Directors) and the motions on the Board of Directors' and executive management's compensation to be

Partners Group campus | Denver, USA

submitted to the shareholders' meeting. The Board of Directors may assign further tasks, responsibilities, and powers in compensation and nomination matters to the NCC. Subject to limitations provided under the law and the articles of association (available at www.partnersgroup.com/articlesofassociation), the NCC is presided over by an independent Board member.

The members of the NCC are Flora Zhao (Chairwoman), Anne Lester, and Gaëlle Olivier. The NCC held two formal meetings in 2025 (2024: two), which lasted approximately three to three and a half hours each, to discuss the annual compensation for the Board of Directors and the Executive Team as well as to confirm the overall compensation policy. The meetings of the NCC were also attended by other (non-voting) participants, such as other members of the Board of Directors and relevant non-members of the Board of Directors who hold key functions or responsibilities within the firm. The formal meetings were complemented by regular and considerable informal interactions with management and employees across the firm on promotion considerations and leadership development projects.

Client Oversight Committee ('COC')

The COC advises and supports the Board and the Executive Team in major client-related initiatives as well as the development of new client segments and regions of the Group. The COC coordinates global marketing and (key) client activities, drives strategic fundraising initiatives, and identifies new key product and fundraising themes. In addition, it oversees the coverage of the firm's key client prospects, the global consultant network, the firm's global public relations strategy as well as its advisory network.

The members of the COC are Urs Wietlisbach (Chairman), Anne Lester, and Steffen Meister. Furthermore, Stefan Näf, Partners Group Chairman of Clients, is a non-voting member of the committee. The COC held five formal meetings in 2025 (2024: seven), which lasted approximately three hours on average. The meetings of the COC were also attended by other (non-voting) participants, such as other members of the Board of Directors and relevant non-members of the Board of Directors who hold key functions or responsibilities within the firm. The formal meetings were complemented by regular and considerable informal interactions with management and employees across the firm on key client-related matters or projects.

Operations Oversight Committee ('OOC')

The OOC advises and supports the Board of Directors and the Executive Team in major projects and operationally focused topics. It conducts strategic assessments (including design, setup, and potential pitfalls of key projects) and reviews and supports execution by responsible bodies within agreed parameters.

Until 21 May 2025, the members of the OOC were Gaëlle Olivier (Chairwoman) and Steffen Meister. As of the Annual General Meeting in 2025, the members of the OOC are Gaëlle Olivier (Chairwoman), Dr. Urban Angehrn, and Steffen Meister (Executive Chairman). The OOC held four formal meetings in 2025 (2024: four), which lasted approximately one and a half to two hours on average. The chair may invite additional participants to its meetings, who do not need to be members of the Board of Directors. In addition to the formal meetings, the OCC engaged in considerable additional informal meetings with management and employees on operational and project-related matters.

Investment Oversight Committee ('IOC')

The IOC provides advice and support to the Board of Directors, the management, and the Investment Committees on the assessment of quality and consistency of investment decision-making processes, the investment performance achieved, the realization of the projected appreciation on individual investments, and the investment risks incurred. It defines global quality standards and measurement methods and proposes any measures that may be required. Furthermore, it oversees the implementation of environmental, social, and governance ('ESG') initiatives and tracking of ESG performance for our direct lead assets. Additionally, the two IOC members, Dr. Marcel Erni and Alfred Gantner, are also voting members in the Global Investment Committee ('GIC') of Partners Group AG. These two IOC voting members have the right to cast a total of one vote on a particular transaction in the GIC. Furthermore, the representatives have the right to veto an investment decision taken by the GIC.

The members of the IOC are Steffen Meister (Executive Chairman), Dr. Marcel Erni, Alfred Gantner, and Flora Zhao. Furthermore, Dr. Stephan Schäli, Partners Group's Chief Investment Officer ('CIO'), is a non-voting member of the committee. The IOC held four meetings in 2025 (2024: four), which lasted approximately three hours each. The meetings of the IOC were also attended by relevant non-members of the Board of Directors who hold key functions or responsibilities within the firm. The formal meetings were complemented by regular and considerable informal interactions with management and employees across the firm on key investment-related matters or projects.

In addition to the formal committee meetings of Board of Directors, executive Board members and the Vice Chairman of the Board[13] hold regular informal interactions with select Executive Team members through the Corporate Development Committee ('CDC').

[13] On the condition that a Vice Chairman has been appointed for the current period.

The CDC's role as a formal Board Committee was discontinued in 2022 and now serves as a forum through which the Executive Chairman and the executive Board members interact with select Executive Team members with the purpose of providing advice and mentoring to the Executive Team on topics of strategic importance to the firm. Other Board and Executive Team members can attend in accordance with the nature of the topics at hand and the meetings occur on an ad hoc basis, typically monthly, and last on average two hours.

Formal meeting attendance

The members of the Board are encouraged to attend all meetings of the Board and the committees on which they serve. The formal meetings are also complemented by regular informal interactions with management and employees across the firm and circular resolutions. In 2025, aggregate Board meeting attendance levels amounted to 90% and all Board members attended 75% or more of the Board meetings, a threshold viewed as best practice by shareholders and proxy advisors.

Self-assessment

The Board of Directors conducts regular feedback sessions in its official Board meetings. The Board of Directors conducts an annual self-evaluation at the end of each year. In this, the Board self-assesses its efficiency and effectiveness with regard to its statutory duties and supervisory tasks. It also considers the collaboration between Board members in strategic, corporate development-related areas as well as the effectiveness of its interaction across sub-committees (IOC, COC, and OOC). The Board further self-assesses its interaction with the Executive Team on the firm's strategic pillars and identifies development areas for the upcoming year.

3.6. Definition of areas of responsibility

The Board of Directors has delegated the day-to-day management of Partners Group to the Executive Team unless provided otherwise by law, the articles of association (available at www.partnersgroup.com/articlesofassociation) or as described below. The Board of Directors has the right to issue specific rules for this purpose and to form the respective committees to determine the principles of the business policy, the risk policy of the various business sectors, and the authority and responsibilities of each of the company's bodies. The positions of Chairman of the Board of Directors and of the Chief Executive Officer are held by separate

[14] Dr. Urban Angehrn joined the Board following the Annual General Meeting in May 2025 and serves as a member of the RAC and OOC since then.
[15] Flora Zhao was replaced by Dr. Urban Angehrn as a member of the RAC. She joined the two RAC meetings in February and May 2025 before the Annual General Meeting.

people, thus ensuring a system of internal checks and balances and an independence of the Board of Directors from the day-to-day management of the company.

Apart from the inalienable and non-transferable functions mentioned in the law (Art. 716a of the Swiss Code of Obligations) and in the articles of association (available at www.partnersgroup.com/articlesofassociation), the Board of Directors has a number of additional duties and powers, namely resolutions regarding essential features of the group's organization, all transactions in connection with real estate (outside of investment activities), resolutions regarding the acceptance and renewal of loans/credit facilities and issuance of guarantees and sureties (subject to certain thresholds), resolutions regarding the initiation of and withdrawal from legal proceedings and settlement agreements (subject to certain thresholds), the establishment of employment conditions and resolutions on employment and termination (subject to certain thresholds), all activities pertaining to the share register, acceptance and handling of audit reports (internal audit and external audit) and budgets, and the periodic review of the internal organization. Responsibilities delegated to the Executive Team of Partners Group are set forth in the company's ROO.

Based on the ROO, the delegated responsibilities to the Executive Team are generally the following:

1. Direct management as well as continual monitoring of business activities within the scope of, and in line with, the regulations, guidelines, competencies, individual resolutions, and restrictions imposed by the Board;
2. Conclusion of transactions subject to regulations, guidelines, competencies, individual resolutions, and restrictions imposed by the Board of Directors;
3. Incorporating new Group companies and establishing branch offices;
4. Developing and issuing directives, policies and job descriptions for employees to the extent that such tasks are not reserved for the Board of Directors;
5. Strategic human resources and employment-related matters;
6. Initiating legal actions and concluding settlements up to CHF 1 million p.a. (CHF 500'000 per individual case);
7. Organization, management, and implementation of accounting, financial planning, and reporting, including preparation of the company's management report and annual financial statements for the attention of the Board of Directors;
8. Preparation of the financial plan (budget) for approval by the Board;
9. Execution of the Board of Directors' resolutions;
10. Organizing, assisting, and coordinating the employment benefit plans;
11. Organizing insurance management;
12. Organizing risk management as well as implementing and monitoring the internal control system and compliance;
13. Informing the senior management of relevant resolutions made by the Board of Directors and the Executive Team;
14. Proposals for all transactions that have to be submitted to the Board of Directors;
15. Exercising the company's shareholder rights as a shareholder within group companies, including the entitlement to vote on the composition of the members of management, accepting the annual financial statements, and matters related to this.

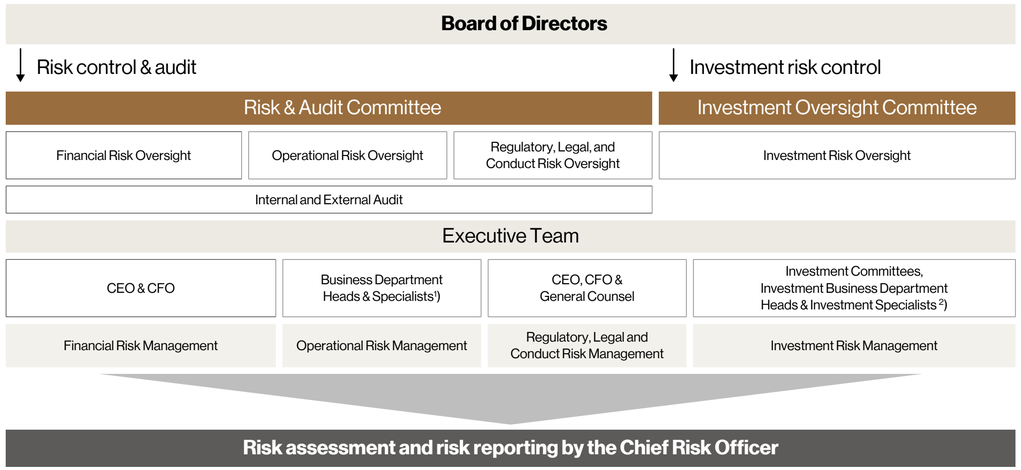

3.7. Information and control instruments vis-à-vis the senior management

The Board of Directors is kept informed of the activities of the Executive Team through a number of information and control instruments. The Executive Team and respective operating officers with line management functions are in a regular dialogue with the Chairman of the Board regarding the general course of business, the financial situation of the company, and any developments or events of importance to the company and its business. In the event of extraordinary incidents or developments, the Executive Team notifies the Chairman of the Board without delay.

Partners Group campus | Baar-Zug, Switzerland

Partners Group's risk governance structure[16]

The Executive Team submits decisions beyond the scope of ordinary management or decisions that carry major implications to the relevant Board Committee or Board of Directors, including (but not limited to) decisions specifically reserved for the Chairman, the relevant Board Committee, or Board of Directors.

3.7.1. Risk governance

Partners Group identifies, assesses, manages, and monitors risks on an aggregate basis for relevant business activities across the organization. Partners Group has put in place a risk governance structure comprising the following elements and related responsibilities:

3.7.1.1. Board

The Board of Directors of Partners Group Holding AG is responsible for stipulating risk management and governance principles in line with its obligations under applicable laws, as further defined in the ROOs.

3.7.1.2. Risk & Audit Committee

The RAC advises and supports the Board in the area of audit and risk control, as described in further detail in section 3.5 (Internal organizational structure) above. The RAC has the responsibility to review the risk profile of Partners Group and to ensure that appropriate processes regarding ongoing risk management and audit are in place. It advises and evaluates the effectiveness of group-wide financial reporting, group-wide internal control systems, and general risk monitoring. It maintains continuous independent communication with the external auditors.

3.7.1.3. Investment Oversight Committee

The IOC advises and supports the Board on investment risk management and the oversight of investment and value creation processes (including efforts to prevent severe setbacks to Partners Group's track record and reputation, as further defined in the ROOs). The IOC's responsibilities are described in further detail in section 3.5 (Internal organizational structure) above.

3.7.1.4. Crisis Response Team

The Crisis Response Team ('CRT') is a governing body of the company responsible for ensuring appropriate organization, communication, and decision-making during a crisis. It consists of the Chairman, the Chairman of the RAC, two other members of the Board (as determined by the Board), and the members of the Executive Team. Upon the request of the Chairperson, additional persons with expertise and experience in relation to the specific crisis can be nominated as ad hoc members with voting right (solely Board members) and/or as non-voting advisors to the CRT.

3.7.1.5. Group Internal Audit

Group Internal Audit ('GIA') provides independent, risk-based and objective assurance, advice and insight, and contributes to the continuous improvement of the organization. GIA is independent and reports to the Chairman of the RAC. GIA works closely with the Chairman of the RAC, the Chairman of the Board, and the Executive Team. The purpose, scope, authorities, responsibilities, tasks, and priorities of GIA are regularly discussed with and approved by the RAC, and the scope covers the entire organization.

3.7.1.6. Executive Team

The ongoing management of financial, operational, regulatory, legal, and conduct risk as well as investment risk management of Partners Group's activities is delegated to the Executive Team of Partners Group Holding ('Executive Team').

The Executive Team reports periodically on the effectiveness of Partners Group's risk management to the RAC.

3.7.1.7. Investment Committees

The ongoing risk management of Partners Group's investment activities is delegated by the Executive Team to the Investment Committees as further defined in the Investment Policy Private Markets.

[16] 1) Specialists include the Chief Technology Officer, Chief Information Security Officer, etc. 2) Investment Specialists include the Chief Investment Officer, Chairman Global Investment Committee, etc.

3.7.1.8. Chief Risk Officer

To support the risk governance bodies set out above, the Executive Team appoints the Chief Risk Officer ('CRO'). The CRO's responsibilities are as follows:

- Collecting, consolidating, and assessing risk information from within the organization to enable the Executive Team to steer the company to operate within the predefined risk tolerances and the RAC to review Partners Group's risk profile;
- Overseeing and steering the execution of Partners Group's risk management process by monitoring Partners Group's risk profile, defining, and procuring the implementation of adequate systems and methods for risk supervision, and adjusting such systems and methods to new business lines and products; and
- Supervising and reporting on the adequacy and effectiveness of Partners Group's risk management setup.

The CRO regularly reports to the Executive Team and the RAC. The CRO has a direct reporting line to the CEO. The CRO has unrestricted access to information, locations, and documents within the scope of its function. The CRO is supported in his duties by the Deputy CRO. The Deputy CRO reports to the Executive Team and the RAC on an as-needed basis.

3.8. Risk culture

Partners Group has a strong risk culture in line with the purpose and values of the firm as articulated in the Partners Group Charter. At the core of Partners Group's risk culture are the following elements:

- **Good judgment:** Partners Group encourages staff to think about the wider implications and impact when making decisions ('connect the dots').
- **Compliance culture:** Partners Group fosters a culture of compliance to protect its reputation as a responsible investment manager.
- **Speaking up:** Partners Group fosters a culture where all staff feel comfortable to pro-actively speak up about concerns, even if they relate to their own mistakes, and highlight things that are believed to be wrong, as further set out in the Speak-up Directive.
- **Ownership and accountability:** Partners Group expects its staff to take on ownership ('own your business') of their business and related risks. Individual ownership and accountability are reinforced through the Three Lines of Defense model.
- **Anticipations:** Partners Group expects all staff to keep abreast of all possible changes and emerging risks in their respective areas of ownership and evolve processes and controls accordingly.

3.9. Risk management approach

Partners Group's risk management approach consists of three key elements: a robust risk governance framework, a strong and broadly embedded risk culture, and a comprehensive risk management process based on a risk taxonomy tailored to Partners Group's business and risk profile.

3.9.1. Enterprise Risk Taxonomy

In order to ensure adequate coverage of relevant risks, Partners Group operates an Enterprise Risk Taxonomy ('ERT') which represents a hierarchical categorization of relevant risks.

The ERT is organized along the four following Risk Themes:

- **Finance risks:** risks related to our balance sheet and income statement (e.g. profitability and liquidity).
- **Operational risks:** risks related to internal processes and operations (e.g. currency hedging, models, service providers, international marketing, and technology).
- **Regulatory, legal, and conduct risks:** risks related to non-adherence to regulations, laws or internal policies (e.g. market abuse, data privacy, and money laundering).
- **Investment risks:** risks related to our investment process and platform (e.g. investment due diligence, ESG, portfolio management, and semi-liquid products).

Enterprise Risk Taxonomy

Partners Group campus | Denver, USA

Partners Group Risk Framework

In the ERT, as illustrated on the right-hand side of the page, overarching Risk Themes are decomposed into more specific Risk Categories and Risk Areas which facilitate risk management at a more granular level. The lowest level of the ERT relates to risks and related controls as covered by Partners Group's Operational and Financial Internal Control System, which is described in the Operational Internal Control System Directive.

Partners Group's ERT ensures alignment between the Board, the RAC, the Executive Team, and individual Risk Category, Risk Area and Risk/Control Owners, clear assignment of risk ownership and validation functions as well as consistency in risk categorization across the firm.

Under the lead of the CRO, the ERT is reviewed annually to ensure that it remains up to date.

A key aspect of the ERT is the definition of Risk Claims articulating the level and type of risks Partners Group is willing to take in order to achieve its strategic objectives. Risk Claims shape the requisite controls and dictate risk behaviors. Risk Claims for identified Risk Themes are:

- **Finance risks:** we support the development of our platform and strive for stable revenues while keeping a strong but light balance sheet able to sustain difficult market environments.
- **Operational risks:** we achieve operational excellence and therefore have low tolerance for costly or otherwise consequential operational errors and incidents.
- **Regulatory, legal, and conduct risks:** we protect our reputation as a responsible investment manager and therefore have zero tolerance for regulatory and legal fines, misconduct, and resulting financial losses.
- **Investment risks:** we are a recognized industry leader in investment management and target systemic outperformance for our clients while keeping low tolerance for overall negative developments in single investment programs.

A second key aspect of the ERT is the clear definition of individual ownership and accountability.

- Each Risk Category, Risk Area, and individual risk is assigned to an individual owner who is assigned a pre-defined set of duties and responsibilities (see section 3.9.2).
- In addition to risk ownership, the ERT also sets out validation ownership. Risks are assessed for their materiality (low, medium, high) by considering their likelihood and potential impact across various dimensions. Typically, risks with high materiality are assigned a validation function by the Executive Team and/or the Board which is assigned a pre-defined set of duties and responsibilities (see section 3.9.2).

Partners Group reinforces individual ownership and accountability through the Three Lines of Defense model to support effective risk management. The model defines a clear segregation of duties (and related roles and responsibilities as further defined in this Directive) between risk ownership ('line 1'), risk oversight and validation ('line 1b' and 'line 2'), and independent assurance ('line 3'). The model further requests the different 'lines' to collaborate and communicate effectively on an ongoing basis.

3.9.2. Roles and responsibilities

Risk Category Owners are typically Executive Team members or Focus Group members. Responsibilities include:

- Ensuring that Partners Group operates within the set Risk Claim for the assigned Risk Category;
- Determining the Risk Areas and setting Risk Claims;
- Assigning Risk Area Owners; and
- Assessing reports provided by these Risk Area Owners and implementing corrective measures where required.

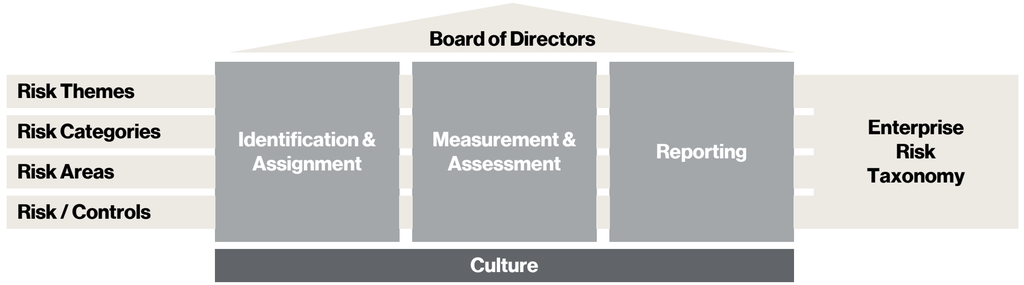

Risk Category Owners periodically report on the effectiveness of risk management and controls to the Executive Team and the Board as part of the annual risk report by the CRO. Furthermore, Risk Category Owners provide ad hoc reporting in case of material breaches of Risk Claims and irregularities in line with the Quality Assurance Directive.

Risk Area Owners are typically Business Unit Heads or Cell Leaders. Responsibilities include:

- Ensuring that Partners Group operates within the set Risk Claim for the assigned Risk Area;
- Identifying risks and determining risk descriptions and Key Risk Indicators;
- Designing, documenting, implementing, and assigning processes and controls to mitigate these risks following Operational Excellence principles;
- Taking corrective measures in case Risk Claims are (at risk of) being breached; and
- Staying abreast of internal and external changes and other factors based on horizon scanning.

Risk Area Owners periodically report on the effectiveness of risk management and controls to the Risk Category Owner as defined between Risk Area Owner and Risk Category Owner. Furthermore, Risk Area Owners provide ad hoc reporting in case of material breaches of Risk Claims and irregularities to the Risk Category Owner for further discussion on the course of action.

Risk/Control Owners are typically part of the operating/ business teams and are responsible for the day-to-day management of risks and corresponding controls.

Responsibilities include, as further outlined in the Operational Internal Control System Directive:

- Operating defined processes and controls following Operational Excellence principles to ensure identified risks are effectively managed;
- Making suggestions on how to increase effectiveness of controls;
- Alerting Risk Area Owner of issues, (risk of) breaches, and other irregularities; and
- Reporting on effectiveness of risk management and controls to Risk Area Owners.

Validation Owners are typically employees in Risk Management, Compliance, Corporate Legal, and other specialized functions. In select cases Validation Owners are part of operating business teams with a different reporting line ('line 1b'). They ensure the effectiveness of risk management and controls as operated by Risk Owners. Their responsibilities include:

- Testing the effectiveness of processes and controls (design and operational effectiveness testing), following a risk-based approach using measures such as spot checks or periodic reviews;
- Assessing quality of corrective measures taken in case of breach of Risk Claims; and
- Reviewing if identified gaps and/or areas for improvement are implemented.

Validation Owners typically validate reporting issued by Risk Owners. In addition, Validation Owners issue ad hoc alerts where they become aware of material breaches of Risk Claims and irregularities where these are not reported and addressed by the respective Risk Owner.

3.9.3. Identification and designation

The identification of risks and the assessment of their impact is an ongoing process to ensure all material risks are known, well understood, clearly assigned, and pro-actively managed based on defined standards. The identification of risks is assigned to the respective Risk Category Owner and Risk Area Owner, respectively, as further discussed above.

Upon the identification of a risk, the respective Risk Category Owner assigns ownership and approves the related Risk Claim.

3.9.4. Risk measurement and management

Risk measurement and management is the ongoing process involving both the respective Risk Owner and Validation Owner, where available, to ensure risks are monitored against defined Key Risk Indicators and managed in accordance with defined Risk Claims.

Where necessary, corrective measures (and escalation) are pro-actively taken in a timely manner under the lead of the respective Risk Owner.

3.9.5. Stress testing

To help assess business resilience, financial, or other consequential impact and the adequacy of the risk management practice, stress testing is periodically conducted. Key tools include:

- **Scenario analysis:** In certain risk areas, scenario analyses are used to assess if defined Risk Claims withstand external shocks, such as global economic downturns, or power outages and cyber attacks.
- **Fire drills:** Test of the effectiveness of decision-making, operations, and controls across various Risk Areas in the context of a specific mock threat.

The COO is responsible for coordinating fire drills. The Executive Team reviews the result and mandates corrective measures as and where appropriate. The RAC is informed on the conclusions of stress testing activities and corrective measures taken.

3.9.6. Risk reporting

Risk reporting enables the Risk Owners, the Executive Team, the RAC, and the Board to make informed decisions, as appropriate, by providing insightful analysis on the effectiveness of risk management and related controls based on accurate and timely data.

Risk data aggregation and reporting are defined, mandated, and overseen by the CRO with the support of the respective Risk Owners. In areas where validation functions have been defined, these are expected to review the accuracy of the respective reporting, as appropriate.

4. Executive Team

The table below shows the composition of the Executive Team and the roles of the Executive Team members as of 31 December 2025 (unless indicated differently):

Name	Title/Position	Pillar (Co)-Leadership	Joined Partners Group in	Nationality	Gender	Birth year
David Layton	Chief Executive Officer		2005	American	Male	1981
Sarah Brewer	Head Client Solutions	Clients	2008	British	Female	1983
Roberto Cagnati	Chief Risk Officer, Head Portfolio Solutions	Clients	2004	Swiss/Italian	Male	1978
Joris Gröflin	Chief Financial Officer	Corporate	2024	Swiss/Dutch	Male	1977
Juri Jenkner	President	Investments	2004	German	Male	1975
Andreas Knecht	Group General Counsel, Head Compliance, Legal & Tax	Corporate	2009	Swiss	Male	1969
Michael Marquardt	Chief Operating Officer, Head Business Services	Operations	2024	American	Male	1970
Esther Peiner	Head Private Infrastructure		2015	German	Female	1980
Wolf-Henning Scheider	Head Private Equity	Investments	2023	German	Male	1962

4.1. Members of the Executive Team

As also outlined in section 3.6 (Definition of areas of responsibility) above, the Board of Directors has delegated the operational management of the company to the extent as permissible by law and the articles of association (available at www.partnersgroup.com/articlesofassociation) to the Executive Team. The Executive Team manages day-to-day investment and client activities as well as the firm-wide and cross-departmental aspects, such as human resources, compliance with legal and regulatory requirements, and salary steering.

Professional background and education of each member of the Executive Team, including other activities and functions[17]

David Layton

Chief Executive Officer

David Layton is the Chief Executive Officer of Partners Group, based in the firm's Americas headquarters in Denver, Colorado. He leads the Executive Team, the Global Executive Board, and is a member of the Global Investment Committee. David principally divides his time between Partners Group's Americas headquarters in Colorado, USA, and Partners Group's global headquarters in Zug, Switzerland. He was previously the Head of Partners Group's Private Equity business department and has represented the firm on the Board of Directors of several of the firm's portfolio companies, including Nobel Learning Communities, MicroPoise Measurement Systems, Cabot Credit Management, and Pacific Bells. David has been with Partners Group since 2005 and holds a Bachelor's degree in Finance from Brigham Young University's Marriott School of Management, USA.

Sarah Brewer

Head Client Solutions

Sarah Brewer is Head of the Client Solutions business department, based in London. She co-leads Partners Group's Clients Pillar and is a member of the Executive Team and the Global Executive Board. She has been with Partners Group since 2008. Prior to joining Partners Group, she worked at Bloomberg LP. She holds a Bachelor's degree in Philosophy, Politics, and Economics from the University of Oxford, UK.

Roberto Cagnati

Chief Risk Officer, Head Portfolio Solutions

Roberto Cagnati is Partners Group's Chief Risk Officer and Head of the Portfolio Solutions business department, based in Zug. He co-leads the firm's Clients Pillar and is a member of the Executive Team, the Global Executive Board as well as the Global Portfolio Committee. He has been with Partners Group since 2004. Prior to joining Partners Group, he worked at Deutsche Bank Asset Management and Credit Suisse Private Banking in the alternative investment space. He holds a Master's degree in Economics with a specialization in Statistics and Financial Markets from the University of Konstanz, Germany.

[17] All titles are reflective of the Executive Team members' roles and titles as of 31 December 2025.

Joris Gröflin

Chief Financial Officer

Joris Gröflin is Partners Group's Chief Financial Officer, based in Zug. He co-leads the firm's Corporate Pillar and is a member of the Executive Team and the Global Executive Board. He has been with Partners Group since 2024 and has over 20 years of industry experience. Prior to joining Partners Group, he was Chief Financial Officer and Member of the Executive Board at Axpo Holding AG (2019-2023). He also worked in various roles at Rieter Holding AG (2006-2011), including as Chief Financial Officer and Member of the Group Executive Committee (2011-2019), and held positions at Kearney (2001-2006). He holds a licentiate and a CEMS Master's degree in Business Administration from the University of St. Gallen (2001).

Juri Jenkner

President

Juri Jenkner is the President of Partners Group, based in Zug. He co-leads Partners Group's Investments Pillar and is a member of the Executive Team and the Global Executive Board. He is also a member of the Global Investment Committee. Prior to becoming President in 2024, he served as the Head of the Private Infrastructure Business Department and previously as Co-Head of the Private Debt Business Department. He has been with Partners Group since 2004. Prior to joining Partners Group, he worked at Privatbankiers Merck Finck & Co. He holds a Master's degree in Finance from the Lorange Institute of Business, Switzerland. He is also a Certified European financial analyst.

- **Other mandates:** Swiss-American Chamber of Commerce (Member of Board)

Andreas Knecht

General Counsel, Head Compliance, Legal & Tax

Andreas Knecht is the General Counsel of Partners Group, based in Zug. Previously, he also served as Partners Group's Chief Operating Officer. He co-leads the firm's Corporate Pillar, is Head of the Compliance, Legal & Tax business department, and is a member of the Executive Team and the Global Executive Board. He has been with Partners Group since 2009. Prior to joining Partners Group, he worked as an attorney at a number of different law firms, including Niederer Kraft & Frey, advising corporate clients in M&A and financing matters, and as co-lead at Man Group's Continental Europe legal team. He holds a Master's degree in Law from the University of Zurich, Switzerland and an LLM from New York University, USA. He is admitted to the Swiss bar.

Michael Marquardt

Chief Operating Officer, Head Business Services

Michael Marquardt is the Chief Operating Officer and Head of the Business Services business department, based in Singapore. He leads the firm's Operations Pillar and is a member of the Executive Team and the Global Executive Board. He has over 30 years of industry experience with large financial services companies including IQ-EQ, from 2021 to 2024 where he was the Asia Regional CEO, and BlackRock (2000-2017) where his final role was the Asia-Pacific Chief Operating Officer (inclusive of his time at Barclays Global Investors which was acquired by BlackRock in 2009). He holds an MBA from Boston University, Massachusetts, USA, and a Bachelor's degree in economics from Clark University, Massachusetts, USA.

Esther Peiner

Head Private Infrastructure

Esther Peiner is the Head of the Private Infrastructure business department, based in Zug. She is a member of the Executive Team and Global Executive Board as well as a member of the Private Infrastructure Investment Committee. Esther is also a sponsor of the Women's Network. Furthermore, she is a member of the Board of Directors of the firm's portfolio companies EOLO, atNorth, Lifelink, and CapeOmega. In addition, she was responsible for the execution of the control investments in German renewable developer VSB (2020), UK/Irish interconnector developer Greenlink (2019), Norwegian Gas Transportation Company CapeOmega (2019), and German offshore wind farm developer Merkur (2016). She has over 20 years of industry experience. Prior to joining Partners Group, she gained experience in investment banking with Macquarie Capital (2003-2012) and Macquarie Infrastructure and Real Assets (2012-2014). She holds a Master's degree in finance and marketing from Maastricht University, Netherlands.

Wolf-Henning Scheider

Head Private Equity

Wolf-Henning Scheider is Head of the Private Equity business department, based in Zug. He is the Head of the Private Equity Technology business unit and is a member of the Executive Team as well as the Global Executive Board. Prior to joining Partners Group, he worked at ZF Group from 2018 to 2023, a global technology company, as the Chairman of the Board of Management and CEO, and was also responsible for Research & Development and Sales. He also worked at MAHLE Group from 2015 to 2018 where he served as Chairman of the Management Board and CEO, as well as at Robert Bosch GmbH, where he held various roles, such as the CEO of the Car Multimedia Division and the Gasoline Systems Divisions. Afterwards, he was appointed as Member of the Board of Management and later on took over the overall responsibility for the activities of the Automotive Group. He holds degrees in Business Administration from Saarland University, Germany and RWTH Aachen University, Germany.

- **External mandates (audited):** Michelin Group (Supervisory Board Member)

Organizational changes to senior management

Partners Group reviews its organizational structure on an ongoing basis and implements adjustments whenever necessary to support and enable the continued successful growth of its investment platform for the benefit of the firm's clients and shareholders, while ensuring continuity and stability in its core leadership team.

As of 1 January 2025, Michael Marquardt became Chief Operating Officer of Partners Group Holding AG, taking over from Andreas Knecht. Andreas Knecht retained his role as Group General Counsel, and both will remain on the Executive Team. Furthermore, Sarah Brewer became the sole head of the Client Solutions business department.

With the press release of 4 December 2025, Partners Group announced several changes within its Executive Team, taking effect from 1 January 2026. Ana Campos, Head of Human Resources, and Dr. Anette Waygood, Co-Head of the Compliance & Legal business department and Deputy General Counsel, join the Executive Team. Sarah Brewer and Andreas Knecht step down but remain in senior leadership positions within the firm. Juri Jenkner will assume responsibility for the Client Solutions business department, which will be known as Business Development going forward.

4.2. Other activities and vested interests

Other activities outside of Partners Group, if any, of members of the Executive Team are listed in section 4.1 (Members of the Executive Team) for each respective member. None of the members of the Executive Team hold permanent management or consultancy functions for important Swiss or foreign interest groups, and none of the members have official functions or hold political posts. None of the members of the Executive Team have carried out tasks for Partners Group prior to joining the firm.

4.3. Number of mandates pursuant to the Swiss Code of Obligations

In accordance with Art. 626 para. 2 item 1 of the Swiss Code of Obligations and Art. 29 of the articles of association (available at www.partnersgroup.com/articlesofassociation), each member of the Executive Team may assume a maximum of five additional mandates in companies that pursue an economic purpose, which includes a maximum of three additional mandates in listed companies. For the definition of the term 'mandates' and for mandates exempt from this limitation, see section 3.3 (Number of permitted activities) above.

4.4. Management contracts

Partners Group has not entered into any management contracts with third parties for the exercise of executive management functions.

4.5. Global Executive Board

The Executive Team is supported by a global leadership team comprising Senior Member of Management, Member of Management as well as senior managerial employees of different departments/units and regions across the firm's offices globally.

Internally referred to as Global Executive Board, the team works closely with the firm's Executive Team on a consulting basis without decision authority. Executive Team members are also members of the extended Global Executive Board.

5. Compensation, shareholdings, and loans

5.1. Principles, content, and method of determining the compensation

Pursuant to Art. 734 and 734b of the Swiss Code of Obligations, all compensation paid in 2025 to the members of the Board of Directors and the Executive Team, and the outstanding loans, if any, granted to the members of the Board of Directors and the Executive Team, are disclosed in the Compensation Report. In the Compensation Report, the firm outlines its compensation principles, components, and method. The Compensation Report can be found in the Annual Report 2025 or on the firm's website available at: www.partnersgroup.com/financialreports.

The shareholders individually approve, each year at the Annual General Meeting, the motions of the Board of Directors with regard to: (i) the maximum total short-term compensation for the Board of Directors for the period until the next ordinary annual shareholders' meeting; (ii) the maximum total long-term compensation for the Board of Directors for the preceding term of office; (iii) the maximum total Technical Non-Financial Income for the Board of Directors for the preceding term of office; (iv) the maximum total short-term compensation for the Executive Team for the following fiscal year; (v) the maximum total long-term compensation for the Executive Team for the preceding fiscal year, and (vi) the maximum total Technical Non-Financial Income for the Executive Team for the preceding fiscal year.

For further details on the compensation approval, general compensation principles, and the form of compensation please refer to Articles 35-37 of the articles of association (available at www.partnersgroup.com/

articlesofassociation), as well as the Compensation Report.

5.2. Loans

Members of the Board of Directors and Executive Team may apply for loans and fixed advances, subject to an internal review and approval process. Such loans are made on substantially the same terms as those granted to other employees, including interest rates and collateral.

Pursuant to Art. 735c of the Swiss Code of Obligations, the principal amount of loans and credits for members of the Board of Directors and the executive management must be fixed in the articles of association in order to allow the company to grant such loans and credits to members of the Board of Directors and the Executive Team. Art. 27 and Art. 31 of Partners Group's articles of association (available at www.partnersgroup.com/articlesofassociation) state that the members of the Board of Directors and Executive Team may be granted loans, credits, and provided collateral up to certain limits at arm's length conditions.

There were no loans outstanding as of 31 December 2025 for the Board of Directors and the Executive Team (refer to sections 2.7 and 3.5 in the Compensation Report).

6. Shareholders' participation

6.1. Voting rights and representation measures

With the exception of the treasury shares held by the company, each share entitles the shareholder to one vote. The shareholders who are entitled to attend shareholders' meetings and to exercise voting rights are those recorded with voting rights in the share register as of a qualifying date prior to the shareholders' meeting set by the Board of Directors.

Registration in the share register with the attached voting rights is restricted by the limits on transferability and nominee registration as set forth in section 2.6 (Limitation on transferability, and nominee registration). All registered shareholders are invited to attend shareholders' meetings. If they do not wish to attend, shareholders may be represented at the shareholders' meeting either (i) by a legal representative who needs not be a shareholder or (ii) by an independent proxy. The Board of Directors issues further rules in relation to attendance and representation at shareholders' meetings, including the electronic issuance of proxies and instructions to the independent proxy.

6.2. Quorums

The following resolutions of the shareholders' meeting require at least two-thirds of the represented votes and the absolute majority of the represented nominal share value (see Art. 18 of the articles of association, available at www.partnersgroup.com/articlesofassociation):

- the cases listed in Art. 704 para. 1 of the Swiss Code of Obligations, and
- the reversal or amendment of the transfer restrictions (see section 2.6 for details in relation to such restrictions).

In addition, the law provides for a qualified majority for other resolutions, such as a merger or demerger.

6.3. Convocation of the general meeting of shareholders

The Annual General Meeting takes place within six months of the close of the financial year. Shareholders receive an invitation to each general meeting of shareholders (Annual General Meeting and extraordinary general meeting, if any) including detailed descriptions of the items to be discussed and the motions of the Board of Directors no later than 20 days before the date of the respective general meeting. In 2026, the annual general meeting of shareholders is scheduled for 20 May.

For further details on the process for the convocation of general meetings (which does defer from the statutory rules) please refer to Art. 13 and 14 of the articles of association available at www.partnersgroup.com/articlesofassociation).

The shareholders' meeting is called by the Board of Directors or, where required, by the auditors, the liquidators, or the representative bondholders. Shareholders representing at least 5% of the share capital or the votes may at any time request that a shareholders' meeting be called. The request must be submitted in writing at least 45 days ahead of the meeting by stating the items on the agenda and the motions to be introduced by the shareholders.

6.4. Inclusion of items on the agenda

Shareholders representing at least 0.5% of the share capital or the votes may request that an item or the inclusion of motions relating to items be placed on the agenda at a shareholders' meeting, provided such request is received by the Board of Directors in writing no later than 45 days prior to the meeting by stating the items on the agenda and the motions to be introduced by the shareholders. Shareholders may submit a brief statement of reasons together with the request for the inclusion of an item on the

agenda or the motion. These must be included in the notice of the shareholders' meeting.

6.5. Entries in the share register

The general rules for registration as a shareholder apply as described in sections 2.4 (Shares and participation certificates) and 2.6 (Limitation on transferability, and nominee registration). The qualifying date for the registration of shares is defined by the Board of Directors for every shareholders' meeting.

7. Changes of control and defense measures

7.1. Opting out

Partners Group has elected to opt out of the rule that an investor acquiring 33 1/3 % of all voting rights has to submit a public offer for all outstanding shares (so called opting out).

7.2. Clauses on change of control

The contracts with the members of the Board of Directors and the Executive Team do not contain any change of control clauses.

In particular, no protection measures, such as

- severance payments in the event of a takeover ('golden parachutes');
- special provisions on the cancellation of contractual arrangements;
- agreements concerning special notice periods or longer-term contracts where they exceed 12 months (in line with the Swiss Code of Obligations);
- the waiver of lock-up periods (e.g. no options that can be exercised with immediate effect);
- shorter vesting periods/accelerated vesting; and/or
- additional contributions to pension funds

exist that protect the above-mentioned persons by certain contractual conditions against the consequences of takeovers.

8. Auditors

8.1. Duration of mandate and term of office

The consolidated financial statements and the statutory accounts of Partners Group Holding AG are audited by PricewaterhouseCoopers AG, Zurich, Switzerland ('PwC'). The statutory and group auditors are elected for a one-year period at the annual general meeting of shareholders and were elected at the Annual General Meeting 2025. The decision to propose PwC as the new responsible auditor starting with the 2025 fiscal year followed a competitive, transparent, and fair tender process to select a new auditor which was initiated in 2022 and run by the Risk & Audit Committee. With the change in auditor, also the former lead auditor, Philipp Rickert, has been replaced by Jean-Sébastien Lassonde, who is the new lead auditor since the Annual General Meeting 2025. The lead auditor is subject to a seven-year rotation interval. Up to the Annual General Meeting 2025 on May 21 , KPMG AG conducted the audit with Philipp Rickert as lead auditor.

8.2. Auditing fees

In the financial year 2025, total fees attributable to audit services for the consolidated financial statements and additional services classified as audit (services required by law or statute) rendered by PwC AG and other PwC companies amounted to CHF 2.2 million (2024: KPMG and other KPMG companies received CHF 2.2 million).

8.3. Additional fees

In the financial year 2025, total fees attributable to audit-related and assurance services (tax, regulatory and others) rendered by PwC AG and other PwC companies to Partners Group and its subsidiaries amounted to CHF 0.6 million (2024: KPMG and other KPMG companies received CHF 0.2 million).

8.4. Oversight of the external auditors

The Board of Directors is responsible for the acceptance and processing of the reports from the statutory and group auditors. In doing so, the Board of Directors is supported by the Risk & Audit Committee, which periodically interacts with and monitors the qualification, independence, and performance of the external auditors.

Based on the constant dialogue with PwC and its annual presentation to the Board of Directors evaluating all audit findings, the Risk & Audit Committee conducts its assessment. This assessment further includes oral and written statements made by PwC throughout the year concerning individual aspects or factual issues in connection with accounting matters and the audit. During the 2025 financial year, the external auditors (PwC) participated in all five meetings of the Risk & Audit Committee in order to discuss audit processes as well as regulatory guidelines and monitoring. Further, the former external auditors (KPMG) that held the auditor mandate until the Annual General Meeting 2025 also participated in two meetings of the Risk & Audit Committee. Among others, the external auditors were also involved in evaluating findings on risk factors and processes.

Key factors in assigning the external audit mandate to PwC were:

- Detailed audit budget proposal containing expected hours and the relevant hourly rate;
- Comprehensive debriefing after completion of audit, during which suggestions for improvement are discussed from both sides;
- Quality of service provided;
- International expertise in regard to audit and accounting;
- Independence and reputation of the audit firm;
- Industry knowledge and qualifications;
- Competitive fees.

The Risk & Audit Committee reviews and assesses the auditor's performance on an annual basis. The Risk & Audit Committee also verifies that any additional services of the auditors not relating to the audit services are provided within the independence requirements pursuant to Swiss law. The reports and presentations made by external auditors, the discussions in the meetings, and the expertise form the basis for the assessment of the external auditors' performance and the fees paid for the audit services provided. In this context and in the spirit of upholding good corporate governance, Partners Group periodically conducts appraisals of the audit mandate, in which budget issues, in particular, are reviewed to ensure audit fees are kept at a competitive level in the best interests of shareholders.

Please also refer to section 3.5 (Internal organizational structure) concerning the Risk & Audit Committee.

9. Information policy

As a company with its shares listed on the SIX Swiss Exchange AG, Partners Group is committed to pursuing an open, transparent, and consistent communication strategy vis-à-vis its shareholders as well as the financial community.

Partners Group's Interim and Annual Reports are available for download on the website at www.partnersgroup.com/financialreports.

Key dates for 2026 are as follows:

Event	Date
Announcement of AuM as of 31 December 2025	January 14, 2026
Publication of Financial Results & Report as of 31 December 2025 and Earnings Call	March 10, 2026
Annual General Meeting of shareholders	May 20, 2026
Ex-dividend date	May 22, 2026
Dividend record date	May 25, 2026
Dividend payment date	May 26, 2026
Announcement of AuM as of 30 June 2026	July 15, 2026
Publication of Interim Financial Results & Report as of 30 June 2026 and Earnings Call	September 1, 2026

The company's publication gazette is the Swiss Official Gazette of Commerce (*Schweizerisches Handelsamtblatt*). The Board of Directors may designate additional publications. Convocation of shareholders' meetings and notifications to shareholders may additionally or instead thereof be made in writing by letter or by email to the addresses recorded in the share register.

Partners Group also distributes all current news via regular press releases and price-sensitive information via ad hoc announcements. All published press releases and ad hoc announcements are available on the website at www.partnersgroup.com/pressreleases.

To receive all information automatically upon publication via email, shareholders and other interested parties may subscribe to press releases and ad hoc announcements at www.partnersgroup.com/subscribe.

Partners Group's Compensation Report outlining the 2025 compensation for the Board of Directors and Executive Team can be found on the Partners Group website at www.partnersgroup.com/financialreports or in the 2025 Annual Report.

10. Quiet periods

In line with Partners Group's Personal Account Dealing Directive (issued by the Executive Team), Partners Group imposes upon its employees market conduct rules related to personal securities transactions: e.g. disclosure and trading restriction requirements. These rules are designed to protect Partners Group and its employees.

Partners Group employees may transact in 'PGH Securities' defined as: Partners Group Holding AG listed shares ('PGHN') and derivatives which are valued based on the price of PGHN and listed debt instruments issued by Partners Group Holding AG or any of its subsidiaries.

Partners Group employees are permitted to transact during two order windows per calendar year (each an 'Order Window') following the public announcement of Partners Group Holding AG financial results.

In addition, independent Board members of Partners Group Holding AG are only allowed to transact in PGH Securities during the same two Order Windows.

Order Windows take place after annual financial results and interim financial results are communicated on the following dates for 2026:

Public announcement	Order Window
Annual financial results	11 March - 25 May
Interim financial results	2 September - 18 November

While all orders must be placed within an Order Window, the term of an order can run beyond, i.e. execution of the order can take place after the end of the Order Window. After an Order Window closes, no adjustments to orders are permitted, including terminating the order.

During the reporting year 2025, all decisions made by Partners Group employees in regard to PGH Securities were made within the prescribed Order Windows or in line with the exception process per the Personal Account Dealing Directive.

The Chairman or the Vice Chairman[18] of the Board together with the General Counsel or his deputy have the authority to amend or terminate an Order Window.

If Partners Group's employees are in the possession of price-sensitive, non-public information in respect to PGH Securities due to the work they perform, they will be added to an insider list, prohibiting them from trading in PGH Securities.

11. Non-applicability/ negative disclosure

It is expressly noted that any information not contained or mentioned herein is non-applicable or its omission is to be construed as a negative declaration (as provided for in the SIX Exchange Regulation Corporate Governance Directive and the Commentary thereto).

Disclaimer

This report may not be reproduced, retransmitted or further distributed to the press or any other person or published, in whole or in part, for any purpose. Failure to comply with this restriction may constitute a violation of applicable securities laws. This report does not constitute or form part of and should not be construed as, an offer to sell or issue or the solicitation of an offer to buy or acquire securities of Partners Group Holding AG (the "Company") in any jurisdiction or an inducement to enter into investment activity. No part of this report, nor the fact of its distribution, should form the basis of, or be relied on in connection with, any contract or commitment or investment decision whatsoever. This report does not constitute a prospectus or a similar communication within the meaning of articles 35 et seqq. and 69 of the Swiss Federal Act on Financial Services ("FinSA") or a listing prospectus within the meaning of the listing rules of the SIX Swiss Exchange.

Figures provided have been rounded for report purposes and in certain instances rounding anomalies may arise. The figures represented in this report are as of 31 December 2024 (unless otherwise indicated). The Company is not under any obligation to update or keep current the information contained herein. Accordingly, no report or warranty or undertaking, express or implied, is given by or on behalf of the Company or any of their respective members, directors, officers, agents or employees or any other person as to, and no reliance should be placed on, the accuracy, completeness or fairness of the information or opinions contained herein. Nothing herein shall be relied upon as a promise or report as to past or future performance. Neither the Company nor any of their respective members, directors, officers or employees nor any other person accepts any liability whatsoever for any loss howsoever arising from any use of this report or its contents or otherwise arising in connection with the report.

This report includes forward-looking statements, beliefs or opinions, including statements with respect to plans, objectives, goals, strategies, estimated market sizes and opportunities which are based on current beliefs, expectations and projections about future events. The words "believe," "expect," "anticipate," "intends," "estimate," "forecast," "project," "will," "may," "should" and similar expressions identify forward-looking statements. The forward-looking statements in this report are based upon various assumptions, many of which are based, in turn, upon further assumptions, including, without limitation, management's examination of data available from third parties. Although the Company believes that these assumptions were reasonable when made, these assumptions are inherently subject to significant uncertainties and contingencies which are difficult or impossible to predict and are beyond its control, and the Company may not achieve or accomplish these expectations, beliefs or projections. Neither the Company nor any of its members, directors, officers, agents, employees or advisers intend or have any duty or obligation to supplement, amend, update or revise any of the forward-looking statements contained in this report. The information and opinions contained herein are provided as at the date of the report and are subject to change without notice.
